SATURDAY, MAY 14, 1864.

THE REBELLION.

An official dispatch from Gen. Steele reports his command as having arrived at Little Rock, Ark. He had fought a superior force of the enemy, command by Kirby Smith in person, at Sabine river and defeated them.

A dispatch boat at Cairo reports that on the 5th the rebels, with a battery 12 miles below Alexandria, composed of guns captured from Gen. Banks, destroyed three of our transports, and the gunboat Signal. The gunboat Covington was set on fire to prevent her falling into the hands of the rebels. Gen. Banks remained at Alexandria. It is said that the rebels did not carry out their system of slaughtering negro troops at the battle of Sabine Ren, but dressed the wounds of many and sent a flag of truce to Gen. Steele for an exchange of prisoners. A rebel force is said to be in the vicinity of Pine Bluff, Arkansas. Gen. Steele is fortifying Little Rock. The rebel cavalry had gone in the direction of Fort Smith.

THE VIRGINIA CAMPAIGN.

Beauregard is reported to be in Petersburg, with 25,000 men, and Gen. Butler has cut all the railroads leading to that city. Four Monitors and several gunboats are within four miles of Fort Darling, ready to co-operate with the land forces.

A dispatch from Gen. Butler, May 12, states that he was pushing the enemy near Fort Darling, and has before him all the rebel troops from North and South Carolina that had got up. Gen. Kautz had been sent with his cavalry to cut the railroad near Appomattox Station.

Sec. Stanton reports that a dispatch from Gen. Sheridan, dated Headquarters of the Cavalry Corps, May 10, states that he turned the enemy's right and got into the rear, and destroyed from eight to ten miles of railroad, two locomotives and three trains and a very large quantity of supplies, and that he had recaptured five hundred of our men, two of them Colonels, who had been taken by Lee.

There was no general engagement on Wednesday, and no attack by any considerable portion of the forces on either side. There was some skirmishing and some artillery firing during the day; and at nightfall our army remained in the position occupied on Tuesday night, Burnside retaining all the ground he had wrested from the enemy.

On Wednesday morning at half-past four o'clock Gen. Hancock attacked the enemy confronting him. The charges were vigorously resisted, but our troops rushed in on the rifle pits of the enemy, bayonetting them in their works, cutting their lines, and capturing on the first charges several guns and over 3000 men, including the greater portion of the Stonewall Brigade, with the rebel Gen. Edw. Johnson, in whose division that brigade was. At 8 A. M. Gen. Hancock reports: "I have captured from 30 to 40 guns. I have finished up Johnson, and am now going into Early." Johnson's division formed part of Ewell's corps. Brig. Gen. Stuart, who commanded a brigade in the same division, was also captured.

The 6th corps, on the left of the 2d, during the forenoon also moved into battle, while Gen. Warren's moved up to its support on the right. The battle became general, and nearly all the artillery was engaged. The clangor of guns, the whistle of grape and solid shot, the roar of musketry, and the explosion of the enemy's shell, filled miles of forest with awful tumult. Gen. Wright was slightly wounded, but remained in command of the 6th corps. Every inch of ground was hotly contested, but we steadily gained ground on the enemy. A drenching rain set in about 9 A. M., but it seemed to have no effect in abating the fighting. The roads were knee-deep with mud, and very unfavorable for military operations. The battle was about 5 miles from Spottsylvania.

Sec. Stanton confirms the above, stating that Gen. Hancock pierced the first and the second line of their works, capturing the whole of Johnson's division and part of Early's, with Maj. Gen. Edward Johnson, Brig. Gens. Robert Johnson, and Geo. Stuart, and from 30 to 40 cannon: the number of prisoners is not given, but they are to be counted by thousands.

And to make assurance doubly sure, we have a dispatch from Gen. Grant himself, stating that Gens. Burnside's and Hancock's grand and impetuous charges by corps with the bayonet produced the wildest consternation in Lee's ranks, crushed his right and centre, and hurled his entire line back with awful slaughter a distance of several miles. General Grant remained master of the field, with all the rebel dead and wounded. The rout of the enemy was complete. Johnson's division, which was captured, numbered 4000 men. The victory was glorious. All honor to the Army of the Potomac—officers and men.

CHIPS—HEWN AND GATHERED.

— The caterpillars have made their appearance on the trees in Salem, Mass.

— The annual inspection of the militia of Maine took place on Wednesday last.

— Fresh mackerel made their first appearance in the Portland market on Wednesday.

— It was Gen. A. P. Hill's corps that Gen. Burnside repulsed so gallantly on Sunday,—not Longstreet's.

— Hon. Charles Hale, of the Boston Advertiser, has been appointed to the Consul-Generalship at Egypt.

— A man was killed by lightning in the streets in Brooklyn, N. Y., during the thunder shower of Tuesday evening.

— Gen. Sheridan is reported to have cut both the railroads leading to Richmond, at Saxton's Junction, 20 miles from Richmond.

— The prospects of the hay crop are said to be good, as the winter killing of the grass roots does not appear to have been extensive.

— The Portlanders are to have the German Opera two nights next week, whereat they are jubilant. Faust is to be given by a full company.

— The Chattanooga Rebel (printed at Atlanta, Ga.,) says there is a startling rumor there that Hon. H. S. Foote has "gone over to the Yankees."

— The Union prisoners held in the rebel Gen. Pike's department,—Alabama, Mississippi and East Tennessee,—are to be sent to Cahawba, Ala.

— Brig. Gen. J. Hobart of New York has been placed under arrest for cowardice, he having left the battle field on a caisson during the engagement of Friday.

— A large portion of Lee's supplies doubtless came over the Virginia Central Railroad, from the fertile country about Gordonsville.

— The Richmond Whig, of May 4, says the rebels then held 12,268 Union prisoners, distributed as follows: at Danville, 1,019; in Georgia, 9,306; at the Libby prison, Richmond 1,942.

— Representative Washburn, who left Grant's Headquarters on Wednesday, has made a statement that the result of the fight on Tuesday was decidedly in our favor, and the morale was all with us.

— A rebel woman expresses the wish that Jeff. Davis and other rebel officials would resign their offices to their wives, arguing that the latter would clean out the Yanks easily.

— It is said that 22,000 Union troops, infantry, mounted infantry, and cavalry with artillery, under Gen. Cook, left Charlestown, West Virginia, Apr. 29, to co-operate in the movement towards Richmond. The destination is said to be Lewisburg.

— Two commissioned officers who arrived at Washington among the wounded, and were sent to the hospital, were examined and found to be unhurt. They were immediately sent back to the army in irons to be tried by a drum-head court martial.

— Lawrence Doyle, who so brutally outraged and murdered Luna Villie Libby, 12 years of age, in Strong, Me., has been convicted, and sentenced to be kept in solitary confinement at hard labor in the State Prison, for one year, and then to be hanged by the neck until he is dead.

— On Gen. Grant's table "neither distilled liquor nor wine is permitted. The General will not have it about him for his own or others' use. The General never swears. No man in his camp ever heard him give utterance to profanity in any of its many forms."

— Gen Burnside's colored troops, which have been held in reserve, have been brought into action and fought with desperation. Their officers expected to have considerable difficulty in restraining them, as they appeared to be determined not to take any prisoners.

— The President, on Thursday, nominated to the Senate Col. Richard Delafield, to fill the place of Chief Engineer with the rank of Brig. General, vice Gen. Totten, deceased. Gen. Barnard was offered the position, but declined it, and requested the appointment of Col. Delafield.

— The Senate in executive session on Thursday confirmed the following nominations: to be Major Generals—Brig. Gen. Horatio G. Wright, Andrew J. Smith, Andrew A. Humphreys and John M. Scofield; to be Brigadier Generals—First Lieut. James H. Wilson of the Corps of Engineers; Col. J. F. Hastrauft, 51st Penn. Vols., and Jas. B. Fry, Provost Marshal General.

— A German cavalry soldier in the Army of the Potomac has carried his guitar with him through the war. He has been in fifteen battles, and always had it slung behind him on his horse. When riding slowly, he says, he "can play as well as not, and it helps the soldiers to feel well to get a little music now and then." He was wounded the other day, and had his leg amputated, but a week afterwards he was seen lying on his back in the Hospital and singing as sweetly and cheerfully as ever.

EDITORIAL JOTTINGS.

To Wakefield, for three or four days, the burly Col. B. took us; and to his farm among the hills. It was on that warm, lovely, June-like Friday, a week since; and as we sped over the Great Falls & Conway road, (which is greatly improved in the running arrangements, under charge of the Eastern,) reading the commencement of the terrific fighting in Virginia, we could but feel, at first, almost ashamed that we were not there. And afterwards, as we threw down the paper, sick of all the toil and agony, woe and death of war, past and present, and prospective for the future, and gazed out at the passing scene—what did we see? Why, amid all the charms of nature, beneath the clear blue sky and the bright sun, and far above the freshly-springing green grass and the bright rippling waters, were a couple of crows, chasing and fighting (making war on) a fugitive hawk. Alas for the universal prevalence of the war spirit all through nature. From man down, through all animal creation—whether it walks the earth, or flies the air, or swims the waters—it has been, and is, (will it always be?) nothing but wrangle, wrangle, fight, fight! Who shall say how much of it, as regards man, is to be condemned or deprecated?

Passing South Berwick, Great Falls and Rochester, we leave the cars, or they leave us, at Union Village—a brisk little place, and, we trust, not tinctured strongly with disunion sentiments. Then, after a good country dinner with Uncle Joe, and a look at the humble little saw-mill, which has sawed out about 3,000,000 (yes, three million) feet of lumber in three years—we secure a ride with a bright little lad going directly to the Colonel's at Wakefield. Our progress (sure, but slow, on account of constitutional impediments to which old country mares are liable at this season of the year,) was exceedingly agreeable, by reason of the change of getting amid the rocky but well-wooded hills, to eyes constantly wearied by our flat and tame, though in its way beautiful scenery here about home.

The strength of the land in the vicinity of Wakefield, and throughout almost the entire mountain region of the well named Granite State, is proved not less by the immense crop of rocks which it bears up, than by the good yield of more desirable articles which the farmers manage to raise among the stones. And an intelligent husbandman among them argued to us from this, that the soil must be better and stronger there than on the coast and elsewhere near large towns and cities—for, otherwise, with the great difficulty and expense of procuring manure in the country, the farmers there could not live, even with all their toil.

N. P. Willis has aptly said, that the best use of a farm is to lie down upon.—Well, we tried that, on the sloping lawn in front of the old farm-house which has sheltered four generations of descendants of the sturdy pioneer who helped reclaim the wilderness and chase off the bears. [And of bears, perhaps, a word more anon.]

Then to supper—for which, a good appetite, and bread sweet as manna; butter new, fragrant of the meadow, and as much superior to the best packed and stale article, as the buxom country lass or well-developed gymnastic scholar is to your chap with padded shanks and breast, or your made-up woman who (as Saxe says) "won't bear dissection";—milk as is milk, which has not been churned-about for ten miles in a can; and a pitcher of cider for those who like it—and no bush did this need, judging from the number of times that pitcher was replenished during that sultry afternoon and evening. If you don't believe it, ask the Colonel, who proved himself to be a judge of such matters, and whose word we were willing to take for it at any rate.

Finally, after lying on that sightly slope, luxuriating in the delicious view of a score or two of hills and valleys, and "ponds," great and small—making up a most agreeable landscape—until the sun went below for a "watch," leaving the moon and stars on picket duty; then, at bedtime for discreet people, we all went fishing,—the Colonel and other dignitaries, Jack, the boys, and all. Spears, baskets, pitch-wood for torches, pipes and matches, (that was before they had "riz" so) were the fit-out—and good tight boots. *Ours* were a plaguey sight *too* tight—a pair we borrowed from the Colonel for the occasion; and so were the yet smaller borrowed pair into which he had to squeeze *his* feet, so as not to be impolite, in enjoying more comfort than his guest. Well, down, down, down, into the valley and into the dark, we go—all together, one after the other, over rocks, fences, hedges and ditches, till the foot of the brook is reached. Here a bit of a fire is kindled on the grass, and the torches lighted. Then along the banks of the clear rippling brook, with its white sandy bottom, against which the dark forms of the fated victims, the barvins or suckers, are already discerned by the illumination of the lightwood.

Plunge goes the spear, and out comes the beautiful fish—that is, if he don't conclude to change his base before the barbs enclose him. Then up stream all the while, after more—while far higher up we can see other parties with their glaring torches and dusky forms, thrusting their long spears into the quiet homes of the finny beauties.—Another and another we (we the party, not "*we*" editorial) draw out, sometimes two at a time, till perhaps forty pounds of one or two pounders are basketed, and we have fished up to the ground just beaten over by our next neighboring party; and now, tired, excited and footsore, we all creep home—Command us to Jack and Jon, when we go spear-fishing again. These barvins are good eating, but are somewhat bony,—not unlike shad.

Next morning was rainy,—so we had a good chance to rest and read. The afternoon was clearer, and soft light clouds floated about the summit of Moose Mountain and others, in the manner so indescribable by poet's pen or painter's brush. We were reminded of a scene from Washington's summit, years agone—when after walking with a couple of other young types from Piscataqua's banks to that weary height, we were rewarded only with a most beautiful display of clouds floating below us; and as the rising sun shone up among the mountains and through the rolling mist, it looked precisely like the dashing of ocean's foam against the craggy rocks of the shore.

On another occasion it will please us, and may interest some readers, to say a word of what we afterwards saw, heard and thought, among those hills. F.

Special Notice to Wounded Soldiers.
The Bounty of $100, due to soldiers discharged for wounds received in battle, will be paid by presenting the Discharge at the U. S. Army Agency, No. 64 Bleecker street, opposite Pay Department. The editorial statement in the New York Sun, under date of 14th and 15th inst., also, the advertisement of the so called Protective War Claim Association, No. 35 Chambers st., that these Bounties are not being collected and paid as set forted, is false, and either betrays their ignorance of their business, or a willingness to impute to others that which they would seem to be most guilty of themselves, viz: attempting to impose upon the poor wounded soldiers.
All such claims on file in that office, should be at once withdrawn and presented to this office.

Local.

☞ Subscribers to this Chronicle will please observe that the prices of our Daily and Weekly papers are $6 and $2 per year, respectively; and not $5 and $1.50, except when actually paid in advance.—We very much prefer the full price, at the end of the year—being willing to risk what little money we have, to good parties, at from 16 to 25 per cent or more, (according to our Daily and Weekly rates, respectively) but we don't propose, and never did, to pay a premium or allow a discount on funds in other people's pockets all the while.—These remarks are *not* intended to apply to those subscribers who always pay their bills when *sent* to them, as *most* of ours do.

☞ The schooner "Fannie A. Bailey," built at the south end yard, by Mr. D. D. Badger, will be launched on Tuesday morning next, at high water. We learn that Mr. Badger will immediately make arrangements for constructing another large schooner, of 350 tons, for parties in Cape Cod.

☞ The U. S. ship New Hampshire, now fitting out at the Portsmouth Navy Yard, went into commission on Friday, a part of her crew having arrived. She will probably be sent to Port Royal, as a store or supply ship.

☞ By the new summer arrangement on the C. & P. Railroad, to commence on Monday next, we have two passenger trains each way daily—the freight train running by itself at different hours, and without passenger cars. We take it, that the most impatient passenger will find the running time, as given in the new advertisement, sufficiently quick.

☞ The engines for the Franklin are said to be in a good state of forwardness at Atlantic Works in East Boston, where the turrets, &c., for the Agamonticus are being built. Orders have been received at the Navy Yard to push the work on the Passaconaway Iron-clad with all possible dispatch.

☞ Parents and children should remember that Mr. Joy's Singing School commences at Mercantile Hall, this, Saturday, afternoon. The welfare of youth and the interests of the community would be greatly promoted by filling the nice little hall with the Juveniles. See Mr. Joy's advertisement.

☞ The salary of the City Marshal has been increased to $450 and the fees. The pay of the city watch has been increased to $1.25 per night, when on duty.

☞ The U. S. Senate, on Thursday, passed a resolution of inquiry relative to building a naval depot at Kittery, Me.

☞ See Auction column for sales to-day by Messrs. Adams and Wendell.

☞ A Concord correspondent of the Manchester Mirror perpetrates the following:

Nothing definite has yet been done in Concord to prevent the removal of the State House. Our folks are decidedly opposed to its going to Manchester, particularly those who would not give a cent to improve the old grounds, open a new street south of the present yard, or perhaps to enlarge the Representatives' Hall. Some would rather see it go to Portsmouth—say to Pierce's Island, a healthy location in the Piscataqua, or to the beautiful elevation (Cutts' Place) on "Christian Shore," not long since purchased by Hon. E. A. Straw, I believe. A railroad from Portsmouth to Dover, and from Alton Bay to the Weir's—some 35 miles in all—would make Portsmouth easily accessible from the North, and sooner or later the Down East people will want a cross road between Newmarket and Groton Junction. This would make it comparatively easy for the Hillsborough and Chesbire County folks to get to "Clamshell Corner." The old town is celebrated for fish and lobsters in summer, and tender beef in the winter. It is a good place to live in, but a little hard to get a living in outside of the Navy Yard, to which the people of Kittery, and still farther down in Maine, lay some claim, if I remember rightly.

☞ Memphis has been closed to trade. An explanatory order from Gen. Washburn states that the practical operation of the commercial regulations has been to help largely to feed, clothe, arm and equip our enemy. That Memphis has been of more value to the Southern Confederacy since it fell into Federal hands than Nassau. To remedy this it is ordered that on and after the 15th of May, the lines of the Army of Memphis will be closed. No person is to be permitted to leave the city, except by river, unless specially permitted. Persons outside the lines, who may come within, will not be allowed except by permit, to return outside. Persons desirous of leaving the city must do so before the 15th inst.

— In the British House of Lords, Ap 29 Earl Russell warmly defended the course taken by the English Government in regard to American affairs, and submitted that it was owing solely to the vigilance of the Government, that the Lairds had not succeeded in plunging England into a war with the United States. He closed his speech by expressing an earnest hope that the war would result in the final destruction of slavery.

NEW HAMPSHIRE ITEMS.

—— Harlan W. Page, A. B., for several years Principal of Lancaster Academy, has been appointed to a first-class clerkship in the Treasury Department at Washington.

—— A Concord correspondent of the Mirror states that ours is "the only State Capital in all the North which has not the enterprise to sustain a daily paper." Augusta, Me., has no daily.

—— They are to have a new hotel, to be conducted on the European plan, in Manchester. Workmen are engaged in preparing a building which has been leased for the purpose.

—— The Ballot states that, notwithstanding the inclement weather, the receipts of the lady managers of the May Day Fair in Exeter exceeded those on any former similar occasion, being over $500.

—— A dispatch from Washington to the Mirror reports that of the 11th regiment, Col. Harriman had been taken prisoner, but was said to be recaptured; Lieut. Col. Collins and Lieut. Hutchins killed, and Capts. Clark and Dudley slightly wounded.

—— A correspondent of the Wolfborough News in a letter from Freedom says: "Beef and store cattle are in great demand at present hereabouts. We hear of one yoke of beeves being sold for $300. Horses are in good demand."

—— Mr. B. M. Smith, of Centre Sandwich, having kept the list of snows, their depth, &c., gives them as follows: from Dec. 7, 1863 to April 12, 1864, 19 snows which fell from one half an inch to 14 inches, making 6 feet 10 1-3 inches in the aggregate.

☞ Col. John Harris, commanding the Marine Corps, died in Washington, Thursday.

— The Danes have evacuated Fredericia and withdrawn to the island of Funen, leaving many cannon behind. The Prussians have taken possession of Fredericia. A Copenhagen despatch says the Danes retired in pursuance of government orders. The most valuable war materials, gunpowder, &c., were taken away, and the guns left spiked.

SOLDIERS' SPECIAL NOTICE.—Do your duty to yourselves, protect your health, use Holloway's Pills and Ointment. For wounds, sores, bowel complaints and fevers, they are a perfect safeguard. Full directions how to use them with every box.
If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. ROOM PAPERS!
Have Room Papers Advanced in Price, like other things!
J. F. SHORES, Jr.,
No. 1 Congress Block
Is often asked this question; and would answer that he still sells
ROOM PAPERS at eight cents per roll,
ROOM PAPERS at nine cents per roll,
ROOM PAPERS at ten cents per roll,
ROOM PAPERS at twelve and a half cts. p. roll.
These are not of so good quality as were formerly sold at those prices—still they are very fair.
Twelve and a half Cent Papers have advanced to Seventeen Cents.
Twenty-Five Cent Papers to Thirty Cents.
Thirty-Three Cent Papers to Thirty-Eight Cents.
Fifty Cent Papers to Sixty-Two Cents.
One Dollar Papers to One Dollar and Twelve Cents.
One Dollar and Twenty-Five Cent Papers to One Dollar and Forty-Two Cents.
Common, Velvet, and Velvet and Gold
BORDERS,
HAVE NOT ADVANCED!
GREEN CURTAIN PAPER
Is still sold at the old price.
Thus, FRIENDS and CUSTOMERS, you have an answer to the query above—
Room Papers Have not advanced as other goods have.
☞ Remember, this is the answer of
J. F. SHORES, Jr.,
NO. 1 CONGRESS BLOCK,
who has just received from New York a further supply of

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!
This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the more valued the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so recuperative as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.
They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.
The rich will have it because IT IS THE BEST. All other classes will have it on account of it being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in under-bedding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!
These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—
Mr. J. C. LANGLEY, Conductor C. & P. R. R.
Mr. WM. CONN, Mail Agent C. & P. Railroad.
Mr. E. A. STEVENS, House Furnishing Dealer.
Mr. O. A. FROST, City Hotel.
Mr. W. E. HADLEY, Rockingham House.
Mr. WM. S. HADLEY, Piscataqua House.
These BED-BOTTOMS may be had of **E. M. BROWN & CO.**, Agents for Portsmouth and Newington, at their store, **No. 35 Market Street**, where samples may be seen; and of W. F. BENNETT, Agent for Greenland.

Morning Chronicle.

"THE GRAY MARE THE BETTER HORSE."

The following was posted in his house, a few days since, by a Poughkeepsie business man:—

HEADQUARTERS, HOUSE OF ——.

General Order, No. 1. JULIA:—Until the price falls no more butter will be used in our family. JAMES.

He had hardly reached his counting house when a special messenger handed him this:—

"JAMES:—Until butter is reinstated no more tobacco will be used in this house.

JULIA, Chief of Staff."

It is said that butter won.

Bulwer thinks a man's nature is shown by the way he shakes hands; that he may have the manners of a Chesterfield, and smile very sweetly, but yet may chill and steel your heart against him the moment he shakes hands with you. But there is, he says, a cordial clasp which shows warmth of impulse, unhesitating truth, and even power of character—a clasp which recalls the classic trust in the "faith of the right hand."

"Three things," said the Rev. Dr. Henry, of New York, "appear to be uninjured by the Fall—the song of birds, the beauty of flowers, and the smile of infancy, for it is difficult to conceive how either of these could have been more perfect had man remained holy; as if God would leave us something pure to remind us of the Paradise we have lost, and to point us to that which we shall regain."

PIANO FORTES FOR SALE.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since the world first existed, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Bunions, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Dr. Dow has studied the peculiar effects produced by early habits of youth, viz Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the ends produced. Such persons should before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges low board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has to be only the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females

DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the womb, Fluor Albus, suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. He is certainly certain in the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 9 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of everyshade and kind, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of this country to his advice.

Among the physicians in Boston, none standsnigher in the profession than the celebrated Dr. DOW, No. 7 Endicott street (Boston. These who need the services of an experienced physician and surgeon should give him a call.

☞ Dr. Dow imperiaing has for sale a new article, called the Elastic SUPPORT. Order by mail. Two for $1 and a red stamp.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y.,
formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York state Volunteer Inspectors, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our modes of treating, by if the rest of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with diseases of a character and extent no less than as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the "tedious, comparative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP.

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from MOTHER TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Parabolic Asthma.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Sick Headache, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Strume, Glandular Swellings, Tumorous, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis), Neuralgia, Gout, Lumbago, Sciatica, The Dolorous.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and kindred diseases. The most excruciating pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Prostration.

Nervous Debility, Convulsions of Thought, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Partlembalyzed week, unable to walk, the Life Syrup gave them an inestimable blessing—directing their footsteps to a Hope which rules more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Setting of Bones, Red Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the effects of Mercury, and removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens spongy Gums and restores the teeth as firm as ever.

Constitution Life Syrup

Eradicates, root and branch, all Erupive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging sores, which disfigure so many of the younger portion of the community, from six to twelve years of age. Young children are very subject to Discharges from the Ears, which depends upon a scrofulous constitution. These can easily recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia, Dropsy of the Chest or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by the use of the Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy usually used in this disease is the iodine, which is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Uterus, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a grating or blow sound), Dropsy of the Heart, Pain in the Side, Shoulder and other important organs, or persons suffering from any acute pain in the region of the heart, will've greatly benefited by the use of the Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Darkness, Fear of Disease, Dimness of Vision, Dry Hot Skin, Pimples on the Face, Pain in the Eyeball, Pale Haggard Countenance and Languishing of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of Ulcerative Diseases, either of the Nose Throat, Tongue, spine, Forehead or scalp, no remedy has ever proved its equal.

Mold Spots upon the Skin, which so often, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of the Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Leucorrhœa, or Whites, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *In a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, so usually developed in the young, Hip Disease, Neuralgia, and all Nervous Affections, and Fits, Spasms, and Convulsions from disease for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay until the grave yawns for you near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES.

It is the best family medicine in the world, ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens the mother and child, prevents pain and disease, and increases nutrition in the food—Those who have used it think it indispensable. It is highly useful both before and after parturition, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY
AND
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Inflammation of the Urethra, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is specially recommended in those cases of Fluor Albus for Whites, from their inability to cure, after the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its healthy purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an aid to assistant to the CHEROKEE REMEDY, and should be used in conjunction with it for medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, healthy and decisive; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *boasted* specifics.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any druggist in the country, or write to us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES.
CHEROKEE
CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Dizziness, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pain in the Eyeball, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and can safely be used by all who may read this, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have tried with their confidence, and they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatise on this important form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

DR. WRIGHT'S
REJUVENATING ELIXIR.
OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and shortest method of cure, irrespective of all the old and worn out nostrums.

This medicine has been tested, by the most eminent medical men of the day, and by them pronounced the most perfect specific of the general medical discovery of the age.

One bottle will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and full vigor of youth.
A few doses restore the appetite.
Three bottles cure the worst case of Impotency.
A few doses cure the love sprung.
One bottle restores mental power.
A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, broken-down and despairing devotee of sensual pleasure.

The listless emaciated youth, the over-taxed man of business, the victim of nervous depression, the nervous invalid, the victim of dissipation, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Mold by all druggists everywhere.

They cure Nervous and Spinal Affections, pains in the back and joints of the body, Hysteria, Ness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months*, during which the unfailing nature of their action would infallibly prove injurious.

All letters seeking information or advice will be promptly, freely and discreetly answered.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extensive top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the sifting up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and will be continued up day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscriber, being the sole Agent in this county for the manufacture of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which circulates in the fire-pot, used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The objections are obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 25 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would offer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Research made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters relating to Patents. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed, and yet immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that notwithstanding the ABOLISHMENT OF THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND QUALITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their application in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed, on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

CHEERFULNESS.—The human mind is made to act with cheerfulness. I cannot, perhaps, exactly define what cheerfulness is; but you know what it is. You know the difference between a rusty piece of iron and a piece of iron that is polished. Take a piece of iron before it has been polished, and hold it up. It reflects nothing. Now polish it, and hold it up. How brilliant it looks! Now, every man or child delights to look at it! Now, the difference between polished iron and iron that is unpolished is the difference between cheerfulness and no cheerfulness. Cheerfulness in a man is that which, when people meet him makes them happy. A cheerful doctor gives his medicine the moment he steps inside the room, half the time. And one of these sepulchral doctors, who carries death in his visage—I wonder that anybody gets well under his care. A clergyman whose face glows with health, and courage, and hope, and cheer, has looked consolation into his friend before he has spoken a word. But one of these ministers, whose face is a perpetual interpretation of Watts's hymn,

"Hark from the tomb a doleful sound"—

I marvel how he should be twice sent for, unless it might be on the ground of the benefits of affliction! And in all the relations in life the same is true. We find that in the mind there is a provision for cheerfulness. And cheerfulness gives pleasure.

The tendency to please is still more powerful where cheerfulness is joined to good nature, and where the whole attitude of a man's faculties is such that they express well wishing to every one about them. There are some persons whose cheerfulness and good-nature are spontaneous and unconscious. You are affected by them just as you are affected by flowers in summer. I have sometimes ridden through fields and lanes, where without seeing anything, I looked about to see something, the air was so sweet, and said, "The grape-vines are blossoming." And I have often been in a company where persons were so pleasant and cheerful, and good-natured, that I looked around to see whose grape-vines were blossoming. I am often pleasantly affected by a bunch of flowers. I sometimes preach better under the influence of the flowers that stand on the desk before me. *H. W. Beecher.*

DR. TEBBETTS'
PHYSIOLOGICAL
HAIR REGENERATOR
—AND—
UNIVERSAL HAIR RESTORER.
ITS MODUS OPERANDI.

Immediately on the application the scalp there are very small Glands, or, more commonly Roots of the Hair. It is from these Glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair loosens and fall off, and in many cases, it not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Tannin, Sulphur, &c., and producing only a sort of yellow or dea color, it will, if properly applied restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.

2. It will certainly restore the hair from a gray to a healthy color, auburn, brown, or whatever might have been its original color.

3. It will effectually prevent the hair from falling off, remove all dandruff and humors and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.

4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.

5. It will cure the most inveterate itching and neuralgia of the scalp, and being highly perfumed, it affords a most delightful article for the toilet.

We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is positively certain that in very short time it will have a world wide reputation.

HOME TESTIMONY.

CHELSEA, MASS., Dec. 17, 1863.

Messrs. Tebbetts Brothers—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost *black*. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diptheria; it stopped it immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good shape. J. C. BUTLER.

MANCHESTER, Dec. 20, 1863.

Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to turn gray when about thirty years of age, and had been gradually increasing for more than ten years, when at out two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. My wife, who is 45 years old, was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. FERTILIZERS,
Trees, Vines,
Shrubs,
Vegetable and Flower Seeds.

J. F. SHORES, Jr.,
No. 1 Congress Block,
WOULD CALL THE ATTENTION OF
FARMERS AND GARDENERS
TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ:
LODI CO.'S
IMPROVED POUDRETTE.

The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.

On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grain and hay harvest—The celerity and dispatch with which a large crop of corn is put in and poudretted, the rapid growth and consequently the early opportunity of working among it—the small chance for weeds, owing to the shade it affords, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.

For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn, or for several years, a top dressing of Poudrette will be found invaluable.

We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of diseases. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.

Price $1.80 per Barrel.

Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

Lloyd's Nitrogenized
Superphosphate of Lime.

The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O 5)	17.2
Soluble " " (ca O P O 5)	11.5
Organic matter	31.
Sulphate of lime	26.
Alkaline of salts	3.
Insoluble matters	2.
Water	7.8

The organic matter yields 3.5 p. c. of Ammonia.

The value of concentrated fertilizers depends principally upon the Soluble Phosphates, the Soluble Phosphates and the Ammonia.

A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.

It is almost universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 2, 9, 16. In other words, Soluble Phosphates are worth 4½ times and Ammonia 8 times as much as Insoluble Phosphates. The value of these three varies in the different markets of the world, but the relative values of the several ingredients remain the same.

Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market, and the proportion of Ammonia is also large for a Superphosphate.

The sample for analysis, I selected from the entire stock which was prepared for the market.

MONDAY, MAY 16, 1864.

THE REBELLION.

There was a fight at Cane river April 23, as appears from correspondence of New Orleans papers. The rebel position was taken by assault at the point of the bayonet, and from 80 to 100 rebels were taken. The rebels were pursued and again routed, their loss being heavy. Our loss was 175 killed and wounded. The dispatch states that among the first killed was Gen. Fessenden, of Maine, while leading his brigade. This, however, as we are pleased to learn, is a mistake, for dispatches have been received from Gen. Banks, stating that Gen. Fessenden was only wounded in the leg. Magruder is said to be on the way from Texas to join Kirby Smith, in Western Louisiana. Gen. Banks has evacuated Alexandria, and on the 7th was on his way to Franklin.

Joe Johnston evacuated Dalton, Ga., on Thursday night, and our troops occupy the place. He is said to have not more than 30,000 men, while our forces are quite strong and closing in upon him on all sides.

THE VIRGINIA CAMPAIGN.

On Thursday last Gen. Butler's whole force moved in the direction of the Petersburg and Richmond R. R. At noon the enemy was discovered intrenched, and the 10th New Hampshire charged and drove them from their intrenchments. There was skirmishing all the afternoon on our right, but no general engagement. A number of rebels were captured, including a Colonel.

Beside the destruction to the railroads done by Gen. Butler's troops already published, Gen. Kautz reports that he has galloped nearly 300 miles, and destroyed bridges at Stony Brook, Notaway and Janots, one of which was 210 feet long. He twisted the rails so that it would be impossible to straighten them, burned the depots and storehouses with supplies, and did injury which could not be repaired in a month.—He had several fights and lost 7 killed and 30 wounded and missing. He brought in 140 prisoners. Interrupted telegrams showed that his operations penned up Beauregard at Weldon, N. C., at the critical moment when his large force might have turned the tide of battle on the Rapidan in favor of Lee.

The rebels for three or four hours on Thursday labored strenuously to recover the works taken by Gen. Hancock, but in every charge were repulsed and hurled back in disorder. Our lines had been concentrated, and it is said were not over two miles in length. But in this fight, although Hancock and Wright were so successful in carrying the enemy's lines, Warren's 5th corps was less fortunate on the enemy's right, failing to carry the rebel breastworks, and being compelled to fall back with a loss of 2000 killed and wounded. Otherwise the day's contest was a glorious success. It is announced by authority that 7,000 prisoners had arrived at Belle Plain up to Friday night. They included about 400 officers, with Maj. Gen. Johnson and Brig. Gen. Stewart.

After the severe engagement on Thursday, in which Lee suffered so severely, he retreated during the night, and early next day our whole force was again in motion, although the heavy rains of the previous thirty-six hours rendered the roads very difficult for wagons and artillery. At 7 o'clock A. M. Lee's army was on the south side of the Po. Gen. Warren came up in time to capture one of his pontoon trains, but up to 3 o'clock, P. M., our advance guard had failed to find the rebels in force. Our army has lost heavily, but it is said to be stronger now than it was when it crossed the Rapidan. Our other armies, co-operating with it, are not idle. There is authority for believing that the only railroad from Richmond available on Friday for the receipt of supplies or for retreat was the Danville R. R. Should that road be destroyed, Lee must cut his way through encircling armies, or capitulate. Never did the military situation look so encouraging as now.

By Telegraph—Sunday noon.

The victory on Thursday is not only officially confirmed, but the details of Lee's retreat on Thursday night and Gen. Grant's rapid advance on Friday are at hand. By noon Friday our entire army was across the Po river. Lee did not get all his men across before our advance overtook them, and we captured a great many stragglers. Gen. Grant's headquarters are on the south bank of the Po. An opinion is expressed in military circles that a decisive battle will be fought on this side of the North Anna river. Rumors prevail in Washington of a great victory south of the Po on Friday, but they are not confirmed, publicly at least.

An official dispatch from Gen. Sheridan, dated Bottom's Bridge, via Fortress Monroe, 13th, states that on the 9th he marched around the enemy's right flank, and in the evening of that day he destroyed the enemy's depot at Beaver Dam, 3 large trains of cars, and locomotives; bacon and other stores, amounting to 1,500,000 rations; also the telegraph and railroad track for ten miles; recapturing 378 of our men, including one Major General (?), 2 Colonels and several other officers. About 7 A. M. on the 11th he resumed the march on Richmond. He found the rebel Gen. Stuart concentrating, and immediately attacked him, and after an obstinate combat drove him, capturing 2 pieces of artillery, and driving the rebel forces back towards Ashland, a distance of 4 miles.

An official dispatch from Gen. Butler to the Secretary of War, dated Headquarters, Half way House, May 14, says: "We are before the enemy's works at Drury's Bluff, —Fort Darling. The enemy are here in force. Gen. Gilmore by a flank movement assaulted and took the enemy's works on their right. It was gallantly done. The troops behaved finely. We held our lines during the night, and shall move on this morning." A later dispatch from General Butler, dated 10 A. M., 14th, says: "Gen. Smith carried the enemy's line on the right [i. e. the enemy's left,] this morning. Our loss was small. The enemy have retired into three square redoubts, upon which we are now bringing our artillery to bear with effect."

A dispatch from Gen. Sherman, dated near Resaca, 14th, states that by a flank movement on Resaca Joe Johnston had been forced to evacuate Dalton, and our forces were in his rear and flank. The weather was fine and the troops in good condition. All was working well.

A dispatch at 5:15 stated that no later news had been received. There was no fighting on Saturday.

☞ Gen. Butler is reported to have received on the 10th a flag of truce from the enemy, bringing three propositions signed by Gen. Bushrod Johnson, as follows:

First, asking permission to come within our lines to remove their wounded and bury their dead.

Second, asking an exchange of their wounded.

Third. Asking a general exchange of prisoners on both sides.

To the first of these propositions Gen. Butler replied that the work was already done. To the second he announced himself as perfectly willing to assent. To the third he replied that no exchange of healthy and well prisoners could be effected until the Confederate authorities should acknowledge colored soldiers to be prisoners of war.

☞ The New York Times says the auction sales of the Delaware, Lackawana and Western Road is a piece of superb cunning. They sell a small quantity of coal that way monthly, and fix the price of private sales at fifty cents per ton higher than it sells at auction, which stimulates the dealers to bid high at the auction sales, thus continually raising the price.

— Gov. Bramlette issued on the 13th a brief proclamation, as follows: "Kentuckians to the rescue! I want 100,000 six months' troops at once. Do not hesitate to come. I will lead you. Let us help to finish this war, and save our Government."

— Buzzard's Roost is a village at the junction of the roads leading from Chattanooga and Lafayette to Dalton, and but three miles from the latter place. Resaca is 13 miles south of Dalton, on the Western and Atlantic railroad, running from Chattanooga to Atlanta.

— A few weeks ago, Roger A. Flood, Treasurer of Rensselaer county, N. Y., was killed by the cars near Washington, while going to pay bounties to soldiers. It turns out that he was a defaulter to the county for over $66,000, which his sureties must pay.

— The 39th Mass. regiment was in Thursday's fight. It has been nearly two years in the Army of the Potomac, has seen a great deal of hard marching and done effective service, without coming in actual contact with the rebels. The regiment acquitted itself nobly.

— There have been heavy thunder showers in Virginia, which military men think will do more harm to the rebels than to the Union forces, by raising the water courses over which they must transmit their supplies, now that their railroad communications has been cut off.

— Government has instituted a thorough overhauling of hospitals, and all skedaddlers will be promptly sent back to the army. Over a thousand officers and men have already been arrested by the provost guard, and placed in the Old Capitol. The officers will be returned to Gen. Grant in irons.

— Our men in Virginia too often throw away their coats and blankets when the weather is warm. In some instances they make bridges of them, that is, throw them into shallow streams, thus getting across dryshod. The effect will be to render sickness common.

— Notwithstanding the expressed wish of the family, friends and literary executors of Rev. T. Starr King, Tompkins & Co. have not abandoned their proposed publication of some of his earlier addresses. The publicans settle the matter, by not purchasing the volume. His complete works will doubtless be published by authority as soon as they can be prepared.

CHIPS—HEWN AND GATHERED.

— Material and men are being constantly sent to Gen. Grant.

—Gen. Banks was slightly wounded with a piece of shell, April 23.

— Carleton states that we had taken about 9000 prisoners, up to Friday.

— The Ten-Forty Loan has been taken to the amount of about $50,000,000.

— The Petersburg, Va., Express of the 11th says: "Gen. Lee is in Richmond, wounded."

— Gen. Crawford, commanding the Pennsylvania Reserves, was captured by the rebels on Thursday.

— E. C. Ingersoll has been elected to Congress from Illinois, as successor of Mr. Lovejoy, deceased.

— The telegraph lines between Petersburg and Richmond have been cut several days, as well as the railroad.

— The noted rebel spy Belle Boyd is in the blockade runner Greyhound, recently captured and now in Hampton Roads.

— It is thundering all 'round. They had several peals in Portland on Friday, notwithstanding a dense fog.

— We are very sorry, Notabore, but we think that epitaph has "been in the papers." The others shall be attended to.

— One enthusiastic correspondent expresses the opinion that Gen. Grant will crush Lee before he gets to Richmond, if he has to use his teamsters to do it.

— Gens. Hancock's and Burnside's brilliant victory over the rebels near Spottsylvania Court House was on Thursday—not Wednesday, as the types had it on Saturday.

— The Government has called for 2000 Maryland militia for 100 days, to relieve immediately other troops now doing guard duty in that State, who will go to the front.

— In Thursday's engagements the proportion of severely wounded was greater than in either of the previous days' fighting, owing to the great use made of artillery.

— A Rochester boy playfully aimed a gun at his mother, and snapped the lock.—It chanced to be loaded, and the mother was shot dead.

— Some of the rebels in the Old Capitol Prison, supposing that they might profit by the general jubilation, escaped on Friday afternoon, but nearly all of them were soon recaptured, and thus came to grief.

— In Cincinnati several of the largest daily newspapers now employ women as compositors. In the smaller towns it is probable that at least one-half the number of compositors are females.

—Orders were received at New York on Thursday from Washington to forward a large quantity of grape, cannister and shell. Forty tons were sent forward that night.

— Among the rumors is one that Gen. J. E. B. Stuart, of rebel cavalry renown, has been killed by a party of Gen. Custar's command. Also another that Longstreet is dead, and A. P. Hill wounded.

— The Union State Convention of New Jersey appointed delegates to Baltimore. While not directly instructing them whom to vote for, resolutions were adopted in favor of Mr. Lincoln.

— 48 guns were taken by our army on Thursday. 15 or 20 were not brought off, but on Friday were lying behind our skirmish lines, and the rebels resisted in force all attempts to carry them off.

— The rebels have had a force down the Peninsula, watching for Gen. Butler's expected advance, but Gen. Butler passed by on the other side, which was pardonable in his case.

— Rebel cavalry drove in some of our cavalry near Fredericksburg on Thursday evening. They are evidently after our trains, but we have as yet lost nothing in the way of wagons, except 4 ambulances captured on the field.

— A dispatch from Gen. Sigel's command announces that our cavalry has torn up the railroad between Charlottesville and Lynchburg, twenty-six miles below the former place, and also that the track of the Gordonsville road, between Charlottesville and Kesnick, has been destroyed. All the bridges between the above points on both roads have been destroyed.

— Two bounty jumpers, while being taken to Fort Delaware, attempted to escape by jumping from the steamer to another, ten feet off. They were handcuffed together, and, being equal to only about six feet, they made a hole in the water. The officer in charge of them says he waited round a spell, but as he didn't see anything more of his men he reported back to camp.

— Two propositions from Gen. Grant, to wit: At the opening of his military career at Fort Donelson, to Buckner's request for a cessation of hostilities after two days' fighting, he said: "I propose to move immediately upon your works." Now, after six days' fighting, he says: "I propose to fight it out on this line, if it takes all summer." Both of these proposals are very cool, but terribly determined.

SPEER'S

SAMBUCI WINE,

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT,

For Physician's Use, Females, Weakly Persons and Invalids.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure Grape Juice of the Portugal Sambucus, cultivated in New Jersey, recommended by physicians and chemists as possessing medical properties superior to any other Wine in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

Make One Trial of this Wine.

Special Notice to Wounded Soldiers.
The Bounty of $100, due to others discharged for wounds received in battle, will be paid by presenting the Discharge at the U. S. Army Agency, No. 64 Bleecker street, opposite Pay Department. The editorial statement in the New York Sun, under date of 14th and 15th inst., also, the advertisement of the so-called Protective War Claim Association, No. 35 Chambers st, that these Bounties are not being collected and paid as advertised, is false, and either shows their ignorance of their business, or a willingness to impute to others that which they would seem to be most guilty of themselves, viz: attempting to impose upon the poor wounded soldiers.
All such claims on file in that office, should be at once withdrawn and presented to this office.

"A Slight Cold," Coughs.
Few are aware of the importance of checking a Cough or "slight cold" in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs. "*Brown's Bronchial Troches*," give sure and almost immediate relief. Military officers and soldiers should have them, as they can be carried in the pocket and taken as occasion requires.

A Card to Invalids.
A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge*.

SONS OF TEMPERANCE.—A correspondent states that the semi-annual meeting of the Grand Division of the Sons of Temperance was held in this city on Wednesday last, at the hall of the Portsmouth Division. The Division met at 11 o'clock A. M., adjourning at 1 until 2 P. M. The afternoon session, our correspondent states, continued until 8 o'clock, at which time they visited the Portsmouth Division, which stands among the first of the State. The hall was decorated with the Stars and Stripes, mottoes, etc., recalling to mind the great contest now going on, and the brave, heroic soldiers who have taken their lives in their hands and gone forth to shed their precious blood for the dear old country they love.

After being called to order, some very interesting remarks were made by the W. P., which were followed by singing by the glee club, &c., and then came the piece entitled, "Tribute to departed heroes," which was well performed. Then came a few remarks from members of the G. D., after which the assembly repaired to Jefferson Hall, where three large and well filled tables were found. After obeying the order to partake of the refreshments, till all were satisfied, the Division again proceeded to the Hall, where they were greeted with singing, speeches, &c. The Portsmouth Division then closed, and the G. D. again went into session. Our correspondent adds:—After waiting till morning, we returned to our homes, feeling that the time which had been spent did not prove in vain, and here let me say that the Committee of Arrangements deserve great credit for the labor which they spent to receive the G. D.

The question may be asked what is Portsmouth Division doing for the temperance cause? I reply that they are doing a noble work; and may they still be able to work, until every drunkard shall have been brought into the folds of their order. H.

☞ The Universalist Society of this city voted on Sunday morning to grant Rev. Mr. Patterson, their pastor, leave of absence, that he may visit Washington, for the purpose of attending to the wants of our sick and wounded soldiers. The Society also voted the sum of $100, to be expended by him in behalf of the soldiers; and a collection is to be taken in the Church on Sunday next for the same object. Mr. Patterson, we understand, will, probably, leave on Tuesday, although he may not leave until the next day. He anticipates being absent from four to six weeks. We learn that one of our citizens has generously sent to Mr. Patterson $100, to be used for the benefit of the soldiers.

The Methodist Society on Sunday unanimously voted to grant their pastor, Rev. Sullivan Holman, a leave of absence of six weeks, to aid the Christian Commission in alleviating the wants of our sick and wounded brothers, and he will accordingly leave for the seat of war on Tuesday, if his services are accepted. A collection was also taken, and notwithstanding a thin congregation—owing to the inclemency of the weather—the sum of $132 was realized.

☞ A movement, we are informed, is being made among the workmen at the Portsmouth Navy Yard, to contribute money for the benefit of our wounded soldiers. It is proposed by some of them to contribute the proceeds of one day's work for this object. The workmen at the Yard have already manifested their liberality in this way, yet, we doubt not, the good deeds of the past will be excelled even by those of the present.

☞ Schooner Frances, with a cargo of salt on board, consigned to E. F. Sise & Co., struck on "Ragged Neck," off Rye Harbor, Thursday night, and broke her rudder short off. She is leaking, and at anchor about a mile from the land. Com. Pearson sent a tug-boat at once to assist her, but owing to the fog it could not reach her.

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!
This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the best bed that the market is tried. The invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is as recuperative as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.
They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.
The rich will have it because IT IS THE BEST. All other classes will have it on account of it being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in under-bedding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!
These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—
Mr. J. C. LANGLEY, Conductor C. & P. R. R.
Mr. W. M. CONN, Mail Agent C. & P. Railroad.
Mr. E. A. STEVENS, House Furnishing Dealer.

Morning Chronicle.

A REMARKABLE PREDICTION OF DOUGLAS.—Hon. Isaac N. Arnold of Illinois, in his recent speech in the House of Representatives, has the following interesting statement:

"Here I will pause a moment to state a most remarkable prediction made by Douglas in January, 1861. The statement is furnished to me by General C. B. Stewart of New York, a gentleman of the highest respectability.

"Douglas was asked by Gen. Stewart, (who was making a New Year's call on Mr. Douglas,) 'What will be the result of the efforts of Jefferson Davis and his associates to divide the Union?—Douglas replied: 'The cotton States are making an effort to draw in the border States to their schemes of secession, and I am too fearful they will succeed. If they do succeed, there will be the most terrible civil war the world has ever seen, lasting for years. Virginia will become a charnel house; but the end will be the triumph of the Union cause. One of their first efforts will be to take possession of this capital to give them prestige abroad, but they will never succeed in taking it the North will rise en masse to defend it; but it will become a city of hospitals; the churches will be used for the sick and wounded, and even the Minnesota block (now the Douglas hospital) may be devoted to that purpose before the end of the war."

"Gen. Stewart inquired, 'What justification is there for all this?' Douglas replied: 'There is no justification, nor any pretense of any. If they will remain in the Union I will go as far as the Constitution will permit to maintain their just rights, and I do not doubt but a majority of Congress will do the same. But,' said he, rising on his feet and extending his arm, 'if the South attempt to secede from this Union without further cause, I am in favor of their having just so many slaves and just so much slave territory as they can hold at the point of the bayonet, *and no more*.'"

WANTED.—One hundred and seventy-five young men, of all shapes and sizes, from the tall, graceful dandy, with hair enough on his upper works to stuff a barber's cushion, down to the little upstart. The object is to form a Gaping Corps, to be in attendance at the church doors on each Sabbath, before the commencement of divine services, to stare at the females when they enter, and to make delicate and gentlemanly remarks on their persons and dress. All who wish to enlist in the above corps will please appear at the various church doors next Sabbath morning, where they will be duly inspected, and their names, personal appearance, and quantity of brains registered in a book kept for that purpose, and published in the newspapers. To prevent a general rush, it will be well to state that none will be enlisted who possess intellectual capacities above that of an ordinary well-bred donkey.—*Yarmouth Register.*

Bro. Swift had better send a recruiting agent up this way. A friend suggests that he could enlist a squad at the Second Advent door on High street. Perfect satisfaction guaranteed in regard to the last "regulation requirement," and none exempted on the score of too much intellect.—*Plymouth Rock.*

A REVOLUTION IN MEDICINE!
What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.
Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Thousands who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are
Invited to use Constitution Life Syrup.
During the last year, we have encountered with obstacles and overcome opposition as heretofore met and encountered by any Reformers.
Rapidity of Cure.
Some say, "Your cures are too quick," while others doubt the permanency of the relief, that diseases can only be cured by the "slow recuperative process of Nature." This is our reply:
In health, the body, like a well-adjusted scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the balance and the scale stands.
CONSTITUTION LIFE SYRUP,
A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all hereditary DISEASES transmitted from PARENT TO CHILD.
Paralysis.
Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.
It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the
Great Life-Giving Power.
Dyspepsia.
Indigestion, Heartburn, Constipation, Costiveness, Weight at Stom'h, Biliousness, Want of Appetite, Flatulence, Sick Headache, Jaundice.
Scrofula.
Strumes, Glandular Swellings, Ulcerous, King's Evil, Erysipelas, Salt Rheum.
This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.
Rheumatism.
Arthritis, Lumbago, Neuralgia, Sciatica, Gout, Tic Doloureux.
If there is any disease in which the Constitution Life Syrup is a specific, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Acute, chronic or vicarious, of 20 or 30 years standing, have been cured by us.
Nervousness
Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St. Vitus' Dance.
Thousands who have suffered for years will bless the day they read this advertisement. Particularly to weak, suffering women will this medicine prove an inestimable blessing—directing their footsteps to a Hope which folds more than it promises.
Mercurial Diseases.
Salivation, Feeling of Weariness, Aching of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.
Constitution Life Syrup purges the system effectually from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens spongy Gums and secures the teeth as firmly as ever.
Constitution Life Syrup
Eradicates root and branch, all Eruptive Diseases of the Skin, like
ULCERS, PIMPLES, BLOTCHES.
And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.
CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,
Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.
All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and disorders of the menses, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove in a few days; if there proves should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra efforts. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.
Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the Heart Case and all the affections of this important organ, or persons suffering from any cause whatever, by taking the Life Syrup, will be greatly relieved by Constitution Life Syrup.
Broken Down and Delicate Constitutions, Suffering from Indigestion to Excessive, Pain in the Back, Loss of Memory, Forebodings, Horror of Darkness, Dizziness, Nervous Debility, Dry Hot Skin and Extremities, Want of Sleep, Restlessness, Pale Haggard Countenance and Languishing of the Marriage Bed, all require the aid of the CONSTITUTION LIFE SYRUP.
For all forms of **Secretive Diseases,** either of the Nose Throat, Tongue, Spine, Forehead or ears, no remedy can be proved its equal.
MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the young married lady. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly upon the Liver.
In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of the liver, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.
☞ *As a general Blood Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*
Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and limbs, give them new energy, new life and happiness.
THE RICH AND POOR are liable to the same diseases. Nature and science have made the Constitution Life Syrup for the benefit of all.
PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.
TO MARRIED AND MARRIED LADIES
It is the safest and most effectual medicine ever discovered for purifying the system and relieving the female constitution upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the nourishment of the child, so that I think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.
Constitution Life Syrup
It is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.
CURES FROM ONE TO THREE DAYS
CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.
CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Inflammation of the Urine, Inflammation of the Bladder, Inflammation of the Bladder, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus (Whites in females) where all the old nauseous medicines have failed.
It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.
It is diuretic and alterative in its action; purifying and enriching the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all poisonous causes which have induced disease.
CHEROKEE INJECTION is intended as an early assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and demulcent; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*
☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.
For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.
Price—CHEROKEE REMEDY, $2 per bottle, or three bottles for $5.
Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES,
CHEROKEE CURE.
An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-abuse, such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Emptiness on the Face, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of rectitude.
☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated in our office has failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.
☞ To those who have trifled with their constitution, and they think themselves beyond the reach of medical aid, we would say, *Despair not;* the CHEROKEE CURE will restore you to health and vigor, such as the quack doctors have failed!
☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.
☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.
Sold by all respectable druggists everywhere.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.
Prepared from Pure Vegetable Extracts,
Containing nothing injurious to the most delicate.
The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.
This medicine has been tested by the most enlightened practitioners of the day, and by them pronounced to be one of the greatest medical discoveries of the age.
One bottle will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and full vigor of youth.
A few doses restore the appetite.
Three bottles cure the worst case of impotency.
A few doses cure the low spirited.
One bottle restores mental power.
A few bottles bring the rose to the cheek.
This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.
The young, or married, with the lower-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.
☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

THE MAGEE
COOKING STOVE.
The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and seal iron heater combined, by which the odor and smoke from meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which meat can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other stove now in use, no dust being allowed to escape into the room, and the shoveling out of the ashes is entirely dispensed with. The fire is regulated in the same manner as with the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify and speak of them in the highest terms of praise.
We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, which is pleasant and agreeable and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache and nausea so prevalent in other furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former models, many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of fresh air, which is introduced in such quantities as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:
Samuel Cleaves, Esq., — Albert R. Hatch, Esq.,
Aaron H. Hill, — Charles R. Mendum,
Henry F. Wendell, — John Sise, — and others.

Gray's Patent
Molded Collars
Have now been before the public for nearly a year. They are universally pronounced the neatest and best fitting collars extant.
The upper edge presents a perfect curve, free from the angles noticed in all other collars.
The cravat causes no puckers on the inside of the turn-down collar—they are AS SMOOTH INSIDE AS OUTSIDE, and therefore perfectly free and easy to the neck.
The Garotte Collar has a smooth and evenly finished edge on both sides.
These Collars are not simply flat pieces of paper cut in the form of a collar, but are MOLDED AND SHAPED TO FIT THE NECK.
They are made in "Novelty" (or turn-down) style, in every half size from 12 to 17 inches, and in "Eureka" (Garotte), from 13 to 17 inches; and packed in "solid sizes" in neat blue cartons, containing 100 each; also in smaller ones of 10 each, the latter a very handy package for Travellers, Army and Navy Officers.

WILD DUCKS AND GEESE IN CALIFORNIA.—The owners of ranchos in the Southern part of California have been sorely tried this spring, by the numbers and audacity of the wild ducks and geese which have appeared on their fields. The season has been one of drought, and the first spring-grass that appeared was soon gobbled up by immense flocks of wild fowl, which flew around screaming, and stripped the meadows close up to the houses. The keepers of the ranches aver that three geese will eat more grass in a day than a sheep, and crop it closer. They have been in such numbers that the thousands slain seemed neither to thin the flocks nor to deter the survivors from continuing their grazing.

— The trial of the new iron frigate Achilles proved her to be the fastest ship in the British navy. The papers say she average 1 nearly 14 1-2 knots per hour.

— The Italian journals speak of a project to construct a bridge over the Straits of Messina, to unite Sicily with the mainland. The bridge proposed would be a suspension one, the chains being of cast steel.

— The Army Square Hospital, in Washington, has a library of more than one thousand select books for circulation among the patients. These books have all been contributed by the friends of the institution.

— The Lowell Courier mentions the finding of a cone-shaped article, containing eight or ten percussion caps, in a bale of cotton in one of the mills in that city.—Had these caps gone into the machinery with the cotton, probably a conflagration would have ensued.

— An analysis of the honey, part of which was alleged to have poisoned Mr. and Mrs. Shaw of Providence, has been made by Prof. Hill of Brown University, who has declared it perfectly free from poisonous ingredients. The honey was eaten freely in his presence without evil effects.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions; also, legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New-England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which are offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office at the kind and the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can confidently employ a person *more competent* and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me FOURTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part, I can only recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of
GONORRHŒA AND SYPHILIS.
Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Gleet, Inflammation and Stricture of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.
SEMINAL WEAKNESS.
Dr D., devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, wretchedness, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.
Persons who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience in the cure of the diseases of women and children, than any other physician in Boston.
Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an established practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain four red stamps, or they will not be answered.
Office Hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, for No Charges Made.
Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET.—Order by mail. Two for $1 and a red stamp.
Boston, April 7, 1864.—eodly.

DR. TEBBETTS'
PHYSIOLOGICAL
HAIR REGENERATOR
AND
UNIVERSAL HAIR RESTORER.
ITS MODUS OPERANDI.
Immediately beneath the scalp there are very small glands, generally known as the Roots of the Hair. It is from these Glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases obtain a lodgement, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.
To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.
Unlike thousands of other articles in the market, it contains no Lead, Lead Acetate, Litharge, Tannin, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.
The Physiological Hair Regenerator is warranted in all cases to produce the following results:
1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.
2. It will certainly RESTORE the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.
3. It will effectually prevent the hair from falling off, remove all heat, inflammation and Dandruff from the scalp, leaving the head clean and cool, and the hair soft, glossy and of a silky appearance.
4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.
5. It will cure the most inveterate itching and neuralgia of the scalp, and being highly perfumed, it affords a most delightful article for the toilet.
We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is positively certain that in every short time it will have a world wide reputation.
HOME TESTIMONY.
BEDFORD, N. H., Dec. 17, 1863.
Messrs. Tebbetts Brothers—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost black. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diphtheria; it stopped it immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good shape. J. C. CUTLER.
MANCHESTER, Dec. 20, 1863.
Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to turn gray, and was falling out in spite of age, and had been gradually increasing for more than ten years, when about two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so free from scurf, that it makes it very much more pleasant. JACOB J. ABBOTT

TUESDAY, MAY 17, 1864.

THE REBELLION.

Dispatches from Gen. Sherman, to eight o'clock on Saturday night, state that his forces had been actively engaged during the day, with advantage on our side, but no decided result. Later dispatches to 11 o'clock Sunday night, report that our lines had advanced on the left, two lines of the enemy's earthworks having been stormed. Gen. Stoneman is reported to have destroyed a wagon train, captured two guns, and thrashed Rhoddy.

Gen. Kilpatrick, at the head of a division of cavalry, reached Johnston's rear and destroyed the railroad a few miles south of Resaca, Monday night. Johnston's army is believed to be 60,000 strong, including some 15,000 militia. John Morgan, the cavalry man, is commanding a brigade of infantry. Gen. Sherman's army is in magnificent trim. Forrest is reported to have crossed the Tennessee river to make a raid on Sherman's rear. It is believed he will be well cared for.

THE VIRGINIA CAMPAIGN.

Dispatches from Gen. Sigel report him at Woodstock. He had not destroyed the railroad between Lynchburg and Charlottesville, as stated.

"Carleton" reports a most desperate infantry struggle on Thursday night. It commenced at 9 o'clock and continued until 3 A. M. Our forces had the enemy's rifle pits and poured an incessant firing in upon the retreating rebels. Our loss was comparatively small, as our troops were shielded by the enemy's own earthworks, but theirs is said to have been fearful. Sec. Stanton reports that Gen. Hancock's movement on Friday developed the fact that the enemy had fallen back four miles. Five of the rebel guns, covered by their sharp shooters, were brought off. Gen. Grant reports, at 7 A. M. Sunday, that there had been no fighting during the previous two days. Our army has swung round, and now faces west instead of southeast. The corps have been changed in position; the 2d is on the right, and next the 9th, 5th and 6th on the left.

Gen. Sheridan's command reached the left bank of Turkey Island at 3 o'clock Saturday afternoon, and have formed their junction with the forces of Gen. Butler. It is said he got inside of the rebel works around Richmond, and could see the gas lights, in the city. He was ignorant of Gen. Butler's nearness, or he might have taken great advantage of his position.

Lee holds his position below Spottsylvania, and Grant is preparing for another great battle.

In the whole campaign thus far, the Second Corps has lost 1100 killed, 7000 wounded, and 1400 missing. The Fifth Corps has lost 1200 killed, 7500 wounded, and 1300 missing. The Sixth Corps has lost 1000 killed, 6000 wounded, and 1200 missing. Burnside's losses are nearly in the same proportion, and swell the total to about 35000. The proportion of slightly wounded is extraordinarily large.

HEADQUARTERS ARMY OF THE POTOMAC, May 13.—Soldiers: The moment has arrived when your commanding General feels authorized to address you in terms of congratulation. For eight days and nights, almost without intermission, in rain and sunshine, you have been gallantly fighting a desperate foe, in positions naturally strong, and rendered doubly so by entrenchments.

You have compelled him to abandon his fortifications on the Rapidan, to retire and attempt to stop your onward progress, and now he has abandoned the last entrenched position so tenaciously held, suffering in all a loss of 18 guns, 22 colors, and 8000 prisoners, including 2 general officers.

Your heroic deeds, and noble endurance of fatigue and privation, will ever be memorable. Let us return thanks to God for the mercy thus shown, and ask earnestly for its continuance.

Soldiers, your work is not over. The enemy must be pursued, and, if possible, overcome.

The courage and fortitude you have displayed renders your Commanding General confident that your future efforts will result in success.

While we mourn the loss of many gallant comrades, let us remember that the enemy must have suffered equal if not greater losses.

We shall soon receive reinforcements, which he cannot expect. Let us determine then to continue vigorously the work so well began, and under God's blessing, in a short time, the object of your labors will be accomplished.

GEO. G. MEADE, Major Gen. comdg.

☞ The N. Y. Herald's Washington dispatch says reinforcements have been sent forward to Gen. Grant's army, and the loss in killed and wounded has almost been made good by the reinforcements which have already reached the Army. Troops have been pouring through Washington from the West and elsewhere during the last few days of the past week. It is believed the number will not be less than 20,000 fresh men.

— A call has been made for all the New Jersey militia force that can be raised in 15 days. They are to serve 100 days.

NEW HAMPSHIRE ITEMS.

—— More than 27 tons of maple sugar have been made in Dublin this year.

—— The Manchester Daily Union has advanced its price, but is too cheap now.

—— Eight roses have already been plucked in full bloom from a bush in a garden at Rochester.

—— Lieut. Col. John W. Babbitt, of the 9th, has been wounded. He belongs in Keene.

—— Capt. Joseph B. Clark of Manchester is on his way home, having been wounded in the arm by a bullet and in the hip with a piece of shell.

—— "Perley" telegraphs that the N. H. Cavalry have had to serve dismounted, there being a scarcity of horses; but Lieut. Col. Hutchins was not the man to cavil at this.

—— 19 rebel prisoners, captured by the 13th N. H. regiment, near Bermuda Hundred on the 12th and 13th, have arrived at Fortress Monroe. These were the only prisoners taken, we think.

—— A man in Manchester lost his dog, which was found by another at Concord, who notified him. The Manchester man sent for him and received by return express the dog and a bill of three dollars for one week's dog board, marked "C. O. D."

—— Some mean scamp in Rochester did not wish to see the Stars and Stripes flying in token of joy at the glorious news from the army, and so he cut the staff's halliards in the night and carried them off. Wonder what his politics were?

—— The Ossipee Register says Rev. T. W. Hill, a Free Will Baptist clergyman of that town, was instantly killed in his saw mill on Wednesday, 11th inst., by falling against some part of the machinery while in motion.

—— Charles H. Leavitt, 36th Mass. regiment, was wounded last week by a rifle ball in the neck. The ball was removed and he is doing well. He was formerly clerk at the Squamscott House, in Exeter, Corp. James J. P. Moulton, Sergt. Maj. Josiah W. Taylor, and Merrick Smith, also of Exeter, are wounded,—the first two slightly; the last has lost a leg.

—— "Perley" states that when Gen. Hancock made his successful charge into the enemy's works, Gen. Burnside attacked them on their other flank, but owing to the thick woods and a desperate attack from the rebels, who had left their works to meet him, he did not accomplish much. The N. H. Ninth was the only one of the regiments in Burnside's corps which entered the rebel intrenchments.

—— Lieut. Arthur Edwin Hutchins, 11th regiment, was killed in the battles of last week. He was 25 years of age, and a native of Bath. He graduated at Dartmouth in 1857; volunteered in the autumn of 1862; was on detached service at Concord last winter as Aide-de-Camp for Gen. Hinks; and during the past two months has been temporary aid on the staff of Col. Griffin, of the Sixth regiment, now an Acting Division commander in Gen. Grant's army. It is stated that Lieut. Hutchins was killed while at the head of the brave detachment of men who recaptured Col. Harriman from the hands of the enemy.

— We have taken thus far about 12,000 prisoners.

— The wind has been easterly some part of almost every day since the 23d of April.

— The St. Louis Sanitary Fair has already $200,000 pledged to it.

— Good table butter is now selling in Portland at from 25 to 28 cents per pound.

— Fort Darling is ten miles south of Richmond,—air line.

— There can be little doubt of the death of Gen. Wadsworth.

☞ Isn't the stock of eastwind *almost* exhausted?

— Lord Lyons says he never had any correspondence with Jeff. Davis, and recent publications to that effect were forgeries.

— Gen. McDowell is to leave at once to assume command of the Department of the Pacific.

— We hope the cows are duly grateful, for they do say that this dark, misty weather is just the thing for the growth of the grass.

— The Boot-blacks in Philadelphia have given one day's earnings to the Sanitary Fair. Their good deed shines.

— Richmond papers of Saturday mention the death of J. E. B. Stuart, their most active cavalry general. He was shot in the battle with Gen. Sheridan.

— Was J. E. B. Stuart shot by his own men by mistake? That's what the rebels are apt to say of their prominent generals, when they are killed in battle.

— The Agawam has arrived at Hampton Roads, and is spoken of as having performed admirably. It is stated that she made 12 to 13 knots an hour with ease.

— The receipts of flour and grain from the West are large, and nobody's feelings will be hurt in this quarter by knowing that prices tend downward.

— Gen. Hunter has arrived in Washington from New Orleans. A dispatch states that he does not make a very satisfactory report of the military condition of Gen. Banks' Department.

NOTES OF FORMER DAYS.

Collected and Collated — By UNCLE TOBY.

More items about Louisburg in 1845.

At that period Portsmouth was a much greater part of New Hampshire than it is now; and as many families have traditions of Cape Breton and Louisburg, these old stories about them have a local interest here.

In the attempt on the island battery by four hundred volunteers from different regiments, the New Hampshire troops were very active. When it was determined to erect a battery on the light-house cliff; two companies of them (Mason's and Fernald's) were employed in that laborious service, under cover of their armed sloop; and when a proposal was made for a general assault by sea and land, colonel Moore, who had been an experienced sea commander, offered to go on board the Vigilant with his whole regiment, and lead the attack, if in case of success he might be confirmed in the command of the ship; but when this was denied, most of the men who were fit for duty, readily went on board the Princess Mary, to act as marines on that occasion.

It has been said, that this "siege was carried on in a tumultuary, random manner, resembling a Cambridge commencement." The remark is in a great measure true.—Though the business of the council of war was conducted with all the formality of a legislative assembly; though orders were issued by the general, and returns made by the officers at the several posts; yet the want of discipline was too visible in the camp. Those who were on the spot, have frequently, in after years, laughed at the recital of their own irregularities, and expressed their admiration when they reflected on the almost miraculous preservation of the army from destruction. They indeed presented a formidable front to the enemy; but the rear was a scene of confusion and frolic. While some were on duty at the trenches, others were racing, wrestling, pitching quoits, firing at marks or at birds, or running after shot from the enemy's guns, for which they received a bounty, and the shot were sent back to the city. The ground was so uneven and the people so scattered, that the French could form no estimate of their numbers; nor could they learn it from the prisoners, taken at the Island battery, who on their examination, as if by previous agreement, represented the number to be vastly greater than it was. The garrison of Louisburg had been so mutinous before the siege, that the officers could not trust the men to make a sortie, lest they should desert; had they been united and acted with vigor, the camp might have been surprised and many of the people destroyed.

Much has been ascribed, and much is justly due to the activity and vigilance of Commodore Warren, and the ships under his command; much is also due to the vigor and perseverance of the land forces, and the success was doubtless owing, under God, to the joint efforts of both. Something of policy, as well as bravery, is generally necessary in such undertakings; and there was one piece of management, which, though not mentioned by any historian, yet greatly contributed to the surrender of the city.

The capture of the Vigilant, a French sixty-four gun ship, commanded by the Marquis de la Maison forte, and richly laden with military stores for the relief of the garrison, was one of the most capital exploits performed by the navy. This ship had been anxiously expected by the French; and it was thought that the news of her capture, if properly communicated to them, might produce a good effect; but how to do it was the question. At length, the commodore hit on this expedient, which he proposed to the general, who approved, and put it into execution. In a skirmish on the island, with a party of French and Indians, some English prisoners had been taken by them and used with cruelty.—This circumstance was made known to the marquis, and he was requested to go on board of all the ships in the bay where French prisoners were confined, and observe the condition in which they were kept. He did so, and was well satisfied with their fare and accommodations. He was then desired to write to the governor of the city, and inform him how well the French prisoners were treated, and to request the like favor for the English prisoners. The humane marquis readily consented, and the letter was sent the next day by a flag, intrusted to the care of Captain Macdonald. He was carried before the governor and his chief officers; and by pretending not to understand their language, he had the advantage of listening to their discourse; by which he found, that they had not before heard of the capture of the Vigilant, and that the news of it, under the hand of her late commander, threw them into perturbation. This event, with the erection of a battery on the high cliff at the light house, under the direction of lieutenant colonel Gridley, by which the island battery was much annoyed, and the preparations which were evidently making for a general assault, determined Duchambon to surrender; and accordingly, in a few days he capitulated.

Upon entering the fortress and viewing its strength, and the plenty and variety of its means of defence, the stoutest hearts were appalled, and the impracticability of carrying it by assault, was fully demonstrated.

— The surgical report from the headquarters of the army states that the condition of the supplies is satisfactory, and the sufferers are doing well. The Medical Director at Belle Plain reports everything at that point as satisfactory. The surgical arrangements have never been so complete as now.

— Gen. Lee, on Friday morning, sent a flag of truce asking 24 hours to bury his dead. Gen. Grant replied that Lee need give himself no concern on that point, as he had plenty of men and would see that they were properly buried; at the same he begged that Gen. Lee would not allow any consideration of the kind to interfere with his contemplated movements.

Correspondence of the Chronicle.

U. S. STEAMER SASSACUS,
ALBEMARLE SOUND, May 8, 1864.

Thinking it might interest your readers, I send you an account of one of the fiercest naval engagements that has happened in these waters since the war began—in which the Sassacus, built at Portsmouth, took the brunt. The knowledge of an iron-clad ram, "not inferior to the Merrimac," was confirmed by the capture of Plymouth, on the Roanoke river, the destruction of the U. S. steamer Southfield, and the capture of the Army steamer Bombshell, etc., the Miami barely escaping with the loss of her Captain, "Flusser." The news of these mishaps brought down a fleet of double-enders, namely the Mattabesett, Sassacus, Wyalusing, etc., besides the small fry, doing picket duty.

On Thursday, the 5th, a fine, calm, sultry day, at 3 P. M., the flag-ship signalled for the fleet to get under way, the Mattabesett taking the lead, the Sassacus and Wyalusing following in order of battle, and the picket boats Com. Hull, Whitehead, Seymour, Ceres, Massasoit and Rockland hovering near. In this manner we kept up the Sound, making for the entrance of the Roanoke. The picket boats kept going and coming with news to the flag-ship, which signaled at 4 P. M., "Prepare for Action." This was hailed with the wildest enthusiasm. Magazines were thrown open, guns cast loose, shot whipped up and small arms distributed. At the same time the dreaded ram Albemarle hove in sight, accompanied by two Confederate steamers—the Cotton Planter and the captured Bombshell, driving the Miami and picket boats down before them. The Cotton Plant not having faith in her own abilities, at sight of us turned and skedaddled at a double quick, followed by a parting cheer as we steamed to the attack, 13 knots to the ram's 4 or 5. The flag-ship at a distance of three cables' length poured in her broadside,—our vessel and the Wyalusing following suit, and the rebel ram returning with shot and shell. We then went about, and again delivered our fire, the 100 pound shot breaking and rebounding from her sides in every direction—the only acknowledgement being a dense volume of smoke, evidently caused by the concussion.

As our vessel steamed past, the Bombshell impudently fired at us, and we gave her a broadside, fairly riddling her. Down came the Confederate rag, and up went the white flag. We told her to fall to the rear and anchor, which she did. We went about, gathered headway, and struck the ram full tilt, (reversing the order of things—the wooden boat doing the ramming). We struck him abeam, settling him down to the water's edge, and smashing our prow. The Albemarle, swinging round under our starboard bow, opened her forward port and planted a 100-pound shot into us, which passed through the Yeoman's room, across the berth deck, and out of the port side, forward the beam. This we returned with a shot right in her port, which was shut down with a savage snap. By this time she got under our wheel, opened her after port, and drove another shot into us. This last swerved at a knee, passed through the dispensary, coal bunker, boiler, then cut off a three-inch iron stanchion, passed through the steerage pantry, making sad havoc with our crockery, on through the magazine screen and dropped in a stateroom. The effect of this shot was terrific: 15 or 17 firemen were fearfully scalded, including Mr. Hobby, 1st Asst., and one man instantly killed. Two died soon after, and one or two more are sinking fast. The scene on the berth deck was beyond description: few of the powder division had been under fire, and under the impression that the boiler had blown up and the ship was sinking, they made a rush for the hatch, but were ordered back, when they lay down close to the deck, and continued passing powder to the close of the fight.—Our Surgeon and his assistants did all in their power for our poor fellows as they came below, shrieking for help and water, while the heavy volume of scalding steam almost drove us up.

During this time our gallant Commander and his officers were not idle. Shot and musketry poured into the ram. His flag was shot away, while charges of powder and hand grenades rained on him from the tops as he steamed slowly away, from our crippled but uncontquered vessel. The other vessels now closed in upon him, keeping up a running fight till dark, when he escaped in a shattered condition up the Roanoke river. Our losses in killed and wounded are heavy, but I have not the exact figures. By the prompt exertions of our Engineers and gallant firemen, the fires were drawn from under the remaining boiler, thereby preventing an explosion.

The following is a list of the officers attached to the Sassacus at this date:

Lieut. Commander F. A. Roe.
A. W. Maulsaur—Act'g Master and Ex. Officer.
Edgar Holden—Assistant Surgeon.
Geo. D. Barton—Assistant Paymaster.
C. A Boutelle—Sailing Master.
W. H. Mayer, August Adler, E. A. Sawyer—Acting Ensigns.
Neil Marin—Gunner.
Edward H. Schmidt, Henry W. O'Hara, J. D. Marble, J. S. O'Brien—Act'g Master's Mates.
J. M. Hobby—First Ass't Engineer.
J. W. Huxley, R. N. Ellis, O. W. Allison, D. W. Graley—Third Ass't Engineers.
Gustave Beloff—Paymaster's Clerk.

We captured 34 prisoners, 5 officers and 23 men in the Bombshell. E. H. S.

The N. Y. Herald's correspondent gives the following list of the casualties on board the Sassacus:

Killed—Thomas Johnson, coalheaver.
Wounded—Thomas Welch, first class fireman, mortally and scalded, since died; Ewd Clayton, seaman, severely; John Lang, captain of the after guard; Wm. W. McKay, carpenter's mate; George Simms, captain's steward.
Scalded—James M. Hobby, chief engineer, severely; G. H. Doyle, William Sutherland (since died), first class firemen; Edward Kelley, James Murray, Oliver H. Merritt, Charles White, second class firemen, all severely; John English, Eugene Sullivan, seriously; Thomas W. Smith, seaman.
Concussion—Wm. H. Mayer, Edward Sawyer, acting ensigns.

Special Notice to Wounded Soldiers.

The Bounty of $100, due to soldiers discharged for wounds received in battle, will be paid by presenting a Discharge at the U. S. Army Agency, No. 64 Bleecker street, opposite Pay Department. The editorial statement in the New York Sun, under date of 14th and 15th inst., also the advertisement of the so called Productive War Claim Association, No. 55 Chambers st., that these Bounties are not being collected and paid as advertised, is false, and either shows their ignorance of their business, or a willingness to impute to others that which they would seem to be most guilty of themselves, viz: attempting to impose upon the poor wounded soldiers.

All such claims on file in that office, should be at once withdrawn and presented to this office.

"A Slight Cold," Coughs.

Few are aware of the importance of checking a Cough or "slight cold" in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs. "*Brown's Bronchial Troches,*" give sure and almost immediate relief. Military Officers and Soldiers should have them, as they can be carried in the pocket and taken as occasion requires.

☞ Mr. Wm. G. Smith, who is an agent for Mitchell's New General Atlas, is now in Portsmouth, for the sale of that valuable work, and is stopping at the Franklin House. The work is Mitchell's New General Atlas, containing Maps of the various Countries of the World, Plans of Cities, &c., embraced in 53 large sized quarto Maps, forming a series of 84 Maps and Plans, together with valuable statistical tables. Among these tables are lists of post offices in the United States and Canada; Population of the U. S. by Counties, in 1850 and 1860; Populations and Governments of the Countries of the World, &c. This Atlas is got up in the best style of engraving, printing, paper and binding, making an ornamental volume for the parlor, and a useful one in every place where intelligent people wish to understand what they read about in papers or books that speak of passing events in war, commerce and government. The agent is to spend a few days here, in offering the Atlas to our citizens. Any whom he may not see, can procure it by calling on him as above.

☞ We learn that orders have been received to launch the U. S. steam frigate Franklin, at the Portsmouth Navy Yard, and work upon her will be commenced immediately. Her machinery is rapidly approaching completion, and will probably be finished before the vessel can be made ready for it.

☞ Gov. Gilmore has commissioned Hon. Horton D. Walker, of this city, to go out to Washington and beyond, to aid our sick and wounded soldiers. He will leave this morning, with Rev. Mr. Patterson, who goes out on a similar errand.

☞ The Middle street Baptist Society on Sunday contributed, for the benefit of our soldiers, $242.24 to the Christian Commission.

The amount appropriated by the Universalist Society has been increased from $100 to $200.

☞ The Draft in this District for the towns which have not yet filled their quotas is to be made to-day, at the Provost Marshal's office in this city, commencing at 10 o'clock.

☞ Acting Master Charles E. Hawkins has been detached from the Portsmouth Navy Yard, and ordered to the sloop-of-war Vandalia.

☞ Mr. Joy's *Evening* Singing School begins this evening: (see advertisement.) We understand that his juvenile class numbers ninety.

☞ We have received from Mr. L. V. Newell, now at Point Lookout, Md., a copy of a very nice photograph taken by him, of Henry A. Burnham, Co. E, 5th N H. V., (a native of Vermont,) who was shot May 9th for desertion several times. He was rather a handsome man, and made a very long and contrite, but rather strange speech, at his death; which he met with fortitude and composure, and he said with contentment. Mr. Newell also took a photograph of the scene at the execution.

☞ We are very much obliged to Mr. Charles Main, of San Francisco, for sending up a copy of an "Address before the First Unitarian Society of San Francisco, in memory of Rev. Starr King, March 15, 1864, by Robert B. Swain," one of the trustees of the church. It was printed by request, in pamphlet form; and is an exceedingly interesting paper to any christian reader, and especially so to all who were acquainted with or interested in the eminent subject of it—whose loss the whole nation unites in mourning. We may give some extracts from the address hereafter.

☞ Three Spanish war vessels have taken possession of the Chincha Islands, hoisted the Spanish flag, made prisoners of the Governor and other officials, and captured a Peruvian transport, with her officers. The Spanish fleet proceeded to Callao, to surprise the Peruvian squadron, but failed.

— The 5th corps lost but 800, instead of 2000, in their unsuccessful attempt to carry the enemy's works on Thursday.

— A letter from Covington, Ky., says "the proudest and happiest man in the Union is the father of Gen. Grant, who resides in our city."

— All the prisoners taken on Friday say the rebels are on quarter rations, and without hope of receiving any from Richmond or Lynchburg.

— The Russian fleet, now near Fortress Monroe, is expected to visit Boston very soon. Pilots have gone to take charge of them.

— Late rebel papers are reported to be extremely doleful, and to mourn grievously over the great success of Gens. Averill and Sheridan.

— The rebel Maj. Gen. Johnson says Lee told his generals that he would give Gen. Grant three days to get out of the Wilderness, back to the north side of the Rapidan. Gen. Grant, though doubtless much obliged, preferred not to avail himself of the three days grace.

— It is reported that the U. S. barque Kingfisher was wrecked in Helena Sound while on the blockade. She became incrusted with barnacles and failed to obey the helm, and was blown ashore. The crew and guns were saved.

SUMMER CARPETING.—*Twenty Per Cent. Saved.* Just received at the "New York Carpet Company," Hanover street, Boston, by the "Hamilla Mitchell, from Canton, a fresh lot (made from new grass) of the celebrated "B. F. W." brand of Matting, imported by Mr. White, for Drawing Rooms and other apartments, in Plain White, Red Check, Fancy and variegated Colors. Some of the patterns are entirely new and are truly beautiful. Also, a small importation of Calcutta Matting, in breadths (a new article), and the first and only lot ever imported. The above goods are for sale by the piece or yard, *twenty per cent.* less than retail rates, by R. B. Wentworth & Co., 107 Hanover street, Boston.

SOLDIERS' SPECIAL NOTICE.—Do your duty to yourselves, protect your health, use Holloway's Pills and Ointment. For wounds, sores, bowel complaints and fevers, they are a perfect safeguard. Full directions how to use them with every box.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 55 cents, 88 cents, and $1.40 per box or pot. 210

"Be thou chaste as ice and as pure as snow, thou shalt not escape using unhealthy compounds in your food," was a true maxim, until Herrick Allen's Gold Medal Saleratus came to our relief. Since using it, we feel that there is one article in the way of Saleratus that all can use with healthy results. We have almost cured our dyspepsia, and thanks to the Gold Medal Saleratus for it. Try it, and you will say with us, that perfection has been obtained, and the inventor has immortalized his name forever. Most of the Merchants have it.

ROOM PAPERS!

Have Room Papers Advanced in Price, like other things!

J. F. SHORES, Jr.,
No. 1 Congress Block

Is often asked this question; and would answer that he still sells

ROOM PAPERS at eight cents per roll,
ROOM PAPERS at nine cents per roll,
ROOM PAPERS at ten cents per roll,
ROOM PAPERS at twelve and a half cts. p. roll.

These are not of so good quality as were formerly sold at those prices—still they are very fair.

Twelve and a half Cent Papers have advanced to Seventeen Cents.
Twenty-Five Cent Papers to Thirty Cents.
Thirty-three Cent Papers to Thirty-Eight Cents.
Fifty Cent Papers to Sixty-Two Cents.
One Dollar Papers to One Dollar and Twelve Cents.
One Dollar and Twenty-Five Cent Papers to One Dollar and Forty-Two Cents.

Common, Velvet and Velvet and Gold BORDERS.

HAVE NOT ADVANCED!
GREEN CURTAIN PAPER
Is still sold at the old price.

THUS, FRIENDS and CUSTOMERS, you have an answer to the query above—
Room Papers have not advanced as other goods have.

☞ Remember, this is the answer of

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!

This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the most economical the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so recuperative as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.

They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.

The rich will have it because IT IS THE BEST. All other classes will have it on account of it being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in under-bedding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!

These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—
Mr. J. C. LANGLEY, Conductor C. & P. R. R.
Mr. WM. CONN, Mail Agent C. & P. Railroad.
Mr. E. A. STEVENS, House Furnishing Dealer.
Mr. O. A. FROST, City Hotel.
Mr. W. E. HADLEY, Rockingham House.
Mr. WM. S. RADLEY, Piscataqua House.

These BED-BOTTOMS may be had of **E. M. BROWN & CO.,** Agents for Portsmouth and Newington, at their store, **No. 35 Market Street,** where samples may be seen; and of W. F. BENNETT, Agent for Greenland.

MEXICO, ROME AND NAPOLEON.—A paper has just been translated and published in this country from the Vienna "*Presse*," which gives intelligence to be treasured up for the day when *action* may become absolutely necessary. At present we have other indispensable work on hand. The article says, unreservedly, that "the Mexican Monarchy is intended, not only to act against the Anglo Saxon race, and the *democratic ideas of Northern America*, but also against *American Protestantism*; and hence the enthusiasm of the *clerical party* in both hemispheres." Rome, it says, anticipates great advantages, and has sent the Roman Minister of War to reside there as the Pope's Nuncio. Great concessions, it continues, have been made to France, as the ally of Rome, as well as the *Protector* of the new Empire.

With these ends and objects in view, some of the European powers are taken *all aback* by the recent unanimous expression of the American House of Representatives, that the idea of a despotic monarchy being established on our very borders, is, to say the least, not a very *pleasant* occurrence. It is remarkable that the French official paper, the *Moniteur*, has studiously excluded the proceedings, and of course all comment.

While Napoleon, it may be, did not choose to risk an open acknowledgement of Southern independence, the conquest and establishment of a French protected empire on the south-western border, might in a different way accomplish the same object. Let our home difficulties be speedily settled, as we hope they may be, and it will be a difficult matter to keep 200,000 Anglo-Saxons *out of Mexico!*

The Circuit Court of the United States commenced its session in this city last Monday: present Hon. NATHAN CLIFFORD and Hon. MATTHEW HARVEY, Judges of the Court.

Much important business has been transacted, of which we give a brief synopsis:

The Grand Jury remained in session till Wednesday afternoon. Forty-one witnesses were examined before them, and indictments were returned against the following persons:

James McGlynn and Alexander Chirnes for attempting to procure and entice soldiers to desert. Defts. did not appear and their recognizance was forfeited.

H. W. Green, for making a false affidavit to escape the draft. Questions of law as to the sufficiency of the indictment were raised, and the cause continued.* *Rand for U. S., Foster for Deft.*

Wm. Harrington, Charles Tulley and Felix Cleary, for enticing and procuring Wm. Roch, a soldier, to desert. Defts. did not appear and their recognizance was forfeited.

Nicholas T. Stillings for attempting to procure a pension for one Patience Cottle by false and fraudulent papers, under the assumed name of Patience Stanton. The case was continued for trial. *Rand for the U. S., Christie for defts.*

Jos. Perkins, Paul Perkins and Joseph Dearborn, for advising and aiding their son and brother, being drafted, to avoid the military service of the United States. The case was continued for trial until the October term. It will be recollected, that these persons were examined last December before Commissioner Hackett, under the charge of making a riot and forcibly resisting the draft and assaulting the enrolling officers in Jackson, and were bound over to answer to that charge. But upon this complaint the Grand Jury did not indict them.

Charles Davis, who was indicted at the last term for aiding a soldier at Concord to desert, was again tried, the jury having failed to agree at the former trial. He was convicted, and sentenced to six months imprisonment in the common jail at Exeter and to pay a fine of $1.00.

COL. WILKES.—It is certainly a singular circumstance to be revealed, that Commodore Wilkes, the Commander of the Discovery expedition several years ago, and the man who seized Mason and Slidell, the rebel Commissioners to England and France, has been found guilty by a Naval Court Martial of five charges, *preferred by the Secretary of the Navy*,—of disobedience to lawful orders, insubordination, disrespectful language to the Secretary, and conduct unbecoming an officer; and sentenced to be publicly reprimanded and suspended from duty for a term of three years. The Commodore, it would seem, must have supposed he had grievous wrongs to endure, and was ready to endure any consequences of a violation of strict Naval rules.

Mr. Everett acknowledges, up to the present time, the receipt of $91,612,12 for the relief of the loyal people of East Tennessee.

Mr. Everett publicly acknowledges the receipt of $150 from "a few individuals in the North Parish, of Portsmouth," and $26 from "E. P. N." of Portsmouth.

SOUTHERN VIEWS.—In relation to Fort Pillow, the Richmond Examiner says, "Repeat Fort Pillow, repeat Fort Plymouth a few times, and we shall bring the Yankees to their senses!" Again, "If we hold our own in Virginia until summer is ended, the North's power of mischief everywhere will be gone. If we lose, the *South's capacity for resistance is broken.*"

"PUBLIC," one of the Boston Journal correspondents, says that "previous to 1857, the entire cost of efforts to build up the great branch of woolen industry, had been sunk." Under the present tariff there have been added about a thousand sets of machinery, at a cost of fourteen millions—consuming every pound of wool raised, and 50 millions of pounds of coarser imported.

"CASSIUS," another correspondent, rejoices in the view of justice to the colored soldiers, which public opinion is compelling Congress to award—placing them in all respects on equal terms with others, and so *giving them a country.*

OUR COTTON IN ENGLAND, as per last arrivals, is selling at from 27 to 30 pennies per lb., (say 45 to 50 cts.,) much below the quoted prices here!

MR. BROWNSON is making himself so conspicuous for political changes, as he has been, all his life, in theological. He is now out in disparaging the President, and trying to resuscitate Gen. McClellan and John Fitz Porter! "New views," in religion may be next announced.

Constitution Life Syrup
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y.
Formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York Board of Health, author, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, to those many diseases hitherto considered hopelessly incurable are now proved to be within a few days or weeks, we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are invited to use Constitution Life Syrup.

During the past five years we have concentrated with unexampled success the conditions as herein lean as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt "Your permanent cures," and think the disease only be cared by the "slow recuperative process of Nature." This is our reply:

In health, the body, like a well adjusted scale, is in a state of perfect balance. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the equilibrium of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all hereditary DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the second stage of Paralysis, that we feel we do not entreate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stom'h, Biliousness, Want of Appetite, Flatulence, Sick Headache.

Scrofula.

Strumous, Glandular Swellings, Ulcerations, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis, Neuralgia, Gout, Lumbago, Sciatica, The Dolorous.

If there is any disease in which the Constitution Life Syrup is a specific, it is in Rheumatism. Hundreds of inveterate cases. The most intense pains are almost instantly alleviated—enormous swellings are reduced. We have cured cases of from 20 or 30 years standing, have been cared by us.

Nervousness

Nervous Debility, Confusion of Thought, Forgetfulness, Loss of Power, Shattered Nerves, Bad Dreams.

Thousands who have suffered for years with these fearful and prostrating symptoms, that particularly to weak, nervous women will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Fetting of Weariness, Nitting of Bones, Bad Complexion, Ulcerations of Throat and Tongue.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the fetid breath, and curing the Weak Joints and Shattered Nerves, which the use of Mercury is sure to produce. It hardens spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup

Eradicates root and branch, all Eruptive Diseases, such as Tetter, Ringworm, Itch,

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome discharging sores. Which disfigure so much of the younger portion of the community, from six to twenty years of age. Young children are very subject to these affections, but have no fear, they can be cured upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease lies in the blood, and Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body may be successfully removed without resorting to the knife or operations of any kind.

Inflexible Joints, Rheumatic or Gouty Diseases of the Joints, Affections, Diseases of Valves—producing a grating or filing sound; Dropsy of the Heart Case and all the affections of this important organ, Palpitation, Fluttering, Intermittent pain in the region of the heart, will be greatly relieved by Constitution Life syrup.

Broken Down and Delicate Constitutions,

Suffering from Indigestion in Extreme, Pain in the Back, Dizziness, Weak Stomach, Nervous Debility, Fear of Disease, Dimness of Vision, Dry Hot Skin and Extremities, Want of Sleep, Restlessness, Pale Bloated Countenance, Loss of Power, Lassitude, and all such cases, all require the aid of the CONSTITUTION LIFE SYRUP.

Female Diseases, Leucorrhœa.

For all forms of Female Diseases, Leucorrhœa or of the Uterus, Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.

MOTHERS PARCHES upon the bloom, the pensive and delicate constitution of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life syrup will correct the disease, and remove the deposits which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, costiveness or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, Life Syrup has proved by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, so usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenances, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the first symptoms are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES.—It is the nature and object of Female Medicines—discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and danger, and increases quantity of the food—those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is recommended in those cases of Diabetes, Bloody Urine in females where all the old numerous nostrums have failed.

It is prepared in a highly concentrated form, the dose being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying the blood, making the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Whites, Ulcerations, Inflammation, &c., &c., in a word, for all cases where healing, soothing and demulcent, stopping all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and soft iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as the MAGEE TAYLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other stove, as hundreds of families in this city and vicinity can testify to the use of the Magee, are willing to testify, and speak of them in the highest terms of praise.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacturers, would say that this Furnace, would see those about remodeling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, most and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given quantity of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, and effects from 20 per cent. of the properties of the best in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the coal can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.

And would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Meadum,
Henry F. Wendell,	John Sise, and others.

Gray's Patent Molded Collars
Have now been before the public for nearly a year. They are universally pronounced the neatest and best fitting collars extant.
The upper edge presents a perfect curve, free from all angles or bulging of the lower collars.
The cravat causes no puckers on the inside of the turn-down collar—they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.
The Garotte Collar has a smooth and evenly finished edge on BOTH SIDES.
These Collars are made in two styles, the first pieces of paper cut in the form of a collar, but are MOLDED AND SHAPED TO FIT THE NECK.
They are made in the "Novelty" (or turn-down) style, in every half size from 12 to 17 inches, and in "Eureka" (Garotte), from 13 to 17 inches; and packed in "solid sizes" in neat blue boxes, containing 100 each; also in smaller ones of 10 each, the latter a very handy package for Travellers, Army and Navy Officers.
☞ EVERY COLLAR is stamped
"Gray's Patent Molded Collar."

FROM RICHMOND.—A gentleman reached New York Wednesday afternoon who left Richmond Sunday, the 8th inst. He has long resided and is well known there, and has remained all through the war, being exempt from conscription for physical causes. The following facts are gathered from conversation with him:—

The general impression among the citizens was that there was no danger of the capture of Richmond. In this feeling our informant did not participate; but, thinking it very probable the city would be besieged and shelled, if not captured, he determined to leave.

Being well known, he had no difficulty in obtaining a pass to go with a mule and cart to the residence of a near relative in New Kent county, some twelve or fifteen miles east of Richmond, to bring in a load of bacon. He attended church as usual, at St. Paul's, on Sunday morning, and heard a sermon from the pastor, the Rev. Dr. Minnegarode, from the text, (taken from the first morning lesson for that day), Joel, second chapter and twentieth verse:—"I will remove far from you the Northern army." He says President Davis was present, but not Mrs. Davis. The President was clad in deep mourning and looked more sad and depressed than usual, owing, as he supposes, to the recent death of a favorite child.

He left his boarding house about two P. M., and as he passed out of the city, passed a large number of Federal prisoners who had just arrived, captured in the battles of Thursday previous. It was stated to him there were two thousand of them, and that they were largely from Massachusetts. He reached his destination about sunset, and aided in loading up his bacon. He then gave the cart and pass to a negro servant of the family, who returned with it to Richmond—he saying he should stay a few days there.

He purchased a mule, and remaining with his friends till dark, made for the James river, being piloted part of the way by a slave who knew all the roads, and having had minute directions given him as to the pickets and camps of the rebels.

He reached the river at three o'clock on Monday morning, without molestation, and gave his mule to a negro to row him out into the stream in a punt. He was picked up by a returning transport and landed at Fortress Monroe, whence he made his way to New York.

He says Butler's movements were not half so much dreaded as Grant's. That the general belief was Lee would leave a part of his forces in his intrenchments behind the South Anna, who could easily hold Grant at bay, while with the rest he could easily fall on Butler and annihilate him with the assistance of Beauregard and Hoke, and thus with the three commands combined, return to assail Grant once more.

☞ A letter received from on board the U. S. war steamer Kearsarge, Capt. Winslow, states that she was hurried from Ostend two days after her arrival, by a report that the Rappahannock, taking advantage of the Kearsarge's accident, was about sailing, and had arrived off Calais on the 22d ult. The Kearsarge sustained no damage by her accident at Ostend, though she broke through the pier, carrying away the bridge, and was left high and dry. The Rappahannock was reported to have been sold, and her colors changed to Dutch. The pilot who ran the Kearsarge into the pier was to be dismissed for incompetency.

THE IMMENSE POPULARITY OF THE
California Wines
introduced by us, is a flattering tribute to their purity and delicacy, and a cheering indication of a desire among the people to encourage
American Industry.
The Surgeon General of the United States, after an analysis of our Wines, reports them to be pure.
Dr Charles T. Jackson, State Assayer, who is the most undoubted authority, after an analysis of our Port Wines, says:—"The dulce ounce leaves fifty-four grains of solid matter, consisting WHOLLY of the fixed principles of grapes. I find no adulterating ingredients, and consider it suitable for medicinal and general use."
The Boston Traveller says:—"The California Hock or Hock Wine rivals in flavor the best of Hock Wines, and costs much less."
The Saturday Evening Gazette says:—"The White Wine is equal to the Stein or light wines which we import, with a fine and rich flavor, and we believe its purity unquestionable."
Hon. John G. Downey, late Governor of California, says:—"I most cheerfully recommend our Wines to all who desire a pure juice of the grape."
The New York Commercial Advertiser says:—"The wines have a fine flavor, and need only to be tasted to be approved."
The Boston Transcript says:—"The White Wine is equal to the best Hock."
The New York Tribune says:—"The 'Angelica' has a rich and delicious flavor, unsurpassed by any Wines in the market."

Facts for the People.
The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

French Roll Pans.
A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.
These pans are greatly in demand for baking the New Bread, about which so much stir is being made.
This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.
The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.
Every housekeeper should have one.

WEDNESDAY, MAY 18, 1864.

THE REBELLION.

Gen. Sherman has compelled the rebels to evacuate Resaca, and is in pursuit of them. The enemy's railroad communication with Atlanta has been destroyed. McPherson is reported to have captured on the 13th nine rebel trains below Resaca, laden with various military stores from Dalton.

Gen. Sherman captured 1000 prisoners and 8 guns at Resaca. Johnston is said to be retreating toward Atlanta. There has been some fighting between detached portions of the two commands, resulting to our advantage.

A Richmond paper has a doubtful story that Gen Steele surrendered to Dick Taylor, April 28. In fact, we have advices from him to May 7, when he was safe at Little Rock, Ark.

A letter from Little Rock says Gen. Steele praises the valor of the negro troops in his command. During his retreat from Camden, Ark., the 1st Kansas (colored) regiment captured a rebel battery of four guns. They neither ask nor give quarter.

A steamer from Port Royal reports that when she was passing Charleston, a heavy engagement was going on between our fleet and batteries and the rebel forts. All the monitors and the New Ironsides were engaged. Fort Putnam on Gregg's Island was directing her fire chiefly on Sumter. The contest was spirited, and seemed a general as has transpired since last August and several of her crew were drowned.

THE VIRGINIA CAMPAIGN.

On Monday afternoon Lee occupied a strongly intrenched position between the Po and Ny rivers. It is believed in our army that he has been considerably reinforced. Gen. Warren's corps has taken a position which covers the road to Fredericksburg, and thus will prevent any raid in Grant's rear. Reinforcements for our army are arriving every day, and are assigned to those brigades which have suffered most. A dispatch from Gen. Grant, on Monday morning, states that offensive operations have been suspended by the impassable condition of the roads.

Gen. Butler's siege of Fort Darling is progressing. He commands in person.—On Saturday morning at daylight Gen. Burnham's brigade charged on the enemy's works at Proctois creek, and carried the entire line, section by section. The enemy fell back to a line of heavy earthworks next the Fort, and at 10 o'clock our batteries opened on them. The enemy replied until 2 P. M., when our batteries and sharpshooters silenced them. Our batteries continued until sundown. At 4 o'clock a shell exploded the magazine of Fort Darling. At 9 o'clock in the evening, the enemy advanced upon our lines near the Petersburg turnpike. A sharp musketry engagement ensued, resulting in the enemy being driven back to their breastworks. At noon on Sunday the rebels came out of their fortifications and attacked Heckman's brigade. The fight, which was altogether with musketry, lasted until 4 o'clock, when the rebels were driven back to their works. In the evening the rebel iron-clad Richmond came down, and opened fire on our fleet, but the Monitors drove her back. At daylight on Monday the rebels again came out of their earthworks and attacked our right wing. Our artillery opened on them, driving them back to their fortifications with heavy loss. Our loss was slight, our troops being under cover.

There are various items of interest relative to last week's operations, but nothing of importance in addition to what we have already given. On Saturday forenoon both armies were quietly digging within 400 yards of each other, the troops being too weary to waste their strength picket firing. On the left, however, there was considerable fighting, the enemy holding a house across the Ny river, a commanding and dangerous position, which it was best for us to hold. So a charge was made up the hill, and after a lively engagement it was taken. In the afternoon Gens. Meade and Wright entered this house and sat down for a short conference, when the rebels re-appeared, and the Generals had just time to rush out the rear doors, mount their horses and escape. A lively fight ensued, and our troops were forced down the hill; but subsequently the hill was retaken. It is said that the rebels, while they held possession of the house and grounds, behaved toward our dead and wounded with remarkable barbarity. They were driven back into their entrenchments. During the night, our army again changed position toward the left, the 5th corps taking a position on the right, which they failed to obtain in the evening.—Gen. Sheridan captured two pieces of artillery from the outer line of the defences at Richmond, and brought them off. His heaviest fighting occurred 6 miles from Richmond, inside the enemy's defences. Bragg commanded the rebels, and the fight lasted all day.—The N. Y. World's correspondent states that Beauregard slipped around Butler on Tuesday, and has reached Richmond.

NEW HAMPSHIRE ITEMS.

—— Maj. Ainsworth, of the 4th N. H. regiment, was wounded in the attack on Fort Darling, on the 14th.

—— The 1st Congregational Society in Exeter on Sunday afternoon subscribed about $300 for the sick and wounded soldiers.

—— Maj. Randlett, of Nashua, 3d N. H. regiment, has been wounded, in the attack on Fort Darling; and Capt. Ely, Co. F, same regiment, killed.

—— A monument is in course of construction in Concord for the Sprague family. It is to be of the famous Concord granite, and an elaborate and beautiful piece of work. It is to be about 23 feet in height, and is to be erected in a cemetery in or near Providence. It was ordered by Senator Sprague, and is to be commemorative of the family.

—— The News Letter tells how a hard working man in Exeter, himself his own worst enemy, a few days since went to Jerico (a locality too well known to some citizens of that pleasant town,) where he fell among thieves, who relieved him of his wallet, containing about forty dollars. The next morning, when he came to a realizing sense of what had happened, he discovered his pantaloons pocket completely cut out.—No trace of the money has yet been discovered.

—— Gov. Gilmore received the following dispatch from Hon. Edward H. Rollins, Monday afternoon, from Washington:

We have direct intelligence from Fredericksburg as follows: Lieut. Col. Babbitt, of Keene, of the 9th regiment, is wounded in the right thigh. Maj. Geo. H. Chandler, of Concord, of the same regiment, has received a severe wound in the right leg, but it is not dangerous. Both are cheerful. Adj. C. R. Morrison of the same regiment is wounded in the abdomen—not fatal. Lieut. J. E. Cram of Co. B, 11th regiment, has received a flesh wound in the leg; Lewis Burns, F, flesh wounds in both legs; Samuel Wilson, I, right leg; Merrill Johnson, B, right thigh; John Wilson, B, right shoulder; Sergt. J. E. Richardson, K, 6th regiment, badly; Isaac S. Hill, D, 9th regiment, jaw, severe; Sergt. Frank L. Gray, E, 6th regiment, wounded badly in the jaw, also hit in the left shoulder; J. O. Smith, color bearer, 6th, face, slight; James Harrison, F, 6th, flesh wound in the left leg; Thomas Williamson, C, 6th, in thigh; Thomas M. Richards, F, 11th, right arm and left thigh; E. S. Tyler, H, 11th, flesh wound in arm. All the wounded are well cared for.

☞ In Cincinnati a sight was seen passing up Vine street recently. In the middle of the street a boy in tattered clothes, leading a blind horse, on whose back were a feather bed and clothing, all the wardrobe of a family of six, surmounted by the youngest, a boy of six summers. On the sidewalk followed an old woman, sick and tired out, and three daughters, mostly full grown. They were seeking the Refugee Relief, where they were found half an hour later. They had traveled in this way from Owen county, Kentucky, seeking more loyal and hospitable neighbors. The firemen gave the poor horse a supper of oats: a Main street auctioneer took the little boy to a shoe-store, and relieved his sore feet of the dilapidated clogs that crippled his walk, by fitting him with a good pair of shoes, and giving him also a new cap. As the little fellow began to feel comfortable in his new outfit, he looked around inquiringly and said, "I wonder if they have any jewsharps here?" The kind-hearted giver was rewarded for his trouble. The whole family remained at the Relief for a few days, until employment was found for them.

A PRETTY PROPOSITION.—Some shabby fellows who do not properly appreciate the sex, and who are too penurious to dress them according to their merits, have got up a movement for the ladies to discard silks and laces and arrange themselves in homespun. We oppose this altogether. The ladies are the only good thing left to us in the common demoralization which abounds, and we want them to be happy and to look fine. If there is to be any retrenchment, let it be among the men, and be practised in advance of the ladies for at least a year. We are ready for this movement; ready to adopt shoddy and cut off cigars, but not to reduce the attractions of the ladies in the least. A pretty idea, indeed, that the ladies, who had nothing to do with bringing on the war, should be first to lead off in self-sacrifices! Ladies, did you ever? *Wilkes' Spirit.*

☞ Last week a person from Baltimore, temporarily residing in Boston, invited five friends to dinner at the house of a female relation. On going to the dinner table the party found the rebel flag topping a piece of ornamental pastry, in the centre of the festive board. The insult was noticed before the guests were seated, and, as it appeared, by all of them nearly at the same moment. Not a word was spoken, but every man left as by a mutual impulse, and the Baltimore secessionist had leave to dine alone. Next morning he was waited upon for an explanation of his misconduct, but his discretion prompted him to take the first westward train for home.

☞ A Union expedition up the Rappahannock and Piankatank rivers on the 11th broke up a party of rebels who were engaged in placing torpedoes to blow up our gunboats, killing 10 of the rebels including their leader, capturing 20, and wounding a number. Four torpedoes were exploded, and six others got out of the river unharmed.

CHIPS—HEWN AND GATHERED.

— Gen. Butler is being reinforced.

— Meyerbeer, the composer, is dead.

— We are getting wild statements again of the number of Lee's forces.

— Our captures since the first battles in the Wilderness are 8000 prisoners, 20 colors and 18 pieces of artillery.

— Gen. Kilpatrick was severely wounded a few days since, but is not considered dangerously so.

— A Fortress Monroe dispatch states that all the railroads leading to Richmond have been cut. Hope it is true.

— The rebel steamer Georgia arrived at Liverpool on the 2d inst., from Bordeaux. She is to be sold.

— The Richmond Dispatch says that Gen. J. E. B. Stuart's funeral occured on the 13th in Richmond.

— Gen. Grant is reported to have said that he will take Richmond by the 4th of July.

— The Bulcher bird is again killing Canaries in Portland, when hung in exposed positions.

— Ike Partington has discovered in his studies in Natural History that the ironhorse has but one ear,—the engine-ear.

— Mr. William Saar, a well-known and accomplished New York pianist, died in Havana recently, aged 26 years.

— The shoe business in Lynn has been unusually active since the 1st of January, the sales amounting to $1,000,000 a month.

— A negro named Fortune has had the misfortune to wound a man in a drunken row in Portland and to be arrested for it.

— It seems now to be admitted, both in Great Britain and this country, that Heenan was the victim of treachery in the late pretended fight;—poisoned, in fact.

— James D. Goodnow of Chicago, in good repute as a devout member of a popular church, has been arrested for a long course of theft.

— The Harriet Lane has at last escaped from Galveston, Texas, and has arrived at Havana with a cargo of cotton. Her armament had been removed.

— The Petersburg, Va., Register, gives a list of 3 rebel Generals killed, 4 wounded; 7 Colonels killed, 12 wounded; and over a hundred Captains and Lieutenants.

— The Richmond Dispatch states that the telegraph wires to Lee's army are all down, and intelligence is received by a very circuitous route.

— It is thirteen miles from Spottsylvania Court-House to the North Anna river, and from there to Richmond is forty-seven miles, by the old post road.

— The armed transport H. A. Wood was sunk by a rebel torpedo in St. Johns River, below Jacksonville, Fla., on the 9th.

— The Richmond Despatch says all the damage to the railroads by raiders has been repaired, and Lee's communication is intact.

— It is reported that a large number of the rebel prisoners at Belle Plain raised a yell on Thursday night and attempted to escape by breaking through the lines, and that several of them were shot by the guard.

— Calls come from the hospitals for old linen and cotton; also, flannel shirts and drawers, shoes, slippers, socks, handkerchiefs hemmed—in short, everything of use on a battle-field. Send them.

— Rebel prisoners state that on Wednesday Lee issued an order to his troops announcing a "complete victory" over Grant, and saying that the latter would, with his army, soon be retreating across the Rapidan.

— Gen. Butler sent a batch of rebel officers to Fortress Monroe as prisoners under a colored guard,—much to the disgust of the chivalry, though the negroes are said to have grinned all over.

— The Indian refugees in Kansas have not been returned to their homes in the Indian Territory, because of the insecurity and discord reigning there, occasioned by the violence of rebel and disloyal Indians.

— The London Daily News learns that the Great Eastern has been purchased for the French Government at about a quarter of a million sterling. She will nevertheless carry out the engagement to lay the Atlantic cable.

— A graphic correspondent thus describes the fighting of a ram: "The crunching of the saw-like prow of the rebel ram among the timber was fearful, and the orifice created thereby was ten or twelve feet."

— The Senate bill granting increased pensions to the widows of Maj. Gen. E. P. Whipple, Brig. Gen. G. H. Berry and Brig. Gen. E. M. Baker of $50 per month from the date of their husbands' deaths, and during their widowhood, was passed on Monday.

— The Supreme Court of Vermont has declared the soldiers' voting bill of that State unconstitutional, so far as it relates to the election of State officers, but constitutional so far as it relates to the President and members of Congress.

From the Philadelphia Press.

BEFORE THE BATTLE.

The joy of the sweet May-time,
Singing a fragrant lay,
In the rustle of flowery rhyme,
From green fields far away,
Biddeth mine eye grow dim,
Like a funeral hymn.

I cannot laugh in the light,
Born of the golden Spring,
For a sorrow, black as night,
My soul is shadowing;
And the lily-laden air
Breathes a curse.

I cannot echo the shout
Of merry boys at play,
Nor join the throngers out
In the city's rush to-day;
For I listen in waiting gloom
For the first dull boom.

Oh! for the dawning death,
Oh! for the viewless graves,
In the Maytime's balmy breath—
Wooing the nation's braves:
Oh! for the roses that bloom
For the tomb!

Glory is an empty bubble,
Warfare is but toil and trouble,
Never ending, still beginning,
Fighting still, and still destroying.
If the world is worth thy winning,
Think, oh! think it worth enjoying.
Lovely Thais sits beside thee,
Take the goods the gods provide thee.

☞ The Secretary of War has issued an important order with regard to prisoners, stating that as it has been officially reported that Mr. Ould, rebel commissioner of exchange, has declared, without consulting with the authorities of the United States, that all rebel prisoners delivered at City Point up to the 20th of April were exchanged, it is ordered that all Federal prisoners of war and all civilians on parole prior to May 7, 1864, be declared exchanged.—The order further states that the rebels still remain indebted to the Union Government thirty-three thousand five hundred and ninety-six prisoners, for whom no equivalent has been received.

A BRAVE GIRL.—*Dear Chronicle:*—I send you the following extract from a private letter written by a young girl of seventeen, to her mother, on learning that her brother had enlisted, thinking that in the present enthusiastic state of public feeling it must be interesting to your readers, and find an echo in many hearts:—

If it be true that he must gird on his armor and go forth in this severe struggle, his sister ——— will never murmur; but instead, wishes that she might stand by his side. You and I, mother, can do nothing but pray. Nothing, I said. Is not that the *most we can do?* To trust in God that He will protect the soldiers. I feel, mother, as if my kindred blood was not better than others, to be poured out to preserve that which our sires so earnestly prayed for, and fought and died for. No! I, too, would go if I were a man. If my brother were a christian, I could say, *go*, with a right good will. I could feel proud that I had a brother who feels for his beloved country. Weep not, mother, if it be true that he must go; rather bid him God Speed. Let your own heart beat in unison with that of your boy. Cheer him onward to duty, rather than discourage him. O, mother, I wish I could go.

HORSE AGAINST MAN.—A fallacy very generally obtains that a man can beat a horse in running a hundred yards, the opinion being predicated upon the assumption that the man will gain so much in getting away from the start that the quadruped will not be able to overhaul him. A match recently took place near London in which this matter was pretty well tested, and the man came to grief, although he had five yards start, and his opponent was a pony of only twelve hands and a half and carried 182 lbs. The pony was backed at two to one. They started at the firing of a pistol, and the man, Woodcock of Handsworth, a noted runner, had the best of the start. He held the lead for more than fifty yards, but the pony overtook him and went in a winner by a length and a half. Thereupon, Mr. Nix, the owner of the pony, Butcher Boy, offers to run him against any man in the world for $100, and give ten yards start. Butcher Boy is to carry 182 lbs.—*Wilkes' Spirit.*

Special Notice to Wounded Soldiers.

The Bounty of $100, due to soldiers discharged for wounds received in battle, will be paid by presenting the Discharge at the U. S. Army Agency, No. 64 Bleecker street, opposite Pay Department. The editorial statement in the New York Sun, under date of 14th and 15th inst., also, the advertisement of the so-called Protective War Claim Association, No. 55 Chambers st., that these Bounties are not being collected and paid as advertised, is false, and either shows their ignorance of their business, or a willingness to impute to others that which they would seem to be most guilty of themselves, viz: attempting to impose upon the poor wounded soldiers.

All such claims on file in that office, should be at once withdrawn and presented to this office.

"A Slight Cold," Coughs.

Few are aware of the importance of checking a Cough or "slight cold" in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs. "*Brown's Bronchial Troches*," give sure and almost immediate relief. Military Officers and Soldiers should have them, as they can be carried in the pocket and taken as occasion requires.

DRAFT IN THE FIRST DISTRICT.

Drafting for the deficiency in the quotas of the several towns and sub-districts in this Congressional District was commenced on Tuesday morning, at 10 o'clock, at the Provost Marshal's office in this city. We give the names of the fortunate individuals, drawn from the wheel by Col. Stackpole, of Dover, whose total absence of vision renders him a fit dispenser of the favors of the blind goddess:—

PORTSMOUTH, Ward 1—501 names, 1 deficit—Charles McGrath.

GREENLAND—85 names, 5 deficit, drawn in the presence of Samuel A Hatch—James M Taylor, Daniel J Norton, Samuel F Young, Edward Hughes, Rufus W Weeks (Chairman of Board of Selectmen).

STRATHAM—1 2 names, 7 deficit, drawn in presence of John L Jewell—John H French, John W Wiggin, David C Marston, Albert D Wiggin, William Robie, James Keefe, James W. Rollins.

HAMPTON—166 names, 4 deficit, drawn in presence of Joseph Dow, Ebenezer Lamprey, Jeremiah Marston, David Godfrey, Charles Sargent.

NORTH HAMPTON—99 names, 4 deficit, drawn in presence of David P Moulton—Joseph W. Odell, Maurice J Lamprey, Moses C Garland, Christopher Moore.

EXETER—368 names, 2 deficit, drawn in presence of Samuel Neal, of South Newmarket—Benjamin F Barker, Charles B James.

NEWMARKET—190 names 1 deficit, drawn in presence of Samuel Neal, of South Newmarket—Edmund Pierson, Samuel F Manning.

SOUTH NEWMARKET—91 names, 10 deficit, drawn in presence of Samuel Neal—James O'Brien, Josiah S Clarke, Horace C Smith, John Coffin, John H Fogg, Rufus G Palmer, Daniel Trefethran, William McMellon, George B Wiggin, Perley B Gilman.

FREMONT—67 names, 3 deficit, drawn in presence of Samuel Neal, of South Newmarket—Orange W Leavitt, Warren W Wilber.

KENSINGTON—80 names, 1 deficit, in presence of the same—James Cilley.

NEWTON—109 names, 3 deficit, in presence of John Hoitt—Benjamin F Brauley, Albert A Lewis, Andrew J Hoyt.

PLAISTOW—90 names, 5 deficit, in presence of Cyrus A Joy—Greenleaf C George, 2d, Hiram L Peaslee, Augustus W Doyle, John Badger, Giles Cheney.

SANDOWN—63 names, 5 deficit, in presence of John C Pillsbury, of Candia—George F Rollins, Smith A Rowell, George Williams, Samuel Clough, Perley H Shannon.

DERRY—225 names, 3 deficit, drawn in presence of same—Peter Hicks, Andrew J Nichols, George K Whitney.

The drafting will be resumed this morning at half past 9 o'clock.

Special officer Kent has already started on his tour to notify the drafted men.

The man drafted in Ward One was rejected as a substitute at the time of the last draft, on account of disability, so there is yet a chance for another draft in that ward.

☞ It has been suggested that it would be a good idea for the City Authorities to make a special appropriation, for the purpose of extending a bar along the edge of the sidewalk on Congress street, from Market to Middle street, for the convenience of the loungers, principally large boys, who there do congregate, especially in the evening. If chains and rings were also placed upon it, so that they might be tied up like other calves, too young for beef and too old for veal, it might be convenient, and add to their pleasure and gratification.—Standing there, as they do, by the hour, it really must be very tiresome work for them, and a bar to lean against would doubtless be appreciated. They are so persevering in their labors, notwithstanding the temptations offered by the Police and other very evil-minded persons, including all the so-called respectable portion of the community, that they should be encouraged, and every facility should be afforded them. It is to be hoped, however, that it would not tend to induce others to join them, for tho' loafing may be a very pleasant and profitable business, there is even now a tremendous amount of competition.

☞ Capt. Nath'l Wiggin, Provost Marshal for this district, had a narrow escape from death by poison on Saturday last, having taken thirty drops of aconite, mistaking it for colchicum. We are pleased to state that he has so far recovered as to be able to attend to his onerous duties at this time.

MATCHES AND OVERMATCHES.—The Bath Times relates the following interesting story of some recent events in that locality. *Nomina mutata, hæc fabula* aptly applies—the allusion will suggest itself to the careful reader:—

With almost all other things mundane and transitory, sulphur has had a rise of late in anticipation of the levy of an additional tax. Consequently, friction matches have made a sudden advance in price—nearly 100 per cent. Thereupon, a well known, early rising and enterprising trader, doing business not 100 miles from this office, resolved in his mind a quiet and commercial spec. Calling upon a neighbor engaged in the same line of traffic, he succeeded in purchasing quite a number of gross of matches at the rate of 60 cents per gross, laying the flattering unction to his soul that with the advance of 40 or 50 cents on his own stock in hand and the purchased addition, he might make a small pile. But—

"The best laid schemes o' mice an' men
Gang aft agley;
An' lea' us naught but grief an' pain
For promised joy."

Not many minutes elapsed ere the seller in the above case discovered that he had been veritably sold; and, not to be outmatched, proceeded at once to the store of his friend who had bought him out, and speedily traded with the clerk of the same for the stock of matches there on hand for 52 cents per gross—of course without the knowledge of the principal, who had failed to give his employee proper instructions. The "pheelinks" of the last one *sold* can be better imagined than described. It was a good practical joke all round and undoubtedly relishable to all concerned—particularly to those outside the ring.

— Judge Thomas Russell is to deliver the Fourth of July address in Boston this year.

BEWARE OF PEDDLERS.—A spectacle peddler one day this week, called upon an old gentleman of this city, to sell a pair of spectacles. He presented a pair fitted to the eyes; and to show their superiority over those he had been using, asked him to look first thro' the new and then through the old ones, giving the latter a rub with a piece of wash-leather. The difference was very striking; and the old gentleman was delighted. After the wandering trader had gone, the spectacle wearer picked up his old glasses, which he regarded as worthless, and after wiping them would take a farewell look through the "eyes" that had served him so well for years, when he found he could see through them as well as through the new ones. It was all explained this way: the peddler instead of cleaning the old glasses with his wash-leather, had actually put something on them to obstruct the sight. His spectacles, for which he asked a double price, were not worth a cent more than the old pair. So come out nine persons in ten who trade with peddlers or go abroad to purchase of those whom they do not know, instead of relying upon our own merchants, whose honesty is unquestioned, and who have had experience in their business.—*Newburyport Herald.*

A WOMAN WITH HORNS.—The New York Observer of the 12th inst. contains a letter from its correspondent at Larnaca in the Island or Cyprus (Turkish dominions) describing a most remarkable *lusus naturæ* recently discovered there. It is nothing less than a *woman with horns growing out of her head!* of the size and consistency of an ordinary ram's horn, besides three or four cornicles on other parts of the head. The writer states that he has seen her and that she has been visited by nearly all the Consuls and Europeans in that place, some of whom are making an effort to secure her for exhibition.

☞ The seizure of the Chincha Islands by the Spanish war vessels has created the greatest excitement at Callao and Lima, and at last accounts active preparations were making to resist the invaders. Foreigners generally, and the foreign Ministers, Consuls, &c., excepting the French Minister, have held meetings and expressed the strongest sympathy with Peru, and their disapproval of the course pursued by the Spaniards as most arbitrary and unjustifiable. It is generally supposed that the whole affair was prearranged at Madrid, and is part of the French programme on this continent. The U. S. frigate Lancaster has left Panama for Callao.

A SCIENTIFIC CHANGE OF BASE.—Wilkes's Spirit calls the change of base effected by General Butler, from Williamsburg on the Peninsula to City Point on the south side of James River, in a single night and day, one of the most brilliant operations of the war.

SUMMER CARPETING.—*Twenty Per Cent. Saved.* Just received at the "New York Carpet Company," Hanover street, Boston, by the "Hamilla Mitchell, from Canton, a fresh lot (made from new grass) of the celebrated "B. F. W." brand of Matting, imported by Mr. White, for Drawing Rooms and other apartments, in Plain White, Red Check, Fancy and variegated Colors. Some of the patterns are entirely new and are very beautiful. Also, a small importation of Calcutta Matting, in breadths (a new article), and the first and only lot ever imported. The above goods are for sale by the piece or yard, *twenty per cent.* less than retail rates, by R. B. Wentworth & Co., 107 Hanover street, Boston.

MARRIAGES.

IN EAST BOSTON, MASS., May 2, by Rev. Mr. Cooke, Mr. FREDERICK BERRY, of Boston, to MISS ALICE M. LEAR, daughter of Mr. William Lear, of this city.

In this city, May 17th, by Rev. I. F. Waterhouse, Mr. FRANK HORROCKS and MISS ELIZA J. CLARK, both of this city.

DEATHS.

In this city, on Tuesday morning, May 17, very suddenly, MISS ELLEN E. AKERMAN, aged 23 years, youngest daughter of Leonard Akerman, Esq.—a young lady of pure and refined tastes, gentle manners and kind heart; whose decease is a severe affliction to the domestic, social, and religious circles wherein she moved; lightened only by the assurance that she enters the higher and better life immortal.

ROOM PAPERS!

Have Room Papers Advanced in Price, like other things!

J. F. SHORES, Jr.,
No. 1 Congress Block

Is often asked this question; and would answer that he still sells

ROOM PAPERS at eight cents per roll,
ROOM PAPERS at nine cents per roll,
ROOM PAPERS at ten cents per roll,
ROOM PAPERS at twelve and a half cts. p. roll.

These are not of so good quality as were formerly sold at those prices—still they are very fair.

Twelve and a half Cent Papers have advanced to Seventeen Cents.
Twenty-Five Cent Papers to Thirty Cents.
Thirty-Three Cent Papers to Thirty-Eight Cents.
Fifty Cent Papers to Sixty-Two Cents.
One Dollar Papers to One Dollar and Twelve Cents.
One Dollar and Twenty-Five Cent Papers to One Dollar and Forty-Two Cents.

Common, Velvet, and Velvet and Gold BORDERS,
HAVE NOT ADVANCED!
GREEN CURTAIN PAPER
Is still sold at the old price.

Thus, FRIENDS and CUSTOMERS, you have an answer to the query above—

Room Papers Have not advanced as other goods have.

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!

This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the more valued the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so recuperative as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.

They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.

The rich will have it because IT IS THE BEST. All other classes will have it on account of it being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in under-bedding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!

These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—

Mr. J. C. LANGLEY, Conductor C. & P. R. R.
Mr. WM. CONN, Mail Agent C. & P. Railroad.
Mr. E. A. STEVENS, House Furnishing Dealer.
Mr. O. A. FROST, City Hotel.
Mr. W. E. HADLEY, Rockingham House.
Mr. WM. S. HADLEY, Piscataqua House.

These BED-BOTTOMS may be had of **E. M. BROWN & CO.,** Agents for Portsmouth and Newington, at their store, **No. 35 Market Street**, where samples may be seen; and of W. F. BENNETT, Agent for Greenland.

Morning Chronicle.

SAD CASUALTY IN THE BOMBARDMENT OF CHARLESTON—The Charleston Mercury of April 24 says:

The Yankees, from time to time, throw a shell into the city, and nobody seems to mind it. But misfortune willed that yesterday a shell should throw the entire community into mourning.

Miss Anna Pickens, the daughter of our former Governor, never consented to leave the city. Despite the representation of General Beauregard, she remained, braving shells and Greek fire, tending the wounded, and cheering all with her presence. Among the wounded officers under her ministering care was Mr. Andrew De Rochelle, a descendant of one of the noblest Huguenot families of this city. This young man was full of the liveliest gratitude to his fair nurse; gratitude gave birth to a more tender sentiment; his suit was listened to; Governor Pickens gave his consent, and the marriage was fixed for yesterday, the 23d of April. Lieutenant DeRochelle was on duty at Fort Sumter in the morning, and it was determined that the ceremony should take place at the residence of General Bonham, in the evening, at 7 o'clock. At the moment the Episcopal clergyman was ready, a shell fell upon the roof of the building, penetrated to the room where the company was assembled, burst and wounded 9 persons, and among the rest Miss Anna Pickens. The surgeons found that Miss Pickens had received a terrible wound under her left breast, and in reply to her enquiries, told her she could not live two hours. The clergyman by request went on with the ceremony, and as the dying girl lay on a sofa with her bridal dress all stained with blood, when the time came for her to say yes, it was not till after several unavailing efforts that she was able to articulate the word, and in less than an hour she expired. Lieutenant DeRochelle has sworn to perish in battle against the Yankees, and we are sure he will keep his oath. He has now a double motive to hate them, and his own existence.

— A few years ago, to settle an estate, a parcel of timber land in Mt. Holly, Vt., was appraised at the value of $100. The same land has recently been sold for $3,375, the great advance in its value being occasioned by the passing through of the Rutland and Burlington Railroad.

EYE, N.H., Feb. 26, 1864. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, and other medicine, Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWEET'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Sweet's in removing the various forms of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with chronic sore stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWEET'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOVEJOY.

From ELDER I CURSLEY, Lee, May 31, 1861

DR. SWEET: Permit me to certify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1860, she had been confined for a number of months, without her natural rest, for nearly one night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CURSLEY

☞ Any one returning the remainder of a bottle or box of Dr. Sweet's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWEET, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y.
formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, it is at many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific, to cures which have no parallel at the present day.

Our medicine is peculiar, by it the cent of disease is logically reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cared by other physicians are **Invited to use Constitution Life Syrup.**

During the past five years we have contended with obstacles and overcome opposition as been less as ever encountered by Medical Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that disease can only be cured by the "slow recovery" the patient is supposed to suffer. This our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause there is one side of the scale, we bring the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP.

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Partial Palsies.

It is so universally admitted that Constitution Life Syrup is the only effective means of cure in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Biliousness, Want of Appetite, Dyspepsia, Sick Headache.

Scrofula.

Strumo, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritic, Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly allayed—enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Obstructed Nervous Fluid, Fits.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering women will this medicine prove an invaluable blessing—directing their rootsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and bringing back Vigor. Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup
Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the face and suppurate and scald females and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. Such can easily recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia, Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken a reasonable time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Uterus, Tumors of the Breast, and swellings on other glands of the body will be completely reduced without reporting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the heart, and all the affections of the most important organs, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by taking the Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Calamity, Fear of Disease, Dimness of Vision, Dry Hot Skin and Blotches, Hysterics, Fear of Consumption, Pale Haggard Countenance and Lassitude of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Spine, Forehead or scalp, we would recommend Life Syrup.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Dyspepsia or Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of that organ, accompanied with burning or other painful symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation on the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Curvature of the Spine, Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MARRIED AND UNMARRIED LADIES. It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and imparts and enriches the food—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Strictures, Gravel, Mucus, Gleet, &c., and is especially recommended in those cases of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes of disease and decay.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent;* removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle, or three bottles for $5.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and you can safely and rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance, but always proved to have been sufficient to gain victory over the most stubborn cases.

☞ To those who have tried with their connection, until they think themselves beyond the reach of medical aid, we would say, *Despair not* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ Be careful to get genuine from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatise (in pamphlet form).

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large and well-constructed Boiler, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to certify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable furnace, would invite those about remodelling or erecting buildings to examine the truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the troublesome and obnoxious breathe so much complained of in other Furnaces, is entirely obviated.

The difficulty aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than air, will go on into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to clog and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert H. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

ESTABLISHED 1852. PORTSMOUTH, N. H. THURSDAY, MAY 19, 1864. VOL. XXIV. NO. 118.

The Chronicle.

It is related as a part of the gossip of "the front," that an officer attached to the Quartermaster's department of the Potomac army, wanted one wet day to consult with the General-in-Chief. He is a believer in the old *regime*, and practised what under McClellan he had taught. He had half a dozen miles to go, more or less, so he ordered out his close carriage, and as it was likely that night would come before he could return, the lamps were trimmed and hung out, on each side of the driver's seat. Then, with an escort of twelve dragoons, he started, happy no doubt, in the belief that he was proof against descending rain. Approaching Culpepper, he met an ordinary looking man on horseback, attended only by an orderly. As he passed, he recognized the Lieutenant General, who, in spite of the rain, was making his usual round, in his usual modest way. To descend from his carriage and salute his chief was but the work of a moment; but Grant, irritated by the air and pretension of his officer, was in no hurry to see him gain the shelter of his carriage-roof again. "Walk along with me a little," said the General, "I want to talk with you." With polished boots and unexceptionable kids, Mr. Quartermaster did as he was bidden; and with a touch of that grimness to which I have referred, the General led him through the muddiest parts of the road, and did not release him until he was wet to the skin—as wet as the General himself. He was then dismissed with an admonition that will be remembered, though it was interlarded with no oaths.—*Evening Post.*

FATALITY AMONG FINE HORSES.—Our readers have already been informed that the stallion George M. Patchen died of strangulated hernia, May 1. His case was desperate, and nothing could be done to save him. The first veterinary surgeon called in, declared that he would not live an hour. Soon after, another examined the horse, and gave it as his opinion that he would not live more than twenty minutes. This diagnosis was correct. On the same day that Patchen died, the fine gelding Keystone, a horse of much reputation, from Philadelphia, also died at the same New York stable. He was seized with sore throat. At first it seemed like a common cold, but speedily developed putrid sore throat, the symptoms being just those which attend diptheria in the human subject.—Since then we have heard of the death of another valuable and *famous* trotting horse, "Burlington," a son of Patchen, eight years old, and the property of Mr. McDonald, of Baltimore. Burlington was seized with inflammation of the bowels of a rapid and very virulent type. He lived but a few hours after the disease had developed itself. *Wilkes' Spirit.*

COPPERHEAD INFAMY. — The most thoroughly base and unspeakably infamous performance we have yet seen perpetrated in party politics, is the attempt of the copperheads in Congress to ruthlessly defame five or six hundred poor but laborious young ladies who have employment in the Treasury Department, by presenting the case of one unhappy girl among them, as the standard of the morals of them all. The motive of this wholesale defamation is, that these young ladies are supposed to be of republican politics; and yet these copperhead beasts boast of belonging to the chivalry. The mind revolts at such grovelling brutishness and cowardly degradation.—*Wilkes' Spirit.*

It ought to be added, that in the case of the "one unhappy girl," a thorough examination showed that the most flagrant charges against her and about her were utterly untrue;—and that she died of pneumonia.

— Wilkes' Spirit is convinced, and seems to prove pretty conclusively, that Heenan *was* drugged, and so lost his recent prize fight.

DR. TEBBETTS'
PHYSIOLOGICAL
HAIR REGENERATOR
—AND—
UNIVERSAL HAIR RESTORER.
ITS MODUS OPERANDI.
Immediately beneath the scalp there are very small glands, or, more commonly roots of the Hair: the fluid secreted by these glands for every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the Hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.
To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.
Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Lithurge, Tannin, &c., and producing only a shade of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.
The Physiological Hair Regenerator is warranted in all cases to produce the following results:
1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.
2. It will certainly restore the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.
3. It will effectually prevent the hair from falling off, remove all dirt, inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.
4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.
5. It will cure the most inveterate Itching and heartburn of the scalp, and being highly perfumed, it affords a most delightful article for the toilet.
We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.
HOME TESTIMONY.
BEDFORD, N. H., Dec. 17, 1863.
Messrs. Tebbetts Brothers—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost *black*. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diptheria; it stopped it immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good shape. J. C. CUTLER.
MANCHESTER, Dec. 20, 1863.
Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution in the other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and has been gradually increasing for more than ten years, when at out two months ago I began the use of your Regenerator, and it has completely satisfied all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head clean and free from scurf, that it makes a very nice dressing. JACOB J. ABBOTT.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of
GONORRHŒA AND SYPHILIS.
Beneath the treatment all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, inflammation of the Bladder and Kidneys, Secondary Symptoms, Abscesses, Humors, Painful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.
SEMINAL WEAKNESS.
Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the victim of this abominable habit for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c., Loss of Memory, Confusion of ideas, Aversion to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, Gloom, Melancholy, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.
Patients who wish to remain under Dr. Dow's treatment five days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
DR. DOW, Physician and Surgeon, No 7 & 9 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.
Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain four red stamps, or they will not be answered.
Office Hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success established a reputation which calls patients from all parts of the country to obtain advice.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.
Boston, April 7, 1864.—eodly.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to guarantee cures in all the Other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the quickest remedies for his patients. He offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Venereal Sore Throat, Sore Nose, Sore Legs, Bones, Cutaneous Eruptions, Blies, Ulcers, Abscesses, and all other impurities of the system, are positively cured by the use of Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend, counsele and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for every body.—Startling disclosures. Dr. TELLER's great work for the Married, or those contemplating marriage — 200 pages — full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes annually, proves them to be a safe remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail, post paid, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, MAY 19, 1864.

THE REBELLION.

Sec. Stanton states that a draft to fill up deficiencies will be made July 1; the order is not yet issued.

Forrest and Roddy are reported to be threatening Huntsville and Decatur, Ala.

Vicksburg advices of the 10th say Gen. McArthur's expedition captured Yazoo City with but little resistence.

Gen. Sherman's army is in two grand divisions, one led by himself, and the other by McPherson. An official dispatch from Gen. Sherman reports his advance upon Johnston as progressing to his satisfaction. His supplies are abundant and our animals are improving on the grass and grainfields which now afford good pasturage.

Gen. Foster has been assigned to the command of the Department of the South, and will soon reach our forces now renewing the attack on Charleston.

THE VIRGINIA CAMPAIGN.

There was no fighting on Tuesday. The arrival of reinforcements is having a most cheering effect upon our soldiers, while three days' rest to the wearied army has vastly improved its condition. A correspondent of the N. Y. Herald estimates our loss to the 13th, as follows, 2d corps, 9500; 5th, 10,000; 6th, 8200; 9th, 7,000; Total, 34,700. Lee still holds his line northwest of Spotsylvania, and is strongly intrenched. It is believed that he is being reinforced, but not in any degree commensurate with his needs. The supply of rations to our men is kept up, and there will be no delay on that account when Gen. Grant gets ready to move. 400 of our wounded, recaptured on Monday, have been brought into our lines. They had been robbed of everything by the rebels.

Late information gives the assurance that Breckinridge and the other rebel forces had not, as was supposed, joined Lee, but they are kept busy guarding the only means of communication left open to supply Lee's army. The New York World's story that Beauregard had slipped around Butler and reached Richmond, was probably false.

The latest accounts received give a report on good authority that Gen. Grant moved on the rebel works, Tuesday evening, and that fighting was going on, Wednesday.

Gen. Sigel fought Breckinridge at New Market, Va., on Sunday, but the rebels being in superior force, he was compelled to fall back across the Shenandoah, with a loss of 5 pieces of artillery, about 600 killed and wounded and 50 prisoners. He brought away all his trains and all the wounded that could be transported from the battle field. The rebel loss was 1000.

Dispatches from General Butler report the success of the expedition under Gen. Kautz to the Danville road, to destroy the iron bridge over the Appomattox. We hold the railroad between Petersburg and Richmond. There was some fighting on Monday, one assault by the rebels on Gen. Smith being temporarily successful, and another from Petersburg on Gen. Butler's forces guarding the rear being handsomely repulsed.

Gen. Crook has defeated the rebels under Morgan, Sam Jones and A. G. Jenkins, near Newbern, Pulaski county, Western Virginia, in three battles. The rebels lost 600 killed and wounded, and 300 prisoners. Gen. Jenkins fell into our hands, mortally wounded. Our loss was 400 killed and wounded. A large railroad bridge over New river at Newbern, and several miles of track, were destroyed.

☞ The N. Y. World and Journal of Commerce, on Wednesday, published a pretended "Proclamation," attributed to the President, announcing the close of the campaign in Virginia, appointing a day of fasting and prayer, and calling for 400,000 men. This was telegraphed to Boston and dispatches to this city announced the fact of its publication. It bore every internal evidence of being a forgery, yet the fabrication of such a document, in the present excitement prevailing throughout the country, seemed too monstrous to be believed. But the World announces that it has been imposed upon, and it now remains for that and the Journal of Commerce to explain their agency in giving publicity to a document which has caused such a shock to the public mind.

See. Seward telegraphs that it is an absolute forgery; that no proclamation of this kind or any other has been made or been proposed to be made either by the President or the State department.

☞ The American residents of Callao and Lima have held a public meeting and passed a series of six resolutions, stigmatizing the seizure of the Chincha Islands by Spain as "a flagrant act of perfidy, a grievous outrage on the rights and sovereignty of Peru, and a gross violation of international law.

CHIPS—HEWN AND GATHERED.

— The New Era, the Fremont organ in Washington, is dead.

— The U. S. Senate, on Tuesday, amended and passed a bill equalizing the pay of the soldiers, etc.

— The Louisiana State Convention has amended the Constitution by a vote of 70 to 16, abolishing slavery forever.

— By order of Governor Seymour, one hundred guns have been fired at Albany, N. Y., in honor of our recent successes.

— One of Dupont's powder mills at Wilmington, Del., exploded on Tuesday, killing seven men and injuring three others.

— 22,241 persons emigrated from Liverpool in April,—nearly all to the United States.

— The Richmond Sentinel states that J. E. B. Stuart was shot in the left side, the ball passing through his body, and that he died on Tuesday night.

— The Statue of Liberty on the dome of the capitol has been unveiled. It is at the dizzy height of 400 feet. The dome is said now to lack no element of beauty.

— A man who has been in the Maine State Prison since 1859, for murdering his mother, two brothers and nephew, died of consumption on Wednesday.

— Resaca is fifty-six miles from Chattanooga and eighty-two miles this side of Atlanta, and not quite forty from Rome, Ga. There are important rebel machine shops and military stores at the latter place.

— The foundation is being laid for the new City Hall in Calais, Me. It will be a monument to the memory of the determined ladies who have been mainly instrumental in obtaining funds to build it.

— The pirate Alabama sailed from Cape Town, C. G. H., Mar. 25. She is said to be very much out of repair; and it is was surmised she would go to some port in France for repairs.

— A singular mistake was made by the London Times on the 26th. A Mr. Wieas officiated as chairman at a Garibaldi meeting, and his name was given as "Wineas."

— A survey was had of the U. S. gunboat Pontoosuc at Portland on Friday and Saturday by Mr. Pook, naval constructor; Mr. Bartleman, Engineer, and Lieut. Com. Stevens.

— John W. Forney gives to the Philadelphia Sanitary Fair one day's income of the Philadelphia Press and the Washington Chronicle, and one month's salary as clerk of the Senate.

— A man confined in jail at Portland for four or five years, for debt, was told last week that he was free, his friends having settled with the creditor; but he refused to go, and had to be turned out.

— The California Copperhead convention adjourned with three cheers "for the Constitution as it is, the Union as it was, and the downfall of Abraham Lincoln." Abraham, probably, won't "downfall" at their feeble breath.

— Atlanta is the most important railroad point in all that section of the South. If it is seized, the whole rebel country on the Atlantic seaboard will be cut off from rail communication with Alabama and Mississippi.

— England is greatly excited by the rumor that the Austrian fleet is on the way to the Baltic. The general impression was that the English channel fleet would be ordered thither if it should prove true, and there would be a collision.

— It would take all the nations of Europe to get up so grand a campaign and so big a fight as we are having in Virginia, which is a mere domestic affair, and nothing to what we should do united against a European foe.

— The Richmond Whig, after saying that the Southern people have made up their minds that the war must end one way or the other this year, adds: "If Lee should fail and his army be unsuccessful, we greatly fear that the majority of the people would begin to look the other way."

THE BEST THING YET.—Nothing sooner excites a man's choler than to have any trouble with his collar—shirt linen. Linen, did we say? why that's being laid aside now for paper dickies. And of the many patterns made, "Gray's Molded Collars" are allowed to surpass all, in comfort and economy, no less than in appearance.

The advertisement of the manufacturers agents in Boston (in another column) fairly sets forth some of the points wherein consists their superiority—and the additional facts that the sales have in three months amounted to over 3,000,000 (three million) collars; and that a large factory, erected expressly for this purpose, with machinery costing $10,000, is unable to fill the orders, are sufficient evidence of the popularity of the Molded Collars. They are worthy the trial of every gentleman who wishes at once to dress well and pay due regard to comfort and economy. Don't fail to read the advertisement of Messrs. Hatch, Johnson & Co.

WASHINGTON, D. C., May 16.

Dear Chronicle:—

The 32d Regiment, Maine Vols., Col. M. F. Wentworth, which passed through Portsmouth from Augusta on Wednesday last, arrived here Friday at midnight, and at 12 o'clock Saturday night had started for the front. All along the route the enthusiasm at the sight of the troops was of the most gratifying character. The Lt. Colonel of the Regiment, John M. Brown, of Portland, like Col. Wentworth, has seen service in the field and is a fine officer.—The chaplain, Mr. Patten, recently settled at York, Me., is known to many of your readers.

Everything in the shape of men is being pushed forward to supply the places of the killed and wounded. The contest now is going on in earnest and all who come from the front speak of success as a fixed fact.—Gen. Grant is cool and business-like in conducting the great responsibilities of the fight, and the whole community here has full faith in the great result.

Messrs. Bunton and Peterson, of Manchester, C. A. Hackett, of Upper Gilmanton, and others, arrived here on Saturday, and have gone down to look after our wounded soldiers. The report has reached here that Major Geo. H. Chandler, of the 9th, is severely wounded. Col. Harriman of the 11th, is supposed to be captured. He has been missing from his regiment for several days. Lt. Col. Collins was killed, with a gun in his hand, bravely fighting for the country. He leaves a brilliant record of his brief but heroic military career.

Washington people, who have an interest in the Granite State, are much amused at the somewhat supercilious style of correspondence in the Boston Daily Advertiser, concerning the choice of Senator in June by the N. H. Legislature. While it is pleasant to witness the interest the Boston folks have in New Hampshire politics, it is deplorable to contemplate their want of information, which allows them to be so imposed upon by writers who are in the service of one of the candidates. The correspondence of the Advertiser is impregnated with an odor that emanates from the Boston Custom House, and consequently we may be led to infer that the candidate of that paper is the Boston Candidate. We think the New Hampshire Legislature will take the hint in that direction. DIGBY

CAMP STONEMAN, D. C., May 15.

Editors Chronicle:—Thinking the people of New Hampshire might like to hear something of the whereabouts and prospect of the Cavalry, I write you these few lines.

Camp Stoneman is the grand depot for dismounted cavalry. New regiments, and men dismounted in the field, repair here to be mounted and equipped. The camp is situated on the banks of the east branch of the Potomac, and is a delightful locality.

A few days ago we drew up in line and an order to go into the field dismounted was read to us. The men, though disappointed, were willing to go, not from choice but from a sense of duty; and even now would be on their way but for the persistent and business like management of our esteemed commander, Lieut. Col. B. F. Hutchings, through whose influence we are to be mounted. No doubt we shall have our horses in a few days, and then go forth to add force to the final death blow to the rebels. Yours, R. E. S.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 35 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

French Roll Pans.

A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much stir is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

Special Notice to Wounded Soldiers.

The Bounty of $100, due to soldiers discharged for wounds received in battle, will be paid by presenting the Discharge at the U S Army Agency, No. 64 Bleecker street, opposite Pay Department. The editorial statement in the New York Sun, under date of 14th and 15th inst., also, the advertisement of the so called Protective Claim Association, No. 35 Chambers st., that these Bounties are not being collected and paid as advertised, is false, and either shows their ignorance of their business, or a willingness to impute to others that which they would seem to be most guilty of themselves, viz: attempting to impose upon the poor wounded soldiers. All such claims on file in that office, should be at once withdrawn and presented to this office.

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the receipt for preparing and using this medicine, in a sealed envelope, to any one who needs it, *free of charge*.

THE DRAFT.

Drafting was resumed on Wednesday morning.

But little interest is manifested in the present draft, so few comparatively being required that all seem satisfied there will be no difficulty in procuring substitutes if their patriotism is not strong enough to induce them to go in person.

The seemingly slow progress of the present draft is due to a new order requiring the drawing of every name from the wheel, in order to prove that the proper names, as enrolled, were all contained therein. On Tuesday over 2100 names were thus drawn, although the number of drafted men was but 54.

The Board of Enrollment have assigned May 30 and 31 as the days on which drafted men for Rockingham County are to report for examination.

Special Officer Kent, on Tuesday, notified the drafted men in Greenland, Stratham, Hampton and North Hampton, being as prompt as ever in the performance of the duty assigned him.

Persons who desire to present substitutes or pay commutation, without examination, can do so at any time previous to the date fixed for their appearance.

Those who, upon examination, are held to service by the Board, will then have an opportunity to pay commutation or furnish substitutes if they desire to do so.

PARTICULARS OF THE DEATH OF COL. GRISWOLD.—In one of our last week's issues we briefly mentioned the death of this brave young officer, who was Colonel of the 56th Massachusetts (veteran) regiment. As he has been at different times a resident of this city, we doubt not it will interest many of our readers to learn the particulars of it, as furnished by one who was present.

It occurred on Friday, the third day of "the battle of the Wilderness," between the hours of 8 and 11 A. M. His regiment, with others, being hard pressed, was falling back, when Col. Griswold rushed forward, seized the colors, and planting them firmly in the ground, called upon his fellow soldiers to stand by the flag!—and fell dead, struck by a minie ball that passed through the neck, just under the ear.

When he fell, the regiment, with others, retreated, leaving the field and the body in possession of the enemy; but when our troops regained possession of the ground the next morning, his body was found lying on the underbrush, but rifled of everything valuable,—pistol, sword, money and watch. His regiment had a box made for him, and placed the body very deeply in the earth, and over it a strip of board, with this inscription:—

"Let the brave rest,"

—and on a tree near by was written his name—

CHARLES GRISWOLD.

A friend went on shortly after the battle to recover the body, and found it impossible to proceed far beyond Washington on account of guerrillas; but the attempt will be renewed as soon as practicable, under the guidance of one who was with him at the time of his decease, and who knows the precise spot where he is buried.

Col. Stevenson, commanding the brigade of which the 56th formed a part, was shot while reclining on the grass, having just finished his breakfast. His body was easily recovered and returned to his friends, he having fallen near a railroad conveyance; but none have as yet been recovered who fell on the Wilderness—the access to it being only by a plank road, and far from any habitation.

☞ Capt. Moses, (whose death appears under the proper head,) gave his last declining strength to his country, doing his duty on shipboard as long as he was able, and ceasing only when the fatal disease had made inroads not to be resisted.

Having had much experience as a shipmaster, he was two years since appointed Acting Master in the Navy. He was ordered to the barque Fernandina, and has recently been on the blockade on the coast of South Carolina. It was while there in the performance of his duty, that he contracted the disease which has terminated fatally. He was a member of the Masonic order and also of the Odd Fellows, and an invitation has been extended to these bodies to attend his funeral this afternoon.

☞ The Chairman of the Army Committee of the Boston Young Men's Christian Association acknowledges the following voluntary contributions from this city, in aid of the wounded soldiers: Methodist Episcopal Society, $200; North Parish, $360; Morning Prayer Meeting, $102.50. The following letter explains itself:

BOSTON, May 18, 1864.

To Mark H. Wentworth, Esq, Portsmouth,

DEAR SIR:—In behalf of the Army Committee of the Boston Young Men's Christian Association, I acknowledge the receipt of Twelve Hundred and Fifty Five Dollars, contributed by "a few citizens of Portsmouth" in aid of sick and wounded soldiers; and in the name of our brave and suffering heroes we thank you and them for it.
Very truly, Yours,
E. S. TOBEY, Chairman Army Com.

POLICE COURT, Wednesday, May 18.—Before Justice Odell—Thomas Waters, for assault with a knife on Lizzie Dudley, was sentenced to jail for 30 days, to pay costs, and gave bonds in the sum of $50 to keep the peace.

Mrs. Lizzie Dudley, (of the House of Blazes,) charged with keeping a house of ill fame, was ordered to find $200 bail for appearance at Court,—not finding it she went to jail.

Olive Hammond charged with being a night walker,— was sentenced to the House of Correction for 30 days, and to pay costs, $4.80.

☞ A friend of good order enquires whether there is not a law against letting houses for brothels. We answer no; there is no such law in New Hampshire. Our friend thinks there ought to be,—and that it would much improve the neighborhood where he lives. There is room for improvement in this respect, as our police records show.

☞ A dispatch from Fortress Monroe, states that J. Moore, 13th N. H. regiment, was admitted to Hamilton Hospital, May 15, wounded. Mr. John Moore, of this city, is a member of Co. K, of that regiment, and he, possibly, is the one referred to.

☞ Hon. Daniel Marcy has given $100 to Hon. Larkin D. Mason, State Agent at Washington, to be applied to the relief of sick and wounded soldiers from this State.

☞ A rare chance to buy blood sheep and lambs is offered in another column.

SHAM SALVES.—It is too bad that the public should be victimized by villainous compounds under specious names. Who believes that one salve comes from Persia, and another from Timbuctoo? The Salve manufactured from the recipe of Dr. Wm. Grace bears his name, and all experience proves its wonderful efficacy. It is the great remedy for all skin diseases, flesh wounds, burns, scalds, boils, eruptions, foul cutaneous humors, salt rheum, piles, erysipelas, &c. Nearly two hundred years attest its excellence.—It is the household remedy, and no family should be without a 25 cent box of it.

☞ Volunteers for the Army should not leave the City until supplied with Holloway's Pills and Ointment. For Sores, Scurvy, Wounds, Small-Pox, Fevers, and Bowel Complaints, these medicines are the best in the world. Every French soldier uses them.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 211

SUMMER CARPETING.—*Twenty Per Cent. Saved.* Just received at the "New York Carpet Company," Hanover street, Boston, by the "Hamilla Mitchell, from Canton, a fresh lot (made from new grass) of the celebrated "B. F. Some of the patterns are entirely new and are truly beautiful. Also, a small importation of Calcutta Matting, in breadths (a new article), and the first and only lot ever imported. The above goods are for sale by the piece or yard, *twenty per cent.* less than retail rates, by R. B. Wentworth & Co., 107 Hanover street, Boston.

☞ Orders by mail or express faithfully executed. my17—2w*

SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or soda, if this article can be purchased. We see most of our Merchants have it. One trial will convince any one. Their depot is 112 Liberty Street, New York.

Morning Chronicle.

HE SLEEPS WHERE HE FELL.

He sleeps where he fell 'mid the battle's roar,
With his comrades true and brave;
And his form we shall see no more.—
It rests in a bright grave:
Where the rebel foe in his might came forth,
With all his power and pride;
And our gallant men from the rugged North
Like patriots fought and died.

He sleeps near the hill where bright flowers grew,
In the wildest woodland shade;
Where the valley stream, in the dell below,
With an echo fills the glade;
Where the boasting lines of the traitor South
Filed up, o'er the grassy banks,
Till the bursting shells from our cannon's mouth
Flung death in their broken ranks.

He sleeps 'neath the sod where I pray'rfully knelt,
While the enemy round me stood,
As I took from the corse his battle belt,
Still wet with his heart's warm blood;
And the summer day closed its light on earth,
And my soul grew sad with grief,
As they bore me away with oaths and mirth,
O'er piles of the bleeding slain

He sleeps where the blast of our glorious dead
Were left on the sacred land;
Where the daring deeds, ere his spirit fled,
He led with a bold command;
He sleeps—yes, he sleeps, undisturbed by war,
Though tyrants trample o'er his breast;
For with those who slumber in glory afar,
He takes an immortal rest.

Fort Delaware.

Misfits are sometimes lucky. The bandits in Mexico recently caught a Colonel. He was in plain clothes and denied his identity. In his trunk was a splendid uniform, but he declared it belonged to somebody else. He was made to try it on, and, although it really was made for him, the tailor had so blundered that the coat was found to be much too large, and the bandits accepted the Colonel's word and neglected to shoot him as they had intended if he had been proved to be of the military persuasion.

"Bob," now called Belmont Bob, is the body servant of Gen. McClernand, and at the battle of Belmont it is said of him that when the retreat commenced he started for the boats. Reaching the banks he dismounted, and slid rapidly down, when an officer seeing the action, called out, "Stop, you rascal, and bring along the horse." Merely looking up as he waded to the plank through the mud, the darkey replied, "Can't 'bey, colonel; major told me to save the most valuable property, and dis nigger's worf mor'n a horse."

— A man in Connecticut had his nose broken in a fight and a jury has awarded him $26. So that is the value of a nose.

AS A DIGRETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by physicians and chemists as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, it contains no admixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (ex-as his Act of 1861,)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to obtain Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments and Papers for Drawings for Patents, executed on liberal terms, and with dispatch. Research made into American or Foreign works, to determine the validity or utility of patents or inventions; and opinions will be rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have been better serving Patents, or ascertaining the patentability of inventions unsurpassed by, if not unavoidably superior to, what which can be secured elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE. The subscriber has and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse.

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made over twice rejected applications (THIRTEEN APPEALS) EVERY ONE of whom was decided in his favor, by the Commissioner of Patents. R. H. EDDY.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y.
formerly Assistant Physician Blackwell's Island Hospital, late Medical Director
New York State Volunteer Depots,
under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopeless or incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and candid to the cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. I have wonderful cures to report from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—try

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as been less as ever encountered by any Reformers.

Rapidity of Cure.

Some say "cure too quick," while others doubt their permanence, and think that diseases can only be cured by the "slow recuperative process of Nature." This is our reply.

In health, the system, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the disease of the system, and to restore it, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective remedy for restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Strume, Glandular Swellings, Cancerous King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with weight misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritic, Neuralgia, Gout, Lumbago, Sciatica, The Dolorous

It is in any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated, swelling and stiffness reduced, and chronic or inveterate, of 20 or 30 years standing, have been cured by it.

Nervousness

Nervous Debility, Confusion of Thought, Timidity, Loss of Power, Nervous Headache, Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering women will this medicine prove an invaluable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Pressing of Weariness, Jerking of Tissues, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Mercurial Taint, and the Ulcerated Sore Throat and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by taking the Life Syrup. Tumors of the uterus known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken the moment the disease is detected, as they grow and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body, will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as palpitation, Disease of Valves—producing a grating or sliding sound), Dropsy of the Heart, and all the diseases of that important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life syrup.

Broken Down and Delicate Constitutions,

Suffering from Premature Decay, Loss of Energy, Want of the Blue, Loss of Memory, Forebodings, Horror of Insanity, Fear of Disease, Diseases of Vision, Dry Hot Skin and Flushing of the Face, Pain in the Spine, Pale Staggered Countenance and Languors of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all Secret or Secondary Diseases, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.

MORE SUFFERING and DEATH result from depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother.

A few bottles of Constitution Life Syrup correct the secretion, and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of that organ, accompanied with burning or other significant symptoms, the benefit obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, so usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Years and science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so close at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES.—It is the most safe and efficacious medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens the mother and child, prevents pain and disease, and increases and enriches the blood—Those who have used it think it indispensable. It is highly useful during the period of confinement, and prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Gravel, Stricture, Gleet, Diabetes, and is especially recommended in those cases of Brow Albus and Whites in females where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and renovating the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have heretofore baffled

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Brow Albus or Whites. Its effects are *healing, soothing and diuretic*; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all impure discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For the above medicines get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plastic, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meat is prevented, and no smoke escaping into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacturers and owners of the valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable article before purchasing.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, most and agreeable—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive arrangements have been contrived, constructed, some possessing but little improvement over former methods, while many have proved a total failure. The contrivance is obvious. The consumption being lighter than the air, passes off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 25 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the fuel, which, if with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Gray's Patent
Molded Collars

Have now been before the public for nearly a year. They are universally pronounced the neatest and best fitting collars extant.

The upper edge presents a perfect curve, free from the angles noticed in all other collars.

The cravat causes no puckers on the inside of the turn-down collar, they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.

The Gazette Collar has a smooth and evenly finished edge on BOTH SIDES.

These Collars are not simply flat pieces of paper cut in the form of a collar, but are MOLDED AND SHAPED TO FIT THE NECK.

They are made in "Novelty" (or turn-down) style, at two half size from 12 to 17 inches, and in "Eureka" (Gazette) from 12 to 17 inches, and packed in "solid sizes" in neat blue cartons, containing 100 each; also in smaller ones of 10 each, the latter a very handy package for Travellers, Army and Navy Officers.

☞ EVERY COLLAR is stamped

"Gray's Patent Molded Collars."

DARK DEEDS; A GRAVEYARD VIOLATED.

There is a graveyard in the rear of our industrious neighbor Algiers, known generally as John Hughes's Graveyard, to distinguish it from that of the Church of St. Bartholomew.

Many persons, well to do, have purchased lots therein, and built them tombs, while multitudes of the poorer class have been buried in the earth. The ravages of time and the times had broken down the fences to some extent, and briers and brushes had grown up in its alleys; nevertheless, it had been, as a whole, respected by all, stranger and denizen alike, until rumors of desecration lately reached the ears of those whose dead lie there.

The first reports which were received were discredited; but as one person after another was made aware of it, and the graveyard was visited, it became thoroughly known to the community.

There is hardly a tomb, if any, which has not been broken into and the contents brought to light; hardly a grave which has not been entered and the bones exhumed. Two tombs have been peculiarly treated. In one there was deposited the body of a little boy who died, a year or so ago, of hydrophobia. The vault was broken open, the coffin lid wrenched off, and the bones taken out and portions of them carried away. The father, hearing of this, went to the spot and restored the remains of his child to the coffin and to the tomb. But the next night they were again taken out, and the other parts carried away. That he might secure them more fully, he then buried what remained to him in the ground; but on going to the spot afterward, he found that the human hyenas had torn them out of the ground and they lay scattered around the gaping earth.

In another, had many years ago been deposited the body of an estimable married lady. Not only had the brick wall which protected it from intrusion been torn away, and the coffin broke open, but the skeleton had been entirely removed. In the place of it, to the horror of all who saw it, was the body of a respectable-appearing man, dressed in black, and who has not apparently been dead more than a week. When first seen, as we have been assured, there were signs of blood on the breast; but the body has now become so offensive that no one goes near enough to examine it closely. This body has been placed in the broken coffin, which has been half shoved back into the vault, where, in the hideousness of mortality, it inculcates its terrifying lesson of the vanity of man's hopes and the depths of his depravity.

The bones of the dead, thus disinterred, are scattered around the cemetery; those of children being apparently the most sought for; and, what is very strange, there are but few skulls remaining—these having been generally carried away.

To account for this violation of the sanctity of burial, there was some disposition, at first, to charge it to soldiers, large bodies of whom are often camped in the neighborhood; but those who are there now are so quiet, well behaved and orderly, are doing themselves so much to prevent irregularities, and unlicensed and unbridled conduct, that the people soon saw that such an accusation was unjust. There was neither motive nor disposition on their part to engage in conduct so disgusting.

There is no doubt now but that this is the work of negroes; of such as have never yet lost the barbarous tastes of the ancestors, nor forsaken their heathenish rites; but who now, freed from all constraint, are relapsing into the worship of the gods of cruelty and diabolism, to whom they have heretofore been dedicated in secret.

Bones and integuments, human flesh, skin and hair, the human fat are all ingredients in these Voudou spells, and these they have sought in the solitary and out of the way burying ground of Algiers.

Strange as are all these recitals of ours, they are nevertheless true, as we have them from a number of most respectable persons, who have visited the place of which we speak. Our curious readers can go and see for themselves.—*N. O. Picayune.*

RYE, N.H., Feb. 28, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years, accompanied at the time of spreading over her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his HUMOR WASH, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that you prescribed to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named. ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

FERTILIZERS,

Trees, Vines, Shrubs,

Vegetable and Flower Seeds.

J. F. SHORES, Jr.,

No. 1 Congress Block,

WOULD CALL THE ATTENTION OF

FARMERS AND GARDENERS

TO THE

FERTILIZERS

WHICH HE HAS FOR SALE, VIZ:

LODI CO.'S
IMPROVED POUDRETTE.

The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.

On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grass and hay harvest.—The celerity and dispatch with which a large crop of corn is put in and poudretted, the rapid growth and consequently the early opportunity of working among it—the small chance for weeds, owing to the shade it affords, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.

For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn, or for several years, a top dressing of Poudrette will be found invaluable.

We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of diseases. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.

Price $1.50 per Barrel.

Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

Lloyd's Nitrogenized

Superphosphate of Lime.

The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O 5)	17.2
Soluble " " " (ca O P O 5)	11.5
Organic matter	31.
Sulphate of lime	28.
Alkaline of salts	3.
Insoluble matters	2.
Water	7.3

The organic matter yields 3.5 p. c. of Ammonia. The value of concentrated fertilizers depends principally upon the Insoluble Phosphates, the Soluble Phosphates and the Ammonia.

A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.

It is almost universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 2, 3, 16.—In other words, Soluble Phosphates are worth 1½ times and Ammonia 8 times as much as Insoluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.

Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.

The sample for analysis, I selected from the entire stock which was prepared for the market

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)

Another Triumph of American Genius!

Price Only $6!

This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the more valued the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so recuperative as to bring itself into place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.

They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.

This bed will have it because IT IS THE BEST. All other classes will have it on account of being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in under-bedding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED.

These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, MAY 20, 1864.

THE REBELLION.

The rebels lost heavily in their fight with Gen. Steele on Sabine River. They admit a loss of 200 men. Among their killed were Gens. Scurry and Randall; Gen. Wall, of Texas, was badly wounded. Price is reported to be retreating towards Camden.

THE VIRGINIA CAMPAIGN.

The rebels in their surprise of Gen. Heckman's Brigade of the 18th corps (Gen. Butlers forces) on Monday, in a dense fog, created some confusion and captured a portion of the brigade. They then made a heavy attack on the entire line of the 18th corps and after several hours' most severe fighting forced it back nearly a quarter of a mile. Our forces fought stubbornly and resisted every step, repeatedly checking the rebel advance with terrible slaughter. We lost 4 pieces of Artillery, and Gen. Heckman is missing. They next moved against the right of the 10th corps, but after enduring severe loss fled to the woods in their rear in a broken and disorderly manner. Forming again under cover of the woods, they again advanced steadily, until, as reported, a fourth of them were laid killed and wounded on the field, when they broke and fled precipitately to the woods. Twice repulsed at this point they moved further to the left, advanced and received our fire, and a third time broke and ran for the woods. Determined, however, to break our line and force it from its position, cost what it would, they again formed and, strengthened by reinforcements, charged again, and after 10 minutes' hot work were repulsed and driven back at all points.

That ended any serious effort to force our position, and leaving their dead and wounded on the field, they again massed upon Gen. Smith's front and attacked his left. Dispositions of our troops were made, Gen. Gilmore being ordered by Gen. Butler to retire and strengthen Gen. Smith by forming in his rear. The rebels having failed in an effort to throw them in disorder while executing this movement, fell back to their first line of entrenchments. The fighting now ceased (2 P. M.) and our army were drawn off from the field and returned to their entrenchments. Our loss is stated at 2000 killed, wounded and missing, and the enemy's at 2000 to 4000, 600 being prisoners, while about 1000 of our men are prisoners. Among the rebel losses are Gen. Matt. Hanson and several field officers. While the battle was going on an attack was made by the enemy with 5 regiments and artillery on our rear guard, but they were repulsed, with a loss on our side of 50 men.

A correspondent states that Gen. Sheridan's forces again started on a raid around Richmond on the 15th.

Sec. Stanton confirms the reports of the success of the Kanawha expedition, under Gen. Crook. He states that visitors from the Army of the Potomac represent the troops to be in excellent condition, and that reinforcements are rapidly arriving. Gen. Meade, on Wednesday, issued an order to his troops, stating that he is well satisfied with the position of affairs. Gen. Kautz not only destroyed the railroad bridge over the Appomattox and several miles of the Danville railroad, but he also destroyed the dams, locks, and embankments of the Lynchburg and Richmond canal.

On Wednesday morning the battle with Lee was renewed on the road leading from Fredericksburg to Spottsylvania, on the ground occupied by Burnside last week.—Skirmishing commenced at 3 o'clock. The rebels opened with artillery upon the 5th and 6th corps, which was replied to, and the firing was quite heavy. During the forenoon a charge was made by a portion of the 2d and 6th corps, and the enemy were driven from their rifle-pits.

The Richmond Examiner of the 12th says: The enemy has concentrated in Virginia, and if beaten here is beaten everywhere. If he wins here he wins everywhere. If Virginia is lost the present Confederate organization will not probably survive. Heaven and earth now call upon the Government to bring up all the troops at its command.

— The pirate Florida was at Bermuda, May 12.

— The British steamer "O. K.," a blockade runner, was captured April 27.

— Mr. Bocock, of Virginia, has been elected Speaker of the rebel House of Representatives.

— Gov. Curtin, of Pennsylvania, has issued a proclamation calling upon the citizens to form military organizations, preparatory to the forthcoming call for 300,000.

— Brig. Gen. Barlow is recommended by Gen. Grant for promotion for gallant conduct on Thursday in the brilliant fight under Hancock.

THE FORGED PROCLAMATION.—The New York Associated Press has offered a reward of $1000 for such evidence as will lead to the conviction of the author of the forged proclamation for a draft; and the N. Y. World and the Journal of Commerce unite in offering an additional reward of $500. The offices of the Independent Telegraph in New York and elsewhere south are under seizure by the Provost guard, as are also the offices of the World and the Journal of Commerce.

The World publishes an explanation of the manner in which they were hoaxed, stating that some scoundrel imitated the manifold copy of the Associated Press, and sent it around to the several newspaper offices. Supposing it was all right, the night editor of the World in charge published it in good faith, and its falsity was not discovered until the edition was nearly worked off. It is stated that the Herald printed twenty five thousand copies containing the proclamation, but the forgery being detected they were suppressed. The great danger from the publication of this bogus proclamation is that now it will be reprinted in the Southern newspapers, and probably never contradicted by them, and will tend to arouse the masses from their depression, disheaten those who are resisting the conscription, and contribute to swell the rebel armies by the accession of a class who will be led to believe that the war will speedily terminate in favor of the Southern Confederacy.

The managers of the Independent Telegraph, in Boston, have issued a card in relation to the matter, in which they state that "the officers of the Independent Company feel certain that an examination will fully exonerate both themselves and their employees from all blame." They state also that "the offices of the Commpany in New York and South have been seized by the Government and the transmission of any business interdicted; and that five of the New York operators have been seized and sent to Fort Lafayette."

A dispatch to the Boston Merchants' Exchange states that the editors and proprietors of the New York World and the Journal of Commerce have been arrested by the military authorities, and will be tried by court martial.

☞ A knowledge of facts, and a good memory, are very convenient things to an editor who desires to give his readers true information of events past, and to compare them with the present. It used to be said also, that liars should have good memories: but it is certain that some of them have not.

A new editor of the ultra copperhead school, asserts it as his belief, that it would have been better if President Lincoln had let the seceded rebel States go in peace,—and "If Lincoln had used his first army of 75,000 men for that purpose which he led people to believe was his *only* purpose in calling them out—to defend Washington from an attack threatened by the Confederates under Gov. Wise!"

Here is where a good memory should have avoided a great lie. President Lincoln,—so far from leading any body to believe he meant *only* to defend Washington with the 75,000 men first called out,—says expressly in his call of April 15, 1861, that he calls for them "to suppress the combinations" of the rebels, and "deems it proper to say that the *first service* assigned to the troops hereby called forth, will probably be to *re-possess the forts, places* and property, which have been seized from the Union!"

Washington certainly had not been sieged; but all the southern forts had been,—and President Lincoln plainly said they must be repossessed. The assertion above quoted to the contrary is thus shown to be utterly false. If the editor did not know it, he is too ignorant for a guide. If he did, he wilfully imposes a lie upon his ignorant readers. U. T.

SHIRT COLLARS.—Every gentleman knows the trouble of getting a good fitting dickey. And even when once got, a few washings and wearings, even if ever so careful and skillful, will spoil the fit, or at any rate the appearance of the best linen ones. Then when they are new the gloss is too slick, and afterwards they totally lack any; when stiff enough, oh dear, the sharp edges! and when not, look out for the edge of somebody's temper.

Ah! but all this fuss is saved, when once you have got a box of "Gray's Molded Collars", of any style you like. Try them and see if you don't find it so.

☞ An influential Canadian paper which has sympathized with the rebels throughout the war, and has been always outspoken in the depreciation of northern principles and northern courage, after a lengthy review of the circumstances of the recent battles, says that Grant has struck the death-blow of the Confederate cause. So says the Portland Advertiser, a paper whose own sympathies have not been so strongly in favor of the Union cause as to excite surprise at their intensity.

— The draft has begun in Kentucky, and slaves as well as white men are drawn. One man in Owens County had three of his four slaves drawn.

CHIPS—HEWN AND GATHERED.

— About 2,500 girls are employed in making artificial flowers in New York city.

— The rebel prisoners have been removed from Belle Plain.

— A man excused himself for beating his wife by saying that the treasure we value most, we "hide."

— New York city has appropriated a fresh half million dollars, to provide additional aid to the families of volunteers.

— Sin and misery are not lovers, but they walk hand in hand, just as if they were.

— All of our wounded that can be removed from Fredericksburg have reached Washington.

— Over 60 pieces of cannon have been received at New York for the defence of the harbor.

— Almost all the rebel force lately kept in Eastern North Carolina has been called to Richmond.

— A dispatch to Cyrus W. Field was sent by telegraph from Irtusk, Siberia, to Queenstown, over 6500 miles, in two hours.

— It is stated that the rebel ram lately completed at Kinston, N. C., on the Neuse river, has got aground, and it has been found impossible to remove her.

— "Old Abe's last" is said to be a description of a man as "that turkey-faced fellow that you'd think didn't know as much as a last year's bird's nest."

— Nearly 5,000,000 sheep are now kept in Michigan, and the wool clip for the present season is estimated at 12,000,000 pounds.

— The University of New York has bestowed upon George Ticknor and John Lothrop Motley the degree of Doctor of Literature.

— A dry goods firm in Boston paid a license of $17,500, last week. They sell between six and seven million dollars' worth per annum.

—William Burnett, over 75 years old, hung himself in Amesbury, Mass., on Wednesday. He was in easy circumstances, but had a fear of coming to want.

— Mr. S. H. Stevens, Mail Agent on the P. S. & P. R. R. has resigned his position, having been appointed to a berth in the Custom House.

— It is denied that Gen. Pope and several thousands of his troops are going to Washington. On the contrary the campaign against the Indians is about to commence.

— By order of the war department, four military posts in the northwest have been named in honor of Gens Wadsworth, Hays, Stevenson and Rice, slain in the recent battles in Virginia.

— A Berlin paper says the Germans will agree to an armistice on condition that Denmark raises the blockade and gives up Alsen. They have evacuated Jutland, the war contribution having been paid.

— It is estimated that in the recent battles we have expended nearly two million rounds of infantry ammunition and about fifteen thousand rounds of artillery ammunition.

— Down in Massachusetts they ignorantly appointed a discharged convict a Justice of the Peace, and had to get an address passed by the Legislature requesting the Governor to remove him, because he wouldn't resign.

— The Navy Department is offering large rewards for the arrest of deserters, including one of $300 for acting Third Asst. Engineer Wm. J. Moffit, who made his escape from the steamer Admiral on the 12th of May.

— One million dollars has been paid over to the U. S. Sanitary Commission as a portion of the proceeds of the late Metropolitan Fair. The account has not yet been closed, as other contributions remain to be added.

— John M. Botts' house wouldn't be a desirable summer residence for a nervous man. He states that from the portico of his house, he and his family have seen nine battles fought on his own fields, and just before his own door.

— It is stated that General Grant has never countenanced the announcements of "great victories" in the newspapers; on the contrary he has continually said that still harder fighting is to come, and that the rebel army has not yet been beaten.

— The Senate, in executive session on Wednesday, disposed of every military nomination before it, amounting to several hundreds. Quite a number of meritorious sergeants and other enlisted men have received commissions in the regular army.

— At Cape Town, the principal resort of the officers of the pirate Alabama, who are represented as being a bad set of fellows, was Park's Hotel. Several of them wished to stop at the Hotel de Europe, but Mr. Mons, the proprietor, plainly told them that "their uniform could not sit at his table, and that he kept a hotel for respectable people."

NEW HAMPSHIRE ITEMS.

—— Maj. George Chandler, 9th N. H. regiment, has a painful flesh wound in the thigh, and has started for Concord.

—— A movement is on foot among some of the young men of Manchester to organize another military company.

—— John H. George, Esq., of Concord, and Bainbridge Wadleigh, Esq., of Milford, were drafted at Concord on Tuesday.

—— A stranger got very much excited in Wolfbourgh one day last week, because he couldn't find a pack of cards at any of the stores.

—— It is said that the name of the new paper in Concord is to be the Daily Monitor, not the Commonwealth, as first intended. It is to be commenced on Monday next.

—— An order was issued by the Judge at the recent term of the Court at Amherst, that the new jail in Manchester shall be used for the county on and after July 1.

—— On Tuesday, a horse stepped upon the decayed covering of a well in Manchester, and breaking through, went down head foremost into the well, which was twenty feet deep. He was dead when taken out.

—— A dwelling house belonging to Daniel Abbott, South Farmington, was burned on Friday night last. The house was unoccupied, and the fire is supposed to be the work of an incendiary. Loss about $500. Insured for $300.

—— The people of the little village of West Lebanon voted last Sunday to send their pastor to "the front," to aid in caring for the wounded and dying, and within 24 hours raised over $300 to send by him to the Christian Commission. Before he started the sum amounted to nearly $400.—Pretty well for a place of only 300 or 400 inhabitants.

—— A business meeting of the officers of the Governor's Horse Guards, to complete arrangements for the coming June parade, was held at the Phenix Hotel in Concord, Monday evening. All the companies of the Regiment were represented and ample provision made was for the occasion. Hall's Band will furnish the music. It is expected that the parade will be eminently successful, as is always the case with the annual displays of this favorite corps.

—— Capt. Frank T. Baker, 14th N. H. regiment, has been honorably discharged. He desired to resign, it is said, on account of misappropriation of the rations of enlisted men in his regiment by officers, and the President thus endorsed his application:

"My opinion is that the resignation of officers is not, nor is it likely to become, a very extensive evil, either in the army or elsewhere, and that where an officer offers to resign rather than to remain and keep up a difficulty in his regiment, it is rather moritorious and tends to the good of the service. Let Capt. Frank T. Baker's resignation be accepted and he be honorably discharged."

—— In the fight near Petersburg for the possession of the Railroad, the 7th N. H. was conspicuous for gallantry. A dispatch says:

After several vain attempts to break our line on the right flank in which the rebels were badly handled, they massed on the left flank and charged fiercely on the 7th New Hampshire and Rockwell's battery. The charge was repulsed with all the steadiness of veterans. Three times did the rebels dash up with a yell, but on each occasion the firmness of the 7th, and its excellent practice with its guns, threw back the rebel tide, and saved the left from being turned, and the safety of the entire force imperilled. Other New Hampshire Regiments also did good service.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a stove before he left, and there has been no complaint since.

These stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

French Roll Pans.

A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much stir is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

"A Slight Cold," Coughs.

Few are aware of the importance of checking a Cough or "slight cold" in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs.

"Brown's Bronchial Troches," give sure and almost immediate relief. Military Officers and Soldiers should have them, as they can be carried in the pocket and taken as occasion requires.

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge.*

THE DRAFT.

The Draft for the deficiences in this District was resumed at the Provost Marshal's office in this city on Thursday morning, and continued during the forenoon. The whole number required having been drawn, operations were then suspended. Below we give the names drawn on Thursday.

Any drafted man who is a mariner or able or ordinary seaman, may, within eight days after being drafted, make application, personably or by letter, to the Board of Enrollment, for permission to enlist in the Naval service. Further instructions will be given by the Board in answer.

SANDWICH—228 names, 18 deficit—Tristram C Mason, Elisha W Mudgett, Asahel Gilmer, Stephen D Bennett, John D Cook, Leander Pierce, Russell Cook, Ezra D Palmer, Aaron Bedee, Benjamin B Hodge, John T Tilton, Henry A Tilton, D Wilson George.

WOLFBOROUGH—274 names, 7 deficit—Joseph L Kent, John C Frost, Henry J Coleman, Albert J Hersey, (Mr Hersey was commissioned for the rebel service in Texas, escaped from it, and has since served as a Captain in the Union army.) James L Thurston, Andrew J Whidden, Samuel A Hayes.

BROOKEFIELD—62 names, 3 deficit, in presence of Dudley C Coleman—John F Hackett, Joshua B Johnson, Mark Colbath.

WAKEFIELD—184 names, 8 deficit, in presence of same—George H Gage, George Gage, Jackson Horn.

OSSIPEE—243 names, 9 deficit, in presence of L B Dame, of Bartlett—Woodbury S Skedgell, Samuel Tibbetts, Amasa Chick, Jacob C Pitman, Calvin S Demerritt, Samuel Hodge, Jr., Joseph F Glidden, Alonzo L Hammond, Charles T Rollins.

EFFINGHAM—121 names, 8 deficit, in presence of same—Thomas F Taylor, Thomas B Lord, John F Moore, Edwin A Colby, Hiram Wentworth, John Williams, John K Granville, Josiah W Thurston.

EATON—89 names, 5 deficit, in presence of same—Bradbury Shackford, John K Beane, Charles Bryant, Isaac Allard, Clement Drew.

CONWAY—214 names, 5 deficit, in presence of same—David E Morton, Amos M Barnes, Rufus Lovitt, Wm Osgood 2d, Orman W Merrill.

MADISON—81 names, 6 deficit, in presence of same—William H Long, Jonathan Harmon, Nahum Churchill, Henry C Harmon, Alvin Thompson, Eben Downs.

BARTLETT—97 names, 9 deficit, in presence of same—Jonathan Mead, George T Wilson jr., George W M Pittman, James R Wentworth, Cornelius Stephen, Leander Nute, David W Meserve, Josiah Eastman, Loami B Dame, (the witness of the drawing, and the only man during the current draft who has been present when drawn.—As he appeared perfectly satisfied, we apprehend the remainder of the drafted will manifest no displeasure at being conscripted).

ALBANY—47 names, 3 deficit, in presence of same—Alonzo Brown, Alonzo W Moulton, William Harriman.

JACKSON—77 names, 5 deficit, in presence of Joseph Perkins—Uriah L Pinkham, Daniel Grant, Charles S Woodis, Lowell M Wentworth, Joseph H Dearborn.

CHATHAM—63 names, 6 deficit, in presence of same—Samuel Hayden, John S Bryant jr., Lorenzo D Harriman, William McKeen, Merit E Clay, James Emerson.

☞ The following is a list of the officers of the Strafford Guards, of Dover, now stationed at Fort Constitution, commanded by Capt. I. B. Littlefield, commanding defences of Portsmouth Harbor;—

B. F. Vittom, 1st Lieut and Post Adjutant.
E. M. Jones, 2d Lieut. and Quartermaster.
SERGEANTS.—Leonard S. R. Gray, Thomas Currier, Joseph S. Abbott, Moses C. Lord, Charles W. Brewster.
CORPORALS.—Frank F. Davis, Alfred P. Drew, Oliver A. Gibbs, William H. Vickery, John W. Place, William P. Hilliard, George A. Webster, Thomas Hughes.
MUSICIANS.—Albert F. Stackpole, Samuel D. C. Hayes, So. Newmarket.
John W. Rines, Capt's Orderly and P. M. Joseph T. S. Libbey, Adjutant, Orderly. George H. Waldron, Wagoner.

☞ The funeral services of Capt. Moses were performed in St. John's Church on Thursday afternoon, in presence of a large assembly. The funeral procession consisted of the mourning relatives, officers of the Navy, Odd Fellows, and Free Masons. The Military Escort was a detachment of both companies at Fort Constitution: with solemn strains of music by the Portsmouth Cornet Band.

☞ Messrs. E. F. Sise, John Chase, and John S. Pray of this city, have purchased of Mr. Paul Curtis of East Boston, the new ship now nearly completed and soon to be launched from his ship yard. She is a superior white oak ship of about 1000 tons, and will be commanded by Capt. James S. Salter, (formerly of ship Typhoon,) who is also part owner.

STATISTICS OF PORTSMOUTH.—During the year ending March 31, 1864, there were in this city 171 Marriages, 172 Births and 221 Deaths.

☞ Charles A. Wiggin, Esq., of this city, (City Messenger) has been appointed a Justice of the Peace for the County of Rockingham.

☞ G. W. Odiorne, wounded, was admitted to the Hampton Hospital, May 10. He is a resident of this city.

☞ Nathaniel Hawthorne, the distinguished author, died at Plymouth, N. H., on Thursday morning, where he had been stopping in the course of a journey for the benefit of his health, in company with ex-President Pierce. Although suffering from general debility, he retired as well as usual on Wednesday night. Gen. Pierce found him dead in his bed about 3 o'clock the next morning, having previously looked in upon him about two. They had proposed to make a pleasure trip to the North and West as far as Saratoga Springs, to be absent some weeks,—and had reached Plymouth on the way. Although Mr. Hawthorne had been a sufferer from ill health for a long time, none of his friends supposed his situation to be dangerous. Mr. Hawthorne was born in Salem, Mass., July 4, 1804, and was, therefore, at the time of his death, within a few weeks of being sixty years of age.

☞ The Washington Chronicle says:

"Any man who fancies that we are going to get to Richmond without further and most determined fighting is mistaken. The men we fight are Americans. They are free-born citizens, and the proudest of the proud. The rebel army of Virginia is composed of the elite of the Southern people. It reckons in its ranks men of education and position. Until they are vanquished, they will fight with an energy and a desperation that must command the admiration of every heroic spirit, even while deploring their folly and despising their cause. The body of Lee's army is made up of veterans, who are used to exposure, familiar with hardship, inured to discipline, and are unshaken by the thunders of battle. Such troops can be beaten only by a succession of desperate struggles. Nor are they likely to become demoralized. They will yield to an inevitable necessity only when they recognize it as inevitable. That they will be made to feel this we have not the slighest doubt."

☞ The Savannah Republican reports that a blockade-running schooner got aground in Deadman's Bay about the 20th ult., when a blockader discovered her position, and sent some launches to take possession. The crew, seeing them approach, applied a slow match to a lot of powder in her hole, poured turpentine over the deck, set it on fire, and put out to the shore. The Federals boarded the vessel, and were hard at work putting out the fire, when the powder exploded, blowing up the whole party—numbering from twenty-five to thirty.

☞ Volunteers for the Army should not leave the City until supplied with Holloway's Pills and Ointment. For Sores, Scurvy, Wounds, Small-Pox, Fevers, and Bowel Complaints, these medicines are the best in the world. Every French soldier uses them.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 211

SUMMER CARPETING.—*Twenty Per Cent. Saved.* Just received by arrival of the "Hamilla Mitchell, from Canton, a fresh lot (made from new grass) of the celebrated "B. F. W." brand of Matting, imported by Mr. White, for Drawing Rooms and other apartments, in Plain White, Red Check, Fancy and variegated Colors. Some of the patterns are entirely new and are truly beautiful. Also, a small importation of Calcutta Matting, in breadths (a new article), and the first and only lot ever imported. The above goods are for sale by the piece or yard, *twenty per cent.* less than retail rates, by E. D. Wentworth & Co., 107 Hanover street, Boston.

☞ Orders by mail or express faithfully executed. my17—2w*

SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or soda, if this article can be purchased. We see most of our Merchants have it. One trial will convince any one. Their depot is 112 Liberty Street, New York.

SUGAR AS FOOD.—Mr. Bridges Adams, the English physiologist, in a recent paper on the "Uses of sugar in assisting assimilation of food," says:

"I know by experience the difference in nutritious effect produced by the flesh of tired cattle on a march, and those slain in a condition arising from abundant food and healthy exercise. In the former case any amount might be eaten without the satisfaction of hunger, whilst in the latter a smaller amount removed hunger. But I discovered that certain other food of a different quality, such as grape-sugar and fruit, would help the tired meat to assimilate, and thus to remove hunger." Puddings and fruit-tarts are not, therefore, simply flatteries of the palate, but digestive agents; provided, always, they are not themselves made of rebellionely indigestible materials.

The reviewer alludes to the fondness of artisans for confectionery, and of patients just discharged from the hospital asking for "sweets" in preference to "good substantial food," as examples of a correct instinct. There is no doubt that in children, in whom the requirements of growth call for a rapid and efficient transformation of food into tissue, the demand for sweets is very imperious; and parents should understand that the jam-pot will diminish the butcher's bill, and increase the amount of nutrition extracted from beef and mutton.

REAPPEARANCE OF THE FEET.—We are very glad to see that the ladies are adopting a mode of gathering their garments in festoons, by an elastic cord, which relieves them not only from dragging their skirts over the dirty pavements, but restores to mankind the civilizing influences of their feet. The American ladies have the handsomest feet of any ladies in the world; and having deprived us of them, through an absurd fashion, for at least five years, we naturally welcome their return with joy. We, therefore, declare permanently for festoons instead of trails.—*Wilkes' Spirit.*

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D., Graduate College Physicians and Surgeons, N. Y., formerly Assistant Physician Blackwell's Island Hospitals, late Medical Director New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and candid to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored, it hence has effected long from pain, and obstinate diseases, those who have vainly sought relief from advertised medicines, those who are tired of being dosed by other quacks.

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as heroic as ever encountered by any Reformer.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt the permanency, and think that diseases can only be cured by the "slow recuperative process of Nature." This is our reply:

In health, the system, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the disease; and our aim is, by remedies, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP.

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all CHRONIC DISEASES, transmitted, from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration to the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stom'h, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Struma, Glandular Swellings, Ulcerations, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical treatment incurable.

Rheumatism.

[Arthritis], Lumbago, Neuralgia, Sciatica, Gout, The Dolorous.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Case, chronic or Gravis, of 10 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thought, Epilepsy, Loss of Power, Shattered Nerves, St. Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering woman will this medicine prove an invaluable boon, directing their footsteps to a HOPE which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Aching of Bones, Foul Ulcerations, Loss of Hair, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the fœtid Breath, and restoring the Well Man to Health, and to those which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup
Eradicates, root and branch, all Eruptive Diseases of the Skin, like
ULCERS, PIMPLES, BLOTCHES,
And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Sloughing Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Disorders from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries or womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is deep-rooted and obstinate, but it will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of any portion of the body will be completely reduced without resorting to the knife or operations of any kind.

Tedious Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the Heart Case and all the symptoms of this horrible form of disease, are persons suffering from acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions,

Suffering from Indigestion or Dyspepsia, Want of Appetite, Costiveness, Headaches, Horrors of Melancholy, Fear of Disease, Dizziness of Vision, Dry Hot Skin and Extremities, Weak Weak Sleep, Restlessness, Cold Feet, Nervous and Languid Feelings, Want of color System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Secretive Diseases**, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.

MOTHER'S MIXTURES cure the "Whites" depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretions and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an indurated or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, may be speedily obtained by the use of CONSTITUTION LIFE SYRUP.

As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay if you feel the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES. It is the natural Female Regulator, and has been discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enlarges the food—Those who have used it think it indispensable. It is highly esteemed by doctors and nurses generally, as it prevents disease attendant upon childbirth.

Constitution Life Syrup
Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Inflammation of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Strictures, Gravel, Diabetes, Gonorrhœa, and is generally recommended in diseases of the Urinary Passages, Whites in females where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and invigorating the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have generated disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Female Abuse or Whites. Its effects are *healing, soothing and demulcent;* removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

We will gladly send get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from spreading in the room. With the extension top there is a large copper Reservoir for hot water; also a large warming closet made of iron, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the above celebrated and valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable article.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots and for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The undersigned would ask of the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The considerable space being lighter than the air, passes off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 30 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

ESTABLISHED 1852. PORTSMOUTH, N. H. SATURDAY, MAY 21, 1864. VOL. XXIV. No. 120.

The Chronicle.

☞ The following remarkable passage occurs in Prof. Agassiz's "Method of Study in Natural History:"

One can hardly conceive the beauty of the egg as seen through the microscope at this period of its growth, when the whole yolk is divided, with the dark granules on one side; while the other side, where the transparent halo of the vesicle is seen, is brilliant with light. With the growth of the egg these granules enlarge, become more distinct, and under the microscope some of them appear to be hollow. They are not round in form, but rather irregular, and under the effect of light they are exceedingly brilliant. Presently, instead of being scattered equally over the space they occupy, they form clusters,—constellations, as it were,—and between these clusters are clear spaces, produced by the separation of the albumen from the oil.

At this period of its growth there is a wonderful resemblance between the appearance of the egg, as seen under the microscope, and the firmament with the celestial bodies. The little clusters or constellations are equally divided. Here and there they are two and two like double stars, or sometimes in three, or five, or in seven, recalling the Pleiades; and clear albumious tracts between are like the empty spaces separating the stars.

This is simply true that such is the actual appearance of the yolk at this time; and the idea cannot but suggest itself to the mind, that the thoughts, which have been embodied in the universe, are recalled here within the little egg, presenting a miniature diagram of the firmament. This is one of the first changes of the yolk, ending by forming regular clusters, with a sort of network of albumen between, and then this phase of the growth is complete.

☞ Wednesday's Mail as usual brought us the Concord Patriot giving an account of our army's battles in Virginia, which it calls "The most desperately contested and most bloody battles that ever disgraced a civilized people," and seeing therein no substantial successes".

The same day's mail also brought the Boston Post, with the item:—"One hundred guns have been fired in Albany, N. Y. by order of Governor Seymour, in honor of our recent success.

Gov. Seymour *may* be as well posted as the Patriot—but the Patriot fires no guns now except signals of distress. U. T.

☞ In the Armory Square Hospital Gazette we find the following. The Hospital referred to is in Washington:

In this Hospital the bodies of all deceased soldiers are embalmed. The friends are immediately notified by telegram. If they desire the remains forwarded to them, they will send by telegraph to forward the body to such address, and all expenses can be paid on delivery in this way great time and expense can be saved. Will editors please pass this item around for the benefit of bereaved ones, so they can recover their precious dead speedily?

☞ Gen. Grant's first General Order was as follows;

Notice to Employees in Military Railway Service.—The use of intoxicating liquors by any person when on duty in the military railway service, is positively forbidden. All employees of the Government in this Department, detected in using liquors when on duty, or carrying it with them on any military road, will be dismissed from the service.

— St. Louis is recovering from the depressing consequences of the war, and is now doing an immense business, and growing finely. The river trade has been, in a great measure, revived, and the levee is lined with steamboats. The emigration across the plains—to the gold regions and beyond—is beyond precedent.

— The Gloucester Telegraph, (we know not on what authority) says, "We observe that the cost of keeping the horses belonging to the city of Boston, and those of the horse railroads, is from $2.37 to $2.40 per week." Down this way, even here in the "country," it costs nearly double that. The Telegraph recommends Club stables.

— Capt. M'Killop's composition for preventing the adherence of vegetable and animal substances to the bottoms of iron ships is said to have been attended with complete success in the Ionia, iron-screw-just docked at Liverpool, after ten months' trading between that port and Alexandria.

— A portion of the Chalmette battle ground, (New Orleans, where Jackson won his memorable victory on the 8th of January, a half century since,) has been selected for the interment of the deceased members of the United States army and navy.

— There were anciently recognized in Scotland two modes of investigating capital charges, viz., 1. Before the execution of the prisoner, and 2. After it.

—— The Draft for the deficiency in the 2d District commenced in Concord on Tuesday.

RYE, N. H., Feb. 26, 1863. "Thereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintance, who were afflicted, and witnessed very full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with dizziness at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I. CHESLEY, *Lee, May* 31, 1841

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had supplied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if they do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. mav26

THE IMMENSE POPULARITY OF THE

California Wines

Introduced by us, is a flattering tribute to their purity and delicacy, and a cheering indication of a desire among the people to encourage

American Industry.

The Surgeon General of the United States, after an analysis of our Wines, reports them to be pure.

Dr Charles T. Jackson, State Assayer, who is the most undoubted authority, after an analysis of our Sacred Wine, says:—"The fluid analyzed leaves fifty-four grains of solid matter, consisting wholly of the fixed principles of grapes. I find no adulterating substance, and consider it suitable for medicinal and general use."

The Boston Traveller says:—"The California White or Hock Wine stands in favor the best of Hock Wines, and costs much less."

The Saturday Evening Gazette says:—"The White Wine is equal to the Stein or light wines which we import, with its delicate and rich flavor, and we believe its purity unquestionable."

Hon. John G. Downey, late Governor of California, says:—"I most cheerfully recommend your Wines to all who desire a pure juice of the grape."

The New York Commercial Advertiser says:—"The wines have a fine flavor, and need only to be tasted to be approved."

The Boston Transcript says:—"The White Wine is equal to the best Hock."

The New York Tribune says:—"The 'Angelica' has a rich and delicious flavor, unsurpassed by any Wines in the market."

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!
This desirable mechanical arrangement has now been in use in a sufficient length of time to show that it gives entire satisfaction and actually is the more valued the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so recuperative as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.
They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest responsibility in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.
The rich will have it because IT IS THE BEST. All other classes will have it on account of it being CHEAPER than any other Bed-Bottom, for that a better bed may be had by means of this improvement for six dollars than can be had in under bedding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!
These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in communication with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate, which are and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Pimples and Eruptions, Blotches, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of the terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Lahoff's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, MAY 21, 1864.

THE REBELLION.

The rebels have been making some demonstrations in the vicinity of Port Hudson. Gen. Ullman, who is in command there, has greatly strengthened the fortifications, has received important additions to his army, and on the 3d attacked and pursued 2000 rebels five miles, but they declined his offer of battle and skedaddled.

Gen. Sherman reached Kingston, Ga., on Wednesday, and encamped there that night. On Tuesday morning he advanced upon the enemy but they again retreated. But at 2 P. M., Gens. Hooker's and Howard's guns were hammering at Johnston, and the two armies were in plain sight of each other 2 miles east of Kingston. Davis' division of the 4th cavalry is in possession of Rome. Gen. Sherman reports the weather fine, roads good and the country less mountainous and more open.

In the late capture of Yazoo City by Gen. McArthur the rebels are said to have been badly worsted, and to have lost largely in killed and wounded.

The rebels were repulsed by our gunboats and batteries at Newbern, N. C., and retreated on the 6th. The results of their raid were the capture of our fortifications at Evans Mills, the garrison escaping, the capture of the stockade at Croatan with its garrison of fifty men, and some injury to the railroad between Newbern and Morehead City.

Gen. Sigel's loss is stated to have been 650 killed, wounded and missing, and five guns.

Our troops have taken possession of Tampa, Fla. The rebel troops there had been sent to Lee. 50 prisoners and a blockade runner were captured, and the fortifications destroyed.

THE VIRGINIA CAMPAIGN.

Gen. Grant's movement on Wednesday did not rise above a reconnoissance in force. It was intended as a surprise, but Lee was found prepared. The skirmishing culminated in another brilliant charge by Gen. Hancock on our right, when he drove the enemy a short distance, and carried the first line of earthworks—capturing a considerable number of prisoners and several guns. Up to the latest advices he had steadily defeated all attempts of the enemy to expel him from his position.—Aside from this success the result of the engagement is understood to have been somewhat favorable though not decisive. The rebels maintained their position with great tenacity. Officers describe the rebel fortifications as exceedingly strong. The present line of battle extends from northwest to southeast, Gen. Hancock on the extreme right, Wright on the right centre, Burnside on the left centre, and Warren on the extreme left, strongly entrenched. From the opening of the campaign the armies have moved by the flank to the left in a southeast direction, Lee having the advantage of selecting position for battle. A large force of cavalry from the dismounted camp reached Grant on Wednesday with fresh horses, and will be of great service in the absence of Gen. Sheridan's command.

Gen. Butler's attack on Fort Darling seems to be abandoned and correspondents now state that it was undertaken for the purpose of distracting the attention of the rebel forces garrisoning the outer defenses of Richmond from the movement of Gen. Kautz upon the Danville and Richmond Railroad, as by the breaking of that communication every line of travel radiating from Richmond, by which Lee could receive supplies for his army, would be cut. Gen. Kautz destroyed large supplies of stores at several places; rendered four railroads useless; and met the enemy in several encounters and always drove them. The enemy attacked Gen. Butler's line on Tuesday, and were severely repulsed.

— The number of our wounded, as shown by official statements, is 20,000.

— Three prize steamers, with 1700 bales of cotton, have arrived at Boston this week.

— The Volunteer Surgeons summoned to Fredericksburg are returning, and report the wounded well cared for.

— Well executed Counterfeit fives on the Merchants' Bank, Lowell, have been discovered in circulation.

— Eight of Mosby's guerrillas were captured on Wednesday, loaded with plunder from our dead and wounded.

— The Portlanders, having had two nights of German Opera, are talking about building an Opera House, to cost from $60,000 to $75,000.

— It is said that the charge of the famous Hampton Legion, the flower of the Southern cavalry, was repulsed by the colored troops of Gen. Ferrer's command.

— Gen. Burnside had a narrow escape from a shell, Wednesday; Col. Richmond and Capt. Hattin, of his staff, standing near him, were slightly injured.

NOTES OF FORMER DAYS.

Collected and Collated — By Uncle Tony.

Strategy at Louisburg in 1745—Prizes. Pepperell and Warren made Baronets—Vaughan's disappointment and death.

No sooner was the city taken, and the army under shelter, than the weather, which during the siege, excepting eight or nine days after the first landing, had been remarkably dry for that climate, changed for the worse; and an incessant rain of ten days succeeded. Had this happened before the surrender, the troops who had then begun to be sickly, and had none but very thin tents, must have perished in great numbers. Reinforcements of men, stores and provisions arrived. Of the reinforcements, New Hampshire sent 115 men.—The loss which the New Hampshire troops suffered was but eleven, of whom five were killed and six died of sickness. This was before the surrender. More died afterwards in garrison.

It was determined in a council of war to maintain the place and repair the breaches. A total demolition might have been more advantageous to the nation; but in that case, individuals would not have enjoyed the profit of drawing bills on the navy and ordnance establishments. The French flag was kept flying on the ramparts; and several rich prizes were decoyed into the harbor. The army supposed that they had a right to a share of these prizes; but means were found to suppress or evade their claim; nor did any of the colony cruisers, (except one) though they were retained in the service, under the direction of the commodore, reap any benefit from the captures.

The news of this important victory filled America with joy, and Europe with astonishment. The enterprising spirit of New England gave a serious alarm to those jealous fears, which had long predicted the independence of the colonies. Great pains were taken in England to ascribe all the glory to the navy, and lessen the merit of the army. However, Pepperell received the title of a baronet, as well as Warren.—The latter was promoted to be an admiral; the former had a commission as colonel in the British establishment, and was empowered to raise a regiment in America, to be in the pay of the crown. The same emolument was given to Shirley, and both he and Wentworth acquired so much reputation as to be confirmed in their places.—Vaughan went to England to seek a reward for his services, and there died of the small pox.

Vaughan died in London "about the middle of December, 1746." [Interleaved almanack of Eleazar Russell, Esq.] He was born at Portsmouth, 12 September, 1703, and graduated at Harvard college in 1722. For several years, he was a merchant in his native town; but, possessing an enterprising disposition, accompanied by a few hardy adventurers from the neighboring towns, he left Portsmouth, emigrated to the eastern country, and formed a settlement at a place called Damariscotta, about 13 miles below fort Pemaquid. He died a disappointed man; for while the successful commander of the expedition was soon after knighted and otherwise distinguished, the intrepid Vaughan remained more than a year in England, in the vain expectation of receiving some compensation from the sovereign whom he had so signally served.

Solicitations were set on foot for a parliamentary reimbursement, which, after much difficulty and delay, was obtained; and the colonies who had expended their substance were in credit at the British treasury. The reimbursement to New Hampshire was sixteen thousand, three hundred and fifty-five pounds sterling. The Justice and policy of this measure must appear to every one, who considers, that excepting the suppression of a rebellion within the bowels of the kingdom, this conquest was the only action which could be called a victory, on the part of the British nation, during the whole French war, and afforded them the means of purchasing a peace.

☞ The postal money system, just established by law, provides that no order shall be issued for any sum less than one dollar or more than thirty dollars. All persons who receive orders are required to pay therefor the following fees, viz: for an order for one dollar or any larger sum, not exceeding ten dollars, ten cents, to be paid to the Postmaster giving the order; for an order of more than ten, and not exceeding twenty dollars, fifteen cents; and for every order exceeding twenty dollars, twenty cents.

☞ Correspondents state that persons at the North can form no opinion at all, from anything they see here, of the nature and condition of the Virginia roads after an hour's brisk rain. An entire day is consumed in moving a train from Belle Plain to Fredericksburg, a distance of only nine miles, and a team often occupies twenty-four hours in going from Fredricksb'g to the front, a distance of eleven miles. A smart pedestrian cannot walk from Belle Plain to Gen. Grant's headquarters in less than fifteen hours, and couriers occupy ten or more hours in making the distances.

CHIPS—HEWN AND GATHERED.

— Gold—182 1-8.

— A man in New Portland, Me., was married May 3, and died May 7.

— Five U. S. surveying vessels arrived at Portland on Thursday.

— Gen. Neal Dow addressed a County Temperance Convention at Yarmouth, Me., on the 18th.

— The iron-clad single turret monitor Mahopac was launched at Jersey City on Tuesday afternoon.

— The present is considered the most extraordinary season ever known for fish of almost every kind.

— Nathaniel Hawthorne had long been engaged on a new novel, which by his death is left in an unfinished state.

— It is supposed the rebels blew up the U. S. gunboat Southfield, which they captured in Albemarle Sound.

— Yeaton, who, it may be remembered, made a deadly assault on a student at the Academy in Norway, Me., a few weeks since, has been arrested.

— An engine company in Saco has voted to give their old uniforms,—hats, coats and pants,—to the suffering freedmen of the South.

— Naval Court Martials have power to reduce officers, who absent themselves from their command without leave, to the rating of ordinary seamen.

— Lieut. Gen. Pemberton, who surrendered Vicksburg, has been assigned to the artillery defenses of Richmond, with the rank of Lieut. Colonel.

— The Swiss are making great preparations for the celebration of the three hundredth anniversary of the death of John Calvin, which takes place this month.

— There is a cat in Wilbraham, Mass., that, it is said, frequently goes to a pond near the house, and catches fish by jumping from the bank and securing them with her paws.

— It is stated that the rebel ram Albemarle had nine men killed in the engagement on the 5th, and to have been so badly injured as to be sent up the river for repairs.

— Crosbaw's London Freight Circular, May 2, states that sales of American tonnage are much restricted, owing to a tight money market and unremunerative employment.

— It is said that watering strawberries with water in which nitrate of soda has been dissolved, to the amount of one ounce of soda to a gallon of water, will help the plants to produce a wonderful crop.

— The Boston Courier, in speaking of Hawthorne, says: "Of learning he had very little, and was wholly independent of books. We doubt if he ever owned a library large enough to fill a wheelbarrow."

— Officers and civilians who come from the front say that the Union troops regard success as a duty, and are intent on avenging the numerous outrages which have been committed by their vindictive foes.

— Police Officer Oblo, of New Orleans, went into a bar-room on the night of the 2d inst. to arrest two men who were fighting, and fell dead while in the act of making the arrest.

— The inroads of the sea upon Morris Island still continue. So rapidly has the washing away advanced, that it will take but a short time to make a deep inlet between Forts Gregg and Wagner.

— Several rebel prisoners escaped from Fort McHenry, Baltimore, on Saturday night, including Eugene Lamar and Wm. B. Compton, sentenced to be hanged as spies.

— It is said that there are between 20,000 and 30,000 bales of cotton in the vicinity of Yazoo City, 6000 or 7000 of which are owned by Union citizens, who bought them before the town was evacuated by our forces last spring.

— Richmond papers, published three days after the battle of Spottsylvania, in which they lost 8000 prisoners and 18 guns, say they have no particulars of the engagement, and yet they say communication with Lee is perfect.

— Gen. Grant's supply trains are guarded for the most part by negro troops, who also, to some extent, are employed in scouting service, for which they are peculiarly adapted. A majority of our teamsters are also negroes.

— By a law just passed, the President is authorized to appoint, by and with the consent of the Senate, Acting Lieutenant Commanders and Acting Commanders, who shall have the same compensation as officers of similar grade in the Navy.

— The Students of Bowdoin College have organized a brass band for their own amusement, and the Boston Advertiser expresses its ignorance as to whether they practice before or after morning prayers. As those are held at 6 o'clock A. M., the boys do all their blowing at that fact, and not at their instruments, which are attended to during the evening.

NEW HAMPSHIRE ITEMS.

—— There have been five deaths in Manchester recently from small pox. The disease does not appear to be increasing there.

—— Not a single death has occurred thus far during the present year, a period of over four months, in the town of Bedford, which has some fifteen hundred inhabitants.

—— On Saturday forenoon of last week, James M. Stevens, son of Simeon Stevens, of Lake Village, about 14 years of age, while playing about a machine called the "switcher," in a Dye House, accidentally fell upon it while revolving, breaking both legs between the knee and hip, two ribs, and severely lacerating the right arm. Doubts are entertained of his recovery.

——The Petersburg, Va., Express of the 13th, gives an account of the driving back to Bermuda Hundred of a New Hampshire regiment which had taken position on the railroad near that city, and says:—

The enemy left many valuable articles on the ground abandoned yesterday, such as Belgian rifles, canteens, haversacks, muskets, saddles, harness, &c. There was every evidence of a hasty retreat. The retreat was as sudden as precipitate, for they had thrown up breastworks on Monday, and made other preparations for a regular siege. The invaders have saved themselves a terrible drubbing.

☞ A letter from an officer of the Navy, at Newbern, says "the iron-clad ram of the rebels is of that build that she can close her ports and is thus impenetrable and can make her way wherever she may heed, for yesterday she was crossed and re-crossed, around and around her the fleet steamed, firing into her as fast as possible from their 100 pound rifles with steel pointed balls and 9-inch Dahlgrens, but availing nothing more than turning her back into the river."

— A rumor comes from England that the rebel pirates are to make a demonstration on our coast as soon as they can be got ready.

— Gen. Daniel Bean of Brownsville, Me., lost all his buildings by fire on Monday night last, together with one yoke of fine oxen, three cows, one calf, and a large lot of hay, corn, grain, farming tools, &c.—Loss $3,000. Incendiary.

— When Gen. Hunter asked the President why he had been superseded at Charleston by Gen. Gilmore, the President, in his dry way, replied, "Why, the fact of the matter is, General, Horace Greeley found me a general who could do the job better."

"A Slight Cold," Coughs,
Few are aware of the importance of checking a Cough or "slight cold" in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs.
"Brown's Bronchial Troches," give sure and almost immediate relief. Military Officers and Soldiers should have them, as they can be carried in the pocket and taken as occasion requires.

LAUNCH.—The Steam Propeller "General Grant" will be launched from the Ship Yard of Messrs Tobey & Littlefield, Noble's Island this day (Saturday) at half past 12 o'clock. She is built under a contract with Messrs. R. B. & J. M. Forbes, of Boston, for the China and San Francisco trade, but may be converted at small expense into a naval vessel, should she be required for the Government.

She is 251 feet measuring length, 34 8-12 feet beam, 23 feet deep,—about 1480 tons, and is very sharp in the extremities, but has good midship bearings. She is to be rigged here, after the design of R. B. Forbes, known as the Forbes rig, with topmasts fidded abaft, and every necessary contrivance for housing them speedily. This rig is acknowledged by web-footed experts to be the only true rig for a cruising vessel.—Her model was got out under Mr. R. B. Forbes' order, to suit himself, but due credit will doubtless be given to D. J. Lawlor, of Chelsea, Mass., who drafted and made the moulds, if she proves successful.

We are not aware who is making the machinery, but we understand that it is nearly ready to go in and is like, the ship herself, of excellent quality throughout, consisting of two 60 1 2 by 36 inch cylinders and four tubular boilers of large capacity, with all the modern improvements. She is calculated to spread a considerable amount of canvas, say 3500 running yards in her bending suit. When complete, we shall give a detailed description of her, and doubt not she will do credit to all the Mechanics who have been employed on her.

BOUNTY JUMPER CAUGHT.—The Boston Journal states that one of the most active of this genus was caught in that city on Thursday by officer F. B. Johnson, of Portsmouth. He first enlisted under the true name, probably, of George Pratt, but on Thursday he endeavored to effect another enlistment as Abel King.

Officer Johnson, we learn, was in pursuit of another deserter, and while at Faneuil Hall observed this man come in, accompanied by a broker, who had brought him from New York, and had his papers already prepared to enlist him. Mr. Johnson at once recognized him, and, on the man's denying that he had ever been in the U. S. service, arrested him. He subsequently admitted that he enlisted in this city in October last, and was sent to Concord. While he was in camp there a woman brought him a suit of citizens' clothes, for which he paid her $25. Dressed in these, he jumped over the fence, while there were many persons present at the camp—it being Sunday—and ran away. He stole a team from a barn, and drove through Manchester, leaving the team two miles beyond the city and taking the cars. Officer Johnson, on arresting him, brought him to this city and delivered him to the Provost Marshal, by whom he was sent to Fort Constitution.

☞ Fort McClary, at Kittery Point, one of the "Defences of Portsmouth Harbor," is at present garrisoned by the First Company of Maine Militia,—being the Norway and the Lewiston Independent Light Infantry Companies, consolidated. There are 94 enlisted men, for 60 days' service. The officers are:

Captain, Sylvanus Cobb, jr., of Norway;
1st Lieut., Chester C. Thyng, of Lewiston;
2d Lieut., Claudius M. Favor, of Norway;
1st Sergeant, Henry Tucker, of Norway;
2d Sergt., Thos. A. Eastman, of Lewiston;
Captain's Clerk, Benj. G. Barron, of Norway.

☞ Upwards of 200 negroes from Baltimore arrived at Portsmouth Navy Yard, on Wednesday, via the Eastern Railroad, and were placed on board ship-of-the-line New Hampshire. One of them, it was feared, had the small pox, and he was taken to the Pest Island, the Hospital at the Navy Yard having just been cleansed from that disease. Every precaution has been taken to prevent the spread of the disease.

☞ Acting Master's Mates Willis G. Perry and John L. Vennard have been promoted to Ensigns, and ordered to the U. S. steamer Alabama at the Portsmouth Navy Yard.

☞ Mr. E. A. Joy's Juvenile Singing School (Saturday) afternoon at 2 o'clock, at Mercantile Hall. He has a nice class, but there is room for more of the little folks.

☞ Mr. Joy's evening Singing School, for Ladies and Gentlemen, is held at Mercantile Hall, on Tuesday evening. For the enjoyment of the thing, as well as for the cause of music in the city, the hall ought to be filled.

☞ Any of our readers who may have occasion to purchase nice furniture in Boston, will do well to examine the new and large stock of Beal & Hooper, advertised in our columns this morning.

— The Newfoundland seal fishery is turning out better than was anticipated and may be an average one. Though very many vessels have been lost, others are daily arriving at the different ports with fair trips.

UNION CAUCUSES.

WARD ONE.—The Union men of Ward One, are requested to meet at the WARD ROOM on Elm street on TUESDAY Evening next, at 8 o'clock, for the purpose of choosing eight Delegates to the Union Convention to be holden at Concord on the 31st inst., for the purpose of electing Delegates to the National Convention at Baltimore.

WARD TWO.—A meeting for the like purpose will be held by the Union Voters of Ward Two, at the COURT HOUSE on TUESDAY Evening next, at 8 o'clock.

WARD THREE.—Will hold a Meeting at the COURT ROOM, at the same time, for the like purpose.

THE BOOK OF DAYS is completed with the issue of Parts 25 and 26, which have just been published by Lippincott & Co. and received by J. H. Foster. This is one of the most quaint and curious publications of the day, and combines a vast variety of entertainment and instruction, rendered easily available by a copious alphabetical index.

PETERSON'S MAGAZINE, for June, contains thirty articles, with forty-eight embellishments. The steel-plate engraving, "Caught in a shower," is quite natural, and one of the faces in the fashion plates really has some expression in it. The literary portions of the number are as attractive as usual.

☞ Volunteers for the Army should not leave the City until supplied with Holloway's Pills and Ointment. For Sores, Scurvy, Wounds, Small-Pox, Fevers, and Bowel Complaints, these medicines are the best in the world. Every French soldier uses them.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 211

SUMMER CARPETING.—*Twenty Per Cent. Saved.* Just received by arrival of the "Hamilla Mitchell, from Canton, a fresh lot (made from new grass) of the celebrated "B. F. W." brand of Matting, imported by Mr. White, for Drawing Rooms and other apartments, in Plain White, Red Check, Fancy and variegated Colors. Some of the patterns are entirely new and are truly beautiful. Also, a small importation of Calcutta Matting, in breadths (a new article), and the first and only lot ever imported. The above goods are for sale by the piece or yard, *twenty per cent.* less than retail rates, by R. B. Wentworth & Co., 107 Hanover street, Boston.

☞ Orders by mail or express faithfully executed. my17—2w*

SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or soda, if this article can be purchased. We see most of our Merchants have it. One trial will convince any one. Their depot is 112 Liberty Street, New York.

THE POPULAR CREED.

BY CHARLES SHIRAS.

Dimes and dollars, dollars and dimes!
An empty pocket's the worst of crimes!
If a man is down, give him a thrust—
Trample the beggar into the dust.
Presumptuous poverty's quite appalling—
Knock him over! kick him for falling!
If a man is up, oh! lift him higher!
Your soul's for sale, and he's the buyer—
Dimes and dollars, dollars and dimes!
An empty pocket's the worst of crimes!

I know a poor, but worthy youth,
Whose hopes are built on a maiden's truth—
But a machine will break her vows with ease,
For a wooer cometh whose claims are these:
A hollow heart and an empty hand,
A face well tinged with brandy red,
A soul well trained in villainy's school—
And cash, sweet cash—he knows the rule:
Dimes and dollars, dollars and dimes!
An empty pocket's the worst of crimes!

I know a bold and honest man,
Who strives to live as the Christian's plan,
But poor he is, and poor will be,
A scorned, a hated wretch is he;
At home he meets a starving wife,
Abroad he leadeth the leper's life—
They struggle against a fearful odds
Who will not bow to the people's gods!
Dimes and dollars, dollars and dimes!
An empty pocket's the worst of crimes!

So get ye wealth, no matter how!
"No questions asked" of the rich, I trow—
Steal by night and steal by day,
(Doing it all in a legal way)
Join the Church, and never forsake her,
Learn to cant and insult your Maker,
Be hypocrite, liar, knave and fool,
But don't be poor—remember the rule:
Dimes and dollars, dollars and dimes!
An empty pocket's the worst of crimes!

☞ A Washington correspondent communicates to the Concord Statesman the following:

Hon. J. W. Patterson, who is keenly alive to the interests of the country and the honor of New Hampshire, during the late discussion of the bill for equalizing the pay of colored troops, made the statement that New Hampshire had the honor of having given the first life to this war. As the speech was brief, concise, and of historic interest, I send it to you in full.

"Mr. Speaker: I desire to say a word in the way of correction to a remark made by the gentleman from Pennsylvania. In the course of his eloquent philippic, he stated, what we have frequently heard upon this floor, and seen in the public prints of the country, that the first man whose blood was shed in the present war was from the State of Massachusetts. I feel it to be a duty I owe to my constituents, here, publicly, to say that the statement is not quite true to history.

No man honors Massachusetts more than I; but, sir, with her proud history she can well afford to be just to her sister States, and would scorn to appropriate the honor of another. Her quiver is so full of arrows, I am sure she will allow me to strike from it this shaft, and lay it among the memorabilia of my own State. The little, rock-ribbed State of New Hampshire, which I have the honor in part to represent, claims this honor as her own. I believe, sir, that the man who first shed his blood and gave up his life in the war was a brave boy from the town of Alexandria, in my own district, though enlisted in an honored regiment of Massachusetts, and when his remains were borne home from the spot glorified by his death, they were deposited in the quiet churchyard of his native village.

'Slowly and sadly we laid him down—
From the field of his fame, fresh and gory;'

but, sir, he was not 'left alone in his glory' for that State which is as just to its honored dead as it is to its living heroes, sought out and obtained the privilege of laying that first moiety in the great rebellion beneath a monument which her gratitude desired to raise to his memory.

'And as sepulchred in such pomp dost lie,
That kings, for such a tomb, would wish to die.'"

American and Foreign Patents.
E. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (ten years the last of 1852,)
76 State street, opposite Kilby street,
BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, and in Europe, France, Prussia and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters relating to patents, and of the claims of any Patent Examiner, by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, not possessed by any, while facility of invention unsurpassed by, if not immeasurably superior to, any which can be offered from elsewhere. The Letters Patent granted, prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would ask that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, enable him able, beyond question, to offer superior facilities for obtaining Patents.

All necessary of an Agency to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. E. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on twice rejected applications SIXTEEN APPEALS, EVERY ONE of which were decided in his favor, by the Commissioner of Patents.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College of Physicians and Surgeons, N. Y.
Formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many disease hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigation of the rational minded and scientific to cures which have no parallel at the present day.

Our method is natural, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from pain fitful and bewildering, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are **Invited to use Constitution Life Syrup.**

During the past five years we have contended with obstacles unknown to previous years, no less in kind than in degree than we encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that disease should be cured by the "slow and imperceptible process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when pain or disease down upon one side of the scale, we have the effects of disease. What is requisite is, to restore the equilibrium, and the cure is perfect.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis,

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need but referrals that it is emphatically the **Great Life-Giving Power.**

Dyspepsia,

Indigestion, Liver Complaint, Constipation, Irritation of Stomach, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Struma, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis, Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and the allied affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.

Thousands who have suffered for years will bless the day they first read our card. Patronizing no worthless medicines, suffering women will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

"Constitution Life Syrup" will restore you entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is so prolific of. It hardens Spongy Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases, such as

ULCERS, PIMPLES, BLOTCHES,

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so much a prominent portion of humanity, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which speedily upon a portion of humanity. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Distress, Fluttering, Inertia, Pain of Disease, Diseases of Veins, Dry Hot Skin and Extremities, Want of Sleep, Restlessness, Pale Haggard Countenance and Languidness of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases,** either on or in the Body, Limbs, Face, Head, Neck, Breast or Scalp, no remedy has ever proved its equal.

MOTH PATCHES upon the female face, depending upon a disordered state of the system, very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the disorder, and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated liver, complicated with the above, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases peculiar to their sex, if they want to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES.—It is the safest and most effectual medicine ever discovered for purifying the system, relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases the quantity of the food—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CHEROKEE REMEDY
AND
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Urine Alkline (Water in particular) where all the old nostrums and medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times daily.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its healthy purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and demulcent; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, the inflamed membranes are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES.

CHEROKEE
CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Impotency, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and the careful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in the instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or the Sole Proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.
Prepared from Pure Vegetable Extracts,
Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and vigor of youth.
A few doses restore the appetite.
Three bottles cure the worst case of impotency.
A few doses cure the low spirited.
One bottle restores mental power.
A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the individual suffering from nervous debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

Price, $2 per bottle or three bottles for $5, and forwarded by express, on receipt of money, to any address.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling out of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, so that it can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, and not possessing the little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of air through the fire-pot. Nothing prevents them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to use any amount of heat required; and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

Gray's Patent
Molded Collars
Have now been before the public for nearly a year. They are universally pronounced the neatest and best fitting collars extant.
The upper edge presents a perfect curve, free from the angles noticed in all other collars.
The cravat causes no wrinkles on the inside of the turn-down collar—they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.
The Garotte Collar has a smooth and evenly finished edge on BOTH SIDES.
These Collars are not simply flat pieces of paper cut in the form of a collar, but are MOLDED AND SHAPED TO FIT THE NECK.
They are made in "NOVELTY" (or turn-down) style, in every half size from 12 to 17 inches, and in "Eureka" (Garotte) from 13 to 17 inches; and packed in "half dozen" in neat blue cartons, containing 100 each; also in smaller ones of 10 each, the latter a very handy package for Travellers, Army and Navy Officers.
☞ EVERY COLLAR is stamped
"Gray's Patent Molded Collar."
Sold by all dealers in Men's Furnishing Goods. The Trade supplied by
HATCH, JOHNSON & CO.,
Importers and Wholesale Dealers in Men's Furnishing Goods and Umbrellas, 81 Devonshire street, Boston.

ESTABLISHED 1852. PORTSMOUTH, N. H. MONDAY, MAY 23, 1864. VOL. XXIV. No. 121.

The Chronicle.

AN IMPOSSIBLE ALTERNATIVE.—The Gloucester Telegraph, a loyal paper, and a good one too, has an editorial in which it is considered the duty and the purpose of our people to put down the rebellion at whatever cost. In the course of the article we find the following sentences:—

Before the outbreak of the war the burden of government set so lightly upon the people, that we failed to appreciate the value of our institutions, and counting too much upon our love of peace we failed to use the appliances at hand to prevent the development of treason and the inauguration of rebellion. As it now appears, we should have been *wiser* if we had either sent Commissioners to Washington, who would have removed all sources of disturbance between the North and South by compromise, or we should have prepared for a great struggle and an overwhelming force with which to crush the rebels before they could unite public opinion in their support.

What is here said in the first sentence about our love of peace in this part of the country, is true. It is also true that in this love we let most of our military organizations go out of existence, and suffered most of our arms to be destroyed or given away.

But we must have been *wiser* than Solomon or Solon, or vastly *stronger* than Samson or Hercules, to have done either of the things presented in the latter sentence.

It might have been possible for the democratic party to have sent such a committee of *doefaces* to Charleston as would have removed the *disturbance* which occurred there, and which culminated in this war,—but they could not have removed the *sources* of the disturbance, viz. slavery, and the aristocracy growing out of it. These existed before our revolution, and are described by Jefferson in thoughts that breathe and words that burn! Commissioners at the Charleston convention, or at Washington just before that time, might have *compromised* once more: but the history of all our compromises on this subject shows plainly that each compromise with that wickedness and folly only paved the way for the next, and that each new compromise was a little baser than the one before it.

As to preparing for a great struggle, our *government* did so, and being in the hands of Jeff. Davis, as Pres. Pierce's War Secretary, and of Floyd, under Buchanan, they did it on the rebel side—to crush, not the rebellion, but the Union—to promote, not liberty, but slavery—to uphold, not Democracy, but their own Oligarchy.—Pierce and Buchanan, Taney and Toucey were their associates, confederates and tools,—and the political, governmental power of the nation was held by a party of which these men, and such as these, were the models and the leaders.

It is not wonderful then that we did not prepare a great force to put down the rebellion, when our President, Buchanan, could only mumble out the craven thought that our General Government had no right to coerce a State, rebel though it might be!

The traitors that held our government in their chains, that annexed territory to strengthen slavery, and made war with a neighbor to defend it,—made this rebellion and this war, as their last resort; and we hope they may reap the reward of their works, in seeing their institution and their confederacy perish together, in the last ditch which they have been digging. U. T.

☞ Hereafter all appointments in the Volunteer Naval service, above the rank of Acting Master, are to be submitted to the Senate for confirmation in the same manner as appointments in the regular Navy. Any Acting Volunteer Lieutenant or Acting Master in the Navy appointed from civil life, as authorized by the act of Congress of July 24, 1861, may be placed in the line of promotion from the date of confirmation, if, upon the recommendation of the President, he receives the thanks of Congress for highly meritorious conduct in conflict with the enemy. Seamen distinguishing themselves in battle or by extraordinary heroism in the line of their profession, may be promoted to forward warrant officers or Acting Master's Mates, as they may be best qualified, upon the recommendation of their commanding officers and approval by the Flag Officer of the Department. Upon such a promotion they are to receive a gratuity of $100, and a medal of honor, to be prepared by the Navy Department.

— There are 112 members in the rebel Congress, and 52, or nearly one-half, belong in districts now held by the Union forces.

However high house rents may be, you can always have at least one room at your command—the room for improvement.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which has effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicine can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many cures effected by it since I have acted as agent for the sale of it. JONAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHERLEY, *Lee, May* 31, 1841

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with severe humor, much worse than previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her nature, day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then she has recovered health so far as to sit, eat, quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease under notice. ISRAEL CHERLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price, and orders directed to DR. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. mav26

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never failed to give first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beside his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D., devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and Limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotes, warranted best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to the practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the REMEDY SECRET. Order by mail. Two for $1 and a red stamp.

This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the more value the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so supportive as to bring itself into the same elegant facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.

They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.

The rich will have it because IT IS THE BEST. All other classes will have it on account of its being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had an under-bedding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!

These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—

MONDAY, MAY 23, 1864.

THE REBELLION.

Gen. Sherman's forces on the 19th had reached Cassville, six miles south of Kingston. The railroad and telegraph are in working order to the present position of the army.

Gen. Canby, who has reached Vicksburg, has taken measures to clear the Red river of the rebel shore batteries. He will take command of Gen. Banks' army at Alexandria.

Charleston has not been bombarded.—The only attack was by two monitors, which shelled Fort Sumter.

THE VIRGINIA CAMPAIGN.

The rebels, estimated to number 20,000 or 30,000, were throwing up works in front of Gen. Butler on Wednesday.

Gen. Averill has fought 4000 rebels under Sam Jones, near Wytherville, Western Virginia, for four hours, and drove him, killing and wounding many, and capturing some prisoners. The rebels, under the cover of darkness, retreated. Our loss was 120 killed and wounded. Near Blacksburg Gen. Averill destroyed the railroad most effectually to a point four miles east of Christiansburg. At the latter place he captured two guns.

Sec. Stanton states that 25,000 veteran reinforcements have been forwarded to Gen. Grant. On Thursday evening Ewell's corps attempted to turn our right, but was promptly repulsed by Birney's and Tyler's divisions and some of Warren's troops that were on the extreme right. About 600 prisoners fell into our hands, besides many killed and wounded.

There is nothing important from Gen. Grant. At daylight on Friday, General Birney's Division charged over the place of Thursday afternoon's fight, and surprised 200 rebels asleep, whom they captured.

By Telegraph—Sunday noon.

On Friday afternoon there was some slight skirmishing, but excepting that all remained quiet along our lines. On Saturday morning an important movement took place on our part towards the left. Rebel prisoners report that the object of their attack on Thursday was to obtain supplies, as they are very short of everything. Our casualties in Thursday's fight were 150 killed and 823 wounded. Intelligence from Belle Plain to midnight Saturday leads to the belief that no battle was fought on Saturday by the Army of the Potomac.

WASHINGTON, May 21, 10 P. M.

Maj. Gen. Dix:—Dispatches from Gen. Sherman state that our forces found in Rome, Ga., a good deal of provisions, and seven fine iron works, with the machinery. We have secured two good bridges and an excellent ford across the Etowah. The cars are now arriving at Kingston with stores, and two days would be given to replenish and fit up. A dispatch just received from Gen. Banks, dated Alexandria, La., Mar. 8, states that the dam would be completed on the 9th, and the gunboats relieved. He would then move immediately for the Mississippi. Gen. Canby was at the mouth of the Red river, May 14, collecting forces to assist Gen. Banks, if necessary.—Dispatches from Gen. Butler, dated 10 o'clock Saturday night, report that he had been fighting all day, the enemy endeavoring to close in on our lines. We shall hold on. We have captured the rebel Gen. Walker, of Texas troops.

E. M. STANTON, Sec. of War.

☞ The Traveller states that the rebel works, before which Gen. Butler has been engaged, are in the rear of Fort Darling and Drury's Bluff, and three miles back from the river. The outer line of earth works which were captured a few days since are three-quarters of a mile from the second line, from which the rebels marched out and drove the army back. The second line is represented as very strong, and only to be taken by regular approaches. It is flanked by deep creeks, and has in front a deep ditch ten feet wide. There is still a third line between the second line and the first on the bluff. These works, built to defend approaches to Richmond, on the south side of the river, are immense. They are splendid works of art, and exceed each other, circle after circle, commencing at Kingsland creek and passing above Richmond.

— A patent has been issued to Charles A. Shaw, of Biddeford, for improved compressors and bobbins.

— The Peruvian government has realized a revenue averaging $18,000,000 per annum for the last fifteen or twenty years, from the deposits on the Chincha Islands.

— Richard Kear, a coal operator, and formerly a day laborer, died in Schuylkill county, Pa., on the 6th, leaving property worth over $1,000,000.

— Immigrants arrive from Liverpool now quite freely. In April nineteen thousand were booked from Liverpool for this country.

NEW HAMPSHIRE ITEMS.

—— A meeting of workmen in marble was recently held in Nashua for the purpose of establishing a uniform scale of prices.

—— A small child was badly scalded in Manchester on Thursday, by sitting down in a tub of hot water.

—— The Manchester authorities have at last secured the windows of the room in the City Hall building where female prisoners are confined.

—— Lieut. Col. Moses N. Collins, and Lieut. Hutchins, were buried together on the battlefield in the Wilderness, where they fell.

—— Mr. William Coggin, of Nashua, while at work in his garden on Tuesday afternoon, dropped dead from heart disease. His age was 72.

—— Col. Freeman Connor, commander of the 44th N. Y. regiment, a native and a resident of Exeter, was wounded by a ball through the flesh of the arm, in the late battles.

—— The engine and dry house connected with Eaton and Ayers' extensive bobbin manufactory in Nashua, was destroyed by fire on Thursday. The loss will probably be $20,000, on which there is no insurance.

—— A few days ago, as a horse, owned by Hamilton Locke, of Wolfborough, was running along the road, a boy threw a club at the animal, breaking both bones of one of the legs.

—— City Marshal T. G. Banks, of Nashua, has been arrested for an alleged assault on a Mrs. Winn, while transacting some business in reference to obtaining a child of certain parties.

—— A man about forty-five years of age, named Matthew Owens, left the City Farm, Manchester, Sunday, May 8th, to attend church, and was seen on Park street, on his return to the farm, in the afternoon, since which nothing has been heard from him.

—— The Statesman learns that the account, of some $1500, which the Merrimack County Agricultural Society presented to the General Government, for occupancy of the Fair Ground for hospital and other military purposes, and destruction of fences and buildings, has been allowed and paid. The Society will now go on to fence and prepare the ground for a Fair the coming autumn.

—— The Captain Ela reported killed in one of the late battles, was Capt. Richard Ela, of the 3d N. H. Volunteers, and not Captain Robert Ela of the 6th. The deceased officer was a native of Concord, 26 years of age, and a son of George W. Ela Esq., formerly publisher of the N. H. Statesman. He was also a member of the Merrimac county bar, and an officer whose youth gave great promise of future excellence.—He was at one time a resident of this city.

CONCORD, MANCHESTER AND LAWRENCE RAILROADS.—The annual report of these Railroads, as made by the Directors for the year ending March 31, 1864, is as follows: Total receipts, not including receipts of Concord and Portsmouth Railroad, $365,874.01; total expenditures $303,671.21, leaving the net income of the C., M. and L. Railroads for the year to be $262,202.80. Of this net income three-fifths has been apportioned the Concord Railroad, and the balance to the M. and L. Railroad. The Concord Railroad declared two dividends at 4 per cent each, which amounted to $120,000, and leaves a balance remaining of $37,321.68. The present contingent and deterioration fund of the Concord road is $123,863.43. The annual meeting of the corperation will be held at Phenix Hall in Concord, on Tuesday, the 24th instant.

☞ The Boston Advertiser states that the author of the forged proclamation has been discovered. His name is Joseph Howard, jr., once writer for the New York Times, and chiefly distinguished for his assiduity in dogging the Prince of Wales when in this country. He was also author of the story about President Lincoln distinguishing himself in a Scotch cap while passing through Baltimore three years ago. He has made a full confession to Gen. Dix, and has been committed to Fort Lafayette.

Dispatches state that he confesses that he palmed it off on the journals for gold and stock operations. He is now city editor of the Brooklyn Eagle. It seems that about a week ago he consulted a broker as to the probable effect upon the market of a proclamation calling for 300,000 more men and showed him the draft of a proclamation, which he claimed to know, through secret channels of intelligence at Washington, was about to be issued. After the publication, in the World and Journal of Commerce, on Wednesday morning, the broker at once identified the published proclamation with the draft which Howard had shown him, and gave information of the circumstance to Gen. Dix.

— Are we a civilized people? It is said that a fight between two women, superintended and countenanced by some young men, was broken up by the police at New Haven, a day or two ago. Both were en dishabille and liberally covered with blood.

CHIPS—HEWN AND GATHERED.

— This is Anniversary Week.

— Gold holds its own—83 1-4.

— Companies of negroes are being organized by the rebels to defend Richmond.

— The Boston Traveller calls canards *quack* news—which is good.

—The man who got up the counterfeit proclamation ought to be well executed.

— The City Bank, Biddeford, is to be converted into a National Bank.

— The Liverpool Albion gives thirty-four forms in which the name of Shakspeare has been spelled.

— Every newspaper editor in Cincinnati, living in a ward where the draft has taken place, has been drafted.

— The number of stragglers in the Army of the Potomac is estimated at 12,000.

— The pirate Florida sailed from Bermuda previous to the 14th, to cruise in the track of the New York and Liverpool line.

— Mr. Hawthorne's funeral take place in Concord, Mass., to-day (Monday,) at 1 o'clock. Cars leave Boston at 11.

— Fine large strawberries have appeared in the New York market—only a dollar a quart.

— It is proposed to issue a three-cent fractional note, to supply the scarcity of cents. A good idea.

— A girl, 13 years of age, killed herself last week by falling down stairs, in Buffalo, while in a state of somnambulism.

— John M. Wood, ex-chief of police of Troy, N. Y., has been sentenced to State Prison for three years for counterfeiting.

— The St. Louis Sanitary Fair is progressing well, and two of its tables—one from New Bedford contributors, the other from New York, attract marked attention.

— The great European Banks are alarmed. That of France has raised its discount rate to seven per cent., and nine is the rate of the Bank of England.

— Ewell's attack, on Thursday, was repulsed by raw troops, who rushed on the rebels in a way they were not accustomed to and threw them into confusion.

— The offices of the New York World and Journal of Commerce have been relieved from military restraint, and have again resumed business.

— It is said that Lee will not recognize a flag of truce unless it comes from Gen. Grant, as he considers him the Commander of the Army of the Potomac.

— James Gayler, special assistant of the late Mr. Holbrook, special agent of the Post Office Department, has been appointed to fill that office.

— Maj. Gen. Hunter has been placed in command of the Department of West Virginia, including the Shenandoah Valley, thus superseding Gen. Sigel.

— The letters for the Army of the Potomac, which have accumulated in the Washington Post Office, were sent down on Friday.

— The Atlantic Monthly for June contains a series of articles by a singularly distinguished and brilliant list of contributors. Dr. Holmes' poem on Shakspeare in this number is particularly good.

— The Portland people are moving for a grand hotel; the completion of the one projected by Hon. John M. Wood. The building has already cost $150,000, and it will require another $100,000 to finish it.

— The rebels deny that Maj. Gen. Jenkins were captured by Gen. Crooks, and say that he is within their lines wounded, but doing well. But this is untrue, as he was wounded, captured and has since died.

— A dispatch from Pittsburg, Pa., states that the building yard of the gunboat Monnayock was totally destroyed by fire on Friday evening. It is supposed to be the work of an incendiary.

— Gov. Curtin, of Pennsylvania, must be a potent man, according to the Phila. Press, which announces the fact that he has just returned from the battle-field "having set all things in the best of order."

— Charles Noyes, who robbed the U. S. Express Company of $60,000, and was under sentence to the penitentiary, escaped from jail at St. Louis, Friday morning, by means of false keys to the doors.

— No one is permitted to go to the front to procure the bodies of those who have fallen in battle. All the dead are carefully buried, and their names are placed upon boards over their graves, so that their friends can find them after the army has advanced.

— Those skulking Marylanders, who skedaddled from their own State to Richmond, to escape our draft, jumped out of the frying-pan into the fire; for the rebel conscription is to be enforced in that city so as to draw them in.

— The rebels left two thousand muskets in their entrenchments at the time of Gen. Hancock's brilliant assault on the 12th inst. They have since been gathered and turned over to Gen. Burnside, who had a number of men unarmed.

"A Slight Cold," Coughs.
Few are aware of the importance of checking a Cough or "slight cold" in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs.
"Brown's Bronchial Troches," give sure and almost immediate relief. Military Officers and Soldiers should have them, as they can be carried in the pocket and taken as occasion requires.

THE ENROLLMENT.—The following information, concerning the revision and correction of the enrollment of the different cities, towns and wards of this, the 1st Cong. District, is important. It will be advantageous to the people themselves to assist in the work, as they are interested in having an accurate enrollment. A revised and corrected enrollment has been ordered and we have procured a statement of the following facts. Timid people who have fear of the draft, and dread donning Uncle Sam's honorable blue 'malicious unicorn' will take notice:

If the enrollment be too great for any one sub-district, on account of names being borne on the list that should be stricken off, the quota of that sub-district will be in proportion just so much larger than it would be under a properly corrected enrollment.

If names are omitted that should appear on the lists, then the chance of any one man's being drawn is just so much increased.

It is earnestly hoped and desired that the people of this district will interest themselves gladly in a matter of such great importance to themselves, and furnish all the information in their power.

Our urbane and worthy Provost Marshal of this district, Capt. Nath'l Wiggin, and his gentlemanly board, consisting of Commissioner Tilton and Surgeon Hall, will receive the above mentioned requisite information, at their headquarters in the old Custom House, Daniel street at, any time.

☞ Miss Augusta H. Haskell, who has spent the last four months in our city, teaching the New Gymnastics, closed her classes on Thursday, and returned to her home in Dexter, Maine. She has met with the most complete success, with children, and men and women of almost all ages; and has proved herself one of the most efficient and popular disseminators of Dr. Lewis's improved system of Gymnastics, which indeed might well be styled physical christianity. And it is no small gratification to the writer of this paragraph, to know that he, in connection with one of our city physicians, who is ever alive to the interests of true education, and who believes in the prevention rather than the cure of disease, was instrumental (at the cost of much trouble and no little money) in getting Dr. Lewis to first visit Portsmouth, and so open the way for his talented pupil referred to.

We have already often given our approbation of the exercise and amusement referred to, and will now only add, that the more we see of it, and participate in it, the better we like it. Especially for women and children, it is absolutely indispensable, and unlike almost any other exercise or amusement, this is entirely unobjectionable under almost any circumstances. Better were every other school in town closed, we think, so that the New Gymnastic hall remains open, and is thronged—with actual devotees to the science and the dignity of this labor, we mean; not with those too listless and lazy to participate in its pleasures, and so enjoy its blessings.

All who have aspired high enough to appreciate what we say, will be glad to know that Miss H. promises her numerous pupils and friends here, to return next Fall and resume her classes in Portsmouth. F.

☞ The following officers have reported for duty on board the U. S. steamer Alabama, at the Portsmouth Navy Yard, viz:
Frank Smith,—Lieut. Commanding.
Wm. Bates—Act. Master and Ex. Officer.
Willis G. Perry, John L. Vennard—Ensigns.
Edward Farmer—1st Asst. Engineer.
John G. Rossman, Joseph C. Lewis, Grenville Lewis—2d Asst. Engineers.
Ezra Gray, C. H. Warren—3d Asst. Engineers.

☞ Among the New Hampshire soldiers reported to be in hospital at Portsmouth, Va., are Michael Sheridan, Jr., of the 10th regiment, and Wm. Mitchell, of the 13th.

BROWNE & PIKE'S DRAMATIC COMBINATION.—Many of our readers may remember the "Ticket of Leave Man," as given by this company on their former visit to this city. Since they left they have met with good success; and they will return this (Monday) evening. Persons desirous of securing tickets and reserved seats may do so upon application at Thacher's or James H. Head's.

☞ If any body wishes to taste the good old fashioned flavor of meat roasted before the fire, and done to a "turn," he can do so by ordering a dinner of that sort, of Mr. J. G. Rand, victualer, near the Spring Market,—where he can find codfish fried in a big pan, as we have, and found it good.

☞ We are indebted to Hon. John P. Hale for a valuable public document.

☞ Perley telegraphs to the Boston Journal that Senator Grimes will to-day (Monday) make his long talked of speech against navy agents, based on recent investigations by the Navy Department; and that although in some cities there may have been fraudulent practices, it is believed that the Navy Agents at Boston and Portsmouth are free from all suspicion of connivance with contractors.

☞ The N. Y. Tribune states that on Wednesday night the ship Emily Farnham, Capt. N. Parker Simes, from Newport, Wales, arrived at that port. As the signal of distress was flying, union down, Officers O'Brien and Hamblin of the Harbor Police boarded her, and were instructed to arrest William H. Cleary, the third mate, for the alleged murder of one of the crew, an Italian, named——Victor. On the 27th ult., while at sea, it is alleged that Cleary and the deceased were on the yard-arm of the vessel, when Victor was ordered to perform some some hazardous duty, which he declined. Cleary thereupon struck him upon the head a powerful blow with a pair of brass knuckles, and knocked him off the yard to the deck. In the fall, Victor was so badly injured that he died in half an hour, and was buried at sea. Cleary, who is a young man, was taken before the U. S. Commissioner and committed to prison.

☞ Among the acknowledgments by E. S. Tobey, Esq., of Boston, of money received in aid of the wounded soldiers, we notice the following:

Calkers on Portsmouth Navy Yard,		$124 00
Spar Makers	" "	67.35

The teachers of the public schools in this city are requested to meet at the Common Council Room this (Monday) evening, at 8 o'clock. Business of importance will come before the convention. Per Order.

UNION CAUCUSES.

WARD ONE.—The Union men of Ward One, are requested to meet at the WARD ROOM on Elm street on TUESDAY Evening next, at 8 o'clock, for the purpose of choosing eight Delegates to the Union Convention to be holden at Concord on the 31st inst., for the purpose of electing Delegates to the National Convention at Baltimore.

WARD TWO.—A meeting for the like purpose will be held by the Union Voters of Ward Two, at the COURT HOUSE on TUESDAY Evening next, at 8 o'clock.

WARD THREE.—Will hold a Meeting at the COURT ROOM, at the same time, for the like purpose.

☞ Volunteers for the Army should not leave the City until supplied with Holloway's Pills and Ointment. For Sores, Scurvy, Wounds, Small-Pox, Fevers, and Bowel Complaints, these medicines are the best in the world. Every French soldier uses them. If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 211

DEATHS.

In this city, Sunday morning May 22d, after a sickness of four days, Mrs. CATHERINE HEAD, aged 63 years 6 months, widow of the late Mr Moses Head. A devoted christian, true in all the relations of wife, mother and friend.

THE SOLDIER BOY AND HIS VIOLETS. A correspondent in his account of last Friday's battle writes:—

Far down the plank road, where Hancock fought, beyond the thickest rebel dead lay a boy severely wounded, perhaps no less a soldier, that he was but a boy. He had fallen the day before when we were farthest advanced and had remained unmolested within the rebel lines. They had not removed him, and he was alone with the dead, when I rode up. The poor fellow was crawling about gathering violets Faint with the loss of blood, unable to stand, he had not resisted the tempting flowers, and had already made a beautiful bouquet. Having caused a stretcher to be sent for, I saw him taken up tenderly and borne away, wearing a brave, sweet touching smile.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D., Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigation of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is purely vegetable, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with diseases in all conceivable forms, from bronchitis down to the lowest state of debility, when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases should be cured by the "convalescentive process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium, but when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis,

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need only reiterate that it is emphatically the Great Life-giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight in Stomach, Sick Headache, Want of appetite, Flatulence, Bad Breath.

Scrofula.

Sores, Glandular Swellings, Ulceration, Kings Evil, Erysipelas.

This taint (hereditary or acquired) filling the with untold misery, is by all usual medicines remedies incurable.

Rheumatism.

Inflammatory, Nervous, Gout, Lumbago, Sciatica, The Dolourous

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred forms. The most excruciating pains are almost instantly alleviated—enormous swellings are reduced. Acute, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Dyspepsia, Loss of Power, Shattered Nerves, St Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Fortunately to us, suffering from nervous ill will this medicine prove an inestimable blessing—directing their footsteps to a Hope which follies more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of Mercury, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the skin, like

ULCERS, PIMPLES, BLOTCHES,

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portions of humanity, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which generally depend on constitutional causes. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Hectic Fever, Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the internal parts, permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely removed without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (palpitation), Disease of Valves—producing a gradual wasting of the body. Diseases of the Heart Cure and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Bones, Loss of Memory, Forebodings, Horror of Darkness, Want of Nervous Energy, Dyspepsia, Bad Skin and Extremities, Want of Sleep, Restlessness, Pale Haggard Countenance and Lassitude of the Muscles, Pimples, all respond to the call of the CONSTITUTION LIFE SYRUP.

For all forms of Ulcerative Diseases, either of the Throat, Nose, Lungs, Stomach, Bowels or scalp, no remedy has ever proved its equal.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very appropriate to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is already formed on the face.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or inflammatory state of the liver, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from disease for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, and, almost new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the foundation is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES. It is the safest and most efficacious medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the lacteal flow, so that her child may think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Brandy Pad, and is specially recommended in those cases of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and purgative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in connection with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent*, removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack Injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—these two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will send free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases consequent upon self-abuse, such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Sight, Premature Old Age, Weak Nerves, Difficult Breathing, Palpitation of the Heart, Blotches on the Face, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, and have sought cheap remedies and the rush of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, when quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Prices, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.
Prepared from Pure Vegetable Extracts,
Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and shortest method of cure, irrespective of all the old and worn-out systems.

This remedy has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the low spirited.

One bottle restores mental power.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing, or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling fires.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity with the manufacturers and one of the valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the parts used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for these failures is, the comfortable gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the stove can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 20 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Shee, and others.

Gray's Patent
Molded Collars

Have now been before the public for nearly a year. They are universally pronounced the neatest and best fitting collars extant.

The upper edge presents a perfect curve, free from the angles noticed in all other collars.

The cravat causes no puckers on the inside of the turn-down collar—they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.

The Garotte Collar has a smooth and evenly finished edge on BOTH SIDES.

These Collars are not simply flat pieces of paper cut in the form of a collar, but are MOLDED AND SHAPED TO FIT THE NECK.

They are made in "Novelty" (or turn-down) style, in every half size from 12 to 17 inches, and in "Eureka" (Garotte), from 12 to 17 inches; and packed in "solid sizes" in neat blue cartons, containing 100 each; also in smaller ones of 10 each, the latter a very handy package for Travellers, Army and Navy officers.

☞ EVERY COLLAR is stamped
"Gray's Patent Molded Collar."

Sold by all dealers in Men's Furnishing Goods. The Trade supplied by

The Chronicle.

THE LATE GEN. WADSWORTH.—Gen. Wadsworth, recently killed in Virginia, was one of the most estimable men of his State. Possessed of great wealth, he was a true man, and never more happy than when contributing to the comfort of those around him. He had a reputation in the army for the excellent care he took of those under his command.

A writer in the N. Y. Post, who saw him at his headquarters, when preparation for the advance was being made, says:—

All surplus baggage was ordered to the rear, but the General, said: "Make out a requisition for extra shoes, about one pair of shoes for every two men. They will not be heavy to carry, and we shall find the value of them before we get through." "I remember," the General added, "during the march through Maryland, before the battle of South Mountain, we passed over a tract of country extremely rugged and stony, and I saw not only men but officers walking along with bleeding feet. The men's shoes gave out entirely. It hurt my feelings more than I can tell you, to see the good fellows trudge along so. We came to a town on the line of march, and I, who was riding at the head of the column, spurred ahead to see if there were not some shoe stores where I could purchase what were needed for the men. All the shops were closed; the first men I saw were two sitting outside of a closed shop. "Are there any shoe stores in this town?" I asked. They replied, in a gruff way, that they could not tell, there might be and there might not. I told them that I wanted to buy shoes for my troops, who were barefooted. They replied that they guessed I would not get many.

"At that," said the General, "I got angry. Said I, there are two pairs of shoes, at any rate, which I see on your feet. Take them off instantly! I shouted to them. They were obliged to do it. I went through the town, and took the shoes off every man's feet I could see; and thus I raised about two hundred pairs in all. One fine old fellow, a miller, whom I met, I did not deprive of his own pair; I rode up to him and asked if he had any shoes he could spare me, describing the pitiful condition of my men. The old man said, 'I don't know if there's any shoes in the house or not, but'—looking down at his feet,—'here's a pair you're welcome to at any rate.' I would not let him take them off, but he gave me some from his house. All the rest stripped."

Gen. Wadsworth was in his fifty-fourth year when first placed under fire, so that his age, at the time of his death, must have been about 55 years. He was a gentleman, a man of high and noble aims, a true patriot; he did not count his life precious—he held it cheap if by its sacrifice the cause of Union and liberty could be benefitted. And he had unwavering faith in the triumph of right principles and of liberty and Union.

The State of New York has lost, in him, one of her best citizens, one who did much good during his life to the cause of popular education; whose voice and purse were always at the service of the humble and oppressed; a true and devoted friend of free government, and of all that could advance the happiness, intelligence and prosperity of the whole people, and secure equal rights to all. He gave his life as freely as in other times he gave his money; and he left his splendid house and undertook the hardships of camp life as readily as though he had been the poorest citizen of the State. I will be well if his example is not lost upon his fellows. His wealth did not make him less a patriot; whatever he had was for his country's use—for he was a true Democrat.

☞ Racing is not yet extinct in New Orleans, if we may judge by the following report of one of the Recorders' Courts, in the Picayune:

Isabella Reynolds got drunk and cried murder, when there was nothing killed but the quiet of the evening in the old Third. She was in court this morning, but gave legbail before her case came up, and the officer who pursued her came off second best in the mile heats which followed. *Summary*—Isabella Reynolds, 1 1. Officer Leatherhead, 2 2. Time, 2:40.

A matter of fact man, in describing a parade of a colored regiment, said that when they came to "right dress" with the whites of their eyes all turned out, it looked like a long chalk mark.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrups, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWEET'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as thirty cures have effected more than three years ago. No other medicines can equal Dr. Sweet's in removing the various kinds of humors. I have sold a little number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it; and medicines failed to give any relief until about a year ago, when I took one bottle of DR. S. SWEET'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
Prom ELDER I CHESLEY, *Lee, May* 31, 1841.
DR. SWEET—Dear Sir: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting this place in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. Yesterday your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or bottles of the medicine shall have their pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. SWEET, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of
GONORRHŒA AND SYPHILIS.
Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distression in the back, of procreation, inflammation of the Bladder and Kidneys, Gravel, Abscesses, Humors, frightful Swellings, and the train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.
SEMINAL WEAKNESS.
Dr D., devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.
Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. DR. DOW has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the womb, Fluor Albus, Suppression and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted soon find themselves in perfect health.
Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.
Boarding accommodations for patients who may wish to stay in Boston a few days, under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain four red stamps, or they will not be answered.
Office Hours from 9 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. at his house, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow's celebrated Pills for sale in new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!
This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the more valued the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so recuperative as to bring itself into its place with great facility. It is adapted to the young and aged, and all who linger in suffering and weakness.
They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.
The rich will have it because IT IS THE BEST. All other classes will have it on account of it being cheaper by half than any other. We claim that a letter bed may be had by means of this improvement for six dollars than can be had in understanding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!
These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—

TUESDAY, MAY 24, 1864.

THE REBELLION.

Gen. Canby, who was at the mouth of Red river, May 14, reports that there were rumors from rebel sources that all the gunboats except two succeeded in getting over the falls at Alexandria on the day mentioned in Gen Banks' dispatch.

Our troops have evacuated Alexandria, La., moving toward Searsport. The rebels captured and burned the steamer City Belle, 30 miles below Alexandria, early in the month; and slaughtered several officers and a great portion of the troops on board.

Rebel cavalry have been repulsed with heavy loss in three charges on Fort Powhattan, on the James River.

Newbern advices state that the rebels burned Washington, N. C., and robbed all the women and children.

Valuable salt works near Murillo Inlet, S. C., were lately destroyed and the buildings burned by a boat expedition from the barque Ethan Allen.

A letter from the gunboat Pawnee confirms the success of Gen. Birney's expedition up the St. Johns river, Florida.

THE VIRGINIA CAMPAIGN.

Gen. Meade has issued an order highly complimentary to the raw troops who repelled the rebel attack on Thursday. The reports of our loss at that time were greatly exaggerated. Sec. Stanton reports that Gen. Grant's movement to compel Lee to abandon his position at Spottsylvania, has thus far progressed successfully. Longstreet's corps started south at one o'clock on Friday night, an hour and a half after Hancock moved. Ewell's corps followed Longstreet's on Saturday night. The indications are that the rebel army has fallen back beyond the North Anna river. Hoke's brigade has joined Lee. The movement of Gen. Grant has thus been accomplished without any severe engagement or serious interruption. On Sunday we occupied Guinney's Station, Milford Station, and south of the Mattapony on that line. These points are over twenty miles southeast of Spottsylvania, and less than thirty-five from Richmond, facts which show that Gen. Grant has won an important though bloodless victory.

☞ The nineteenth annual report of the Directors of the Northern (N. H.) Railroad has been published. It is for twelve months ending March 31. The gross receipts for the year are $457,141.50, an increase of $90,295.87 over the corresponding receipts of last year. The gross expenses for the twelve months ending March 31, are $251,070.98, being an increase of $37,943.08 over last year. This makes the net increase of receipts of this year over the past year, deducting the increase of expenditures, to be $52,352.59. The contingent fund amounted, March 31, to $58,671 41. The usual semi-annual dividends of 2 per cent. have been made, together with an extra dividend of 2 per cent., arising from the sale of $60,450 of Ogdensburg Railroad Bonds. The annual meeting of the corporation will be held at the Phenix Hall, in Concord, N. H., on Thursday, the 26th instant.

— Gold—182 1-2.

— Garibaldi arrived at Caprera, May 9.

— There is a growing disposition in the Senate to repeal the $400 exemption clause.

— The Bank of France has raised its rate of discount to eight per cent.

— F. Mattison, another reporter on the Brooklyn Eagle, has been arrested for complicity in the bogus proclamation affair.

— The rebels are reported to be fortifying Lynchburg very strongly, intending to make that "the last ditch."

— A woman has been indicted in New York for manslaughter, in causing the death of her nephew by compelling him to remain in the open air as a punishment for not "saying his lessons."

— An Albany dispatch states that Gov. Seymour has directed the District Attorney to procure indictments against all who were engaged in the seizure of the N. Y. World and Journal of Commerce.

— The Newburyport Herald says that within four and a half years the James Steam Cotton Mill has earned double its capital. It has actually divided $377,500 on a capital of $250,000, besides making heavy reserves.

— The only gold medal ever voted by Congress to General Washington is offered for sale in Philadelphia. It was given in honor of the evacuation of Boston by the British. Its intrinsic value is $180. $5000 have been offered for it.

— Jeff Davis announces to the British government that if they speak of his machine as the "so-called confederacy," again, he will return all his documents so directed, unopened. The Hartford Post thinks that would probably put an end to the British government.

CHICAGO, May 19, 1864.

Dear Chronicle:—Your correspondent, returning from Washington, on Monday switched off on the Pennsylvania Central R. R., and came to this place. I forgot to say, in my former letter, that your Representative, Mr. MARCY, left two $50 greenbacks at the New Hampshire Rooms, the other day, for the Soldiers' Aid Society.—Daniel is opposed to the war, clear through, but has a good heart, and wants to relieve the suffering soldiers.

The enormous quantities of coal in Pennsylvania, on route to the East, might lead one to hope that the coal merchants might have mercy upon us this year, but shrewd men are buying their winter stock at present prices, rather than risk the chances of a future rise.

Chicago is a great place, but not so great as some of her citizens think it is. It has good hotels, and is a place of consequence, because the New England men who have come here have made it so. Among the New Hampshire men here are Robert L. Harris, Esq., formerly of Portsmouth, Asst. Supt. of the Chicago, Burlington & Quincy R. R., and Messrs. Burly and Tirrill, formerly of Exeter, who are extensive jobbers, doing a successful business. The Sherman House, which is the leading hotel of Chicago, was built in 1860, of Athens Marble (the Athens being in this State). It is a splendid hotel, with all the modern improvements, including a passenger elevator to convey guests to and from the several stories of the House.

There is one thing the Chicago people understand to perfection, and that is advertising. Their Railroads are advertised in the most extensive and thorough manner, and their newspapers show how the business men appreciate the profits to be gained from investment in printers' ink,—two papers being exclusively devoted to advertising. But the most extensive arrangement in this line is the advertising drop curtain of the Museum, upon which are to be painted the cards of business men, and which will of course keep their name before the people.

I have seen the model of the proposed monument to the late Stephen A. Douglas. It will be a high shaft, with a statue of the departed statesman on the top. At the base of the shaft will stand the statues of four of our former prominent men,—Jackson, Webster, Cass, and Clay. It will, when completed, be the great sight in Chicago, and a credit to the association that have projected it.

There are no good drives about Chicago, and the amount of dust in the roads is beyond all calculation. After all, you at Portsmouth, with your old fashioned homes and comfortable lives, are the people who enjoy themselves better than all the rest of the world. But it is well enough to see how other people live, in order to contrast the happiness of our Eastern life with theirs of the bound-to-be-rich men of the west.

DIGBY.

NEW HAMPSHIRE ITEMS.

—— Lieut. Henry Hyde, of Lebanon, of the U. S. 17th Regular Infantry, was wounded in the leg in one of the recent battles, and has since died.

—— Perley telegraphs to the Boston Journal that "the First National Bank of East Hampton, N. H., with a capital of one hundred thousand dollars, has been authorized to commence business." Where is it?

—— Maj. Henry McFarland, for the past year and a half on duty as Paymaster in the Army of the Potomac, has been ordered on duty in New Hampshire, with his headquarters in Concord.

—— Quite a brisk business was done in Lebanon last week, in closing liquor shops. One man's poison was, by order of the Court, poured on the ground. It was almost bad enough to cause the earth to reel,—a regular earthquake producer.

—— Capt. J. H. Platt, Co. G, 2d N. H. Regiment, was killed in the battle on James River, on Monday, 16th inst. He was the only officer killed during the action, in the Second, Tenth, Twelfth or Thirteenth N. H. Regiments. Capt. Platt has participated with the Second Regiment in nearly all of the many hard fought battles of Virginia. He was a brave officer, and his loss will be deeply felt by all who knew him.

—— A large wood shed at West Canaan, belonging to the Northern Railroad Company, and containing about 800 cords of wood, was entirely destroyed by fire on Thursday night, together with an old store on the opposite side of the track, owned by Pattee & Perley. The fire was still burning on Thursday. The Free Press states that the fire originated from a steam engine, used to propel a circular saw, which was on the spot four days before. It is thought that a coal was dropped into the saw dust, buried up, and the wood piled on top of it, and that the fire had been all that time in working its way out.

— Gen. Sherman some years ago, while acting as Civil Engineer, surveyed a large portion of Virginia over which he has just raided.

THE RIGHT IDEA.—*Dear Chronicle*;—The following letter was written to one of our "misguided Southern brethren" now confined in Fort Warren—by a lady whose name he had seen in the papers; and is in answer to one from him, as you will readily see:

MOHAWK, N. Y. May 11.

Sir—You have informed me that you are a prisoner within the walls of a northern fort and that the dreamings of the Sunny South, with the energy of the Saxon race are combined in you. What must I infer from all this? Must I infer you are one of those who have arrayed themselves in arms against the government of the land of liberty, to perpetuate and extend an evil incompatiable therewith? Are you one of those who have sought to use the knife and the torch in a failing cause against the best government ever framed under the wisdom of man?

And do you seek sympathy with one whose father, brother, lover or perhaps husband may have perished at your hands? Do you know what you ask? Do you imagine that American women, true daughters of liberty, have sympathy for those who suffer as you do? Vain man! Foolishly vain man! Although I have no sympathy for you in your present misfortunes, I do nevertheless pity you. I pity the weakness which led you to abandon liberty—for what? Can you tell? A despotism! Anarchy!

And you envy the "rude sons of toil;" those whom I love. Perhaps you are poetical: "rude sons of toils;" were you free would you not prefer to say "mudsills?" Is it not as easy to say "mudsills" as "sons of toil?" Can I pity you? Only for your weakness. Were I a soldier of liberty confined in some Southern prison I should possibly envy you. I pity only your weakness. I have nothing to offer by way of consolation for your present sufferings. You cannot plead *ignorance* as an excuse for your misfortunes, therefore you are not entitled to my sympathies. Were you a soldier of liberty, engaged in behalf of a free government to secure to every human being living existing under it equal rights and privileges under the laws thereof, there could possibly be no sympathy denied you. There would be no want that would contribute to your comfort, your happiness and the confirmation of your purpose to preserve liberty, that I would not make: all the efforts that a poor weak woman could make to relieve, I would make.

Oh liberty! How is thy name become a mockery; that thy foes ask sympathy of thy daughters! Could words of mine make you forget that you were of the "South," and also make you forget your madness, to remember only that you were a citizen of the United States, the friend and supporter of liberty, you might possibly command them. But he who has proved treacherous to his Country may also prove treacherous to a woman.

A true American woman cannot give "aid and comfort" to such. You call me your friend. I call you my enemy. For he who would slay my brother on the battle field would not respect the sister. I cannot give you *one word* of consolation.—Even as I write the booming of distant cannon seems to reach my ear, the screams and groans of the dying and wounded rend the air; he falls, he fall, my brother dies, at the hands of parricide and traitor! Sympathy?—for traitors? Never! I cannot even give you the consolation of hope that the accurned cause you have espoused will triumph.

At this moment the government of your "Sunny South" is tottering—and they who represent it, if not already fugitives, have only to choose flight, or to share the *privileges* you now enjoy. I say enjoy—for compared to what my *brother* is prison at the South experiences, your condition is luxury and happiness. Knowing this. I feel hardened against your beautiful poetic letter, and its writer. Without sympathy, yours pityingly. C.

Don't you call her a patriot? That is the kind we want all over the country.

— To-day, May 24, is Queen Victoria's birthday.

— Gen. Francis Fessenden is on his way home to Portland, having had his leg amputated.

— In the battles in the Wilderness bayonet wounds were actually given and received.

— Liszt, the celebrated pianist, is about to enter the convent of Sante Onofrie; he is said to be disgusted with life.

— The rebel papers acknowledge a loss of 20,000 men and 20 guns in the late battles, but are silent as to the number of prisoners. They claim a victory every time.

— Sixty citizens of Fredericksburg have been arrested and sent to Washington, as hostages for sixty of our wounded men taken by them and conveyed to Richmond.

— Daniel S. Jones has been appointed as mail agent on the Eastern railroad, in place of S. H. Stevens, who received a berth in the Portland Custom House.

— Horses are very much needed by the Cavalry Bureau, who will pay one hundred and sixty dollars each for several thousand suitable ones.

— Nearly all the rebel troops have been taken from Charleston and Mobile, to strengthen Lee, and it said that Jeff Davis is to take the field in person to inspire the army.

— A bushwacker, thought to be the brutal guerrilla P. C. Quantrell, was killed in Jackson county, Mo., May 17. He fought with his bowie knife after being brought down by a pistol shot.

—Guinney's Station, which is now held by us, was a point from which rebel supplies were drawn. It is now believed that the rebels bring their supplies across from the Virginia Central Railroad, a distance of 20 miles.

FLOUR.
200 barrels of different brands, new and white, in store and for sale by
MOULTON & BLAISDELL.

Local.

☞ The fine steamer "General Grant," which was launched from Messrs. Tobey & Littlefield's ship yard at Noble's Island, on Saturday, is the first steamer ever built at a private ship yard in this city for private parties. She is a most beautiful vessel, and it is confidently expected that as Portsmouth ships have always ranked A1, she will do her part towards giving that reputation to Portsmouth steamers. At the time of the launch, one of the tug-boats recently built at the Portsmouth Navy Yard, was plying on the river, ready to render assistance, if necessary, she being there through the kindness and courtesy of Com. Pearson, commandant at the Yard. And to S. M. Pook, Esq., Naval Constructor, are due the thanks of all desiring the advancement of the interests of our city, as it was through his influence that Messrs. R. B. & J. M. Forbes of Boston were induced to have the vessel built here, although another place had previously been decided upon. We think that she will yet prove the truth of the statement that "she could be built better and cheaper here than anywhere else."

☞ We regret to learn that His Honor Mayor Dearborn is again in such feeble health as to be unable to attend to his business; and has gone to visit friends in Vermont. Alderman Adams has been appointed Acting Mayor in his absence; and a Deputy Naval Officer has also been qualified. Mr. Dearborn's numerous friends, and all who are concerned in the interests of our city and its government, will unite with us in wishing that the change of scene may be speedily and permanently beneficial to his health.

☞ We learn that Mr. Henry R. Leaver, of Concord—for the past two years employed as clerk in the Machinists' Department at the Portsmouth Navy Yard,—has secured an appointment to a first-class clerkship at the Auditor's Office, Treasury Department, Washington; and left this city on Monday evening for the performance of his duties in that position. Mr. L. is a thorough gentleman, a scholar, and a fine fellow. Success attend him.

☞ Acting Master Charles E. Hawkins was on Monday detached from U. S. Receiving Ship "Vandalia" and ordered to the Portsmouth Navy Yard. Mr. James R. Childs has been detached from the Naval Rendezvous and ordered to report for duty on board the "Vandalia." A. V. Lieut. Henry Keene has been detached from the Yard and ordered to the Naval Rendezvous in this city.

☞ E. S. Toby, Esq., Chairman of the U. S. Christian Commission, acknowledges the receipt of the amounts stated below, and raised by some of the workmen at the Navy Yard:

Joiners' Department,	$233.25
Masons' Department,	137.00
Engineers' Laborers,	25.50

☞ In the Police Court, Monday, Justice Odell sent Edwin Tobias to the House of Correction for two months, and ordered him to pay costs, $3.03, for being a common drunkard.

Amos Clark allowed he was drunk, and paid $1 fine and costs $2.92.

Francis Bacon, for being drunk in the streets, fined $3 and costs. Committed.

☞ Sch. Blue Jacket, Capt. Baker, of and from Bangor, for Haverhill, Mass., with a cargo of lumber, was dismasted in the squall on Sunday morning last about 1 o'clock, off Cape Elizabeth, and was towed into our lower harbor by the Sch. Victory—arriving Sunday evening.

☞ The new steam tug boat Bluelight, built at the Portsmouth Navy Yard, left the yard for Boston on Monday, piloted by Capt. Chas. H. Chase. We understand that the Portfire, a twin craft, is to be retained for use at the Portsmouth Yard, and that the Bluelight is designed for the Charlestown Yard.

☞ There was an alarm of fire at the Navy Yard on Monday afternoon, occasioned by a spark from a chimney slighting on the roof of the building used for a boat-shop and miscellaneous purposes. No damage was done by the fire, however, beyond the burning of a few old shingles.

☞ Edward N. Fuller, Esq., of the Newark, N. J., Daily Journal, formerly of the New Hampshire Gazette of this city, has been drafted, and magnanimously states that "no inducements of high officials, no remonstrances of an indulgent public shall prevent the editor of the Journal from fulfilling his patriotic and long cherished purpose of——still remaining in the bosom of his family."

☞ Capt. Charles D. Matthews, of York, Me., purchased on the 7th inst., the dwelling house and land on Langdon and Cornwall streets, belonging to Hon. Thomas L. Tullock. The price paid was $3700.

Fools line the hedges which bound the road of life; what can the wise man do but smile as he passes along it?—*Exchange.*

Congress street in this city, must be "the road of life" surely, and the curb stones, "the hedges."

☞ Acting Master's Mate Thomas S. Gay is at present stationed on board the U. S. steamer Otsego.

☞ The iron-clad Agamenticus will be undocked to-day or to-morrow,—as soon as the ram is adjusted to her bows.

☞ All the drafted men in Rockingham County were notified last week by Special Officer Kent.

☞ A rebel mail from Richmond, with 2000 letters, addressed to persons in New York, Boston, Philadelphia, Baltimore, and elsewhere, has been captured at Baltimore by detectives. Two men belonging to that city, who had the mail in charge, were arrested. They had considerable money,—in gold, silver and greenbacks—and large quantities of Southern coupon bonds. The letters contain much important information.

— Some vessels of the Russian fleet have arrived at Boston.

☞ Mr. Joy's evening Singing School, for Ladies and Gentlemen, is held at Mercantile Hall, on Tuesday evenings.

MASON & HAMLIN'S
CABINET ORGANS,
Combining the requisites for Sacred and Secular, Church and Parlor Music; for Families, Sunday Schools, Day Schools, Churches, &c.
They are elegant as pieces of furniture; occupy little space; are not liable to get out of order or out of tune; are warranted for five years; will improve in tone by age, and are moderate in cost.
They are to private houses, Sunday schools and smaller churches, what the larger pipe organs are to large churches, and in addition to this are adapted to secular as well as sacred music.
The Cabinet Organ is essentially different from, and a marked improvement upon, all instruments of the melodeon or harmonium kind. Its superiority consists in many important characteristics.
The undersigned, Agent for the Manufacturers, will be pleased to show the Cabinet Organs to all wishing to purchase, at his residence, NO. 30 HANOVER STREET.

From the Journal.

ASSESSMENT OF TAXES.—In another column we give the valuation of property in this city subject to taxation, by which it appears that although Portsmouth is really richer now than last year, yet the appraisal is some $200,000 less. This loss can be directly traced to investments made by our richest men in the Stocks of the United States which are exempt from taxation. The effect is, the rich man reduces his tax, while the man who has not the ability to purchase the favored stocks, must have his taxes increased to meet the increased demand which the times require. With this exemption privilege continued to the holders of the U. S. bonds, it is easy to discover that in a few years, more than half of the wealth of Portsmouth may be placed beyond the reach of taxation, and the man of $50,000 and the man of not one twelfth amount of property, be equally assessed to bear the burdens of the public expenses. Take for instance the case of the Piscataqua Exchange Bank. Last year it paid a tax of $1869 36—of this a portion was on the capital and the balance on $56,000 reported as the surplus earnings of the Bank. This year it reports $97,000 as its surplus earnings, for which, together with the capital of the Bank, they hold U. S. bonds to the whole amount, and therefore claim not to be taxable.

This is all legally authorised, and we do not say that the managers of the Bank are to be censured for consulting their personal interest. But what reason is there for the government in putting bonds into the market with good interest, and on as sure a basis as any stocks offered to the public, to excuse those who hold them from the same regular taxation as for any other investments? The result of the exemption is to make the rich richer, and the poor poorer; a condition of things which should be timely avoided. If nothing can be done in the way of taxing the bonds already issued—let no new batch be issued without an amendment in that respect.

About $160,000 being the sum necessary to be raised, it is probable that the rate of taxation this year will be $1.70 or $1.75 on a $100. Last year it was $1.37.

TEACHING THE CONTRABAND.—Ten months ago about one hundred and seventeen blacks, who had been slaves, were stationed at Fort Sullivan in our harbor. Among them were only three or four who could read a word. Showing a desire to learn, several young ladies of this city have visited the island twice a week, formed classes and given them instruction. Among them are two or three advanced in life, and about eight or ten of limited intellect, who could not learn. Of the remainder, about one hundred in number, all can now read and write, and many of them can perform operations in the simple rules of arithmetic. We have seen several letters written by them in which nine words out of ten are spelt correctly. All this has been accomplished in ten months, with two hours instruction only twice a week. Could a company of whites, in like position, have made greater progress? They have now left the Fort and entered upon sea service—able not only to read, but also to correspond with each other. "Your coming to us," said one of the blacks when the last day of schooling had closed, "has been like bringing us to the light from a dark room."

A nameless and contemptible print thus abuses those young ladies who have been the means of doing so much good. The writer of the article, if residing in some places, would receive his deserts in a suit of tar and feathers.

We understand that the negroes on Fort Sullivan island have been ordered to sea. We do not see what they could do on sea, without them. Their white feminine associates, teachers of the puritan primers, will find their occupation gone.—They will go up and down our streets disconsolate, and our city will be like Ramah of old.

But these lady mourners will have one source of consolation. Their colored pets have furnished them with good photograph portraits, scarcely black and positive, in shades of pure ebony equality, which they can kiss and caress in fond remembrance of by-gone bliss. We understand that the parting ceremonies were very affecting.—Mutually distorted countenances and trickling tears, mingled with garlic and musk, assafetida and cologne, emitted a delightful aroma upon the scene.

GENERAL GRANT.

The following statements are made with reference to Generals Grant and Meade:

During the campaign, thus far, the headquarters of the Lieutenant General and of Gen. Meade have been invariably established in close proximity to each other, for obvious good reasons. The respective staffs, and the generals, themselves in action, are always to be found in company. The immediate command of the army devolves upon Gen. Meade; the general supervision, of course rests with the commander-in-chief. Constantly in consultation, each is familiar with the opinions of the other, and of course alike and simultaneously informed as to every evolution of corps, division, or regiment, every movement of the enemy, every reverse or success, temporary or final. It would be difficult to say who really commands the army. While Gen. Grant indicates the strategic combinations and movements he leaves their execution to Gen. Meade.

On Sunday morning, while the air was filled with howling missiles from the rebel and federal artillery, which actually seemed to be possessed with an insane frenzy, and desirous of retrieving time lost in its enforced restraint heretofore, a rebel shell dropped within a few feet of the spot where General Grant and General Meade were standing and buried itself in the earth. The former evinced not the slightest agitation; not even a whiff issued from his inevitable cigar. He asked for a pocket compass, which was furnished him, and coolly walking forward, he deliberately examined the course of the shell, thereby discovering the location of the battery whence it came and in five minutes the Federal shot and shell were dropping thickly among the rebel artillery men, who had so nearly deprived the great army of its great commander.

COL. HARRIMAN'S CAPTURE.—Col. Walter Harriman, of the 11th N. H. V., was taken prisoner under the following circumstances.—The Eleventh Regiment was pursuing the flying enemy and got nearly a mile beyond our main line when the flying rebels came up with some of their regiments. The whole rebel force at that point made an attack upon our Eleventh, which, being unsupported, was unable to withstand the charge. They were obliged to retreat, and in the retreat Col. Harriman, being on foot, was taken prisoner.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y.,
formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by others, should try the "Invited to use Constitution Life Syrup."

During the past five years we have contended with obstacles and overcome opposition as been less as ever encountered by any Reformers.

Probability and Facts.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the "slow recuperative process of Nature." This is nonsense.

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease, and it is our province to, restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective remedy for restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Low Complaint, Constipation, Weight at Stom'h, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Strumo, Glandular Swellings, Ulcerations, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Lumbago, Sciatica, Gout, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly relieved, and many cures of long standing are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Memory, Sleeplessness, Fits, Dizziness.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering women will this medicine prove an invaluable blessing, directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removes the Salivation, and entirely cures Aches in Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and cures Ulcers in the Mouth.

Constitution Life Syrup
Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES,

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking into troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia, Dropsy, or the limbs or extremities swollen, and in short, from a low, nervous and weak, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Uterus, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the Chest, Dropsy of the Abdomen, all of which are important organs, or persons suffering from any acute pain in the region of the heart, will be speedily relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indigestion to Excess, Pain in the Side, Loss of Memory, Forebodings, Horror of Darkness, Fear of Disease, Diseases of Urine, Dry Hot Skin, Acute Extremities, Want of Sleep, Nervous, Pale Haggard Countenance and Lassitude of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Spine, Forehead or scalp, no remedy has ever proved its equal.

MARTYRS to quack nostrums, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Jaundice or Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of that organ, accompanied with costiveness, or the unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivaled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, like Disease, Neuralgia, and Nervous Diseases, and ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and vigorous.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, it will sometimes lay dormant, and then develop in middle life, or early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO INFANTS AND MARRIED LADIES

It is the safest and most efficient medicine ever discovered for purifying the system and relieving the suffering constant upon childbirth. It strengthens both the mother and child, and prevents pain and disease, and increases and enriches the food—Those who have used it think it indispensable. It is highly valued both before and after confinement, as it prevents disease attendant upon childbirth.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures the worst forms of urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Blood, Gonorrhœa, and is especially recommended in those cases of Flow Albus or Whites in females) where all the old numerous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as anally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Flow Albus or Whites. Its effects are healing, soothing and demulcent; removing all scalding, heat, chordee and pain, instead of burning and almost unendurable pain that is experienced with nearly all the cheap quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are speedily stopped and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle, or three bottles for $5.

REJUVENATING ELIXIR.
OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and indirect method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and full vigor of youth.
A few doses restore the appetite.
Three bottles cure the worst case of Impotency.
A few doses cure the low spirited.
One bottle restores mental power.
A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked brain or nervous, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

CHEROKEE PILLS!
SUGAR-COATED.
FEMALE REGULATOR.
Health Preserver!!
CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the difficulty itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, except during the first six months, during which the unfailing nature of their action would infallibly procure pregnancy.

All letters seeking information or advice will be promptly, freely and discreetly answered.

Full directions accompany each box.

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and cod-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of rekindling twice daily.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire goes out for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason of this is obvious. The combustible gases being lighter than the air, pass out into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the cone, as they pass off with a large amount of the best generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and surface for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron B. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Gray's Patent Molded Collars

Have now been before the public for nearly a year; they are universally pronounced the neatest and best fitting collars extant.

The upper edge presents a perfect curve, free from the angles noticed in all other collars.

The cravat causes no puckers on the inside of the turn-down collar—they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.

The Garotte Collar has a smooth and evenly finished edge on more than one side.

These Collars are not simply flat pieces of paper cut in the form of a collar, but are MOLDED AND SHAPED TO FIT THE NECK.

They are made in "Novelty" (or turn-down) style, in every half size from 12 to 17 inches, and in "Eureka" (Garotte), from 13 to 17 inches; and packed in "solid sizes" in neat blue cartons, containing 100 each; also in smaller ones of 10 each, the latter a very handy package for Travellers, Army and Navy Officers.

☞ EVERY COLLAR is stamped

GEN. GRANT AND THE PRESENT WAR. Never was the quotation "Man proposes, but God disposes," more strikingly exemplified than in the following anecdote of General Grant: At the commencement of the rebellion an Illinois Representative called upon Governor Yates to recommend to him Mr. Grant as a fit person for some military position. The Governor had received applications from some men over six feet in height and of muscular frame, and, therefore, curiously eyed the small man attired in homespun, that stood before him as an applicant. He then asked his grounds for making the application. "I was educated at West Point," said Grant, "at the country's expense. I served in Mexico, and when I went out to Oregon I thought I had returned to the country an equivalent for my education, so I resigned. The country is now in trouble, and I wish to serve her in her need." Governor Yates had no appointment for him, and he, therefore, left.—Some short time after this occurrence the Governor was very much distressed in regard to the raising of the quota of the State. He had plenty of offers for officers' positions, but he personally did not know the minutes of regimental organizations—how many privates composed a company or how many subordinate officers there should be in a regiment. In his distress he asked the Representative if that plain little man to whom he had been introduced knew anything of those matters. The Representative replied by bringing Grant into the Governor's presence.

"Do you understand the organization of troops?" inquired the Governor. The reply was in the affirmative. "Will you accept a desk in my office for that purpose?" was the next question. "Any thing to serve my country," was Grant's reply. And to work he at once went. And but for this Grant might still be unknown to the world. By his energy, Illinois became noted for the speed with which she filled her quota.

When the Twenty-first Illinois Volunteers was organized, a fine looking man was chosen by the company officers as the colonel; but having military capacity the regiment fell into disorder and became the terror of the neighborhood where they were encamped. The Governor refused to commission the nominee of the regiment and asked Grant if he thought he could bring the turbulent mass to order if he were appointed the colonel. Grant thought he could. Half an hour afterwards an application was made to Gov. Yates to send a regiment to Quincy—one hundred and twenty miles distant; but the trouble with the Governor was, not the want of men, but the lack of transportation. "Send my regiment," said Grant, "and I will find the transportation." The command was given and before night the regiment was under orders to march. On foot the regiment was transported to Quincy, and when the men were there encamped they were reported as belonging to one of the best disciplined regiments of Illinois volunteers.

What a gushing idea! In a recently published novel called "Heart or Head," appears the following passage: "And she, leaning on his strong mind, and giving up her whole soul to him, was so happy in the spoiling of herself, so glad to be thus robbed, offering him the rich milk of love in a full udder of trust, and loving for him to come and take it!"

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessary expenses of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now *pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *three* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

FERTILIZERS,
Trees, Vines, Shrubs,
Vegetable and Flower Seeds.
J. F. SHORES, Jr.,
No. 1 Congress Block,
WOULD CALL THE ATTENTION OF
FARMERS AND GARDENERS
TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ:
LODI CO.'S
IMPROVED POUDRETTE.
The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.
On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grass and hay harvest—The celerity and dispatch with which a large crop of corn is putin and poudretted, the rapid growth and consequently the early opportunity of working among it—the small chance for weeds, owing to the shade it affords, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.
For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn or for several years, a top dressing of Poudrette will be found invaluable.
We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of diseases. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.
Price $1.50 per Barrel.
Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

Lloyd's Nitrogenized
Superphosphate of Lime.
The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O5)	17.2
Soluble " " (ca O P O5)	11.5
Organic matter	31.
Sulphate of lime	38.
Alkaline of salts	3.
Insoluble matters	2.
Water	7.3

The organic matter yields 3.5 p. c. of Ammonia. The value of concentrated fertilizers depends principally upon the Insoluble Phosphates, the Soluble Phosphates and the Ammonia.
A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.
It is almost universally agreed that the Insoluble Phosphate, the Soluble Phosphates and Ammonia have the respective values of 2, 9, 16. In other words, Soluble Phosphates are worth 4½ times and Ammonia 8 times as much as Insoluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.
Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.
The results for analysis, I selected from the entire stock which was prepared for the market.

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!
This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the more valued the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so recuperative as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.
They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.
The rich will have it because IT IS THE BEST. All other classes will have it on account of it being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in Boston heretofore for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!
These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—

WEDNESDAY, MAY 25, 1864.

THE REBELLION.

An official report from Cairo, dated May 22, states that the army and gunboats were all safe at the mouth of the Red river and Semmesport.

Gen. Sherman has resumed his operations. Returned veteran regiments, he says, have more than replaced all loss and detachments.

Gen. Butler repulsed the rebels on Friday. The rebels lost heavily in killed and wounded. Notwithstanding the exaggerated statements published in relation to Gen. Butler's losses, his army, in the whole series of operations, has lost but seven hundred killed and fourteen hundred wounded, who are now in our care and hospitals,—and seven hundred missing. The enemy acknowledge in their papers a loss in one day only, of fifteen hundred killed and wounded, and we have a thousand of their prisoners in our hands. We hold our whole line of works securely. Among our prisoners are Gen. Walker, wounded in the leg, and Adj. Gen. Jones, son of the late Minister to Bogota. Gen. Heckman's brigade is not cut up. So says the Boston Advertiser's correspondent.

The rebels made an assault on Gen. Butler's right on Saturday night, but were met by a murderous fire from the artillery, which moved them down in heaps, and they retired, leaving their dead and wounded, numbering 260, on the field. Our defences are very strong.

The Army of the Potomac is again, on the march towards Richmond. On Saturday evening Gen. Hancock's corps had reached Bowling Green, 18 miles south of Fredicksburg. Our entire army had gone from before Spottylvania Court House, and Lee had hastily fallen back to take a new defensive position.

The Morris Island correspondent of the Philadelphia Press reports that the rebels have seven iron-clads of different patterns built or building in Charleston harbor. They have partially repaired Fort Sumter and have mounted new guns.

OUR ARMIES.—Sec. Stanton, in his official bulletin, Monday, gives much satisfactory information concerning our armies in the field. He states that official reports show that within eight days after the great battle of Spottylvania Court House many thousand veteran troops were forwarded to Gen. Grant. The whole army is amply supplied with full rations of subsistence.—Upwards of 20,000 sick and wounded have been transported from the fields of battle to the Washington hospitals and placed under surgical care. Over 8000 prisoners have been transported from the field to prisoners' depots, and a large amount of artillery and other implements of an active campaign brought away. Several thousand fresh cavalry troops have been forwarded to the army, and the grand Army of the Potomac is now fully as strong in numbers, and better equipped, supplied and furnished than when the campaign opened.

Several thousand reinforcements have also been forwarded to other armies in the field, and ample supplies to all; and over 50,000 volunteers for 100 days have been mustered into the service, clothed, armed and equipped, and transported to their positions.

SHOPLIFTING.—A women of genteel appearance has victimized several dealers in Portland, but has been nicely caught. She went to that city, April 27, and stopped at a hotel, under an assumed name,—Mrs. M. C. Williams. The next day she called at several dry goods stores; represented that her husband had been in the dry goods business in Bangor and was about to open a store in Rockland; and that she had come on to select goods for cash purchase. In the various stores she laid out goods to the amount of twelve or fifteen thousand dollars, and continued her calls until the next Wednesday, when she failed to appear.—The merchants thought nothing of the matter until the landlord of the hotel visited some of them and stated that his guest had gone off under somewhat suspicious circumstances, and had neglected to pay her bill; he also mentioned that when she came to his house her trunks were light and apparently empty; whereas she sent them away before she left apparently well-filled and very heavy. This excited suspicion and the matter was placed in the hands of Marshal Heald. He had a young lady acquaintance, in Rockland, a Miss Coombs, very smart and shrewd though but 17 years old, and giving her a description of the woman he requested her to let him know if such came to town. A day or two after, the shoplifter entered Rockland, took rooms, and gave out that she had goods to dispose of. Miss Coombs called under pretence of a desire to purchase, identified her and immediately telegraphed to Mr. Heald. A Deputy Marshal was dispatched and he arrested Mrs. Williams and seized the goods. Mrs. Williams manifested excellent taste in her selections, taking only the choicest and most valuable fabrics, amounting in all to many hundreds of dollars in value. During her examinations, under pretence of selecting for purchase, she managed to conceal the goods about her person.

DAILIES.—Three cities in New Hampshire—Concord, Manchester and Portsmouth—now boast their daily papers. If any man (or woman, for that matter) is anxious that Nashua should make the fourth, let him get up a generous fund of greenbacks, to ensure the enterprise, as did interested parties at Manchester and Concord. A live daily is a paying institution for a community, and a wonderfully good paying *out* one *for* the publisher.—*Nashua Telegraph.*

Very well told, Br. Tel. Of course a daily in any small city, is much more of a benefit to the community, than it can possibly be to publishers of it. However, this Chronicle has always paid well enough, or we should not have published it for these dozen years past—and no thanks to any party or anybody for any "fund of greenbacks," either, except as constantly paid to us by our patrons in a business way. And as to the last, we have no fault to find, but much to be thankful for.

☞ Speaking of Daily papers, reminds us that the two in Manchester have increased their price from 1 cent to 2 each, and from $3 to $4 per year. Not high enough yet, though, by considerable. So there is now no penny daily left anywhere, that we know of—and there never ought to have been one.

The Mirror says, "The friends of this paper will cheerfully pay the small advance, when they learn that paper and ink cost twice as much as they did three years ago; and that for months their papers have cost them less than the mere white paper and ink cost us." A very *few* public-spirited and appreciative subscribers would, no doubt, prefer to bestow a dollar on the Mirror, than to rob it of a cent; but the majority of men will get their papers, or other wares, as cheap as they can, anyhow, regardless of anybody else. But we never saw a buyer, no matter how much he cried down anything he wanted as "bought," who esteemed any article or its seller a whit the more, for his selling it "below cost." The laborer is worthy of his hire.

☞ The new and neat little Concord Daily Monitor, commenced its issue at our State capital on Monday afternoon—this Chronicle being the only *morning* daily in New Hampshire. It costs a great deal more to print a paper in the morning, but we suppose most of our readers would think that day hadn't broke, or something else *had*, if we should change ours to an evening issue, so they couldn't get it with their breakfast. Its all owing to their education, though, in this as in other matters; and if we *should* make the change, (which of course we should do, if we thought we could make more "change," or save work by it,)—in another dozen years, all who cared for it at all, would say they couldn't do without it at supper.

We wish all merited success to the new Monitor—and hope we shall be able to receive it on the same evening of publication.

NAVY AGENTS.—Perley telegraphs to the Boston Journal as follows:

Senator Grimes made some startling statements in the Senate, on Monday, relative to the enormous profits received by some naval contractors, more especially the firm of Scoville & Co., New York, whose books have been seized, showing what the articles which they furnished cost, and what Government paid for them. In the senator's opinion this is attributable to the present system of purchasing by Navy Agents. He would have all purchases made by officers of the navy under strict accountability.

Senator Hale, of New Hampshire, replied to Mr. Grimes, agreeing with him that frauds have been committed in the Navy Department, but indorsing on personal knowledge, in the highest terms, the Navy Agents at Portsmouth N. H., Charlestown, Mass., and Washington. The secret source of the hostility to Navy Agents was their refusal to comply with the wishes of heads of bureaus. To prove this he read a correspondence showing that Navy Agent Norton refused to pay Lazel & Perkins seventy cents per pound for a crank shaft for the steamer Cambridge, ordered by Chief Engineer Isherwood—a fair price at that time having been 40 cents per pound. This was an over-charge of some thirteen hundred dollars. Other instances were cited, and Mr. Hale triumphantly vindicated the Navy agents at Portsmouth, Charlestown and Washington, with the contractors with whom they have dealt, from the sweeping charges brought against them. Smith Brothers, upon whom, said Mr. Hale, Mr. Grimes had poured the concentrated venom of disappointed contractors, exposed by their pamphlet, are shown to have acted in the fairest and most honorable manner, nor had the most rigid investigation detected any fraudulent practices on their part. This he proved by citing facts and figures.

We have been informed, by one who thought the statement reliable, that it was currently rumored in the army during the last day's fight, that Grant called a council of war the night before, in which a majority were in favor of falling back—and that, after this advice had been given, Grant hesitated but a few moments, and then announced that the whole army must be ready to move upon Lee's works the next morning.—*Washington Era.*

☞ Several prominent Baltimore merchants have been arrested on account of the disclosures in the rebel letters captured on Saturday. It is said that other arrests will probably be made, and that parties in New York and Boston are implicated.

— 10,000 school children visited the St. Louis Sanitary Fair on Friday last.

WHEELER, HATCH & HITCHCOCK'S CIRCUS AND ROYAL HIPPODROME. — *New Equestrian Idea.*—The first public exhibition of the recently invented self-propelling road carriage, presenting the tremendous novelty never before witnessed of an ordinary road carriage driven over the common highway without the aid of horses or other draught animals at a speed of forty miles an hour.

A new order of performances has been introduced in this exhibition, displaying all the daring splendors of the ancient Hippodrome, the marvels of the Grecian Stadium, and the athletic graces of the modern Gymnasium. The exercises of the arena will be relieved and agreeably interspersed throughout by the wit, mirth and humor of the most original and comic of clowns. In the course of which, brilliancy of intellect will be the distinguishing feature, unalloyed with vulgarity; pungent satire will be displayed shorn of its venom; while music by the superb Standish bugle band will lend its enchantment to the scene.

Among the novelties in horsemanship introduced by the allied companies, is a brilliant and dashing display of superb cavalry evolutions, in which some of the best riders in the world will appear in the saddle, illustrating by brilliant and rapid movements the charge of Mamalukes; the advance, the ambuscade, the charge and retreat.

Immediately after the conclusion of the grand military entree, the following brilliant artistes will be introduced: Mme Virginia Sherwood, the light, animated and graceful equestrienne, known popularly as the "Queen of the Circle," will appear in her world-renowned performance, called the Poetry of Motion, exhibiting a series of thrilling flights, beautiful attitudes and surpassing graces, upon her fleet and high-bred courser. La Petite Ida, the beautiful and gifted child rider, in her unparalleled personation of the Mountain Sylph. La Petite Maitre Charles, in a brilliant act of single horsemanship; also in his grand leaping act, bounding over barriers, through globes, and somersetting on his horse's back.

Mr. Charles Sherwood, the great, original and incomparable Pete Jenkins, will for the one thousandth time represent the drunken Hoosier, with his admirable mimicry of a stupid inebriate. He is the most perfect artist ever beheld. Professor Jacob Showles, the distinguished animal trainer, will exhibit his academy of mules, John Heenan and Tom King; Mr. Showles, will also represent the Sports of Atlas, a difficult act on horseback, with the flying spheres. The beautiful and highly educated trick horse, American Eagle, will be introduced in the ring by Mrs. J. Showles, and exhibit his astonishing docility, intelligence and superior training, under the personal direction of his accomplished and skillful instructress.

William Odell, in his admirable principal act of horsemanship, called the Tar on a Lee Shore. Asst. Thompson, the juvenile gymnast, will perform upon the horizontal bar. Mr. Sam Welser, the privileged jester, and principal clown to the performances, will exhilarate the audience with his original and humorous eccentricities and happy hits at the follies of the day.

Little Bobby Williams, the English Yorkshire clown, will give upon the "Pandean Pipes," exquisite harmony on his "Penny Whistle," and melody upon his "Cheek Organ," and finishing with a musical clog dance.

Messrs. Welser and Williams will appear alternately as the rival clowns during the performances, and display their brilliant sallies of wit and repartee, intermingled with time-honored Joe Miller's and antique stories, &c., &c.

Will exhibit in Portsmouth Thursday, May 26. Tickets 25 cents.

☞ Our readers will notice, in our issue of to day, an important change in one of our Boston advertisements. Mr. C. A. Richards, of 99 Washington street, Boston, whose advertisement of Golden Sheaf Whiskey and London Dock Spirits and Wines has occupied so large a space in our paper, being desirous of calling public attention to some other goods in his line, in connection with his whiskey, &c., has requested us to insert the new list of articles in our paper to-day. The *California Wines* that are bottled and sold at this establishment are said to be the purest and best wines in the country, and we are assured that his other goods are not excelled by those of any other in the trade in the United States.

GOLDEN SHEAF WHISKEY.

C. A. RICHARDS,

99 WASHINGTON STREET,

Boston,

Would most respectfully invite the attention and examination of all Grocers, Druggists, Apothecaries and Private Individuals, desiring to sell or USE STRICTLY PURE

Liquors, Wines, Cordials or Bitters,

to the list of choice goods enumerated below, which are constantly on hand in large quantities in his Large and Spacious

Wine Store and Bottling Establishment,

99 Washington street, Boston.

First on the list, as a reliable pure stimulant, stands the celebrated and widely-known

Golden Sheaf Bourbon Whiskey,

made from Wheat, Rye and Corn, warranted for five years old. Put up in unique style, each bottle in a paper box, in cases of one dozen each, the large and increasing sales of which convinces the proprietor that no extended advertisement is needed to extol its real merits. It will recommend itself on trial.

Golden Sheaf Cordial.

A delightful and healthful beverage, aromatic, with a rich ginger cordial, made from the pure Golden Sheaf Bourbon.

Golden Sheaf Bitters.

The best Tonic Bitter ever offered to the public. Mingled with the rich flavor of the Bourbon are a number of other ingredients *for restoring the* appetite and imparting life and vigor to the whole system.

Golden Sheaf Punch.

Made from fresh, ripe lemons, and other articles, combined as a whole into a fine rich

Bourbon Whiskey Punch.

All the above put up full strength of the whiskey, and in cases of one dozen each. These articles *improve* by age, and no exposure of climate can affect them

JOHN AND ROBERT DUNSTER'S CELEBRATED

LONDON DOCK

SPIRITS AND WINES,

Imported solely by C. A. R., in wood, from the London Docks, and bottled by him in America. The distinguished and world-wide reputation of these articles has induced the subscriber to seek and obtain the Sole Agency in this country.—They are sold only in *Bottles, entirely pure, and without adulteration*, and comprise the four kinds, as follows:

LONDON DOCK GIN,
LONDON DOCK BRANDY,
LONDON DOCK SHERRY,
LONDON DOCK PORT.

All in cases of one dozen each, in strong shipping order for immediate transportation, and are sold lower than any other liquors and wines in the market, of equal quality.

Pure California Wines.

The large demand for the pure wines of California has made it a fixed fact that no well selected stock of Wines is complete without them. C. A. R. has made arrangements for the entire production of

The Largest Vineyard in California!

and is now bottling, and offers for sale, the finest CALIFORNIA WINES ever seen IN THIS MARKET, of four qualities, in splendid style of labels, bottles and cases—such as

ADDITIONAL DRAFT.—The following order from Capt. W. Silvery, A. A. Provost Marshal General, at Concord, has been received by Capt. Wiggin, Provost Marshal for this District:

You are directed to add two to the deficiency of the City of Portsmouth, on account of the transfer made by order of the Provost Marshal General, of the credit of two re-enlisted Veterans from the quota of Portsmouth to that of Peterboro,' 2d District. A draft will be made for these two additional men.

In accordance with the provisions of this order, a draft for the two men required was made on Tuesday morning. The cards containing the names of all the residents of the three wards in the city, who are liable to the draft, were placed in the box, and the following drawn out by Mr. Frank L. Tilton:

William P. Dolloff, Ward 1.
William K. Pierce, Ward 1.

The cards then remaining in the wheel were drawn to ascertain the correctness of names and count; and all being found correct, further operations were suspended.

☞ At the Union caucuses on Tuesday evening the following gentlemen were elected delegates to the Convention at Concord, May 31, for the purpose of choosing delegates to the National Convention at Baltimore:

Ward One.—George W. Pendexter, Andrew J. McIntire, Joseph B. Adams, Daniel G. Raitt, James Miller, John S. Howell, William R. Martin, Francis J. Wilson.

Ward Two.—Alfred T. Joy, John E. Giddings, Amos Trott, Samuel H. Kingsbury, Onsville E. Pray, Edward D. Coffin, James D. Akerman, Daniel C. Leavitt.

Ward Three.—E. A. Stevens, John E. Ham, John Dame, James M. Locke.

☞ Have you seen the great curiosity in the way of fans, at the window of H. S. Bodge's jewelry store, corner of Congress and High streets? They were made from a single piece of pine, by rebel prisoners at Point Lookout, and display great ingenuity—ornamented with the "red, white and blue." Mr. Bodge keeps a full assortment of all kinds of imported fans, sandal wood, ivory, &c., in addition to his stock of fine gold jewelry and silver ware. Give him a call. He is always polite and attentive to customers—a good Union man, and we will vouch for him.

☞ Private William P. Pender, of this city, a member of Co. A, 10th N. H. V., under Captain Caswell, was shot through the head and killed, while his company was employed in skirmishing, near Petersburg, Va., May 16th. He was 19 years old.

☞ Brown & Pike's Dramatic Company are meeting with good success at the Temple. This evening they will give the popular drama of the "Ticket-of-Leave Man."

POLICE COURT, Tuesday.—Geo. Brooks, for an assault on Jeremiah Casey, was fined $3, and costs $4.07, which he paid.

At the Portsmouth Yard on Monday last the men in the carpenters' department contributed for the wounded soldiers the snug little sum of fifteen hundred dollars, that being the amount of one day's work per man.—*Boston Advertiser.*

The Portsmouth Navy Yard mechanics can do a vast amount of work, but the Advertiser is respectfully informed that "the amount of one day's work per man" is not quite $1500.

☞ The following executive appointments among others were made May 13:

Justices of the Peace and Quorum throughout the State:—Samuel Webber and George G. Brewster, Portsmouth; Joseph S. Lawrence, Epping.

Justices of the peace for the county of Rockingham.—Chas. E. Pierce, and Charles A. Wiggin, Portsmouth; Chas. W. Gale, Jewett Conner, Exeter; Benj. F. Haley, New Market; Moses Page, Kingston.

— The Aldermen of Newburyport are hereafter to be elected on a general ticket.

— Maine now has to her credit 700 men above all calls, which is very much to her credit.

— An earthquake shook San Francisco and frightened the people, on Friday evening, but did no damage.

— The Senate, on Monday, passed the Pacific Railroad bill, 28 against 15. It goes to the House.

— The House of Representatives adopted a resolution that, the Senate concurring, Congress adjourn on the 6th of June.

— The Massachusetts Legislature, just adjourned, repealed the law passed last year levying a special tax on non-resident stockholders in Massachusetts corporations.

— The steamer Tristam Shandy, a blockade runner, was captured off Wilmington on the 18th inst., by gunboat Kansas. She has a valuable cargo of cotton.

— It is not thought that the House will agree to strike out the $300 exemption clause, even if the Senate votes to do so. Possibly Senator Wilson's proposition to draft men for one year will be adopted.

— A flood at Denver City on the 19th swept away about 50 buildings; large numbers of cattle and sheep were drowned. 15 or 20 persons lost their lives. Loss estimated at over $1,000,000.

NEW HAMPSHIRE ITEMS.

—— They had quite a frost in Manchester, Concord, Londonderry and other towns on Sunday night, May 22.

—— Two weeks or more since, a mad dog entered the barn of W. L. Fiske of Dublin, and bit twelve sheep and a hog.—Eight of the sheep and the hog have since died.

—— Gov. Gilmore and Staff propose to invite Gov. Andrew and Staff of Massachusetts, to Concord on Election Day to "a military and civic reunion."

— The U. S. steamer Circassian sailed from Boston on Sunday, in search of the pirate Florida.

MARRIAGES.

At Hampton Falls, N. H., May 22d, by Rev. George Moore Payne, assisted by Rev. Simeon Swett, MR. HARRY B. MARSTON and Miss WORTHY A. DOW, both of North Hampton.

DEATHS.

In New Castle, May 19, Mr. WILLIAM TRETHEWEY, aged 72 years and 6 months.

☞ The funeral services of Mrs. SARAH GRANT will take place from her late residence, No. 6 Vaughan street, this (Wednesday) afternoon.—Relatives and friends are invited to attend.

Business Notices.

New countries have wants and habits peculiar to themselves. In our widely extended and sparsely settled territory, medicines ready prepared are more employed, and are in fact a greater necessity than in the old countries. Dr. Ayer's preparations have given the public greater confidence in this class of remedies than had ever been felt before. Physicians instead of discarding them, really favor the use of such ready at hand antidotes for disease, when they can be depended on. And we wish our readers to know that in publishing J. C. Ayer & Co.'s advertisement, or any others of like reliable character, we think we are furnishing them as useful information as any with which we can fill our columns.—[Louisville Courier.

☞ Volunteers for the Army should not leave the City until supplied with Holloway's Pills and Ointment. For Sores, Scurvy, Wounds, Small-Pox, Fevers, and Bowel Complaints, these medicines are the best in the world. Every French soldier uses them.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 211

SUMMER CARPETING.—*Twenty Per Cent. Saved.* Just received by arrival of the "Hamilla Mitchell, from Canton, a fresh lot (made from new grass) of the celebrated "B. F. W." brand of Matting, imported by Mr. White, for Drawing Rooms and other apartments, in Plain White, Red Check, Fancy and variegated Colors. Some of the patterns are entirely new and are truly beautiful. Also, a small importation of Calcutta Matting, in breadths (a new article), and the first and only lot ever imported. The above goods are for sale by the piece or yard, *twenty per cent.* less than retail rates, by R. B. Wentworth & Co., 107 Hanover street, Boston.

Ayer's Sarsaparilla

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an effectual antidote for disease. Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from strumous complaints, and that one which will accomplish their cure must prove, as this has, of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints:—

Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St. Anthony's fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ringworm, &c.

Syphilis or Venereal Disease is expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health. Female Diseases are caused by scrofula in the blood, and are often soon cured by this EXTRACT OF SARSAPARILLA.

Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, while it was not.—When you have tried it you will know it, but till then, will you know the virtues of Sarsaparilla.—For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the Agents below named will furnish gratis to all who call for it.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn arising from Disordered Stomach, Pain or Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and for a Dinner Pill.

They are sugar coated, so that the most sensitive can take them pleasantly,—and they are the best Aperient in the world for all the purposes of a family physic.

Prepared by J. C. AYER & Co., Lowell, Mass., and sold by Brackett Hutchings, H. H. Thacher, W. R. Preston, David Kimball, and all druggists.

MASON & HAMLIN'S

CABINET ORGANS,

Combining the requisites for Sacred and Secular, Church and Parlor Music; for Families, Sunday Schools, Day Schools, Churches, &c.

They are elegant as pieces of furniture; occupy little space; are not liable to get out of order or out of tune; are warranted for five years; will improve in tone by age, and are moderate in cost.

They are to private houses, Sunday schools and smaller churches, what the larger pipe organs are to large churches, and in addition to this are adapted to secular as well as sacred music.

The Cabinet Organ is essentially different from, and a marked improvement upon, all instruments of the melodeon or harmonium kind. Its superiority consists in many important characteristics.

The undersigned, Agent for the Manufacturers, will be pleased to show the Cabinet Organs to all wishing to purchase, at his residence, NO. 30 HANOVER STREET.

☞ The Brooklyn Eagle has the following:

On Saturday last about twenty bundles of hay, supposed from the manner in which they were made up to have come from Long Island, were washed on Manuring Island, and subsequently some pieces of a vessel from the deck, which bore marks of having been chopped with an ax. To some of the fragments of wood and bales of hay there were some bits of cotton attached, saturated with blood. Those persons who examined the pieces of wreck found on the beach are of opinion that the captain, officers and crew of a vessel have been murdered in Long Island sound, and after plundering the vessel of all movable articles of value the pirates scuttled the vessel, and then rowed to the shore, where they broke up the boat in which they effected their landing and escaped.

— General Lygon, recently deceased, was noted for his fine porcelain accumulations, which have sold at auction for days in succession, at rates that would appear extravagant to all, save infatuated virtuosi.

— Mdlle. Patti has just come of age, and it is stated that one of the first acts of her majority was to settle an annuity of 6000f. ($1200) a year upon her father, and another of like amount upon her mother.

THE IMMENSE POPULARITY OF THE

California Wines

introduced by us, is a flattering tribute to their purity and delicacy, and a cheering indication of a desire among the people to encourage

American Industry.

The Surgeon General of the United States, after an analysis of our Wines, reports them to be PURE.

Dr. Charles T. Jackson, State Assayer, who is the most undoubted authority, after an analysis of our Port Wine, says:—"The fluid contains fifty-four grains of solid matter, consisting wholly of the fixed principles of grapes. I find no adulterating ingredients, and consider it suitable for medicinal and general use."

The Boston Traveller says:—"The California White or Hock Wine reveals in favor the best of Hock Wines, and costs much less."

The Saturday Evening Gazette says:—"The White Wine is equal to the Stein or Hight wines which we import, with a fine and rich flavor, and we believe its purity unquestionable."

Hon. John G. Downey, late Governor of California, says:—"I most cheerfully recommend your Wines to all who desire a pure juice of the grape."

The New York Commercial Advertiser says:—"The wines have a fine flavor, and need only to be tasted to be approved."

The Boston Journal says:—"The White Wine is equal to the best Hock."

The New York Tribune says:—"The 'Angelica' has a rich and delicious flavor, unsurpassed by any Wines in the market."

Constitution Life Syrup,

COMPOSED OF

IODIDE POTASSIUM,

With the compound concentrated fluid extract of

VALUABLE MEDICINAL

ROOTS AND HERBS,

Prepared by WM. H. GREGG, M. D., Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospital, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup

HAS PRODUCED

A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the literal medical and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who contract, and other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as hecn lean as ever encountered by any Reformer.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that disease can only be cured by the "slow recuperative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have a state of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP.

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stom'h, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Strumo, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

Rheumatism.

(Arthritis), Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a specific, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced, and cures, extensive or tedious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St. Vitus' Dance.

Thousands who have suffered for years will bless the day they heard of this remedy. Those particularly to weak, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Foul Breath, Nodes, Blotches, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Shattered Nerves, which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth so firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, Blotches, Blotches.

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome discharging sores, which disfigure so many of the youngest portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a scrofulous condition. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and women, Leucorrhœa, Ulceration, Inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Tetter, Ringworm, Itch, etc., the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly obstinate and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Eclectic Fits, Sympathetic or Organic Diseases of the Heart and Stomach, Disease of the Spine, producing a grating or filing sound, Dropsy of the Heart Case and all the affections of this important organ, which so many suffering from angiacute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indigestion to Exercise, Pain in the Back, Loss of Memory, Sleeplessness, Nervous Irritability, Fear of Disease, Dimness of Vision, Dry Hot Skin and Extremities, Want of Sleep, Restlessness, Pale Emaciated Countenance and Debility of the Nervous System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Spine, Or Forehead or Scalp, no remedy has ever proved its equal.

MOTH PATCHES upon the female face, depending upon Uterine Disease and the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, Costiveness, indigestion, coated tongue, or an indurated or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from disease for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pale countenances, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES. It is the safest and most effectual medicine ever discovered for performing the duties of the mother, the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and improves the food—Those who have used it think it indispensable. It is highly useful both before and after childbirth, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus (or Whites in females) where all the old numerous medicines have failed.

It is prepared in a highly concentrated form, its dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its channels with purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and demulcent; removing all scalding, heat, and other pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack Injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tried by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the low spirited.

One bottle restores memory power.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotees of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room, with the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove. Hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about purchasing or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moderate and agreeable; and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which renders them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the best in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Sise, and others.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK,

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

The Chronicle.

HON. DANIEL MARCY.—We find in the Lancaster Republican, from the pen of Col. Kent, its editor in Washington, a short-hand biography of this gentleman, our present representative in Congress; and we transfer it to our columns:

Mr. Marcy is a pleasant, agreeable gentleman, but entirely and unequivocally "orful" in his politics. He is a very large, stout, substantial man, with dark hair, eyes and complexion; never speaking, but always votes with the most rabid of the copperheads. He is nearly sixty years of age, is conversational on indifferent topics, and bears very little evidence in his general demeanor here of his bad political proclivities. Mr. Marcy is rich, else he would not have been here. It is generally believed that for this reason he was the nominee of the "democracy," and that he "bled" fully equal to their expectations. In 1853 he was returned by 80 majority; now the District is against him by 2900 majority. He seems to care very little for all this, but votes as though he regarded himself in his box, and being so, that he cannot make bad worse. Daniel Marcy and Peter, his brother, began life as poor cabin boys; they prospered, owned and commanded ships, and at the commencement of the war were men of great wealth. Daniel resided at Portsmouth, N. H., and Peter at New Orleans. They have had several ships burned by rebel pirates, but these annoyances do not seem to disturb their enviable equanimity. Of course this Congress concludes Mr. Marcy's representation of the 1st District.

SIGNIFICANT.—"The Republicans were feeling rather bad when I left Concord," was remarked by an ex-representative of the Copperhead tribe, on stepping from the boat a few days since. Further inquiry brought out the fact that unfavorable news had just been received from the Army of the Potomac. The inference is that while such news distresses loyal men it is a source of gratification to Copperheads. That such is the fact is patent to every observer. A terrible gloom has been settling down upon men of this ilk, for the past few days.—May it increase until they shall become invisible to loyal eyes. These men will never rise above party considerations. With them the gigantic struggle now going on between the friends and enemies of human progress, in which thousands of lives are sacrificed, and the entire country is draped in mourning, is but a political squabble between Republicans and Democrats. They see nothing more in it. They care nothing for the results farther than it affects their party interests. They know no better than to think that their own interests would be advanced by rebel successes. And to-day they would, as we have heard some of them say, rather live under the administration of Jeff. Davis than that of any man other than their own political stripe. And yet these narrow-minded, soulless men, affect to believe that they alone are competent to restore peace and prosperity to the country; that they are the embodiment of wisdom and patriotism; that they have a sort of divine or inherent right to hold the reins of government whether the people will it or not. The country has already had far too much of their bad driving. When in power, they by their treachery to the free institutions of the country brought our present calamities upon us, and they need not expect that the people will again trust them. Their fate is immutably fixed, and the wiser course for them would be to spend what little time intervenes between this and the day of final judgment before the people of this country, in making such poor preparation as they shall be able to make for their terrible destiny.—*Wolfboro' News.*

E. A. STEVENS,

NO. 46 MARKET STREET.

AN UNUSUALLY LARGE STOCK
OF EVERY KIND
—OF—
KITCHEN FURNISHING GOODS.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our oldest patrons who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

FERTILIZERS,

Trees, Vines, Shrubs,

Vegetable and Flower Seeds.

J. F. SHORES, Jr.,

No. 1 Congress Block,

WOULD CALL THE ATTENTION OF
FARMERS AND GARDENERS
TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ:
LODI CO.'S
IMPROVED POUDRETTE.

The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.

On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and growing sufficiently for the last hoeing and plowing, before the commencement of grain and hay harvest.—The celerity and dispatch with which a large crop of corn is put in and poudretted, the rapid growth and consequently the early opportunity of working among it—the small chance for weeds, owing to the shade it affords, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.

For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn or for several years, a top dressing of Poudrette will be found invaluable.

We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of diseases. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.

Price $1.50 per Barrel.

Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

Lloyd's Nitrogenized

Superphosphate of Lime.

The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O 5)	17.2
Soluble " " (ca O P O 5)	11.5
Organic matter	28.
Sulphate of lime	3.
Alkaline of salts	2.
Insoluble matters	7.3
Water	

The organic matter yields 3.5 p. c. of Ammonia. The value of concentrated fertilizers depends principally upon the Insoluble Phosphates, the Soluble Phosphates and the Ammonia.

A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.

It is almost universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 2, 9, 16. In other words, Soluble Phosphates are worth six times and Ammonia 8 times as much as Insoluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.

Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is large for a Superphosphate.

The sample for analysis, I selected from the entire stock which was prepared for the market.

N. T. HILL.

BROWN UNIVERSITY, Jan. 28, 1864.

This lime is sold in barrels containing about 275 lbs. Price Three Cents per lb., by the barrel, or Twenty-Five Pounds for One Dollar.

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!
This desirable mechanical arrangement has now been in use a sufficient length of time to know that it gives entire satisfaction and actually is the more valued the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so recuperative as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.
They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.
The rich will have it because IT IS THE BEST. All other classes will have it on account of it being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in under-bedding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!
These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the same, as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and safe cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Prostate Gland, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Lichon's Italian Female Monthly Pills. The sale of more than 100,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Portsmouth, N. H.

THURSDAY, MAY 26, 1864.

THE REBELLION.

No further dispatches from Gen. Sherman are expected for several days. The rebels when they retreated carried off their artillery, but burnt their supply trains. We have 4000 prisoners, and hundreds more are coming in. Stoneman, with his cavalry, is pursuing Johnston, engaging him with artillery. Resaca is now our depot of supplies, and is in railroad communication with the rear.

A dispatch from Gen. Canby confirms the report that Gen. Banks' troops had arrived at Semmesport, and states that they would reach Morganzea on the 19th. The army was in better condition than was expected, and would soon be ready to resume offensive operations.

General Hunter assumed command of Gen. Sigel's department, on the 21st,—headquarters in the field; and has appointed Gen. Sigel to command the reserve division guarding the Baltimore and Ohio railroad.

THE VIRGINIA CAMPAIGN.

Gen. Kautz has returned from a second bold dash through the enemy's country.—He tore up the Richmond and Danville Railroad, at several points; injured the Petersburg and Lynchburg railroad; burnt large amounts of rebel government property, bridges, etc. He also engaged in several skirmishes, escaping with slight loss.—On one plantation the slaves were drawn up in front of their master's house, and expressed a unanimous sentiment of disgust for the Yankees. At Chesterfield Court House some citizens were released, who were found in jail for expressing Union sentiments.

Further advices from Gen. Butler state that Gen. Gilmore went on a reconnoissance on Tuesday, and met the enemy in some force. After an engagement of an hour and a half he completely routed them. It is reported that nearly one half of Beauregard's troops have gone to reinforce Lee. The rebels have made nine attacks upon our intrenchments, in all of which they were repulsed; they had to bury their dead under a flag of truce. 3400 of our wounded have been taken to Hampton hospital from James river since the army first landed.

Sec. Stanton reports that, the army having moved to the Anna, the 5th corps succeeded in crossing a creek and getting a position without much opposition. But shortly afterwards they were violently attacked by the rebels, who were entrenched and in considerable force between the creek and the river. Before dark, however, our troops had forced them from their works and had driven them across the stream. The slaughter of the rebels is reported to have been very great, as they charged against our artillery and suffered especially from canister. Our losses were inconsiderable. A dispatch from Gen. Grant, 8 o'clock, Tuesday morning, states that the enemy had fallen back from the North Anna, and our troops were in pursuit.—Warren, Hancock and Burnside pushing rapidly after them.—Warren captured a number of prisoners on Monday evening; and at the date of the dispatch, Hancock was storming the rifle pits this side of the river. The evening previous he captured between 100 and 200 prisoners, and drove many rebels into the river, where they were drowned.

Gen. Hancock's corps is far in advance of the rest of the army, having the advance in the movement. He is reported to be between the rebel army and the railroad which has formed Lee's line of communication, at the same time holding a commanding position on his right flank.

Later accounts state that Gen. Warren with the 5th corps crossed the North Anna on Tuesday afternoon without much opposition, but had a sharp conflict when across, driving the rebels, and holding the ground. Hancock threw forward two brigades under cover of two batteries. They made one of the grandest charges of the war, advancing 600 yards over an open field against the rebel rifle pits on the north side of the river. The men went in with a cheer—jumped in to the breastwork, and flanked it at both ends. The rebels fled in confusion, rushing across the island to the main land. Portions of the pursuing brigades jumped into the stream and crossed to the island and held it in spite of all efforts to dislodge them. Hancock, hearing that Warren was across, did not attempt to carry the heights.

Gen. Grant's last movement is pronounced the finest of the campaign,—a brilliant though bloodless victory. By means of it he has control of a good and direct route to Richmond, it being the very one originally fixed upon by him, for the control of which all the fighting of the last two weeks has been done. The army is now in a well settled and improved country,—with good foraging and excellent pasture.

There are, as usual when an important point has been gained, many exciting yet doubtful rumors, among them that Lee has retreated over the South Anna river, it is supposed for Richmond, with Gen. Grant rapidly in pursuit; and that *Jeff. Davis* has fled from Richmond.

☞ The spicy Concord correspondent of the Boston Herald, after speaking of the recent meeting of the Horse Guards at the Phenix Hotel to make arrangements for the coming annual parade, discourses as follows:—

The Governor and his staff met at the same place on Tuesday evening to perfect arrangements for a military and civic reunion which shall do credit to the State, and repay to some extent certain hospitable civilities extended to them last winter by Gov. Andrew and his staff, in Boston. It is understood that His Excellency of Massachusetts and several other dignitaries have signified their intention to accept Gov. Gilmore's invitation to be present, and we are therefore anticipating an occasion of more than ordinary interest.

The assembling of the Legislature will be the signal for hard skirmishing all around the political field. As a "looker on" I can see the tactics and manœuvering of the various squads, and make prognostics of the results for my own entertainment.

First in the order of events will be the appearance on Monday next of the Daily Monitor, a new paper to be published by Cogswell & Sturtevant, and edited by an experienced and trenchant writer, who is pretty thoroughly posted in the local politics both of New Hampshire and Massachusetts, but whose name I purposely withhold for the present. This paper will play the mischief with the "clique," so called, and who are very much exercised about it.

Secondly, Manchester will easily stir up a local "bullabaloo" by introducing a bill for the removal of the State Capitol from Concord to that city, backed by a substantial offer of material aid to the amount of $500,000. This will put Concord up to make counter propositions. If it is liberal, Concord will retain the Capitol; if not it will not be surprising if she lost it.

Thirdly, the Senatorship; and this is the big bone of contention. I predict that the small dogs who aspire to possession of the bone will get hurt. The candidates are John P. Hale, Thomas M. Edwards, Mason W. Tappan, Aaron H. Cragin, Edward H. Rollins, Gilman Marston, and, last *but not least*, Amos Tuck. Of the number, Mr. Edwards and Mr. Tappan only are not now in office. Four of them would make creditable Senators by virtue of their gifts, natural and acquired. The other three should heed the Greek proverb, "*know thyself*." To two of them this remark is more particularly applicable, but I do not propose to assist your Massachusetts readers to designate them. Certain it is the perilous times require of us as a State to send our "wisest, discreetest, best." *Verb. Sap.*

Fourthly, "the clique" have attempted a "big thing," namely, to defeat the re-election of Hon. Allen Tenny as Secretary of State. Bet your life they won't come within a number of rows of apple trees of it. Look out for the Message of our locomotive Governor. It will be as characteristic of that gentleman as any of the President's papers are of Old Abe. Gov. Gilmore is the most popular man in the State of New Hampshire to-day, and all concerned will please take due notice thereof and govern themselves accordin'.

Yours, GRIMSHAW.

NEW HAMPSHIRE ITEMS.

—— There are now about twenty cases of small pox in Manchester.

—— Col. Griffin, of the 6th N. H. regiment, has been nominated for a Brigadier General.

—— The Merrimack County Agricultural Society, will hold a Fair, on the ground of the Society in Concord, on the 27th, 28th and 29th of September next.

—— On Sunday night a large blacksmith shop at Bow Centre, owned by Asa Parker, was burned to the ground; probably the work of an incendiary, as no work had been done in the shop for two days.—Loss $400; no insurance.

—— A private letter from the 3d. N. H. regiment, dated Bermuda Hundred, Va., May 19, says:

The 3d N. H. lost about 249 men in all Two Captains and two Lieutenants, the Major and the Adjutant were wounded. New Hampshire is very well represented here. The 2d, 3d, 4th, 7th, 10th and 13th regiments are present. None suffered so badly as the 3d. They made a charge on a battery and got cut up pretty severely.

—— Governor Gilmore has received, a letter from Hon. Frederick Smyth, of Manchester, dated Fredericksburg, May 17, in which he says:

I arrived here to day, and found Messrs. Hackett, Patterson, Bunton and Piper hard at work, doing all they can for our New Hampshire wounded. Doctors Wheat, Jones and Chamberlin, and Aaron Young, came with me, and we are trying to get our New Hampshire wounded all together in one house. The wounded will be brought in to-night, and we have made arrangements to receive them. I go to the front to-morrow to see what wounded we have there. Meanwhile everything will be done here and there which can be, to carry out your instructions.

— The seven Charleston rams is another Philadelphia story.

— Punch says Garibaldi heard that Tupper, the Proverbial Philosophy man, had composed an ode to recite to him, and he left England!

— A cargo of English coal, sent to the Metropolitan Fair by an English merchant, sold at New York on Tuesday, by auction, for $14,850.

— Advices from Melbourne, March 24, report that a suspicious steamer, supposed to be a rebel pirate, had been recently seen off Cape Otway.

— It is understood that the Ninth Army Corps, hitherto an independent command under Gen. Burnside, has been merged into the Army of the Potomac.

☞ The "American Artisan" is a new scientific paper just trying to start in New York, at $2 a year, and in a "private" circular, the editor informs us that for five or ten dollars' worth of notices or advertising, (that is, publishing his prospectus in one form or another) in our "widely circulated and influential paper," he will send us his paper for a year; We have no doubt that the publication referred to will be well enough in its way, if it ever gets fairly under way: but if we wanted it, we should prefer to pay the $2 in cash, rather than three or five times that amount in trade; for although, like most traders, we like to barter when we can fairly, yet we can't hope to clear three or four hundred per cent. in these times.

THE TURF.—The race between the grey colt owned by Nat Perkins and others of Manchester, N. H., and a bay colt named Royal George, owned by Mr. Beckwith of Hartford, Connecticut, came off on Saturday, at the Hartford Trotting Park. The match was for $500, mile heats, best three in five, to go in harness. A very lively and close race was anticipated before the start, but in this the spectators were disappointed, as the Hartford colt was easily distanced in the first heat by his three years old rival from Manchester, who trotted the mile in 2:50, and could have taken off several seconds if there had been any necessity for letting out his speed. Joe Williams handled the winning colt, and Dan Mace saw the distance flag come down before the Hartford pony.

ENLARGEMENT OF THE CAPITOL.—We have been permitted to examine a new plan for the enlargement of our time-honored but inconvenient State Capitol, which has recently been submitted to the Governor and Council, by Gridley J. F. Bryant, Esq., of Boston. This plan demonstrates the possibility of adapting the present structure, by liberal yet not excessive expenditure, to the increasing wants of the State; and the elevation which accompanies it, showing the front of the proposed building, presents many points of rare architectural beauty. The material which the architect contemplates using to carry out this design, should it be adopted by the State, is Concord granite. Specifications and estimates of expense are now being prepared by our mechanics.

If the City of Concord can promise the completion of the building, we need have no fears of losing our metropolitan character. The matter is in the hands of judicious and liberal men, who will not neglect the interests of the community.—*Concord Monitor.*

☞ Governor Seymour's letter to District Attorney Hall in relation to the seizure of the World and Journal of Commerce says:

"It is charged that these acts of violence were without due legal process and without the sanction of State or National laws. If this be true, the offenders must be punished. If the owners of the above named journals have violated State or National laws, they must be proceeded against and punished by those laws. Any action against them outside of legal procedures is criminal." The Governor argues the matter at some length, and concludes: "In making your inquiries and in prosecuting the parties implicated you will call upon the Sheriff of the county and heads of the Police department for any needed force and assistance. The failure to give this by any official under my control will be deemed sufficient cause for removal."

SPECIAL NOTICE.—The authorized State Agent to look after and care for New Hampshire soldiers is HON. LARKIN D. MASON, Post-office address, Box 1043, Washington, D. C.

Anything sent to him, either in funds, clothing or stores, for our sick and wounded soldiers, will be promptly attended to, and faithfully and judiciously distributed. Special remittances directed to him will be sure to reach the place for which they are designated. He is the only New Hampshire Agent acting by authority, either for the State or any of the counties.

ALLEN TENNY, Secretary of State.

— The U. S. Senate on Tuesday passed the Brazil steamship bill.

—Denmark has agreed to a truce for one month, the allies to remain in possession of Jutland and the Danes of Alsen.

— The quota of New York city is understood to be so nearly full that a decision has been made by the authorities not to draft.

— The House Committee have decided to report against the bill increasing the pay of officers of the army.

— The House Naval Committee have decided in favor of New London, Conn., as a site for a Navy Yard for the construction of iron-clads. So League Island is out in the cold.

— The loan of two million dollars to the State of Maine is all taken—one and a half million at a premium, and the balance at par. The whole amount of bids reached nearly three millions.

— Gen. Warren has captured some rebel official papers,—among them an order calling out all boys 17 years of age to garrison Richmond; and another ordering ambulance men and musicians into the ranks.

— The Mass. 1st regiment, which has participated in seventeen general engagements and many lesser fights, returned to Boston on Wednesday. Out of 2200 who have gone out in all, the regiment brings back but 20 officers and 444 men, and of these only 80 are of the original thousand.

CABINET ORGANS,

Combining the requisites for Sacred and Secular, Church and Parlor Music; for Families, Sunday schools, Day Schools, Churches, &c.

They are elegant as pieces of furniture; occupy little space; are not liable to get out of order or out of tune; are warranted for five years; will improve in tone by age, and are moderate in cost.

They are to private houses, Sunday schools and smaller churches, what the larger pipe organs are to large churches, and in addition to this are adapted to secular as well as sacred music.

The Cabinet Organ is essentially different from, and a marked improvement upon, all instruments of the melodeon or harmonium kind. Its superiority consists in many important characteristics.

The undersigned, Agent for the Manufacturers, will be pleased to show the Cabinet Organs to all wishing to purchase, at his residence, NO. 30 HANOVER STREET.

Local.

A jolly fellow had an office next door to a doctor's shop. One day a gentleman stepped into the wrong shop. "Is the doctor in?" "Don't live here," said the lawyer, who was in full scribble over some old documents. "Oh, I thought this was his office!" "Next door, sir." "Pray, sir, can you tell me if he has many patients?"—"Not living!" The old gentleman told the story in the vicinity, and the doctor threatened the lawyer with a libel suit.—*Exchange.*

This couldn't have happened in old Portsmouth—for here our doctors have many patients "living," since the profession all go in for air and exercise and the new gymnastics. Besides, our lawyers don't libel anybody—(but the City).

But the incident puts us in mind of similar calls which we repeatedly enjoy. "Is Mr. Goodall in?" "Does Squire Good-*arl* kape here?" "Is this lawyer Goodall's office?" and so forth, and so on, are the interrogatories repeatedly issuing from some ugly phiz thrust in at our door—at least half a dozen times, among others, from the same old hag, who, if she ever had any brains, has had them stolen away by an enemy which she puts into her hideous mouth.—We don't want to "libel" anybody, but if our neighbor, the worthy Squire, would kill off all such visitors, we should not get so impatient at their frequent importunities.—One of them, a fellow pretty well corned, a month or two since, wanted to find the said office—and we answered him pretty shortly, that it was "two pairs of stairs below"—meaning two stairways lower down the block, of course. Down goes stupid, to the street door,—and on our following him a moment after, "Where is it?" says he.—"Down below, we told you," replied we.—"Down below"—(looking down at the sidewalk) I can't get any lower down!" "Don't believe you can," replied we, "for you are too drunk to know which end you are on now."

We shouldn't want to say that these are all the kinds of visitors which gentlemen of the law receive; but there are altogether too many of them for *our* equanimity. F.

☞ What with all the facilities and temptations to rural walks, rides and sails, in our vicinity, one might suppose that nearly *all* the population would enjoy a little of rusticating almost daily, in fine weather. But no, old and young alike waste their precious mornings in bed;—and household duties (often half unnecessary) or the stupid inattention of the men, keep the women from much such afternoon pleasuring; while the stupid men themselves prefer to mull over their counters or desks twice as many hours as is needful or profitable. Well, every man to his own notion, say we; but all work and no play makes dreadful dull boys, as well as men and women. F.

☞ "The time of the singing of birds has come, and the voice of the turtle is heard in the land." The earth is carpeted with warp of loveliest green, and woof of violets, anemone, columbine and innocents. The peaches, what there are left in this region, are blooming more plentifully than for years before—the cherries are in full feather, pears coming out finely, and a week more will show us all the apple flowers. Then for the June days, and the pleasantest season for drives and walks in the country. While rambling in the woods, a few days since, on the shores of Great Bay, we had the good fortune to pluck a charming tri-colored bunch of violets—purple, white, and yellow, growing within the circuit of quarter of an acre of meadow and woods. F.

☞ A pleasant morning's trip was that of ours, last week—combining business with pleasure. After an hour or two of office work, to Newmarket Junction, over the C. & P. (Railroad; walk three miles or so to Lamprey River Village, and Willey & Co.'s carriage factory—breakfast at Tuttle's hotel, at which a lousing two pound trout was served up, fit for an alderman, or any other man; then over the B. & M. Railroad to Exeter, and that Trustees' meeting of the Rock. Co. Ag. Soc., which friend Lane and the Ballot (whom we didn't have a chance to call on) have got all right—corporation dinner, and a good one, at the Squamscott; then a very social ride down to Greenland Corner, with Br. Frink, in his good team, (don't all the Frinks always have good teams?); and home by our original and most certain means of personal locomotion, till meeting a couple of friends driving out, they draw up with surprise in Great Swamp, and want to know if we have run away from our horse or he from us—so another acquaintance soon after overtaking us, we accept his invite to jump in, so that we may not unduly surprise anybody else, and are soon safely landed at home once more. O, for the summer morning hour, with its inimitable freshness and beauty. F.

☞ A report by the Adjutant of the killed, wounded and missing in the 10th N. H. regiment, during the operations of the 7th, 9th and 10th, states that in Company G, private William Clark was wounded slightly in the wrist; and Sergeant C. H. Hoyt, seriously in the face and arm.

☞ Capt. Enoch George Adams (promoted from a first lieutenancy in the 2d New Hampshire), of the First United States Volunteers, at Norfolk, writes in the highest terms of his company of "reconstructed" rebels, as having every requisite for good Union soldiers. Our readers will remember Capt. Adams, who when a Sergeant in the 2d Regiment delivered one or two lectures in this city, at the time when the regiment was at home on a furlough.

☞ A private letter, dated May 19, from an officer of the Heavy Artillery company, recently stationed at Fort McClary, Kittery, states that they were then at Fort Foote, on the Potomac, about 10 miles from Washington. They had been in ten different forts since they reported at Washington, in one instance moving twice in one night in a rain storm. The boys were all well and contented, and ready to move again if ordered.

POLICE COURT, Wednesday.—John Moody and George F. Dennett pleaded guilty to being drunk, and were each fined $3, and costs $3.86, which they paid.

Joseph H. Odiorne, for an assault on Eben Odiorne, his father, was fined $5, and costs $9.31. Appealed, and gave bonds in the sum of $30, for his appearance.

☞ The old woman's desire to know if the soldiers in the Crimea fought by candlelight, was very naturally caused by being told that "penny dips had risen to two pence on account of the war;" but we were far from supposing our soldiers were so addicted to drinking small beer as to occasion its recent rise of a hundred per cent. in price, rather attributing the increase to the enhanced price of sugar; but our imp solved the problem by declaring it as his opinion that "twas the yeast they put in it made it rise."

☞ For many years back the "Judge" has been wont to use the grass plot of the Court House as a field for his exploits as a carpet knight, he being an invaluable auxiliary in that fearful trial of every housewife—spring cleaning. Now, however, he is debarred therefrom, and Quiz wishes to know why? The only reason he can give is, that the city fathers may want the grass for their mare.

☞ The man who rushed down Court Street about half past eleven o'clock, Tuesday night, vociferating "fire! fire!" at the top of his lungs, ought to be spoken to. He utterly ruined several "first naps."

GLAD TO HEAR IT.—That Dr. A. P. Stevens is so far recovered from his injuries, received a week or two since by his horse starting while he was getting into a carriage, that he will resume business again on Monday, May 30.

☞ Our readers should bear in mind that Brown & Pike's Combination are still at the Temple. Their performances thus far have met with the most decided success. To-night the beautiful Drama of Ben Bolt and the musical afterpiece of Le Charlet.

APT ALLITERATION'S ARTFUL AID.—Grace's Salve is good; fine for flesh wounds; brilliant for boils, fine for felons; wonderful for warts; consoling for chilblains and chaps; excellent for erysipelas; astonishing for abscesses; and—but it cures everything on the surface of the skin. We don't like to be profane, but many an invalid has said, with reference to the salve, "saving Grace." 25 cts. a box.

ATTENTION COMPANY!—Volunteers, who expect to retain their health unimpaired during the campaign, must see to it themselves; do not trust to the Army Surgeons; supply yourselves with Holloway's Pills and Ointment. Every English soldier's knapsack contains them.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 212

Would you save yourself from suffering after eating, or from acidity of the stomach, or burning sensation, or indigestion? Use Horrick Allen's Gold Medal Saleratus. Never use soda if you can procure this article. It will strengthen weak stomachs and relieve dyspepsia; it is saving in the quantity of flour, &c., &c. Try it. Grocers and Druggists must all sell it. "IT SMELLS TO HEAVEN."—It seems hardly credible that the city governments of Boston or Roxbury will tolerate for a single hour, the pestiferous nuisance of a bone burning establishment, that is rendering the beautiful squares at the south part of the city almost uninhabitable, and the Highlands of Roxbury full of foul odors. Yet though complaints without number have been made, —through some legal quibble the nuisance is not abated.

A little common sense and straightforward action is needed in this matter on the part of the city governments, for no one corporation or single individual should be permitted thus to outrage the whole community for its or his private gain.

The citizens afflicted by this nuisance are so exasperated by it, that we believe there is but one thing prevents their tearing down the establishment from whence it proceeds, *vi et armis*, and that is, the stench is too abominable to admit of an approach.—*Commercial Bulletin.*

Won't these remarks apply to some other locality also—say Portsmouth and her slaughter houses?

THE U. S. BONDS.—There ought to be no doubt entertained of the ability of the United States to sustain the debt which may be incurred for this war. The industry of our population, the vast extent of fertile soil, the large immigration from Europe furnishing men to till the soil, and the enterprising character of our commercial and manufacturing interests, all combine to prove the ability of the nation to meet all its obligations.

No safer or more profitable investment is now offered than the U. S. bonds. The burthen of the interest will be comparatively light because it will be paid to our own people and not sent abroad. The same is true of the present immense expenditures of the country, which are not taken from the wealth of the country. They are paid to our own people, and only change the direction of the expenditures. It is not in time of war only that much money is wasted in unprofitable schemes and extravagant and worthless indulgences.

Under the properly stimulated industry of the people, we can raise without difficulty a revenue of four hundred millions a year. That will be half the whole expenditures of the government, even in this tremendous war. If that was to continue till 1870 the public debt would not amount to half the increase of wealth; so that we can carry on the war for twenty years and lose nothing. This Mr. Jefferson thought could be done, when the wealth of the country was not one-fourth of its present amount.—*Traveller.*

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y.
formerly Assistant Physician Blackwell's Island Hospital, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigation of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from so-called medicines, those who cannot be cured by other physicians—are invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as heretofore, as ever, to the delight of grateful informers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that disease can only be cured by the "slow reckoners" (by proxy of course). This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes something in the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Parabysis Agitans.

It is so universally admitted that Constitution Life syrup is the only effective means of restoration to the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Struma, Glandular Swellings, Ulceration, King's Evil, Dyspepsia, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medicines remediless incurable.

Rheumatism.

Lumbago, Sciatica, The Dolorous

If there is any disease in which Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced, and cures effected in a few days, or 20 or 30 years standing, have been cured by us.

Nervousness

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Scattered Nerves, St Vitus' Dance.

Thousands will bless the day this medicine was introduced, and hundreds will bless the day on which they read these lines. Particularly to weak, suffering women will this medicine prove an inestimable blessing—directing their sorrowing to a Hope which table more than it promises.

Mercurial Diseases.

Salivation, Fleshy of Weariness, Rotting of Bones, Bad Constitutions, Bones in Bones, Dropsical Swellings.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Limbs, which have been the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often rendering life a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to be affected from these ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dropsyes; Dropsy of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, which is accompanied with inflammation and ulceration of the uterus, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the Heart Cure and all the affections of this important organ, or for relieving from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indigestion to Exercise, Pain in the Back, Loss of Memory, Sleeplessness, Dizziness of Consciousness, Fear of Disease, Dimness of Vision, Dry Hot Skin and Extremities, Want of Sleep, Restlessness, Pale Disappointed Countenance, Want of Confidence, Nervous System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all Chronic Nasal Catarrhal Diseases, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.

MOTHERS, MOTHERS! upon the female sex, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct that organ and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, a weak stomach, or a seated or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, relief can be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation on the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not neglect the means which are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES It is the safest and most efficacious medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents morning sickness, and increases and improves the food—those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, and old Women's remedy, cures, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Prostatic Abscess Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and enriching the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an aid or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Stric Albus or Whites. Its effects are *healing, soothing and derivative*; removing all scalding, heat, chordee and pain, found at the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—a speedy and permanent cure is effected, and the weakened organs are speedily restored to full vigor and strength.

☞ Full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES.

CHEROKEE
CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Dyspepsia, Sleeplessness, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not*; the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed! Send for a pamphlet, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable Kingdom; being an entirely new and abstract method of cure, irrespective of all old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses restore Appetite in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the low spirited.

One bottle restores mental power.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNRIVALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large oven for cooking meats, in which no odor possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of so kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 30 per cent. of the properties of the fuel to the best.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of fuel, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Sise, and others.

Gray's Patent
Molded Collars

Have now been before the public for nearly a year, and are universally pronounced the neatest and best fitting collars extant.

The upper edge presents a perfect curve, free from the angles noticed in all other collars.

The crave causes no puckers on the inside of the turn-down collar—they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.

The Gazette Collar has a smooth and evenly finished edge on BOTH SIDES.

These Collars are not simply flat pieces of paper cut in the form of a collar, but are MOLDED AND SHAPED TO FIT THE NECK.

They are made in "Novelty" (or turn-down) style, in every half size from 12 to 17 inches, and in "Eureka" (Gazette), from 13 to 17 inches; and packed in "solid sizes" in neat blue cartons, containing 100 each; also in smaller ones of 10 each, the latter a very handy package for Travellers, Army and Navy Officers.

☞ EVERY COLLAR is stamped
"Gray's Patent Molded Collar."

Sold by all dealers in Men's Furnishing Goods. The Trade supplied by

The Chronicle.

— The old Unitarian Church in San Francisco (Rev. Starr King's first church in California) has been sold to a negro congregation.

— One the rebel torpedoes, picked up by our gunboats in the James River a few days ago, contained, it is said, 1800 pounds of powder.

— The cook of the U. S. transport Ashland made tea in a corroded copper kettle, and in consequence fifteen of the men were removed to the city hospital.

— It is reported that the boiler of the U. S. double-ender gunboat Lenapee burst during the cold-water test at Newburg, where it was built.

— M. Allard, a distinguished painter of Lyons, has been murdered in his studio at Rome by a man who was sitting to him as a model for Judas, in a picture representing Judas giving the kiss to the Savior.

— The changes in the army ration proposed by Prof. Horsford and recommended by the Surgeon General to the Secretary of War, have been referred to Gen. Halleck.

— The San Francisco Bulletin says that "there are men who were poor, and not ashamed of it, within five years, in San Francisco, who now tell, without a blush, that they cannot live on $10,000 a year."

— Charles Dickens gets £12,000 from his English publishers, Chapman and Hall, for "Our Mutual Friend," half the sum to be paid on the day of the appearance of the first number—the remainder on the completion of the story.

— It is stated that the rebel iron-clad North Carolina, which recently came a short distance over the Wilmington bar, leaked so badly that she was run ashore and when the tide fell she broke in twain amidships. Her consort, Raleigh, is nearly completed.

— The King of Italy, appreciating the interest shown by our naval officers in searching for the Italian frigate Re Galantuoma, when in distress, has conferred upon Commander Thomas A. Craven, of the U. S. steam frigate Niagara, the orders of St. Maurice and St. Lazarus.

— Gen. Kilpatrick, in a dispatch to his family says that, although his wounds are slight, they will compel him to give up his command: he is, therefore, on his way home. He was wounded near Summerville, Ga., while leading a cavalry charge in the rear of Johnston's army.

— A woman was killed in Newport, R. I., last week, while walking on the sidewalk, by a heavy carpet, which was thrown from a third-story window. The Coroner's jury rendered an extraordinary verdict, to the effect that they "are deserving of the severest censure who throw so heavy a carpet from so high a window."

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—also legal or other advice rendered in all matters touching the validity or utility of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the chances for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay thereby, are here saved inventors.

TESTIMONIALS

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they can confidently employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeble proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor* by the Commissioner of Patents. R. H. EDDY.

AN UNUSUALLY LARGE STOCK
OF EVERY KIND
—OF—
KITCHEN FURNISHING GOODS,

HALEY, MORSE & BOYDEN'S
SELF-ADJUSTING
CLOTHES WRINGER,
THE BEST IN THE WORLD.

Over 40,000 have been sold by the manufacturer in a little more than two years—nearly 400 of them in Portsmouth and vicinity!
Buy one and try it—if not perfectly satisfactory the money will be refunded.

Facts for the People.
The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.
These stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

French Roll Pans.
A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.
These pans are greatly in demand for baking the New Bread, about which so much stir is being made.
This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of the pans is just what is required for the purpose.
The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.
Every housekeeper should have one.

200 CHILDREN'S CHAISES,
WAGONS, CABS, GIGS,
TOY GIGS AND WAGONS,
of about 20 different styles—prices from $3 to $21 each.
Some of the above are very elegant silver-plated and silk-lined Chaises. The assortment is the largest and best ever offered in this city. A part of the above are already in store and ready for sale—the balance is expected daily.
Call and examine the stock, whether intending to purchase or not.

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!
This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the more valued the more it is tried. This invention is a step in advance of all others in this department, and by means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so recuperative as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.
They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.
The rich will have it because IT IS THE BEST. All other classes will have it on account of it being CHEAPER than any other Bed-Bottom, that a better bed may be had by means of this improvement for six dollars than can be had in understanding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!
These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be consistently and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotes, Ulcers, Abscesses, and all other impurities of the system are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured hundreds in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and most happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. DR. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vaughn's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, MAY 27, 1864.

THE REBELLION.

The expedition is Florida, from Jacksonville, has explored the whole country on the east side of the St. John river for 150 miles. 4000 or 5000 cattle, and two blockade runners with 200 bales of cotton, were captured. A great many loyal Floridians were enabled to escape from the swamps.

By the bombardment of Fort Sumter two casemates were opened and a large portion of the new parapet tumbled into the water. The south portion of the face of Fort Moultrie was also knocked down. Our batteries on Morris Island were somewhat injured by the rebel fire. The attack was still going on at latest dates.

THE VIRGINIA CAMPAIGN.

The Rappahannock river is clear of torpedoes to Fredericksburg, but guerrillas are on the banks watching for a chance to do mischief. Transports can now reach Fredericksburg with army supplies or to convey the wounded north. Several gunboats are at Fredericksburg.

Gen. Grant telegraphed at noon, Tuesday, that everything was going well. A thousand prisoners were taken on Monday.

Gen. Butler reports that Fitz Hugh Lee made an attack, with cavalry, infantry and artillery, on a position held by two negro regiments, below Fort Powhattan, on Tuesday, and was handsomely repulsed. Before the attack he sent a demand for its surrender, promising that the garrison should be turned over to the authorities at Richmond as prisoners of war; if refused, he would not be answerable for the consequences when he took the place. Gen. Wilde took the responsibility, and the negroes fought and repulsed the rebels.

Dispatches from Gen. Grant, Thursday morning, state that the rebels still hold a strong position between the North and South Anna Rivers, where their forces seemed to be concentrated. Gen. Grant will probably require two or three days to develop his plans.

☞ The Kentucky Republican Convention was held at Louisville on Wednesday. Fifty-six counties were represented, and the proceedings were harmonious and enthusiastic. Among the speakers was R. J. Breckinridge. He said he should vote for President Lincoln and nobody else, if made a delegate to Baltimore. He was rapturously applauded, and appointed one of the delegates at large; two from each Congressional district were also appointed.

The Convention passed the following resolution:—

Resolved, That the Union men of Kentucky, in convention assembled, favor the preservation and maintenance of the Union, the supremacy of the Constitution and destruction of the rebellion, without any regard to what these objects may cost.

☞ The flood at Denver City was occasioned by Cherry Creek, which has been dry within and several miles above that city since 1859, suddenly filling with water at midnight on the 19th instant and overflowing its banks.

☞ The Ferry Boy and the Financier, is one of Walker, Wise & Co.'s popular books, for boys, written in an attractive style for youth, and giving sketches of the early life of Hon. Salmon P. Chase, the New Hampshire boy, who loved justice and honesty, and practiced it with patience and industry,—the book, 330 pages, price $1.25, for sale in this city by J. H. Foster.

— *Peter Bashaw*, the last revolutionary soldier in Tennessee, died near Nashville, May 20th, at the great age of 101 years.

— An exchange states that the Danish monarchy is reduced to two islands of the sea, frozen up six months in the year. So she is evidently left out in the cold.

— A counter revolution has broken out in St. Domingo, in the province of Cisbo, among the insurgents. The Spanish flag has been hoisted in several places, and a number of insurgent leaders shot.

— A correspondent states that Gen. Grant remarked, after his recent important movement was accomplished, that he would have risked three battles to gain the advantages he has secured.

— It is said that the evidence already taken by the court martial in the trial of Savage, Schofield, and other naval contractors, discloses an incredible amount of fraud, corruption and bribery, in the furnishing of naval supplies.

— A Washington dispatch states that Messrs. Chandler and Voorhees, Members of Congress, had a fight in the National Hotel on Wednesday. Voorhees is said to have struck Chandler for calling him a copperhead; and one of the former's friends broke a pitcher over the Senator's head.—It might be interesting to know what had been in that pitcher.

The old proverb sez, "giv a beggar a hoss, and he will ride tew the devil." I think I shud be in favor ov tring this experiment, if the devil wud onla return the hoss. —[Josh Billings.

NEW HAMPSHIRE ITEMS.

—— One of the printers in the Manchester Union office had three cousins in the 17th Vermont regiment, brothers. All of them were killed in Butler's recent battles.

—— The oldest native-born person of Concord now living, is said to be the widow James Eastman of the East Village. She is about 96 years of age.

—— At the annual meeting of the Concord Railroad, held at Concord, on Tuesday, the report of the Directors was accepted, and the old Board of Directors unanimously re-elected.

—— There are seven N. H. regiments, (the 2d, 3d, 4th, 7th, 10th, 12th, and 13th) with Gen. Butler, while Gen. Grant has only three, (the 6th, 9th and 11th, forming part of Gen. Burnside's corps.)

—— Mrs. Cross, mother of the late lamented Col. Edward E. Cross of the 5th N. H. Regiment, has recently received a ful pension, dating from the Colonel's decease.

—— Two beautiful paintings by Miss Hawthorne, daughter of the deceased author, are to be raffled for in Concord, having been presented by her for the benefit of our soldiers. The are valued at $110.

—— Mrs. Betsey P. Eastman, of Salisbury, is now in the 103d year of her age. She enjoys good health, and is in full possession of her mental faculties. Her two sons now living are Gilbert Eastman, Esq., of Salisbury, and Hon. Joel Eastman of Conway.

—— William H. Gilmore, agricultral editor of the Manchester Mirror and Journal of Agriculture, has terminated his connection with that paper. Mr. Gilmore has been connected with the press in that city for many years. He proposes to give his whole attention to his farm at Henniker for the present. Mr. Gilmore will be succeeded in the Mirror by Mr. J. E. Pecket of Concord.

—— At a special meeting of the Concord City Council on Monday afternoon, an ordinance was passed, pledging $100,000 for the enlargment of the State House upon the passage of an enabling act by the Legislature. The measure was urged in earnest speeches by John H. George, Richard Bradley, Joseph B. Walker, Moses Humphrey, William E. Chandler, and Samuel Merriam, who were present by invitation.

—— The five surviving sons of the late Deacon B. P. Chase, of Auburn, namely, Moses Chase, of Baltimore, aged 79; Wells Chase, of Baltimore, aged 76; John Chase, of Washington, aged 71; Benjamin Chase, of Auburn, aged 65; and Pike Chase, of Auburn, aged 60; met recently at the house of Wells Chase. They had not all been together before for 54 years. There was also present Freeman, the son of the late Prof. Stephen Chase, a younger brother, deceased. There are residing in Auburn, two daughters aged 67 and 63, who were not present.

—— A letter from Dr. Locke of Nashua, now on a visit of observation and assistance to the army, gives the following testimony to the conduct of N. H. soldiers:

"Of the 900 men who came in with legs and arms bandaged, and when stopped and examined, were found not to have so much as a "scratch" upon them, not one is known to have been a son of New Hampshire. One thing I know, that after the retreat of our army from the battle of Bull Run, and in Washington the next day, among the large number whom I saw straggling in without arms, not one them had the "N. H. V." on his cap."

☞ Adjutant General Holsdon is collecting the likenesses of officers of Maine organizations, for an Illustrated Roster.—The pictures are preserved in mammoth albums, each page containing twelve cartes de visite. He has hundreds already of these photographs, and is endeavoring to obtain those of every other person who is, or ever has been an officer in any Maine organization during the rebellion. Friends of deceased officers are solicited to forward pictures of them for preservation in this collection. It will be a very interesting and valuable assortment when completed, and will grow more and more so as time advances.

☞ In 1860 there were 300 inhabitants in the town of Hanover, Oxford county, Maine. Of this number thirty have gone to the war, and since the 15th of last September, twenty-six have died. In one school district over half of the scholars have died of diptheria. In one family but one child is left, the parents and two children having died; in another, five children have been taken out of six. But three births have occurred in the town for two years. About one-tenth of the population has died in the short space of seven months.

☞ The "Wilderness," in which the first battle of the present campaign was fought, embraces fifteen miles of timber land, thickly studded with under growth, making it at some points utterly impassable. During the battles our men were often unable to see any object twenty-five feet distant from them. It is from twelve to fifteen miles from Fredericksburg.

CHIPS—HEWN AND GATHERED.

— A cent coined in 1792, sold at auction in New York on Monday for $480.

— Coffee in roasting loses about 16 per cent. in weight.

— The Continental Monthly, for June, contains an attractive series of articles.

— Fifteen hundred tons of tacks are turned out yearly by a firm in Taunton, Mass.

— The Danish Government has officially announced the raising of the blockade of the German ports.

— A female operative in a paper-mill at Westfield, Ct., recently found $90 in a bundle of old paper which she was sorting over.

— Prof. Morse, the telegraph inventor, has had six orders of knighthood conferred on him by the various sovereigns in Europe.

— An office for local and general telegraph business has been opened by the American Company in the Ladies' Room at the Eastern Railroad depot, Boston.

— An organ called "Enharmonic," has been constructed and exhibited in England by Gen. Thompson, which has forty distinct tones in each octave.

—Adj. Gen. Hodsdon, of Maine, is a model. His annual reports are unsurpassed in the country for completeness, accuracy and interest.

— One of Gen. Lee's orderlies has been captured with dispatches to Ewell from Lee ordering him to fall back to the defences of Richmond.

— The New York, Ohio and Illinois Union Conventions have pronounced in favor of the re nomination of President Lincoln.

— The rebel Gen. Gordon, of North Carolina, has died of wounds received in a fight with Gen. Sheridan's cavalry, near Richmond.

— The statement that the boiler of the double-ender gunboat Lenapee burst while undergoing the cold water test at Newburgh, is authoritatively denied.

— Gen. Isaac Hodsdon died in Corinth, Me., on Tuesday, aged 82 years and 5 months. He was born in Berwick, and has held many civil and military offices.

— When the Boston Court House was first built, a writer on architecture, in the North American Review, compared it to a sheet of gingerbread set up edgewise.

— A living fish about nine inches long, apparently of the herring species, was rejected by one of the hydrants in New Orleans about a fortnight since.

— Gen. Custar's division cut the railroad twelve miles below Hanover Junction on the 21st, burning two bridges and tearing up a mile of the railroad.

— Skirmishes with the guerrillas have occurred daily at different points about Fredericksburg ever since our army commenced its forward movement.

— Up to Wednesday about 1000 commissioned officers of all grades, wounded in the late battles, had been reported at the Medical Director's office.

— The New York State Convention of War Democrats, held at Syracuse, on Wednesday, appointed a committee to prepare an address to the War Democracy.

— A remarkably fine salmon of nearly thirteen pounds weight has been caught in the Thames, whereat the Londoners are jolly, as it proves that the water is fit for a fish to live in.

— John W. Andrews, the New York rioter, has been sentenced to hard labor for three years at Sing Sing Prison. He ought to have been hanged three times, with all such traitors.

— The court martials upon Surgeon-General Hammond resulted in his conviction of fraudulently and unlawfully purchasing medicine and hospital supplies, and of falsehood.

— A large portion of the staple products of American agriculture were introduced after the close of the sixteeh century; but we have sent back to the Old World, the potato, maize, the tomato, and tobacco.

— Artemas Ward is not only writing a book of travels, but is also busily engaged in preparing a pictorial entertainment on the Mormons. With Artemas as the showman and illustrator, it will probably be a big thing.

— Ship Walsoken, at Liverpool, reports, April 4, ten miles from Cuba, was boarded by a screw war steamer representing herself to be the Plover. She examined the Walsoken's papers and left. It is supposed that she was a rebel steamer.

— Secretary Chase, in reply to a bank officer, reiterates the Government purposes in relation to the payment of interest and principal of various loans and bonds, defining anew those payable in greenbacks and the preferred ones, which are to be paid in coin. No change is to be made in former and existing regulations in regard to either.

— M. de Lamartine is said to have realized $8,000 last year from one of the lotteries established for his relief. Another is projected, and its tickets, which cost only five sous, are in every tobacco and stationery window; when it is drawn, he will receive $120,000. The latest report concerning him is that he is about to saddle a Russian princess with his debts.

CABINET ORGANS,

Combining the requisites for Sacred and Secular, Church and Parlor Music; for Families, Sunday Schools, Day Schools, Churches, &c.

They are elegant as pieces of furniture; occupy little space; are not liable to get out of order or out of tune; are warranted for five years; will improve in tone by age, and are moderate in cost

They are to private houses, Sunday schools and smaller churches, what the larger pipe organs are to large churches, and in addition to this are adapted to secular as well as sacred music.

The Cabinet Organ is essentially different from, and a marked improvement upon, all instruments of the melodeon or harmonium kind. Its superiority consists in many important characteristics.

The undersigned, Agent for the Manufacturers, will be pleased to show the Cabinet Organs to all wishing to purchase, at his residence, NO. 30 HANOVER STREET.

Local.

GOOD FOR PORTSMOUTH.—Among the generous contributions to the fund for the sick and wounded in the late battles, those from Portsmouth, N. H.,—a city which is neither large nor rich comparatively, except in the hearts and feelings of its people—may be mentioned for the information of the many residents of the old town who are spread over the country. From the Baptist Church, $242.25; Methodist, $200; Old North, $350, besides $102 contributed separately by a member; Morning Prayer Meeting, $102.50; Universalist, $200—taken by Mr. Patterson the pastor to the South; Citizens—mainly composed of the Unitarian and Episcopalian societies, $1254, making $2450.75. Besides this; four shops at the Navy Yard contributed $880.50, viz: joiners, $283.25; caulkers, $124; Sparmakers, $67.25 smiths, $256. Total for city and yard, $3131.25; exclusive of contributions made in different ways. The "Sons of Portsmouth" have reason to be proud of their home brothers and sisters.—*Boston Transcript.*

We also take great pleasure in giving to our readers and the public, the following very touching note from the wife of a prominent and devoted christian citizen, who is and has always been ready and earnest to "do what he could" for his country.

Ed. Chronicle—I promised Mr. Patterson to acknowledge the contributions which were entrusted to him for the benefit of our wounded soldiers, but found that in the hurried preparations for departure he had failed to leave me the items. Fearing I might not remember or know of all, I had thought to wait until I could receive minutes of the same from my husband; but the Transcript's complimentary notice of the generosity of our people (of which the half has not been told) determined me to say what I know of the stream of their munificence flowing in this single channel—to heal and bless our suffering braves.

The Navy Yard made Mr. P. the bearer of fifteen hundred dollars; a gentleman and lady, each one hundred. There was one gift of fifty dollars, one of twenty five, two of twenty each, one of fifteen, and several of five, three, two and one.

Some of the smaller contributions were from children, who are early learning the value of liberty and helping to pay its price.

The little girls of Miss Brown's school contributed a sum which had been earned by their infant fingers for this holy purpose. I wish I had their teacher's note which accompanied the gift, that I might tell you the exact sum, but the minister took the touching missive with him, and will doubtless read it by the cots of our suffering boys, that they may know how even the children work and pray for them and the dear land whose honor they so nobly vindicate.

May 24, 1864. J. L. P.

☞ One of the most beautiful and picturesque rambles in our vicinity is that up along Piscataqua river, to the old bridge, of which the stone abutments are all that now remain. You get fine views through the openings, as you pass, of the river and Mount Agamenticus, and Eliot, and other scenery in Maine; and higher up, the singular island pyramid of sand which rises from the river's midst, and which somebody long ago named Frank's Fort; the widening of the river and its branching at Dover Point, where site, the neat hotel; and farther on, after you leave the regular travelled road, the rich full view of the Great and Little Bays, with their islands and various tributary streams, and darkly wooded banks, and the fine farms beyond, and the numerous ranges of hills rising higher and higher in the distance—all, all is charming.

The old hotel which formerly sat on the Dover or Durham shore, and was foolishly burned not long since by a party of wanton boys from Portsmouth, is not less a loss to the scene than to the pockets of its owners. And they probably lost several hundred dollars by the idle deed, so we are told—and then, where can you now find so good a spot for picnic suppers, on that shore? Alas for the picturesqueness of that old hulk! we could have better spared many a better house! P.

☞ An item in our Police Report on Tuesday, that "Francis Bacon, for being drunk in the streets, was fined $3 and costs, and committed," has afforded some of the jokers a good opportunity to commiserate our friend Francis Bacon, Esq., the estimable and gentlemanly Clerk of the Navy Yard, on his sad fate. We know not the poor sot referred to—but to any who ever met his honorable namesake, it is entirely unnecessary to say there are two of the same name—and that this is one of the cases in which a man bearing like name with another might innocently suffer in consequence.

"BEAT THIS WHO CAN".—A very handsome yoke of 3 years old steers, grade Devon we should say, were exhibited on Market Square, Thursday. They were raised by Mr. Augustus Hanscom of Eliot, and purchased for the provision market of J. Holmes & Son. Their live weight was stated at 3500 pounds.

☞ Brown & Pike's Dramatic Company present a very popular play at the Temple to-night, with a strong cast. This combination troupe has given good satisfaction during their present visit here, as also on previous occasions, and they are worthy a visit from all who enjoy such entertainments. To-night will be their last appearance but one, as they open in Newburyport next week.

☞ It will be noticed that the Corn and Flour dealers of this city, advertise their terms to be cash strictly from this date.—The entire trade of the country, of all sorts, is fast coming to this wise arrangement—and we are glad of it, for we never could see who was benefitted by long-winded credit, except those who never could or would pay at all; and the larger and longer the credit of the community, the more there will always be of both these kinds of people.

☞ Corp. Thomas Entwistle, Co. D, 3d N. H. regiment, of this city, is reported missing.

John Perkins, of the 2d regiment, of this city, has lost his right arm in one of the recent battles of Gen. Butler's troops.

Mr. Wm. D. Parsons, son of Samuel Parsons, formerly of this city, a private in the 23d Massachusetts regiment, was captured by the rebels at the time Gen. Heckman's brigade suffered so severely.

☞ Our Street Commissioner might find employment for the city teams and drivers for a day or two, that would prove very gratifying and advantageous to all citizens who have occasion to drive teams of any kind through our streets,—in gathering up and carting away the small stones, and those not so small, which are scattered through many of our principal streets, as plentifully as "leaves in Vallombrosa."—Market Square, Pleasant street, and Congress street, even as far down as the Franklin House, might afford a fine opportunity to a few laboring men to put "rocks in their pockets," if they could only secure the job of removing the loose stones in those streets. At present horses are not only in imminent danger of falling down, but occasionally actually do so, by stepping upon them. Away with them!

☞ The steam-buggy attached to the Circus cut round our streets in good style on Thursday—and the last we could see of it from our window, drove in behind the market to water the iron horse; for this steed must drink even oftener than those of softer muscle, thicker wind and less bottom. It seems a little singular that this novelty should be introduced by horsemen: but we wonder how long before fast men generally will keep a locomotive to travel with? Who knows? and what will be the use of your trotters then?

OLD ABE'S LAST.—The latest illustrative story by Old Abe is thus related. Its moral will be appreciated by patriotic men:

"A gentleman just returned from Washington relates the following incident that transpired at the White House the other day. Some gentlemen were present from the West, excited and troubled about the commissions or omissions of the Administration. The President heard them patiently, and then replied: 'Gentlemen, suppose all the property you are worth was in gold and you put it in the hands of Blondin to carry across the Niagara River on a rope, would you shake the cable, or keep shouting out to him—Blondin stand up a little straighter—Blondin stoop a little more—go a little faster—lean a little more to the North—lean a little more to the South?—No you would hold your breath as well as your tongue, and keep your hands off until he was safe over. The Government are carrying an immense weight. Untold treasures are in their hands. They are doing the very best they can. Don't badger them. Keep silence and we'll get you safe across.' This simple illustration answered the complaints of half an hour, and not only silenced but charmed the audience."

☞ The N. Y. Tribune states that the Agent of the Overland Mail route, discouraged by the opposition in the House to the Senate's appropriation to maintain this expensive and dangerous line, has declared his purpose to abandon it, and has sent orders to his agents in the West to collect the stock in California and sell it.

☞ The three-years-old Lexington colt Norfolk, belonging to R. A. Alexander, of Kentucky, which won the race at St. Louis, on the 16th inst., over five competitors, has been sold to Mr. Whitney, of California, for fifteen thousand and one dollars. The seller exacted the odd dollar, so that he could say he sold Norfolk for more than he paid for Lexington.

—Hon. H. B. Allis, Speaker of the Arkansas House of Assembly, has been expelled by a vote of 32 to 13, because he refused to sign the certificate of Mr. Fishback as U. S. Senator.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y.
formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and candid to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are **invited to use Constitution Life Syrup.**

During the past five years we have contended with obstacles and overcome opposition as fierce as ever encountered by any Reformers.

Regularity or Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the "slow recuperative process." This is our reply: Health is

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effect called disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP.

A positive and specific remedy for all diseases originating from an IMPURE or DEBILITATED BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Parahsis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Strumo, Glandular Swellings, Ulcerous, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis, Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is to be relied on, it is in rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings reduced, and the patient, either crippled or victimized by 20 or 30 years standing, have been cured by us.

Nervousness

Nervous Debility, Confusion of Thought, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Intensely to weak, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Nodes in the Bones, Venereal Spots.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Emaciated Limbs which the Mercury in Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharges. Some of these disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Scrofulous Diseases of the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, gradually accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Female Weakness, Weak Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is extensively chronic and strongly rooted. It will be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the barbarous operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart, Palpitation, Diseases of Valves producing a grating or filing sound), Dropsy of the Heart Case and all the affections of this important organ, which generally terminate in acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indigestion to Exercise, Pain in the Back, Loss of Memory, Sick Headache, Want of Vitality, Fear of Disease, Dimness of Vision, Dry Hot Skin and Extremities, Want of Sleep, Restlessness, Pale Emaciated Countenance and Languishing Inactivity, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Venereal Diseases,** either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.

MOTH PATCHES upon the female face, depending upon a Uterine Disease, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the uterine disease, and remove the deposit which is directly under the skin.

In Diseases of the **Liver,** giving rise to languor, dizziness, pain in the side, weak stomach, liver inflamed or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid complexions, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay by trifling means, disease is so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES

It is the safest and most effectual medicine ever discovered, purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases the quantity of the food—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Inflammation of the Bladder, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Whites (Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose usually being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Flour Albus or Whites. Its effects are the healing, soothing and *demulcent;* removing all scalding, heat, chordlee and pain, instead of the burning and almost unendurable pain they experienced with nearly all the *cheap quack Injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $3 per bottle, or three bottles for $8.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES.

CHEROKEE
CURE.

A refreshing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the dreadful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain a store over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medicine, we would say, *Despair not;* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out nostrums.

This medicine has been tested by the most eminent medical men of the day, and by them proved worthy to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.
A few doses cure Hysteria in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and vigor of youth.
A few doses restore the appetite.
Three bottles cure the worst case of Impotency.
A few doses cure the low spirited.
One bottle restores mental power.
A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the prematurely-aged, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression and general suffering from debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

CHEROKEE PILLS!
SUGAR-COATED.
FEMALE REGULATOR.
Health Preserver!!
CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity to the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Heariness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months,* during which the unfailing nature of their action would infallibly prove disastrous.

All letters seeking information or advice will be promptly, freely and discreetly answered.

Full directions accompany each box.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of the valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe and chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe off line on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—

gentlemen, who have then now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

GOLDEN SHEAF
WHISKEY.
C. A. RICHARDS,
99 WASHINGTON STREET,
Boston,
Would most respectfully invite the attention and examination of all Grocers, Druggists, Apothecaries and Private Individuals, desiring to sell or USE STRICTLY PURE

Liquors, Wines, Cordials or Bitters,
to the list of choice goods enumerated below, which are constantly on hand in large quantities in his Large and Spacious
Wine Store and Bottling Establishment,
99 Washington street, Boston.
First on the list, as a reliable pure stimulant, stands the celebrated and widely known

Golden Sheaf Bourbon Whiskey,
made from Wheat, Rye and Corn, warranted for five years old. Put up in unique style, each bottle in a paper box, in cases of one dozen each, the large and increasing sales of which convince the proprietor that no extended advertisement is needed to extol its real merits. It will recommend itself on trial.

Golden Sheaf Cordial.
A delightful and healthful beverage, aromatic, with a rich ginger cordial, made from the pure Golden Sheaf Bourbon.

Golden Sheaf Bitters.
The best Tonic Bitter ever offered to the public. Mingled with the rich flavor of the Bourbon are a number of other ingredients for restoring the appetite and imparting life and vigor to the whole system

Golden Sheaf Punch.
Made from fresh, ripe lemons, and other articles, combined in a whole into a fine rich
Bourbon Whiskey Punch.
All the above put up full strength of the whiskey, and in bottles of one dozen each. These articles *improve* by age, and no exposure of climate can affect them

JOHN AND ROBERT DUNSTER'S
CELEBRATED
LONDON DOCK
SPIRITS AND WINES,
Imported solely by C. A. R., in wood, from the London Docks, and bottled by him in America. The distinguished and world-wide reputation of these articles has induced the subscriber to seek and obtain the Sole Agency in this country.—They are sold only by the Agent, *genuine and without adulteration,* and comprise the four kinds, as follows:
LONDON DOCK GIN,
LONDON DOCK BRANDY,
LONDON DOCK SHERRY,
LONDON DOCK PORT.
All in cases of one dozen each, in strong shipping order for immediate transportation, and are sold lower than any other liquors and wines in the market, of equal quality.

Pure California Wines.
The large demand for the pure wines of California has made it a matter of interest that the selected stock of Wines is complete without them. C. A. R. has made arrangements for the entire production of
The Largest Vineyard in California!
and is now bottling, and offers for sale, the finest CALIFORNIA WINES ever seen in this MARKET, of four qualities, in splendid style of labels, bottles and cases—such as
ANGELICA—Sweet.
PORT—Rich.
HOCK—Dry.
STILL CHAMPAGNE—Delicious.
Parties attracted by this advertisement, or who have already become acquainted with the qualities of these articles, can have a price list sent by mail, or samples by express, when desired, by addressing the subscriber.
C. A. RICHARDS,
99 Washington street, - - - Boston.
NOTE.—C. A. Richards would also beg leave to state that the above are only a part of the list of articles for sale and imported by him. He has, in addition, one of the largest stocks in America of Fine Bottled Wines and Spirits, of every variety and kind, together with a fine assortment of Liquors and Wines in original packages, for sale by the cask or gallon. Also, Fine Cigars, Sardines, Pickles, Sauces, and every kind of table luxury usually found in a first class wine store in this country or in Europe.
Orders are most respectfully solicited.

The Chronicle.

It has often been maintained that the Constitution of the United States sanctioned chattel slavery. A convenient interpretation of doubtful clauses when the sentiment of the whole country was in favor of slavery, has fixed this fallacy in many minds, but this delusion is fast passing away, and when it has ceased to be a political power we shall not be troubled with its constitutionality. It is not the Constitution, but *their* constituents that trouble members of Congress. The foundation of our Government is the Declaration of Independence, which says, All men are born free and equal, entitled to Life, Liberty and the pursuit of happiness. This declaration is the *corner stone* of our political fabric, and if any part of the Constitution is of doubtful interpretation we must *square* it by *that*. So the fundamental truth of Christianity is: Thou shalt love thy neighbor as thyself.—Shall we give up our government and our Christianity to support and perpetuate crime? *Commonwealth.*

☞ The Richmond Examiner says Gen. Seymour, who was captured during the battles of the Wilderness, made a speech at Charlottesville, Va., to a throng of people who had gathered to see the Federal prisoners. It was to this effect:

"Gen. Lee may possibly defeat Gen. Grant and the Federal army; but what of that? I trust that if he defeat him he may follow up his success by taking Washington and burning it to the ground. And let him not stop there; let him capture and burn Baltimore, then advance on Philadelphia and burn that: then at last, we shall have a united North, and shall begin to show you what war is."

☞ The Chicago Tribune says that Howard, the author of the infamous Proclamation hoax, is also the parent of the falsehood that President Lincoln was hurried through Baltimore, and down into history, in "a Scotch cap and military cloak." Howard openly sat in a telegraph office, the editor says, and made choice of this costume for his report.

A man named Aaron Bedbug, of Montgomery Co., Pa., intends petitioning the Legislature to change his name. He says that his sweetheart, whose name is Olive, is unwilling that he should be called A Bedbug; herself O Bedbug, and the little ones Little Bedbugs.

THE IMMENSE POPULARITY OF THE
California Wines
Introduced by us, is a flattering tribute to their purity and delicacy, and a cheering indication of a desire among the people to encourage
American Industry.
The Surgeon General of the United States, after an analysis of our Wines, reports them to be PURE.
Dr. Charles T. Jackson, State Assayer, who is the most undoubted authority, after an analysis of our Port Wine, says:—"The fluid ounce leaves fifty-four grains of solid matter, consisting WHOLLY of the fixed principles of grapes. I find no adulterating ingredients, and consider it suitable for medicinal and general use."
The Boston Traveller says:—"The California White or Hock Wine rivals in flavor the best of Hock Wines, and costs much less."
The Saturday Evening Gazette says:—"The White Wine is equal to the Stein or light wines which we import, with a fine and rich flavor, and we believe its purity unquestionable."
Hon. John G. Downey, late Governor of California, says:—"I most cheerfully recommend your Wines to all who desire a pure juice of the grape."
The New York Commercial Advertiser says:—"The wines have a fine flavor, and need only to be tasted to be approved."
The Boston Transcript says:—"The White Wine is equal to the best Hock."
The New York Tribune says:—"The 'Angelica' has a rich and delicious flavor, unsurpassed by any Wines in the market."

Facts for the People.
The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as is capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

French Roll Pans.
A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.
These pans are greatly in demand for baking the New Bread, about which so much ado is being made.
This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.
The Roll Pans are very useful also for baking corn cake, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.
Every housekeeper should have one.

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!
This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the more valued the more it is tried. This invention is a step in advance of all others in this department, the means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so recuperative as to bring itself into its place with great facility. It is adapted to the nervous, the aged, and all who linger in suffering and weakness.
They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.
The rich will have it because IT IS THE BEST. All other classes will have it on account of being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in under-bedding for thirty-six dollars, making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!
These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Boils, Gleets, &c., &c., and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed their vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are noticed that in consulting Dr. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of the terrible disease.
DR. TELLER'S GREAT WORK,
A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. This single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. Teller still remains the only Agency in America, for the sale of Dr. Nichols' Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unsurpassed, and in the advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
Caution.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the direction of patients. On receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

Portsmouth, N. H.

SATURDAY, MAY 28, 1864.

THE REBELLION.

Gen. Canby reports that Gen. Banks' troops were crossing the Mississippi, May 21. Gen. H. A. Smith had a spirited engagement with Polinais' rebel division on the 18th, defeating it and driving it several miles, capturing 300 prisoners.

Gen. Banks with a portion of his army arrived at New Orleans, May 21.

Gen. Sherman is reported to have flanked Johnston's position at Altoona, Ga., on the west, taking the road to Dallas and Paulding. It is said to be stronger than Atlanta. Johnston shuns a fight.

THE VIRGINIA CAMPAIGN.

Gen. Grant's army is gradually working its way toward the South Anna River, but Lee contests every step. We took 1000 prisoners on Tuesday, and there was considerable sharp skirmishing during the night. We hold the Virginia Central railroad west of Saxton's Junction. Portions of the troops in the forts near Washington have been sent to the front.

Fitz Hugh Lee's attack on our garrison at Wilson's Landing, May 24th, was made with great severity, but his troops were finally repulsed in great disorder, reinforcements having gone from Fort Powhattan and a gunboat joining in the fight. Gen. Butler states that, from the accounts of every officer, the negro troops fought splendidly.

The rebels had been repulsed in all attacks on Gen. Butler up to Wednesday. The Gatwell gun, which throws 200 shots per minute, tells with terrible effect on them.

☞ Tompkins & Co. of Boston have published Patriotism and other papers by Thos. Starr King," in a very neat volume of 359 pages 12mo. which is for sale by J. H. Foster in Portsmouth, at $1.50. The volume contains 16 distinct papers, all of them valuable, and most of them published by the deceased Mr. Tompkins, who was one of the early friends of Starr King, and with Dr. Ballou to whom he was a benefactor, aided materially in bringing the youthful writer favorably before the public.

CHIPS—HEWN AND GATHERED.

— Does it *always* rain Anniversary week?

—The Tioga County Bank, N. Y., was robbed of $20,000 on Wednesday night.

— The Pope has sent a check for $500 to a Soldiers' Aid Society in Buffalo.

— "A blue horse" is one of the curiosities in London, just now.

— Another mutiny of the rebel garrison in Fort Morgan near Mobile, is reported.

— Dying for love now-a-days is said to be confined to the whiskers.

— A bride at a Paris wedding the other day wore a veil worth £4000.

— There were 5255 children born in Boston last year. 1862 beat it by just three.

— Notshore says he can't bear to go to our Temple, the audiences are so sad,—they are always in tiers.

— There are said to be a million Jews in China. They speak the original tongue, and have documents of great antiquity.

— The Taunton Gazette mentions a boy apparently not over six years old, seen walking in a street in that city, with his mother, and puffing away at a cigar.

— A bust of Rev. T. Starr King has arrived in Boston from San Francisco, where it was cut. It is to be presented to Tufts College.

— The leader of the Spaniards against the revolted St. Domingans is Gen. Gander. His prayer is that they may not "fire at the goose and hit the Gander."

— The public securities of Canada, which five years ago were sixteen per cent. premium, to-day are worth only ninety, and things are in a bad way generally.

— Prisoners report that the rebel Gen. Evans was severely wounded in the engagement on the 20th, when Gen. Walker was captured.

— The new cents have made their appearance. They are made almost entirely of copper, and they are thinner and much lighter than the nickel cents.

— A. J. Butler, brother, to Gen. B. F. Butler, left an estate valued at two millions of dollars, of which one half is bequeathed to the Major General.

— A Savannah paper has a dispatch stating that the blockade steamer off Apalachicola has been captured by rebel launches, with all on board.

— Gen. Grant is reported to have telegraphed his brother to go on and enter Richmond with him, having promised to notify him in case there was a good prospect of his been able to do so.

"How are you, John? I'm denced glad to see you." "Very well, Charley. Come and take a drink, old fellow. 'Tain't often we meet." "That's a fact, John—and when we do it's *meet and drink*."

OUR N. Y. CORRESPONDENT OUT WEST.

HOMEWARD BOUND, May, 1864.

Dear Chronicle:—

After writing you at Cincinnati, I crossed by a very dilapidated ferryboat the Ohio river into Covington, Kentucky, a good sized town, but old and rusty. * * *

They are to have a Suspension Bridge across the Ohio at last. The project was commenced seven years since, but abandoned till this year. The stone abutments on each bank are nearly finished, and the bridge will swing between,—a distance of 1000 feet. The cost will be in the neighborhood of $800,000.

From Cincinnati to Columbus, through the Miami Valley, the traveller finds some of the most beautiful scenery of the West. The rail track runs along the Ohio river to the Little Miami, and then up the latter to Xenia. * * * *

Car riding suits me. If it was necessary for me to be transformed, I think I should prefer to be a steam engine. I feel something of an affinity with its swift, irresistible speed, unslacking up hill or down, over gully or plain,—its unswerving, ever-onward rushing toward a fixed goal—knowing no other limit or stay.

Besides, there is *life* in a railroad car, if one is only willing to see and be interested by it. If a baby cries, its parent jumps it up before the window, through which the sight of the houses, trees and fences, rushing indiscriminately past, frightens the cry all out of it, as if babies hadn't a right to cry in a railroad car, or rather, as if any car was complete without its one, or two, or half-dozen crying babies. And then the stations always happen along, (or if not the stations, the conductor,) just as you drop off into a comfortable snooze, or get interested in the best part of your book, and if you have a taste for the beautiful, you must leave both, and drink in the attractions of a fence marked, S.-T.-1860—X., a dilapidated coach, and a depot on whose sides all the village flirtations for the past ten years are grotesquely carved in pen-knife initials.

We made the trip from Albany to New York in the new and magnificent steamer "St. John," and were also among the passengers the night she steamed to Albany in six hours and forty minutes, the fastest time ever made on the Hudson. One novel feature in her construction is the absence of the intermediate deck, both before and abaft the engines, the cabin being open from the main deck to the upper, the latter being supported by light iron columns.—There is the usual arrangement of staterooms on the second deck, but all round in front of these is a promenade, about six feet wide, with a rail, and over the rail you look into the elegantly furnished saloon below, very much as one does from the dress-circle in a theatre. The St. John has three hundred state-rooms, and every convenience which modern ingenuity has devised, and is probably the finest steamer afloat. She makes the trip from New York to Albany every other day, returning on the alternate days.

N.

(From our Regular Correspondent.)

NEW YORK, May 24.

Dear Chronicle:

Since the day on which Mrs. Cunningham toddled the bogus baby before the public after the Burdell Murder, nothing of the imposition order has created so much excitement or attracted so much attention as the Bogus Proclamation, which found its way into two of our daily journals last week. Public opinion is considerably divided as to the affair, but inclined to deprecate the measures adopted.

Personally I am inclined to the belief that had the two papers victimized, been possessed of a more kindly disposition toward the Government, it would have stimulated a care in their inspection which would have led to the detection of the invalidity of the document.

It is true, however, that the proclamation was in type in every morning journal office of the city, except two. The Times detected its invalidity before setting up the type; and at the Tribune, it was left by the boy messenger at the wrong department, and lay unopened on the counter till morning. This may be fairly considered as a kindly disposition of Providence in the wrong direction. The Herald printed over 20,000 copies, and a few were circulated before the genuineness of the document was denied.

It is a curious, though not remarkable, (because merely a "mutual protection,") circumstance that every publication of the city disapproves, in terms more or less positive, according to its *blood*, of the suppression of the World and Journal of Commerce.

Memoranda which I have made:

The affair seems likely to assume a new phrase, from the rumored intent of Gov. Seymour to indict those engaged in the suppression for trespass. Such a course would be universally considered highly censurable.

The air scents of another riot. The June rapine of 1863 is in rehearsal for its second performance. Will it come?

Exchange runs high, but commercial circles are unusually quiet. Trade is seriously affected by the army movements—merchants purchasing reluctantly for even absolute wants. No call is made for cotton goods, though the raw material is higher than ever before, 92c a 95c being the quotations for to-day, $1 for choice lots.

The Sanitary Fair realized $1,200,000.

In Chicago your correspondent noted, riding in a stage built at Concord, N. H., Abbott, Maker, I think; and in the largest book establishment in Cincinnati, Head's "Home Pastimes," and "Jewels," which assert plainly that merit down your way isn't hid under a bushel, unless it be one several hundred miles in diameter. N.

NOTES OF FORMER DAYS.

Collected and Collated — By UNCLE TOBY.

Scheme to take Canada in 1745.

Whilst the expedition to Cape Breton was in hand, the active mind of Governor Shirley contemplated nothing less than the conquest of all the French dominions in America: and he consulted with Governor Wentworth and Mr. Atkinson on the practicability of such a design. After Louisburg was taken, he made a visit thither, and held a consultation with Sir Peter Warren and Sir William Pepperell; and from that place wrote pressingly to the British ministry on the subject. His solicitations, enforced by the brilliant success at Louisburg, and the apparent danger in which Nova Scotia and the new conquest were involved, had such an effect, that the spring following, a circular letter was sent from the Duke of Newcastle, secretary of state, to all the governors of the American colonies, as far southward as Virginia; requiring them to raise as many men as they could spare, and form them into companies of one hundred; to be ready to unite and act according to the orders which they should afterwards receive. The plan was, that a squadron of ships of war, and a body of land forces, should be sent from England against Canada; that the troops raised in New England should join the British fleet and army at Louisburg, and proceed up the river St. Lawrence; that those of New York and the other provinces at the southward, should be collected at Albany, and march against Crown Point and Montreal. The management of this expedition was committed to Sir John St. Clair, in conjunction with Sir Peter Warren and governor Shirley. St. Clair did not come to America. Warren and Shirley gave the orders, while Warren was here; and afterward commodore Knowles, who succeeded him, was joined with Shirley; but as Knowles was part of the time at Louisburg, most of the concern devolved on Shirley alone.

Beside the danger of losing Nova Scotia and Cape Breton, there were other reasons for undertaking this expedition. The Indians, instigated by the governor of Canada, were ravaging the frontiers, destroying the fields and cattle, burning houses and mills, killing and carrying away the inhabitants. Though scouts and garrisons were maintained by the governments; yet to act altogether on the defensive, was thought to be not only an ineffectual, but a disgraceful mode of carrying on the war; especially after the success which had attended the arms of the colonists in their attempt against Louisburg. The continuance of such a mode of defence, would neither dispirit the enemy, nor secure the frontiers from their depredations.

The design was pleasing, and the colonies readily furnished their quotas of men. In New Hampshire the same difficulty occurred as on occasion of the Louisburg expedition. The governor had no authority to consent to the emission of bills of credit, but Shirley removed that obstacle, by suggesting to him, that as the ministry did not disapprove what he had done before, so there was no reason to fear it now; and that the importance of the service, and the necessity of the case, would justify his conduct. The demand at first, was for levy money and victualing. The arms and pay of the troops were to be furnished by the crown; but it was afterward found necessary that the several governments should provide clothing, transports and stores, and depend on a reimbursement from the British parliament.

The assembly was immediately convened, and voted an encouragement for enlisting a thousand men, or more, if they could be raised; with a bounty of thirty pounds currency, and a blanket to each man, besides keeping two armed vessels in pay. Colonel Atkinson was appointed to the command of the troops. Eight hundred men were enlisted and ready for embarkation by the beginning of July. Transports and provisions were prepared, and the men waited, impatiently, all summer for employment. Neither the general, or any orders arrived from England; the fleet, which was said to be destined for the expedition, sailed seven times from Spithead, and as often returned. Two regiments, only, were sent from Gibraltar, to Louisburg, to relieve the New England men, who had garrisoned it since the conquest. It is much easier to write the history of an active campaign, than to trace the causes of inaction and disappointment; and it is in vain to supply the place of facts by conjecture.

— A foot race recently took place in England, in which the winner run a mile in the extraordinary time of four minutes, twenty and a half seconds, being the fastest time ever made in running that distance.

☞ Admiral Porter has forwarded to the Navy Department a graphic and highly interesting account of the release of his fleet from its dangerous position above the falls at Alexandria.

He says there seems to have been an especial Providence looking out for us in providing a man equal to the emergency. The proposition of Lieut. Col. Bailey of building a series of dams for that purpose looked like madness and the best engineers ridiculed it. Leaving out his abilities as an engineer and the credit he has conferred on the country in his wonderful works, he has saved the Union a valuable fleet worth nearly two millions.

The Admiral also states that he is much indebted to Gen. Banks personally for the hearty manner in which he forwarded the enterprise, and says he does not believe that there was a case where such difficulties were overcome in so short a space of time and without any preparation.

CABINET ORGANS,

Combining the requisites for Sacred and Secular, Church and Parlor Music; for Families, Sunday Schools, Day Schools, Churches, &c.

They are elegant in pieces of furniture; occupy little space; are not liable to get out of order or out of tune; are warranted for five years; will improve in tone by age, and are moderate in cost.

They are to private houses, Sunday schools and smaller churches, what the larger pipe organs are to large churches, and in addition to this are adapted to secular as well as sacred music.

The Cabinet Organ is essentially different from, and a marked improvement upon, all instruments of the melodeon or harmonium kind. Its superiority consists in many important characteristics.

The undersigned, Agent for the Manufacturers, will be pleased to show the Cabinet Organs to all wishing to purchase, at his residence, NO. 30 HANOVER STREET.

Local.

☞ A traveller out West asked a stuttering backwoodsman, at a fork in the road, which path he should take; and was answered that if he took the right hand, he would think he was on the road to the devil, before he got to town; and if he went to the left, he would wish he had taken t'other road! Well, something of that sort is the road to Cutts' Island, from Kittery Point, for a couple of miles or so after leaving the public highway.

But the drive from the time of leaving the city, till the broad ocean view opens on you at the Island, is among most agreeable scenery—land and water views beautifully commingled. The river, above and below Portsmouth bridge; the Islands, and the Navy Yard and shipyards; Kittery, both Foreside or Navy Yard Village and the Point, with all their past and present associations and attractions, and to us on this occasion above all and more than all, the loveliness of Nature,—were presented in their most seductive shape to our little picnic party, hence to the Islands, one day last week. [For come what may, we are determined to get a sight of the green fields and woods, or the deep blue sea, and a breath of fresh (or salt) air, every pleasant day, for an hour or two at least, so long as we can. And so may almost every man or woman, who works not more than ten hours a day—and that is as much as anybody *ought* to work.] Well, to Cutts' Island we went, passing Gerrish's Island, where the old mill has been swept away, leaving yet the dilapidated stone dam—riding over one of the hardest roads to travel that you or "Billy" ever saw, till the sea shore is reached. Then for a lunch—our horse on grass, and we—on the grass also, but ourselves eating the contents of packed baskets; after which read the newspapers we had provided, gather armsful of wild wood flowers, and off for home again—all sufficiently tired to be satisfied that we have had a good time; for nobody is ever contented on such occasions, unless they *do* get pretty well tired—did you know that, reader? [No matter who had twinges of rheumatics next day, from lounging on the green sward.]

On the way up we stop a minute at Fort McClary, now in command of Capt. Cobb, he of New York Ledger celebrity, whom we found at his quarters, busy as a bee, in teaching military duty to himself and Company. Sylvester jr., appears at once the gentleman as well as scholar in his line—bearded almost like the pard; and is proud of having carried the universal badge of the printer's profession (a bright steel composing rule, with the craft set type) in his pocket for twenty-eight years. Perhaps on the poet's authority, he may be able to repel any attack on his battlements, which their own weakness might not withstand:

"This stick of type hath more of might
Than warrior hosts and fortress walls;
And it shall batter towns to dust
Which laugh at hosts and cannon-balls."

Another and an older poet hath as well said, that

"Beneath the rule of men entirely great,
The pen is mightier than the sword;"

but the exceeding difficulty of finding men "entirely great" to wield the pen has rendered it necessary for men in this fallen estate, in all ages, to appeal to the sword to settle any little question of dispute among them. So Capt. Cobb has laid down *his* prolific quill for sixty days, and left wife and baby, trotting horse and home, and will learn something of the approximate duties and deprivations of camp life. Success and good bye for now, to him and his "boys."

It was a pleasure to the ladies of our party to leave a basket of edibles, which they had brought for the purpose, for the convalescent members of the company formerly stationed here. Then after a brief look at the new fortifications which are being erected here, (and which, like those across the river at Fort Constitution, are really to be extensive and formidable works,) we retraced our way home, by the light of the soft setting sun; passing through Love Lane, which has been robbed of much of the woody bordering, and so half its beauty, to accommodate the spirit of progress in Kittery. F.

BOUNTIES.—The city of Portsmouth has paid Bounties to recruits since the war begun as follows:

235	Bounties of	$200 each,	47,000
118	"	150	17,700
103	"	300	30,900
16	"	50	800
1	"	25	25
182	"	amounting to 75,059	
Less rec'd of State and U. S. 20,348			54,711
605	Bounties amounting to		$151,136

In addition to this amount the City has paid $1600, for the same general purposes; the sum total of our extraordinary war expenses is $161,136.

JUNE FESTVAL.—It will be seen that a festival for the benefit of the Christian Commission is to be held at the Court House on Tuesday and Wednesday of next week. The friends of the cause will thus have an opportunity to aid the Commission, which in doing a great and good work, needing all the pecuniary aid it can obtain.

IN BOARD OF ALDERMEN, on Thursday evening, it was voted that the sum of $100 be paid to School District No. 1, to supply deficiencies for the year 1863; and $300 to District No. 2 for the same purpose.

The application of the teachers of the public schools for the use of the Common Council room two evenings in each month, was granted.

The Committee to whom was reported the subject of the alteration of Jefferson Hall for City Rooms, reported plans and recommended that the alterations be made as soon as practicable. The report was accepted and adopted. Ald. Brown was added to the committee, and they were directed to proceed with the alteration of the Hall as recommended.

It was voted that the City Clerk be directed to inform the owners of the building occupied for the City Rooms that the city will vacate the same in one year from this date, in accordance with the provisions of the lease.

The Committee on School Houses was directed to make necessary repairs on the Haven School House.

☞ In a recent skirmish the 4th N. H. regiment had six men wounded,—among them Lieut. Brewster, who was wounded in the leg.

Leonard G. Wiggin, of this city, died in the hospital of the 18th Army Corps, May 20th, of wounds received in the battle before Fort Darling. He was 24 years old, youngest son of the late Samuel P. Wiggin, Esq., and a member of the 3d N. H. regiment. He died an example of patience, fortitude and heroism, and kind though stranger hands administered to his every want. COM.

☞ In the 32d Maine regiment, the following members from Kittery were killed or wounded on the 14th May: privates C. E. Witham and George W. Remick, killed; Ammi Manson, wounded in head; John Fernald, in body.

☞ We are informed that the old hotel on the Durham shore of Piscataqua river was not burned by a party of boys from this city, but was, probably, set on fire by wads from the guns of a party of Dover young men, who had been target firing in the vicinity.

☞ The balance of Companies A and B, at Forts Constitution and McClary, who were in invalid detachment, left Portsmouth on Thursday morning, for Alexandria. They number about 40.

☞ We are just informed that Ninety seven dollars have been sent to the Christian Commission by the painters on the Portsmouth Navy Yard.

☞ Messrs. Wm. B. Wentworth and Stephen Hull announce that they have opened a Substitute Agency at Nos. 24 and 27 Daniel street,—opposite the Provost Marshal's office.

☞ Brown & Pike's combination give their last exhibition at the Temple to-night, when an attractive bill is offered.

☞ Rev. Rowland Connor is to preach at the Universalist Church to-morrow.

THE CRIPPLES' ROLL OF HONOR,

CONTAINING MORE TRUTH THAN POETRY.

Listen awhile, and I'll sing you a song,
A Scottish set of ripples—it shall not be long.
They belong to Massachusetts and the Old Granite State;
They enlisted in the army, and there they met their fate.

They all got discharged, and soon returned home;
But the fate of their country they still do bemoan.
And grieve that the Southerners, "enlightened" as they are,
Should rebel against their government, and ungratefully war.

They came to Portsmouth city—the old loyal town,
And plenty of work here they all soon found.
They went to the master caulker, whose heart was not hard,
And he gave them all work on the old Navy Yard.

The first was Robert Ransom, of the Mass. 35th,
Who got wounded in the foot, and his ankle is still
The second is Wm. Lolley, of the N. H. 10th,
Who fell across the railroad track and lost all his strength

Mike Gilligan comes next, of Towle's company,
Who was wounded in the leg, and has got a stiff knee.
He is an Irishman by birth, but a good American,
And was willing to enlist in our own loyal band.

Robert Rich was the next; he banished all his fears,
And enlisted in the 10th Massachusetts volunteers.
For his country he said he was willing to die;
He was wounded, and had his leg cut off at the thigh.

The next was a young man whose name is McKnight;
He enlisted in the 17th Massachusetts to fight;
He was a good soldier, and from duty would not fly
For fear;
And had his left leg amputated below the knee.

In the 18th Mass. an Englishman by birth
Enlisted to fight, and left his quiet hearth;
His name is Edmund Walley, and a brave man was he,
And he lost his left leg just below the knee.

Wm Goodwin enlisted when the war first began
In the 2d N. H., and was wounded at Bull Run;
A ball entered his thigh, and cut the tendons of his foot—
For the rebels are careless—not caring whom they shoot.

Yet there is another—Henry Palmer is his name;
The right of his country with his blood he would maintain.
At the battle of Fair Oaks he was wounded in the knee,
And no longer could he fight for his loved country.

In the 3d N. H., that regiment so brave,
Richard Turner gave his blood our Union to save.
On the battlefield of Gettysburg—so termed—
He was wounded in the thigh, and he need not be ashamed.

John Dooley enlisted when our country was full of grief
In the 6th N. H. Regiment, which gave her great relief;
Although an Irishman, he adopted our cause
And was wounded in the knee, maintaining her laws.

Henry Rich was in the Navy—he belonged to Newburyport,
He lost his left leg going ashore in a boat.
He fought upon the water, and his brother on the land,
And their father in the Navy joined with them hand in hand.

Let us now gain the victory, and let nothing daunt,
For we have a noble leader in the brave General Grant.
Our country it is brave, and though we lose many a life,
Let us now gain the victory, and put an end to strife.

☞ PIANO FORTES FOR SALE.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 7 and 9 LINDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and the great experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never failed to cure, when introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the forms of venereal impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Bunnons, Frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the ill effects produced by early habits of youth, are Weakness of the back and limbs, Dizziness of the head, Dimness of sight, Nervous Irritation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are such to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, Dullness, &c., are among the evils produced. Such persons should before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, and a description of your case. Dr Dow has also for sale Dr Evans' Capotica, warranted the best preventive. Orders by mail. Three for $1 and a red stamp.

Highly Important to Females

IN PRIVATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 Lindicott Street, Boston, is consulted daily for all disease incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of disease of women and children, than any other Physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 9 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or No Charge Made.

Dr. Dow is consulted daily, from 9 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which attracts patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Lindicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

N. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate of College of Physicians and Surgeons, N. Y.
formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York Metropolitan Police, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are speedily cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cares which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles of overcoming opposition no less than as ever encountered by any Reformer.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think "Such diseases only be cured by slow and gradual recuperative process of Nature." This is not so!

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the equilibrium of the scale.

CONSTITUTION LIFE SYRUP.

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENTS TO CHILD.

Paralysis.

Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Dizziness, Want of appetite, Flatulence, Bad Breath.

Scrofula.

Strumo, Glandular Swellings, Diseases, King's Evil, Erysipelas, Salt Rheum.

This disease, hereditary or acquired, filling life with untold misery, is by all usual medical resources incurable.

Rheumatism.

Lumbago, Sciatica, Gout, Leucorrhœa, The Dolorosa.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred symptoms. In these diseases we are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 10 or 20 years handing, have been cured by us.

Nervousness

Nervous Debility, Weakness of Thought, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.

Thousands who have suffered for years will bless the day on which their road these lines. Particularly to weak, shattered, Nervous Systems our cure proves an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of Mercury, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. The Iodide Agency Gems and secures a cure which is firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Hopeless Languor, Pain in the side and abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the Uterus, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken in all cases of Tumors, which are exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as palpitation, Disease of Valves—producing a gratting noise, Pain in the Side, Shoulder and Arm, and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions,

Suffering from Indiscretion in Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Insanity, Fear of Disease, Dimness of Vision, Dry Hot Skin, and Eruptions, Want of Sleep, Nervousness, Pale Haggard Countenance and Lassitude of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Spine, Forehead or neck, it has never failed to effect a cure.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the party who is subject to them. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of that organ, accompanied by Jaundice and all the usual concomitant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.

Diseases of the Spine, as usually developed in the young, Hip Disease, Weakness of Spine and Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, have experienced the great CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and limbs, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, many early death and disease are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES

It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the blood—those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus (or Whites) that resist other old and numerous medicines, when others have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls twice per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an adjunct or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and stimulant; promoting all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack nostrums.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will send free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES.
CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-abuse; such as Loss of Memory, Dimness of Vision, Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Nervous Trembling, Wakefulness, Deadness in the Face, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely as it has been used in our practice for many years, and with thousands of cases it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ We think it proper to deal with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and strength and vigor, if all other means have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Prices, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the low spirited.

One bottle restores mental power.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and departing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from premature decay, will all find in this all-powerful and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

CHEROKEE PILLS!
SUGAR-COATED.
FEMALE REGULATOR.
Health Preserver!!
CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Headiness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute health for sickness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period of pregnancy, but three months during which the unfailing nature of their action would infallibly prevent pregnancy.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall Stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room, and the sad-iron heater is up of a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovel, tongs and poker are entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, which is the only one that day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, that cannot smell, burn or smoke, and the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

How successfully this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former modes, the public have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the flue or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which gutters them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 60 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Gray's Patent Molded Collars

Have now been before the public for nearly a year. They are universally pronounced the neatest and best fitting collars extant.

The upper edge presents a perfect curve, free from the angles noticed in all other collars.

The crease causes no pinching on the inside of the turn-down collar—they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.

The Garotte Collar has a smooth and evenly finished edge on BOTH SIDES.

These Collars are made of simply flat pieces of paper cut in the form of a collar, but are MOLDED AND SHAPED TO FIT THE NECK.

They are made in "Novelty" (or turn-down) style, in one uniform size from 12 to 17 inches; and in "Eureka" (Garotte), from 12 to 17 inches; and packed in "solid sizes" in neat blue cartons, containing 100 each; also in smaller ones of 10 each, the latter a very handy package for Travellers, Army and Navy Officers.

☞ EVERY COLLAR is stamped

"Gray's Patent Molded Collar."

SPARE THE BIRDS.—The blithe, cheery little feathered songsters who have been spending the winter in warmer climes, are fast returning to our fields and woods, and ushering in the spring with sweet carols. Their delightful music is dear to every lover of nature, and every such person bids them a hearty welcome. Not so, we are pained to hear, rude boys in some localities, who are pursuing them with murderous guns and shooting them in wanton sport. We hope there are few cruel enough to indulge in such brutal pastime, but wherever there are such, the law should at once be invoked to stop their merciless slaughter. Not only are lovers of birds, as one of the pleasantest features of country life, interested in this matter, but the farmers, whose pecuniary success is greatly affected by the presence or absence of the birds. To the farmers they are of incalculable value in destroying millions of noxious insects that would otherwise play havoc with his crops. In one of the districts of France, a few years since, the birds, by a mistaken policy, were all killed off. The consequence was that the farmers' crops suffered severely from the depredations of the insect tribes. The people, discovering their error, set to work to restock their fields and woods with birds, prohibited the shooting of them, and in time the insects pests were thinned out. It is not only cruel but a serious injury to agriculture to shoot the birds. We have stringent laws on the subject in this State, and they should be rigidly enforced. Spare the birds!

SECESSION NO NEW THOUGHT.—Mr. John C. Hamilton, in his new edition of the Federalist, gives the following extract from a letter written by the grandfather of the rebel General Lee, a few months after the adoption of the Constitution:

"The Southern States are too weak at present to stand by themselves; and a general government will certainly be advantageous to us, as it produces no other effect than protection from hostilities, and uniform commercial regulations. And when we shall attain our natural degree of population, I flatter myself that we shall have the power to do ourselves justice by dissolving the bond which binds us together. It is better to put up with those little inconveniences than to run the hazard of greater calamities."

This confirms the position of Mr. Jefferson, in regard to the mean and wicked class of slave lords, who fancied they were superior to all other people, on account of their human chattels, and of their descent from ancient houses in England,

"Whose ancient but ignoble blood
Has crept through scoundrels ever since the flood."

☞ If all the copperheads and their papers, including the New York World and the Journal of Commerce, do not deserve "suspension",—it is clear enough that the writing traitor who forged the President's proclamation, does.

No girl can become a true lady without the knowledge of household duties. Whatever may be her literary proficiency, and her social qualities, without the ability to a household, if necessity demand, her education is defective.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Also, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of claims or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages which very few attorneys can offer, having the patentability of inventions unsurpassed by, if not demonstrably superior to, any which can be offered by any one elsewhere. The Testimonials below given have been made in MORE SUCCESSFUL CASES AT THE PATENT OFFICE than the subscriber; as the SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and to prove, that at no other office of the kind are the charges for professional service so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a great collection of specifications and official decisions relative to patents.
Also, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, he has a able, beyond question, to offer superior facilities for obtaining Patents.
Necessity of a journey to Washington, to secure a patent, and the usual great delay thereby, have saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such mistakeable proof of great talent and ability in his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Facts for the People.
The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction. 6

French Roll Pans.
A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.
These pans are greatly in demand for baking the New Bread, about which so much stir is being made.
This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.
The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!
This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the most valued the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so recuperative as to bring itself into place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.
They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.
The rich will have it because IT IS THE BEST. All other classes will have it on account of it being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in a under-bedding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!
These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—

MONDAY, MAY 30, 1864.

THE REBELLION.

Gen. Banks' army is moving from Alexandria to the Mississippi had two engagements with the enemy, in both of which the rebels were beaten. Gen. Banks states that no prisoners, guns, wagons or other materials have been captured by the enemy, except at Sabine Cross Roads, April 8.

A letter from Gen. Butler's camp says Beauregard has twelve brigades of 3000 men each,— an aggregate of 36,000 men.

Gen. Sheridan and his cavalry have been heard from. He destroyed a large amount of property and rendered useless some distance of the Danville railroad.— The enemy's cavalry were unable to offer any opposition. Gen. Grant's headquarters are behind the North Anna, near Jericho Mills. Several lines of the enemy's works abandoned by them are in our possession.— They are very strong in front of us,however. Preparations for an assault on the enemy's works were made on Wednesday, but a tremendous thunder storm prevented their execution.

The rebels are said to have twenty-five steamers up the Red River.

Gen. McArthur's command has returned to Vicksburg; they had no engagement of any importance.

The statement is repeated that Gen. Pope has been ordered to join Gen. Grant with his corps. He has reached Springfield, Ill., with six thousand of his troops, and will probably concentrate the rest of his forces and move into the Shenandoah Valley.

By Telegraph—Sunday noon.

Sec. Stanton sends the following to Maj. Gen. Dix, under date of Washington, May 28, 10 P. M.:—

An official dispatch from the headquarters of the Army of the Potomac, at Mugahich Church, 10 miles from Hanover Town, dated 5 P. M., Friday, states that our army was withdrawn to the north side of the North Anna river Thursday night, and moved towards Hanover, the place designed for crossing the Pamunkey. At 9 o'clock on Friday Gen. Sheridan, with the 1st and 2d divisions of cavalry, took possession of Hanover ferry and Town, finding there only a rebel vidette. The 1st division of the 5th corps arrived at 10 A. M., and now hold the place, with a sufficient force of cavalry, infantry and artillery to resist any attack likely to be made upon them. The remainder of the corps are pressing forward with rapidity. The weather is fine and perfect.

A later dispatch, dated Mugahich Church, 7 A. M., Saturday, has also been received It states that everything goes on finely.— The weather is clear and cool. The troops come up rapidly and in fine spirits. The army will be beyond the Pamunky river by noon. Breckinridge is at Hanover Court House with a force variously estimated at from 3000 to 10,000. Wickham's and Lamar's rebel brigades of cavalry are also there. The dispatch further states that after seizing Hanover Ferry on Friday, Gen. Torbett captured 75 cavalry, including six officers; and that the rebel cavalry is exceedingly demoralized and flees before ours on every occasion.

A dispatch from Gen. Sherman, May 28, 6 A. M. near Dallas, reports that the enemy, discovering his move to turn Altoona, moved to meet our forces at Dallas. Our forces met the enemy about one mile east of Pumpkin Vine Creek, and pursued them back about three miles, to a point where the roads fork to Atlanta and Marietta.— Here Johnston has chosen a strong line, and made hasty but strong parapets of timber and earth. Gen. Sherman's right is at Dallas, and the centre about three miles north. The country is densely wooded, and broken, with no roads of any consequence. We have had many encounters, but nothing decisive.

No dispatches from any other field of operations have been received to-day (Saturday.) E. M. STANTON.

A dispatch received at 4:15 P. M., stated that nothing later had been received, except the details of Gen. Grant's crossing the Pamunkey.

FIGHT BETWEEN A MAN AND A BULL.—A desperate struggle lately took place at Serena, Illinois, between John Warren, 64 years of age, and a bull. The bull made the attack, and threw his master down at the first onset. But the latter rose, and when the bull renewed his rush, caught him by the fore leg and threw him a heavy fall. He then caught him by the nose and held him down, but being unable to open his knife, called for assistance. A young lady thereupon came to his assistance and opened his knife. He then finished his dangerous adversary by cutting his throat.—*Wilkes' Spirit.*

— Gold closed at 188 in New York on Saturday.

— A new Temperance paper has made its appearance in Portland.

— A bill has just passed the Connecticut Legislature, providing for a fine of $25 up on railroad companies that neglect to carry a certain quantity of good drinking water in passenger cars.

— A short time since Queen Victoria received from her son-in-law, Prince Frederic William of Prussia, a dispatch announcing that his people had gained a great victory over the Danes at Duppel. Just then came a note from her daughter, the Princess of Wales, announcing that her people (the Danes) had been defeated by the Germans.

NEW HAMPSHIRE ITEMS.

—— Maj. Folsom, Paymaster, U. S. A., of Dover, who has been on duty lately at Concord, has been ordered to New Orleans.

—— One hundred and thirty laborers have been obtained in Manchester, to go to Hilton Head, S. C.

—— William A. Huntress, Postmaster at Boscawen, has enlisted in the 1st N. H. Cavalry.

—— There was the very large vote of 68,508 cast for Railroad Commissioner at our last State election, and there were only 7 scattering. Union majority 5,780.

—— Israel O. Dewey, Esq., of Hanover, and Capt. Andrew Young, of Dover, are reported to have been appointed Paymasters in the Army.

—— Margaret Roden, aged 12 years, while at work in a factory at Dover one day last week, was caught in the machinery, and hurt so badly as to cause her death in a few hours.

—— Governor Gilmore is making renewed efforts to induce the War Department to establish a General Hospital in this State, for the care of the New Hampshire sick and wounded.

—— The stockholders of Dorry Bank recently voted to adopt the U. S. banking law, and it is now one of the National Banks. A National Bank has also been started in Hampton with a capital of $100,000.

—— Hamilton E. Towle of New York, son of G. Towle, Esq., of Lee, has patented a railroad car to be started with mechanism "in such a manner that the first draft of the tractive force operates to turn the wheel with a leverage greater that its radius."

—— Roswell Blake, of East Lebanon, fell from the freight train on the Northern R. R., while in Grafton, on the 18th May, and was severely injured by contusions and lacerations on the head, legs and hand, and one arm was crushed from wrist to shoulder. Amputation at the shoulder was performed.

—— Patrick Henry Townsend, son of the late John Townsend, Esq.,of Salisbury, and brother to the wife of Hon. Amos Tuck, of Exeter, died suddenly while sitting in his chair in Washington on Saturday, May 21, of heart disease. He was a clerk in the Census Bureau, and about 40 years old.

—— On the 7th of June next the old members of the 2d N. H. Regiment will be entitled to a discharge, according to the rule established by the War Department for the muster-out of regiments. As the Second embraces but about 150 of the original members who have not re-enlisted, the regimental organization will be continued, and will still number some 700 men.

—— The Concord Statesman says:

On Wednesday, May 18th, as the train was passing the crossing about half a mile above Contoocookville, on the Concord and Claremont Railroad, Dennis Ryan, a lad about ten years old, was struck by the engine, and thrown *thirty feet* in the air, landing in the cattle guard. Dennis was picked up, his dislocated ribs adjusted, and he is now in a fair way for recovery. The engineer remarked that if it had been a quadruped instead of a biped he would have broken every bone in his body.

—— The Fifty Third annual meeting of the N. H. Bible Society will be held in Concord, on Tuesday, the 14th of June, at 11 o'clock, A. M. The forenoon will be devoted to the business of the Society, and the afternoon to the Annual Reports,which will be followed by addresses from gentlemen from different parts of the State. The evening will be occupied by Rev. Dr. Smith, President of Dartmouth College, who will appear as Delegate from the American Bible Society.

—— The fighting 5th N. H. regiment is once more under orders to go to the front, having been doing guard duty at Point Lookout, since November last. It embarked, May 26th, for Port Royal, on the Rappahannock, and will rejoin the gallant old 2d corps d'armee, with whom it has heretofore won imperishable renown. The regiment numbers about 450 effective men, and is in splendid fighting trim. The order to march was received with cheers by both men and officers.

RESPONSIBILITY OF NAVAL OFFICERS.—The Navy Department has instructed the commanding officers of the different Navy Yards of the United States to promulgate the following important order:

"Officers appointed to command vessels fitting out at this Yard will report to the Lieut. Commander's office every morning at 9 a. m., giving their names and the names of vessels to which ordered. Should a leave be granted them, they will report the fact in the same office, and state who succeeds them as commanding officer, and the commanding officer of a vessel at this Yard will, if he have a sufficient number of officers, detail for daily duty one watch officer and one Engineer to remain on board from bell-ring in the morning untill bell-ring in the evening, for the purpose of reporting all delinquents among the workmen. These officers will have their regular relief the same as if the vessel was in commission. The order is reiterated that all officers will remain on board of their vessels during the night, after the vessel is placed in commission."

NOTES OF TRAVEL.

NIAGARA FALLS, May 21, 1864.

Dear Chronicle:—I have always regarded the Chronicle as a lively sheet, but the sheet of Niagara makes by far the most noise in the world. The "season" at this spot is not as yet inaugurated; still the Falls are ready to be seen, and enjoyed—as the lady (a respectable resident of the Canada side) who threw herself in yesterday doubtless thought.

It was quite wet behind the falls to-day, owing to the spray being driven back by the wind, so that the view at the falls from beneath could not be enjoyed. On the Canadian side, it is one continuous sponge from her majesty's subjects, so that one can hardly have an opportunity to enjoy this great natural wonder uninterrupted by the beggars and dealers in small wares, and showmen of mean sights, who constantly bore the new comer with their importunities.

The falls have been so frequently described and so faithfully photographed that it is useless for me to inform you that they are well worth the journey here to witness. Vallandigham, who was at the Clifton House last season, has left for some other part of the Canadas,—but many rebs are on the other side of the line, as well as bounty jumpers, and people who at present find it convenient to be absent from the States.

Notwithstanding the Ladies' Dress Reform Leagues, it is noticed that the passion for dress, displayed in the hotels by the fair sex, is not the least abated. Ladies are seen at the tables, and in the parlors, dressed in the most elaborate style of costly fabrics. The fair patriots are doubtless waiting for the unusual period to arrive when their lords will drink only American wines and smoke domestic tobacco, before they commence atone to put down the price of gold.

Parties, it is said, are making a good thing in this part of the country by importing goods upon which duties are *not paid*, and it would doubtless be a good arrangement for the Treasury of Uncle Sam, if he has any Custom House officers that can be spared from other places, to order them to the frontiers.

The little steamer Maid of the Mist, which formerly plied here below the falls, has been run down the Rapids, and of course will be seen here no more. It was a daring feat to get the steamer into Lake Ontario, but there was a mortgage upon her, containing a clause by which it was stipulated that if the steamer ever went below the Rapids, the mortgage debt should be cancelled and void, the parties supposing that if the steamer ever went below the bridge, she would only go by reason of being adrift and be at once a total wreck.— Capt. Robinson hearing that the steamer was about being seized, fired her up and got underweigh. His engineer and firemen refused to accompany him upon the perilous voyage. He pursuaded them to join in a little trip up toward the falls, and they consented. When he had run up the river a short distance he headed the boat about and run for the rapids, ordering all steam on, and in a few minutes had passed over with a loss of smoke stack and part of the rail. The Maid of the Mist escaped through the tight spot, the perils of the law. The Captain got $600 for his part of the operation. Visitors now cross the river below the falls in a small boat, the sight of which from the high banks of the river appears far more romantic than inviting.

DIGBY.

There is great excitement in Richmond at this time. The Citizen Militia are assembled every afternoon in Capitol Square for company and battalion drill, after which they are gathered around the equestrian statue of Washington and implored by eloquent speakers, to welcome the Federals with bloody hands to hospitable graves. This monument is an elegant structure. All sorts of devices are hung upon it to screw up the courage of the rebels. They tied in the hand of Washington's statue a long staff, from the top of which floated the dirty rebel rag. The man when securing this flag-staff in its place, fell to the stone base below, fractured his skull, and died in a few moments.

An impulsive Irishman who had been forced into the militia then drawn up in the Square, seeing the man fall, thoughtlessly shouted, "Be jabers, Washington gave him the shitalah, but he will have nothing but the Stars and Stripes." This Irishman was instantly sabered by his captain. After he fell he was dragged about and kicked to death by the chivalry. The above are facts, and testified to by an eye witness.—*Portland Press.*

☞ According to Mr. Kay, M. A. of Trinity College, Cambridge, England groans under the oppressions of a gigantic landed aristocracy, which so holds the soil that the peasantry must remain poor and ignorant, as the general rule,—and that such vices as are begotten of squalid poverty, are increasing there in consequence, to an alarming degree. An American writer suggests that the same class who oppress the common people in England, are also those who fit out pirates and blockade runners, and give belligerent privileges to the rebels against the United States. He also recommends that our people do what they can to promote republican ideas and action in England, among the common people.

☞ A partial list of distinguished losses among the rebels during the late battles, gathered from Confederate dispatches, mentions the following:

Lieut. Gen. Longstreet, wounded.
Maj. Gen. J. E. B. Stuart, killed.
Maj. Gen. Edward Johnson, captured.
Maj. Gen. Heth of Virginia, wounded.
Maj. Gen. Pickett of Virginia, wounded.
Brig. Gen. Walker of Virginia, leg off.
Brig. Gen. Strafford of Louisiana, killed.
Brig. Gen. Hays of Louisiana, wounded.
Brig. Gen. Jennings of S. Carolina, killed.
Brig. Gen. A. M. Jones, killed.
Brig. Gen. Pegram, seriously wounded.
Brig. Gen. Beaning, seriously wounded.

☞ The New York Commercial Advertiser states "on the best authority" that Howard, the author of the forged proclamation, was not a member of Henry Ward Beecher's church, nor a contributor to the Independent, nor the President of the first Republican Association ever formed in Brooklyn, nor was he ever a *prominent* member of any party. He was not friendly to the present administration;—though the N. Y. World charged that he was all these things,—and the traitor presses generally reiterated the charges.—The papers which he imposed upon, and which were stopped for a day or two, are not rebels of the most open kind, but sleek hypocrites. Our New York Correspondent deems them not very unwilling to be duped in Howard's way.

MASON & HAMLIN'S
CABINET ORGANS,

Combining the requisites for Sacred and Secular, Church and Parlor Music; for Families, Sunday Schools, Day Schools, Churches, &c.

They are elegant as pieces of furniture; occupy little space; are not liable to get out of order or out of tune; are warranted for five years; will improve in tone by age, and are moderate in cost.

They are to private houses, Sunday schools and smaller churches, what the larger pipe organs are to large churches, and in addition to this are adapted to secular as well as sacred music.

The Cabinet Organ is essentially different from, and a marked improvement upon, all instruments of the melodeon or harmonium kind. Its superiority consists in many important characteristics.

The undersigned, Agent for the Manufacturers, will be pleased to show the Cabinet Organs to all wishing to purchase, at his residence, NO. 30 HANOVER STREET.

Local.

☞ A beautiful young black horse belonging to Mr. John Stokell, became restive under the management of his driver, on Friday morning, and ran away with him; finally breaking the harness, then striking a post and clearing himself from the wagon and driver; after which he fell heavily in his mad career about the city, and we believe injured himself considerably. Eternal vigilance alone is the price of safety of young and spirited horses—and even then you are not safe.

☞ One hundred and sixty rebel prisoners from Rock Island, Ill., who have taken the oath of allegiance, arrived in this city on Saturday, under charge of Acting Lieut. John D. Hardy. They are to be enlisted in the navy. Most of them were captured at Chattanooga.

☞ The new monitor Agamenticus was undocked at the Portsmouth Navy Yard on Saturday.

SHALL THE NEW HAMPSHIRE SOLDIERS VOTE?—We answer that they certainly *should* vote, as a matter of right, propriety, and equity: and we hope our legislature will say they *shall* vote, and pass a law similar to that of New York, which has just been approved by Gov. Seymour, saying *how* and *where* they shall do it, viz. by proxy, at their several homes.

We have shown, in former papers, that the spirit of the Constitution demands it; that its letter does not forbid it; and that the only objection offered against it consists in the lack of express provision for it. We propose to supply this lack by such a law as we mention above, and as the framers of our constitution would have made, if they had foreseen the present case.

A legal friend asks why our same line of argument would not call for a law enabling *all* absent voters to send home their proxies in like manner;—and why it might not be extended so that that every man, woman, and child in the State should vote.

Our answer is briefly this: There was about the same proportion of women and children when our constitution was made, as we find now; and a large proportion of absentees, away on their own business; perhaps as large as now. In regard to these two classes no *new exigency* has arisen. Our fathers saw their case exactly as we see it. Now we do not propose to make a new constitution, nor to stretch the old one; but simply to do for the patriot citizen soldiers, exactly what our fathers would do were they here with us to-day, viz: make a Supplementary Law for Soldiers' Proxies, as we have done for Registers, Check Lists, and prolonged residence. We have no idea that any of them do violence to the constitution; but suppose them all to be so many attempts to *complete* what our fathers left *unfinished*, viz: to secure as far as may be, a fair vote. — Last Thursday night the house of D. B. Nelson, in Elmira, N. Y., was robbed of $13,000 in greenbacks, which he had just brought from Philadelphia, the proceeds of a heavy sale of wool.

— Gen. Buell, who two years ago was at the head of the Army of the Cumberland, has been mustered out of the service, for refusing to take a command under Gen. Canby.

☞ From a private dispatch, the St. Louis Union learns that on the 19th inst. Joe Shelby's cavalry surprised Dardanelle, on the Arkansas River, and massacred the citizens and troops located there. They perpetrated the most inhuman barbarities. A large number of people jumped into the river, and were shot in the stream, while attempting to swim to the opposite shore. Dardanelle is at the head of low water navigation, about 80 miles above Little Rock, and had been made a commissary depot. The raiders also captured at that point the steamer Chippewa, loaded with commissary stores.

☞ It has been frequently asked by business men, that if gold keeps advancing in the face of continued success, what would have been its course in the event of failure. The impression is deep upon the minds of many clear-headed men, that there is an organized gang of traitors in New York, laboring to break down the credit of the Government, and that British gold is one means used. Here most of the reported sales of gold in New, York are not believed.—*Traveller.*

A PLEASING INCIDENT.—The Portland Press states that on board the morning train from Boston, on Thursday last, there was an occurrence worth mentioning. A sick soldier, so feeble from chronic diarrhea as to be almost utterly unable to help himself at all, was accosted by a gentleman, a passenger on the same train, who after manifesting much sympathy for him, gave him his overcoat and ten dollars in money. The same gentleman found four other soldiers in the cars returning wounded to their homes, and gave to each ten dollars. A generous liberality indeed—the gentleman being a resident of Sherbrooke, Canada East,

— A letter from Buenos Ayres, South America, states that a Mr. Wells, a Yankee of course, had made arrangements for a balloon ascension on horse-back.

— The entire receipts of the Camden and Atlantic Railroad on Saturday, the 28th inst., will be given for the benefit of the great Sanitary Fair.

— Three thousand small birds, blackbirds, robins, &c., were on sale in the Montreal poultry market the other day. The murderers of so many songsters ought to be compelled to eat the grubs the birds would have destroyed this summer.

BUSINESS NOTICES.

☞ Mr. Joy's evening Singing School for Ladies and Gentlemen, is held at Mercantile Hall, on Tuesday evenings.

JUNE FESTVAL.—It will be seen that a festival for the benefit of the Chirstian Commission is to be held at the Court House on Tuesday and Wednesday of this week. The friends of the cause will thus have an oppertunity to aid the Commission, which in doing a great and good work, needing all the pecuniary aid it can obtain.

SUMMER CARPETING.—*Twenty Per Cent. Saved.* Just received by arrival of the "Hamilla Mitchell, from Canton, a fresh lot (made from new grass) of the celebrated "R. F. W." brand of Matting, imported by Mr. White, for Drawing Rooms and other apartments, in Plain, White, Red Check, Fancy and variegated Colors. Some of the patterns are entirely new and are truly beautiful. Also, a small importation of Calcutta Matting, in breadths (a new article), and the first and only lot ever imported. The above goods are for sale by the piece or yard, *twenty per cent.* less than retail rates, by R. B. Wentworth & Co., 107 Hanover street, Boston.
☞ Orders by mail or express faithfully executed. my17—2w*

Would you save yourself from suffering after eating, or from acidity of the stomach, or burning sensation, or indigestion? Use Herrick Allen's Gold Medal Saleratus. Never use soda if you can procure this article. It will strengthen weak stomachs and relieve dyspepsia; is a saving in the quantity of flour, &c., &c. Try it. Grocers and Druggists most all sell it. The Wholesale Agents are Wholesale Grocers.

ATTENTION COMPANY! — Volunteers, who expect to retain their health unimpaired during the campaign, must see to it themselves; do not trust to the Army Surgeons; supply yourselves with Holloway's Pills and Ointment. Every English soldier's knapsack contains them.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 212

ON THE DEATH OF MISS A. S. T.

"I would hasten my escape from the windy storm and tempest."

The night was dark, for the stars were dim,
And the snow was falling fast,
And the wind seemed chasing a funeral hymn,
As it wandered, wailing, past.
But she heeded it not, the weary one,
As she sank in slumber deep.
Ah! never again shall an earthly tone
Awaken her from that sleep.

For softest music, we might not hear,
Was lulling her soul to rest,
While holy angels were waiting near
To carry her to the blest.
And over the break of the coming day
Had heralded in the morn,
We looked through our tears on the lifeless clay,
But ours was beyond the storm.

Beyond the sound of the mourning blast,
Away from the shades of night,
Her happy soul had forever passed,
To live in the land of light.
And we could but feel, as we tearful stood
Beside her unconscious form,
That unto our sister the Lord was good,
To take her beyond the storm.

As we folded her hands on the quiet breast
That never should know a care,
We thought of her harp in the land of rest
And the song she was singing there;
And we almost wished that it were as well
With us as with her now gone,
And we longed for the time when we should dwell
In the land beyond the storm.

Yet a longer time we must linger on
And walk in the weary way,
But its lights and shadows will soon be gone,
And then we shall pass away.
The dreamless chamber, so calm and deep,
Will fall upon all ere long;
Like her whom we loved, we shall fall asleep,
To waken beyond the storm.

B. W. C.

South Berwick, Me., April, 1864.

A DARING FEAT.—While the attack was making upon the rebel line on Wednesday morning, during a lull in the firing a man dressed in the uniform of a Union man advanced from our lines and sallied toward the rebels. It was supposed he was going in search of a wounded comrade, and many encomiums were passed on the strength of an affection that would take him into so much danger to aid his friend.

The rebels rose along their line and brought their muskets to bear on him, but for some inexplicable reason did not fire, but allowed him to approach, when he suddenly entered their lines and became lost to sight. It is now supposed that he was a daring rebel spy, who had made the tour of our lines during the night and returned as above stated.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Regiments, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as honest as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others, more considerate, and think that diseases can only be cured by the very slow recuperative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium, but let one iron any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the equilibrium, and health is the result.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need only reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Costiveness, Want of Appetite, Dizziness, Bad Breath.

Scrotula.

Sores, Glandular Swellings, Ulcerations, King's Evil, Erysipelas, Salt Rheum.

This taint inherited or acquired, filling the with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis, Neuralgia, Gout, Lumbago, Sciatica, The Dolorous.

Where is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervous Debility.

Nervous Debility, Confusion of Thought, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering females will this medicine prove an inestimable blessing—directing their footsteps to a Hope which infinite more than it promises.

Mercurial Diseases.

Salivation, Aching of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of Mercury, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It invigorates Spongy Gums and secures the Teeth so firmly as ever.

Constitution Life Syrup
Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES.

And all other diseases of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disgure so many of the younger portion of the community, from six to twelve years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. A few bottles will recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia, Hunger, Pain in the abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swellings of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation), Disease of Valves, producing a gratting or filing sound. Dropsy of the Heart Case and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Darkness, Dizziness of the Kidneys, Dimness of Vision, Dry Hot Skin and Extremities, Want of Sleep, Confusion, Pale Haggard Countenance and Languide of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Spine, Forehead or scalp, nothing proves so effectual as the Life Syrup.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very troublesome to remove, yet we can do more. A few bottles of Constitution Life syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Affections of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of that organ, accompanied with burning or other painful symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and Nervous Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would have the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and spine, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, premature and early death was the result. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth: it strengthens both the mother and child, prevents pain and disease, and increases and enriches the blood—Mothers who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup
Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Ulcerated Kidneys (female) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in connection with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent*; relieving all scalding, heat, chordee and pain, instead of the burning and almost intolerable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will send free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle, or three bottles for $5.

Sent by Express to any address on receipt of price. Sold by all druggists everywhere.

ROOTS, HERBS AND
LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhea, Seminal Weakness, Nocturnal Emissions, and all diseases consequent upon such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Indisposition to Exertion, and all the direful complaints caused by departing from the path of nature.

This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance.

Price—Cherokee Cure, $2 per bottle, or in exchange for the most stubborn cases.

☞ To those who have trifled with their constitution until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and strength, when all other doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, enclosing a stamp, and they will send the same, a full treatment to any one desiring the same, a full treatment to persons requiring it.

☞ Price, $2 per bottle or three bottles for $5, sent forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

Dr. W. R. MERWIN & CO., Sole Proprietors, No. 59 Liberty street, New York.

A few doses cure the low spirited.

One bottle restores mental power.

And immediate and permanent relief to the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

Dr. W. R. MERWIN & CO., Sole Proprietors, No. 59 Liberty street, New York.

CHEROKEE PILLS!
SUGAR-COATED.
FEMALE REGULATOR.
Health Preserver!!
CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and Insuring Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Hysteria, Fatigue on slight exertion, Palpitation of the Heart, Loneness of Spirits, Hysteria, sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months*, during which the unfailing nature of their action would infallibly prevent pregnancy.

All letters seeking information or advice will be promptly, freely and discreetly answered.

Full directions accompany each box.

☞ Price $1 per box, or six boxes for $5.

Sent by mail, postage free, on receipt of price

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper boiler for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable furnace.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the unpleasant and prejudicial headache so much complained of in other Furnaces, is entirely obviated.

Its objections aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 20 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Stile, and others.

Boston,
Would most respectfully invite the attention and examination of all Grocers, Druggists, Apothecaries and Private Individuals, desiring to sell or USE STRICTLY PURE

Liquors, Wines, Cordials or Bitters,
to the list of choice goods enumerated below, which are constantly on hand in large quantities in his Large and Spacious
Wine Store and Bottling Establishment,
99 Washington street, Boston.

First on the list, as a reliable pure stimulant, stands the celebrated and widely known

Golden Sheaf Bourbon Whiskey,
made from Wheat, Rye and Corn, warranted for five years old. Put up in unique style, each bottle in a paper box, in cases of one dozen each, the large and increasing sales of which convince the proprietor that no extended advertisement is needed to exfol its real merits. It will recommend itself on trial.

Golden Sheaf Cordial.
A delightful and healthful beverage, aromatic, with a rich ginger cordial, made from the pure Golden Sheaf Bourbon.

Golden Sheaf Bitters.
The best Tonic Bitter ever offered to the public. Mingled with the rich flavor of the Bourbon are a number of other ingredients for restoring the appetite and imparting life and vigor to the whole system.

Golden Sheaf Punch.
Made from fresh, ripe lemons, and other articles, combined as a whole into a fine rich
Bourbon Whiskey Punch.
All the above put up full strength of the whiskey, and in cases of one dozen each. These articles *improve* by age, and no exposure of climate can affect them
JOHN AND ROBERT DUNSTER'S

PATRIOTIC BIRDS.—A pair of robins whose twitter enlivens the groves of Newburyport, have manifested their love for "the land of their birth," and their loyalty to the Union, by weaving into the fabric of their nest for this season a paper copy of the American flag, "red, white and blue," and inserting beneath it a brass thimble, mouth upward like a mortar, doubtless to serve for its defense. The nest, we are sorry to say, was robbed of four eggs and knocked from its perch by some mischievous boys.

☞ A copperhead paper, pretendedly loyal, but really treacherous, speaks very gingerly of "Andrews the *alleged* rioter," after his conviction. Why not say, Jeff Davis the *alleged* rebel? By the way the whole tribe of traitor presses take care to use the mildest terms in speaking of rebels or their acts, but use invective and denunciation most bitter, when they speak of our own government, army and navy, and their acts, whenever they inflict any injury on the common enemy.

A wag seeing a lady at a party with a very low necked dress and bare arms, expressed his admiration by saying she "outstripped" the whole party.

THE PRESIDENT TO GEN. MCCLELLAN. In H. J. Raymond's history of President Lincoln's Administration occurs the following letter to Gen. McClellan, which, we believe, has never before been published in the journals, but which is not wholly without interest at the present time:

FORTRESS MONROE, May 9, 1862.

My Dear Sir—I have just assisted the Secretary of War in forming the part of a dispatch to you, relating to army corps, which dispatch, of course, will have reached you long before this will. I wish to say a few words to you privately on this subject. I ordered the army corps organization not only on the unanimous opinion of the twelve Generals of division, but also on the unanimous opinion of every military man I could get an opinion from, and every modern military book, yourself only excepted. Of course, I did not on my own judgment pretend to understand the subject. I now think it indispensable for you to know how your struggle against it is received in quarters which we cannot entirely disregard. It is looked upon as merely an effort to pamper one or two pets, and to persecute and degrade their supposed rivals. I have had no word from Sumner, Heintzelman or Keyes. The commanders of these corps are of course the three highest officers with you, but I am constantly told that you have no consultation or communication with them, that you consult and communicate with nobody but Fitz John Porter, and perhaps Gen. Franklin. I do not say these complaints are true or just; but, at all events, it is proper you should know of their existence. Do the commanders of corps disobey your orders in any thing?

When you relieved Gen. Hamilton of his command the other day you thereby lost the confidence of at least one of your best friends in the Senate. And here let me say, not as applicable to you personally, that Senators and Representatives speak of me in there places as they please without question; and that officers of the army must cease addressing insulting letters to them for taking no greater liberty with them. But to return, are you strong enough, even with my help, to set your foot upon the necks of Sumner, Heintzelman and Keyes, all at once? This is a serious and practical question for you.

Yours truly, A. LINCOLN.

Buy one and try it—if not perfectly satisfactory the money will be refunded.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house; his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

French Roll Pans.

A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much stir is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!
This desirable mechanical arrangement has now been in use a sufficient length of time to show for it a perfect entire satisfaction and actually is the more valued the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so recuperative as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.
They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.
The rich will have it because IT IS THE BEST. All other classes will have it on account of it being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in under-bedding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!
These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—

TUESDAY, MAY 31, 1864.

THE REBELLION.

The New Orleans True Delta says: Gen. Banks continues in his command, but will report to Gen. Canby, just as Gen. Thomas reports to Gen. Sherman, instead of sending direct to Gen. Grant.

A telegram from Gen. Sherman, dated near Dallas, 29th, reports that on Sunday an engagement took place between the enemy and McPherson's corps, in which the rebels were driven back with a loss to them of 2500 killed and wounded left in our hands and 300 prisoners, Gen. McPherson's loss not being over 300 in all.

THE VIRGINIA CAMPAIGN.

A dispatch from Wheeling says Gen. Hunter has reduced his army to light marching order, and has removed from Cedar Creek. He has issued an order that the army must live on the country through which he passes.

Gen. Grant's last movement seems to have been another brilliant, though bloodless victory. The N. Y. Times' dispatch states that his reconnoissance on Wednesday showed that the rebels were in full force in a powerful position at the front, and every hour was occupied in fortifying. If driven back he had an elaborately prepared line on the South Anna. So Gen. Grant determined to recross the North Anna, swing around to the left over the Pamunkey and leave Lee to enjoy his position. A cavalry demonstration was made to divert the attention of the enemy while the movement took place. When it was accomplished, the rebels were completely taken by surprise.

Dispatches from Gen. Grant to Sunday afternoon state that the army had successfully crossed the Pamunkey and, then occupied a point about three miles south of the river. Two divisions of our cavalry had had a severe fight with the enemy, and drove them about a mile, upon what appeared to be their new line. Our loss was 44 killed and 300 wounded. Most of the rebel dead and many of their wounded fell into our hands. There had been no general engagement.

NEW HAMPSHIRE ITEMS.

—— A National Bank is to be established in Exeter.

—— The U. S. Senate has confirmed the nomination of Andrew H. Young, of New Hampshire, as paymaster in the army.

—— The Peterborough Transcript learns that the Lyndeborough Artillery, one of the organized companies of State militia, has been ordered to proceed to Washington immediately.

—— A Key West letter announces the death of Col. Fellows, of the 2d U. S. colored regiment, a native of this State. He was Lieutenant Colonel of the 16th regiment during its term of service—9 months, and was a resident of Concord.

—— The U. S. Senate on Saturday confirmed the nomination of Col. S. S. Griffin, of the 6th N. H. regiment, to be a Brigadier General. He was recommended by Gen. Grant for gallantry in the Wilderness and Spottsylvania Court House battles.

—— A man in Manchester was warned out of his tenement for not paying rent.—He didn't go. Measures were being taken to oust him forcibly, when he hung out the red flag—which said, small pox on the premises. The landlord is still looking for an officer to eject him.

—— Joseph S. Parsons, Esq., well and favorably known as Clerk of the Mutual Fire Insurance Company in Exeter, has resigned that position, which he has occupied for over sixteen years. He has been appointed to a first-class clerkship in the Internal Revenue Department.

—— The stables belonging to the Broomfield House, in Fisherville, and owned by Mr. Bonney, were burned on Sunday night. Charles Harper, the occupant, lost eight horses, several carriages, harnesses, the hay and everything else that was in the building. His loss is $3500—insured $1500.—Bonney's loss in the building and hogs burned is $1000—insured $300. A transient horse, worth $200, was burned. The fire is supposed to be the work of an incendiary.

—— The Washington correspondent of the Concord Statesman relate the following:

William A. Gile, who served as a sergeant in the 16th Regiment, son of Alfred Gile, Esq., of Franklin, went before the Board for Examination of Candidates for Commissions in the Colored Regiments, and was recommended to the position of Major of the First Class. He was first examined, and recommended as 1st Class Captain, but, dissatisfied, applied the next morning for re-examination, desiring Major General Casey, President of the Board, to see that he was examined in the most rigid manner in all the drill and evolutions, from the Company to the Army Corps; and that he asked no favors. He immediately put him upon re-examination; the colonel who commenced the examination remarking, as he began, to young Gile, that he admired his pluck. I was present. He went through the ordeal—Gen. Casey himself testing him in the higher evolutions in the most perfect manner, and was immediately raised to a Major of 1st Class. Thereupon young Gile turned to Gen. Casey, and said that he was at the seige of Port Hudson, and when the white troops of which his regiment was a part were thrown back, thunder struck and bullet struck from an assault upon a battery before that place, four colored regiments in the consternation volunteered, and four successive times charged upon the battery in the most dauntless manner; the fourth time carrying and capturing the works; and that it was then and there he learned first to honor colored soldiers, and if I ever have the honor of leading a regiment of these men I intend you shall hear well of my conduct. "You are of the right stuff for a soldier, young man," said the General, rising, approaching him, and placing one hand on his shoulder, and with the other taking his hand, "I expect to hear well of you, and shall watch your career," and immediately announced the result of their examination. Mr. Gile is 20 years of age; was about a month and a half in the Military School in Philadelphia, and while there attracted the attention of the press of that city by the superior manner in which he from time to time drilled the battalion (of which he was made commander) in Independence Square.

—— The only gold medal ever presented to Gen. Washington by Congress, has been purchased by a few Delaware gentlemen and is to be presented to Gen. Grant. $5000 was paid for it.

—— In the U. S. Senate, on Saturday, an attempt to give negroes the right of suffrage at the ensuing Mayoralty election in Washington, was defeated by a vote of 8 yeas to 23 nays.

—— Among the persons brought away from Fredericksburg on the evacuation of the place, was a rebel citizen arrested for poisoning bread and offering it to our wounded soldiers.

—— The Southern Churchman, speaking of the possible contingencies, says: "If Gen. Lee meets with disaster, and Johnston is overcome, we may reach the conclusion that longer strife on our part, is useless and vain."

—— The rebel Congress has been agitated by introduction of resolutions, by a North Carolina member, for the appointment of peace commissioners to confer with the Union Government. The discussion was stormy and personal, and after much wrangling the resolutions were tabled, 62 to 22.

OUR ARMY MISSIONS.

Editor Chronicle:—I have thought some report of the progress of our Army Missionary might be acceptable to his friends, and as Mr. Patterson may not have time to write letters for publication I will transmit from time to time, items which I may judge of interest to them, if such a plan meet your approbation, prefacing however that I do so without the knowledge or consent of the author—a liberty which I think he will pardon in consideration of the kindly interest of the beloved people of Portsmouth. I will give brief details, leaving out as much as practicable the *minister's* moralizing:

"FRIDAY EVENING, May 20.—I have taken passage on the steamer Georgianna and she is gliding rapidly towards Fortress Monroe. I have been very busy in Washington, visiting hospitals, packing boxes and getting in readiness for further progress. The wounded boys in Washington are all cheerful and hopeful. I have not heard a single complaint from any one of them. They esteem it an honor to have been wounded in the recent battles. I expect to be at Fortress Monroe in the morning. How long I may remain there I cannot tell. I write this evening hoping to get an answer before I go up the river toward the capital city of treason. I may not be permitted to go to the front, but desire to go where I can be of the most service. I have two large boxes of supplies with me and sent a nice box yesterday."

"FORTRESS MONROE, May 22.—(On board transport Monitor).—It is the evening of the holy Sabbath. It has been a strange Sabbath to me. I have attended no church—have heard no formal prayers, and yet I think I never spent a Sabbath in a manner more acceptable to God. All day I have been moving among the couches of wounded men—wounded in every conceivable way. I suppose I have spoken and conversed with, and tried to cheer and comfort more than a thousand maimed heroes. I have heard no complaint—scarcely a groan. I find a large number of New Hampshire boys,—but the proportion from New York, Pennsylvania and Massachusetts is greater. The boys seem to take to me at once. Yesterday I called in a ward in the McClellan Hospital. The first man I saw was a N. H. man. As I spoke to him his next neighbor looked up and said cheerfully "I wish I was a N. H man just now. If you see anybody from my State looking after the boys I wish you would tell them to hurry along." "Consider me from your State," said I, "and tell me what I can do for you." "I don't know as you can *do* anything for me, but I want some paper to write home, the biggest kind." You may be sure he did not have to wait for the paper and envelope. By the way, I find there is nothing these men crave more than facilities for writing to their friends. I have distributed a large amount of paper and envelopes to-day, and shall appropriate some money in that way.

"In the course of my rounds I have conversed with several wounded rebels. They lie side by side with our men and see precisely the same care. They seem quite surprised and softened at this. They had been made to believe that if we took them prisoners, we would treat them with the utmost cruelty. Some of them say they fully agree with me that separation would be the ruin of both sections, and what they most desire is peace under the old flag.

"Last evening I wrote a letter for a South Carolina man to his wife. I had conversed with him for some time, and tried to write what I believed he wanted to say; when I read it to him he cried like a child and said, "God forgive me for lifting up my hand against those so ready to befriend me." He had lost his right arm, and said he was reconciled to its loss, because it would discharge him from the service. How terribly these people have been deceived. Another conscript from North Carolina who had lost his right arm desired me to lend him my hand to write to his wife and six babies. I did so cheerfully. I also wrote a letter for a South Carolina boy, to his father and mother. He had a ball in his hip and another in his foot, but he said we served him right.

"I feel sorry to leave these hospitals, but I go to the front in the morning. They have all necessary care here. I am pleased, and even surprised to see how well the hospitals are arranged, and how kind the nurses are—most of whom are soldiers detailed for that purpose. I am needed more where the arrangements are less perfect. You will probably hear from me next from Point of Rocks.

"I intended to write to the Sunday School to-day, and I want to write to the Chronicle. But whether I find time to do so at all is uncertain: with such scenes as surround me here, it is better to work, than to tell about it. I am very well. Do not be troubled about me. I feel sure God will preserve me and bless my mission."—*Extracted by J. L P.*

☞ The Richmond papers give a list of twenty-five men, all Italians but two, who "threw down their arms in the presence of the enemy, at the fight on the Brooke turnpike, and refused to fight in the cause of liberty and the Southern Confederacy." They were placed under arrest and in Castle Thunder. It is said that on searching them large quantities of gold coin, greenbacks, jewelry and gold watches, were found stowed away in belts around their persons, showing that there existed among them a secret understanding to desert upon the first opportunity.

☞ Lord Shaftesbury recently stated, in a public meeting in London, that, from personal observation, he had ascertained that of adult male criminals of that city, nearly all had fallen into a course of crime between the ages of eight and sixteen years and that, if a young man lived an honest life up to twenty years of age, there were forty-nine chances in favor, and only one against him, as to an honorable life thereafter.

Wanted.

A Young Man having several leisure hours in the day, would like an opportunity to improve the same by writing or keeping a set of books. Address B. G. L., at Chronicle Office. my31—1w

Valuable Farm for Sale.

The farm situated on the Greenland Road, in Portsmouth, 2½ miles from Market Square, recently occupied by the late Capt. Lewis Parlton, is offered for sale. The premises consist of over twenty acres of land in excellent cultivation. There is a two-story Dwelling HOUSE, with Barn, Wood Shed, Corn House and other Outbuildings on the farm, all in a good state of repair. The farm will be sold with the crops now growing thereon, or the same will be reserved, as the purchaser may desire. The premises may be examined at any time. For further particulars apply to WILLIAM TARLTON, No. 72 Market street, or to WILLIAM H. HACKETT.

Portsmouth, May 31, 1864.

SPECIAL NOTICE

To Shoe Dealers.

The subscriber would respectfully call the attention of retail shoe dealers having locations for the sale of ladies' boots, to the superiority of the goods manufactured by him. He has been engaged in the manufacture and sale of ladies' boots and shoes for the last thirty years in Boston; and there are few shoe dealers in New England who have not heard of John Kimball, boot and shoe dealer and inventor of what is called the Kimball Last, formerly of 33 Tremont Row, Boston. His long experience as a manufacturer will enable him to furnish a better fitting boot than can be found elsewhere in the States, and he is now supplying the best retail stores in Boston. In order to make it an object for some well established dealer, having a good share of the best class of trade, he will give an order on for one year or more to sell to one firm only, in any city or town. Our great advantage in this arrangement is, that a larger stock and variety can be kept, which will call a larger number of best class customers to any store having the subscriber's goods. THIRD PART OF THE

Shilling Song Book,

A collection of the most favorite national, patriotic and comic ballads of the day. The series of books of which this is the third part, has become very popular, over 100,000 copies being sold within a short time. Since the publication of the previous parts, a large number of New Songs have appeared and are included in this new collection, among them the following:

Dear Mother, I've come home to die,
The Cumberland's anchor lay,
Thy mother will rock thee to sleep,
Our banner shall wave forever,
I'm lonely since my mother died,
Tony Pastor's combination song,
When this cruel war is over,
Who will care for mother now.

Also,

Beadle's Dime Song Books,
War Songs for Freemen, Knapsack Song Book,
The Nightingale, The Oriole, Golden Wreath,
Golden Chain.

Ayer's Sarsaparilla

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an effectual antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from strumous complaints, and that one which will accomplish their cure must prove, as this has, of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints:—

Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St. Anthony's fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ringworm, &c.

Syphilis or Venereal Disease is expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health.

Female Diseases are caused by scrofula in the blood, and are often soon cured by this EXTRACT OF SARSAPARILLA.

Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, while it was not.—When you have used AYER's—then, and not before, then will you know the virtues of Sarsaparilla.—For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the Agents below named will furnish gratis to all who call for it.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn arising from Disordered Stomach, Pain or Morbid Sensation of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and for a Dinner Pill.

They are sugar coated, so that the most sensitive can take them pleasantly,—and they are the best Aperient in the world for all the purposes of a family physic.

Prepared by J. C. AYER & Co., Lowell, Mass., and sold by Brackett Hutchings, J. H. Thacher, W. R. Preston, David Kimball, and all druggists

CABINET ORGANS,

Combining the requisites for Sacred and Secular, Church and Parlor Music; for Families, Sunday Schools, Day Schools, Churches, &c.

They are elegant as pieces of furniture; occupy little space; are not liable to get out of order or out of tune; are warranted for five years; will improve in tone by age, and are moderate in cost.

They are to private houses, Sunday schools and smaller churches, what the larger pipe organs are to large churches, and in addition to this are adapted to secular as well as sacred music.

The Cabinet Organ is essentially different from, and a marked improvement upon, all instruments of the melodeon or harmonium kind. Its superiority consists in many important characteristics.

The undersigned, Agent for the Manufacturers, will be pleased to show the Cabinet Organs to all wishing to purchase, at his residence, NO. 30 HANOVER STREET.

Local.

☞ The ship "New Hampshire," lying at the Portsmouth Navy Yard, is nearly ready for sea, and will probably leave this week. She has about 900 men aboard, of whom two hundred are negroes; two hundred and fifty paroled rebel prisoners; and four hundred and fifty enlisted sailors, from the receiving ship North Carolina at the Brooklyn Navy Yard. The latter number arrived on Sunday, in the new steamer "Gen. Sengwick," which vessel by the way is a beautiful screw propelling steamer, just built, this being her first trip. The "rebel" portion of the New Hampshire's crew arrived on Saturday last, by rail from Chicago, and were marched from Kittery Depot to the ship under a guard of marines. A prison life of about ten months, exposure, and habits of different kinds, together with varied costumes, have made them a hard looking, pitiable set of men; yet among some of them, rays of intelligence could be discerned through dirt and rags. One of them remarked that "Uncle Sam was mighty distrustful of them, and he had good reason to be, as one half of them only wanted their bread and butter, and it made no difference to them where they got it." He stated that they had fared very well as prisoners, and instanced the fact that the rations served out to them for their dinner on the day of their arrival on board the New Hampshire, were greater than a week's allowance in rebeldom at the time of their capture. He remarked that he had always been a Union man at heart, was impressed into the rebel service, and left a wife and two children in Alabama. Of course this story can be taken for what it is worth, but we have no reason to dispute his veracity. They have all taken the oath of allegiance, and have discarded and thrown overboard their old, dirty garments and donned the navy blue of the United States. We should think this innovation alone might inspire them with a little patriotism, judging from the change it made in their appearance.

☞ A young man about 17 years of age, whose name we have been requested to suppress, was brought before U. S. Commissioner Hackett, on Monday, charged with taking letters addressed to J. L. Foster, Esq., from the post office, and appropriating the contents of money, etc., to himself. The case was continued, and he was bound over in the sum of $500 for his appearance. The letters were taken from a lock box to which he had obtained a false key: and letters have been occasionally missed for two months past. Thirteen letters addressed to Mr. Foster were found in the boy's chest, at home, where he owned they were. The whole amount of money obtained has, probably, not been large, comparatively speaking, but the offence is a serious one.

POLICE COURT.—Jane Tate, for being drunk, was fined $3, and costs $3.86.—Committed.

Henry Norton, for same offence, was fined $3, and costs $3.86, which he paid.

Frederick Furbush pleaded guilty to being drunk, and was sentenced to pay the same fine.

Three Irish boys, caught in the house of Clement March, Esq., on State street, on Saturday, by a watch stationed there by City Marshal Dresser, were brought before the Court, but their case was continued until the last Monday in June. These boys, or others, have been in the habit of visiting this house, in the absence of the owner from the city, frequently during the past two weeks, having obtained an entrance through a window. Their ages range from 8 to 15 years.

Frank W. Miller, Esq., editor Portsmouth Daily Chronicle, has been commissioned as Major and Paymaster of the Governor's Horse Guards. We intend to be round at "Parade," when the great and General Court is put in motion, and, Major, if it is very warm, we don't mind—lemonade, "dashed," if you please.—*Rochester Courrier.*

We expect to be there or thereabouts on that interesting occasion—and don't know of any man with whom we should like to take a glass of lemonade, plain, at the Phenix, better than Br. Place of the place above named. But as to "dashing" it, we'll be dashed if we can vouch for our friend of the Courier even, if he indulges in that practice so far from home and at the capital. However, Place is an old soldier, and ought to know how to conduct on a campaign, as well as how to make a smart newspaper.

☞ As will be seen by the advertisement, "The young people of the North Parish are to hold a Festival at the Court House this evening and to-morrow, for the benefit of the Christian Commission." The patronage of the public is most respectfully and reasonably solicted, and it is hoped that all will consider it a good opportunity to aid the Commission in the noble work they are doing for our suffering heroes.

SHOE DEALERS are referred to the advertisement of John Kimball, Boston, manufacturer of Ladies' Boots and Shoes. His announcement is of interest to every dealer in these goods.

☞ Bark "Brothers," built by Wm. F. Fernald, Esq., at the Raynes Yard, was successfully launched on Saturday afternoon. She was built from N. H. white oak, for Capt. Ozias Long and others of Harwick, Mass., for the general freighting business; is of a superior model and will register about 380 tons. Mr. Fernald has now on the stocks and nearly in frame a schooner, intended for parties in Boston.

☞ The iron-clad steamer Agamenticus, which was taken out of the dock at the Navy Yard on Saturday afternoon, now lies at the wharf near the Shears. She is a substantial looking craft, and a survey of her will well repay a visit to the Yard.

☞ Acting Master William F. Shankland, who has been in command of the naval battery at Seavey's Island, has been promoted to Acting Volunteer Lieutenant.

☞ The side-wheel steamer Alabama left the Portsmouth Navy Yard on Monday afternoon for New York, under command of Acting Volunteer Lieutenant Smith.

SPECULATION.—The best current warning to reckless stock jobbers is the account of the Mississippi Bubble by Thiers, and of the Darien Expedition and South Sea Scheme,—all in one volume, published by Gregory & Co., of New York.

— Two peddlers in Pennsylvania have been pushing their trade after a new fashion. One of them traveled a day in advance of the other and refused to receive notes of a certain bank as worthless, and the people gladly traded with the other, who said he would take the notes, as he was in debt to the bank.

— Several respectable young girls have recently disappeared mysteriously from the western part of New York State, and the arrest of a young woman at Utica has led to the discovery of an organized Society to kidnap such and send them to New York city.

BUSINESS NOTICES.

EFFECTS OF WINE ON DISEASE.—Dr. Gale observes, in his treatise on disease, that the great use of wine in France is supposed to have abated the prevalence of the gravel. In the French colonies, where pure wine is more used than in the English, as well as in Turkey, where Sambaci wine is the principal beverage, not only the gout, but the gravel are scarcely known. Dr. La Pote relates, as an extraordinary instance of the effects of the Sambaci wine on gout, the case of Dr. Daveran, who was attacked with the gout at the age of 25, and had it severely till he was upwards of 50, with chalk-stones in the joints of his hands and feet, but for four years preceding the time when his case had been given to Dr. La Pote to lay before the public, he had by advice used Sambaci wine, and had no return of the gout afterward.—[London Post.

Would you save yourself from suffering after eating, or from acidity of the stomach, or burning sensation, or indigestion? Use Herrick Allen's Gold Medal Saleratus. Never use soda if you can procure this article. It will strengthen weak stomachs and relieve dyspepsia; is a saving in the quantity of flour, &c., &c. Try it. Grocers and Druggists most all sell it. The Wholesale Agents are Wholesale Grocers.

ATTENTION COMPANY! — Volunteers, who expect to retain their health unimpaired during the campaign, must see to it themselves; do not trust to the Army Surgeons; supply yourselves with Holloway's Pills and Ointment. Every English soldier's knapsack contains them.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 212

LOST—On Saturday last, between Brewster street and the Markets, a Calfskin WALLET, containing $30. The finder will be suitably rewarded on leaving it at No. 4 Brewster street.

JENNY AND JAMIE.

Jenny in fine array,
Jamie so faraway,
Jenny in silken attire,
Jamie in muck and mire;
Jenny full and fish plenty to eat,
Jamie without a morsel of meat.

Jenny must needs have diamonds to wear,
Laces and feathers, and gems for her hair;
Jamie's clothes are tattered and torn,
His luckless boots so cut up and torn,
That he thinks with dismay
On the fast-coming day
When "upper" and "sole" will both give away.

Oh, Jenny! just think
That we're now on the brink
Of a struggle most mighty and fearful;
And that soon Jamie's head
May lie mouldering dead
On a field so painfully dreadful.

Then give up your diamonds, your silks and your lace,
Throw by all your follies, and come all your race
After fashion and dress;
And strive to think less
Of what you will buy;
And more, how you'll try
To bear your own share
In this sorrow and care
That darkens our nation, once blest;
And fervently pray
That bright peace soon may
Shine on Jamie and all of the rest.

On Tuesday night, as four Veteran Reserve soldiers were carrying a wounded soldier on a stretcher from the boat to the hospital in Washington—his wounds being of such a nature that it was deemed necessary to carry him in that manner—an individual of secesh proclivities gave pretty free vent to his sentiments, addressing his language to the soldiers. The wounded man, who it was thought was dying, aroused by the taunt, to the surprise of the supporters, drew the blanket (with which he was covered) from his face and said: "Let me down boys and give that copperhead a thrashing!" which remark the man heard, and he immediately skedaddled, the Reserves at the same time showing a disposition to follow up the suggestion.

SPEER'S
SAMBUCI WINE,
PURE AND FOUR YEARS OLD.
OF CHOICE OPORTO FRUIT,
For Physician's Use, Females, Weakly Persons and Invalids.

AS A DIURETIC, it imparts a healthy action to the Glands of the Kidneys and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the vine of the Portugal Sambucus, cultivated in Rose Jacoby, recommended by physicians and chemists as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich aromatic flavor and delicacy, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

Make One Trial of this Wine.

Gray's Patent Molded Collars

Have now been before the public for nearly a year. They are universally pronounced the neatest and best fitting collars extant.

The upper edge presents a perfect curve, free from the angles noticed in all other collars.

The cravat causes no puckers on the inside of the turn-down collar—they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.

The Garotte Collar has a smooth and evenly finished edge on novel stitch.

The turn-down collars are not simply flat pieces of paper cut in the form of a collar, but are MOLDED AND SHAPED TO FIT THE NECK.

They are made in "Novelty" (or turn-down) style, in every half size, from 12 to 17 inches, and in "Eureka" (Garotte), from 12 to 17 inches; and packed in "solid sized" in neat blue cartons, containing 100 each; also in smaller ones of 10 each, the latter a very handy package for Travellers, Army and Navy officers.

☞ EVERY COLLAR is stamped
"Gray's Patent Molded Collar."

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y., formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York Metropolitan Police, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are now quickly cured in a few days or at most, we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Hence, for long standing, obstinate, painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those **who cannot be cured by other physicians—are invited to use Constitution Life Syrup.**

During the past five years we have contended with obstacles and overcome opposition as bence lean as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt (their professed belief) that chronic diseases can only be cured by the "slow recuperative process of Nature." This is our reply:

In health, the vital fluid, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP.

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weak or Sick's, Nervous Headache, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Strumo, Glandular Swellings, Ulceration, King's Evil, Spinal Complaint, Joint Knee.

This taint (hereditary or acquired), filling this with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis, Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intolerable pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St. Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read this notice. Particularly to young, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Foul Complexions, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup
Eradicates root and branch, all Eruptive Diseases of the Skin, Blotches, Blains, &c.

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depend on a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. It however should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without a thorough cure. Tumors of the Ovaries, Tumors of the Breast; and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves, producing a painful or filling sound), Dropsy of the Heart Case and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indigestion or Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Disease, Gloomy Apprehensions of Evil, Dry Hot Skin and Extremities, Want of Sleep, Restlessness, Pale Haggard Countenance and Languidness of the Muscular System, Cured by the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Throat, Nose, Leg, Ulcerated Sores and Scalp, no remedy has ever proved its equal.

MOTH PATCHES upon the female face, depending upon a derangement of the Liver, are very prominent to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is disfigurement to the face.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an uneasy sensation of something left undone, which is accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

In a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases peculiar to their sex, if they do not know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak backs and give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if constitutions of both are neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within reach of all.

TO MOTHERS AND MARRIED LADIES—It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and cleanses the breasts and enriches the secretions, which have used it in the most indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup
Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Gravel, Difficulty in Passing Water, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is specially recommended in those cases of Fluor Albus or Whites in females, where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an entire substitute for the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, healthy and cooling; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write to us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

THE GREAT
INDIAN MEDICINE,
MADE FROM THE PURE
ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

As unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Nervous Irritability, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Emptiness on the Chest, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

To those who are afflicted with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* The Cherokee Cure will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Prices, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.
Prepared from Pure Vegetable Extracts,
Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.
A few doses cure Hysterics in females.
One bottle corrects Dyspepsia of the Stomach.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and full vigor of manhood.
A few doses restore the appetite.
Three bottles cure the worst case of Impotency.
A few doses cure the low spirited.
One bottle restores the mental power.
A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and dispirited victim of self-pollution.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from the effects of a long illness, will find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

CHEROKEE PILLS!
SUGAR-COATED.
FEMALE REGULATOR.
Health Preserver!!
CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Health in Lieu of the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, and as a female pill, their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months*, during which the unfailing nature of their action would infallibly prevent pregnancy.

All female seeking information or advice will be promptly, freely and discreetly answered.

Full directions accompany each box.

☞ Price $1 per box, or six boxes for $5.

THE MAGEE
COOKING STOVE,

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which keeps it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from occupying into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and will burn sometimes day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and portability of cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, which is healthy and agreeable—and no one of the air which comes in contact with the fire pot is used for respiration, the tendency to produce headaches so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been principally the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the flue or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of outer air through little

HYPOCHONDRIACISM.—The *Memorial de la Loire* relates the following—"Two or three days ago a respectably dressed man of about 50 called on a well-known medical man at St. Etienne, and said, 'I am a builder by trade, and in making my contracts am sometimes obliged to drink rather too freely. Finding myself lately indisposed in consequence of those excesses, I was advised to apply to M. X——, of Caux, who had, I was told, a secret of sovereign efficacy in such cases. I followed the recommendation and took the remedy which consisted of a white powder done up in small packets, but instead of being cured I find I am poisoned, and have been told this morning that the remedy is arsenic. Yes, sir,' continued the speaker with great violence, 'I am poisoned, and already to-day I have had one violent attack!' While speaking, his breathing became heavy, and throwing himself in a chair he exclaimed, 'I am going to have another, I am dying—help! help!' The doctor went towards him and found he was dead. The body was conveyed to the Hotel Dieu, where a post-mortem examination proved that the man died from paralysis of the pectoral muscles, brought on by violent emotion produced by a diseased imagination. No trace of poison existed. The white powder was analysed and turned out to be not arsenic, but simply sugar of milk, a completely harmless substance."

THE IMMENSE POPULARITY OF THE
California Wines
Introduced by us, is a flattering tribute to their purity and delicacy, and a cheering indication of a desire among the people to encourage
American Industry.

The Surgeon General of the United States, after an analysis of our Wines, reports them to be PURE.

Dr. Charles T. Jackson, State Assayer, who is the most undoubted authority, after an analysis of our Port Wine, says:—"The fluid ounce leaves fifty-four grains of solid matter, consisting WHOLLY of the Best principles of grapes. I find no adulterating ingredients, and consider it suitable for medicinal and general use."

The Boston Traveller says:—"The California White or Hock Wine rivals in flavor the best of Hock Wines, and costs much less."

The Saturday Evening Gazette says:—"The White Wine is equal to the Stein or light wines which we import, with a fine and rich flavor, and we believe its purity unquestionable."

Hon. John G. Downey, late Governor of California, says:—"I most cheerfully recommend your Wines to all who desire a pure juice of the grape."

The New York Commercial Advertiser says:—"The wines have a fine flavor, and need only to be tasted to be approved."

The Boston Transcript says:—"The White Wine is equal to the best Hock."

The New York Times says:—"The 'Angelica' has a rich and delicious flavor, unsurpassed by any Wines in the market."

American and Foreign Patents.
E. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and Papers for Reissues for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, not surpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relating to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. E. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on twice rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

French Roll Pans.

A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much ado is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!
This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the more valuable the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as a mat, and yet is as recuperative as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.

They are made of good materials, warranted strong and durable, and not liable to get out of order. Subjoined are testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.

The rich will have it because IT IS THE BEST. All other classes will have it on account of it being CHEAPER than any other bed. We claim that a good bed may be had by means of this improvement for six dollars than can be had in under-bedding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!

These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—
Mr. J. C. BANGLEY, Conductor C. & P. R. R.
Mr. WM. CONN, Mail Agent C. & P. Railroad.
Mr. E. A. STEVENS, House Furnishing Dealer.
Mr. O. A. FROST, City Hotel.
Mr. W. P. HADLEY, Rockingham House.
Mr. WM. S. HADLEY, Piscataqua House.

These BED-BOTTOMS may be had of **E. M. BROWN & CO.**, Agents for Portsmouth and Newington, at their store, **No. 35 Market Street**, where samples may be seen; and of W. F. BENNETT, Agent for Greenland.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his Old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the least remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Pains in the Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will not admit an minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for every body.—Startling disclosures Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full colored plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. Teller still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes certifies their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of those who send for them. $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 9 to 5 P.M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

THE REFORM IN DRESS.—We learn with gratification, that the contemplated reform in female dress, which meditates the rejection of costly foreign finery, in order that we may keep the excess of gold; is a spontaneous and independent movement springing entirely from among the ladies. In that point of view, we heartily approve of it; and adorned by that noble purpose, we have no doubt that all loyal gentlemen will esteem the ladies ten times more beautiful, in their new domestic garments, than they ever looked before in their imported gew-gaws. This reform and its sacrifices, however, should not be confined to the ladies. The gentlemen should also organize at once, and pass resolutions to repudiate foreign broadcloth, indeed, all foreign fabric, and likewise to rigidly abstain from costly wines, spirits, and cigars. Simplicity and temperance should be the order of the day, and thus, while helping to relieve the country of the frightful foreign drain, we will gain the additional advantage of making ourselves better members of society. Who will start this gentleman's reform?—*Writer' Spirit.*

Switzerland, already so rich in beautiful scenery, has had a new feature added to its wonders of nature. Near St. Maurice, in the Canton de Vaud, a grand crystal cavern has been discovered, at which one arrives by a boat on a subterranean lake. The cavern lies 400 metres, or 1300 feet, below the surface of the earth, and is said to be beautiful beyond description.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y.
formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and are cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from pallid and obstinate diseases, and who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstinate and peculiar opposition no less than so ever encountered by any reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases cannot be cured by the "vis medicatrix vitæ process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium, but when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the equilibrium, and the balance of the scale.

CONSTITUTION LIFE SYRUP.

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.

It is no universally admitted that Constitution Life syrup is the only effective remedy of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Strumo, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

The taint (hereditary or acquired), filling the with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis, Neuralgia, Gout, Lumbago, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly subdued, and permanent cures are effected. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness

Nervous Debility, Confusion of Thoughts, Dyspepsia, Loss of Power, Shortness of Breath, Nervous Dread.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering woman will this medicine prove a blessed boon—effecting their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Retting of Bones, Foul Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of Mercury, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and restores the teeth as firm as ever.

Constitution Life Syrup

Eradicates root and branch, all Scrofulous Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing the Suppuration and Subsequent troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These can be cured recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Diseased Lungs, Dropsy, Nervous or sleeplessness, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the Heart, and other Diseases of the most important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

For all forms of Ulcerative Diseases, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, we have no remedy to compare to equal.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Chronic Diarrhœa, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of that organ, accompanied with burning or other painful symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

It is a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases by which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pale countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and suffering are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MARRIED AND UNMARRIED LADIES It is the safest and best effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and child, prevents pain and disease, and increases and enriches the food—those who have used it think it indispensable. It is slight in its effect before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Strictures, Gravel, Gleet, Gonorrhœa, and is specially recommended in those cases of Fluor Albus or Whites, in females where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with the medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and diuretic*, removing all scalding, heat, pleurisy and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap remedies advertised.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will send them, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-abuse, such as Loss of Sexual Power, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Nervousness, Emptiness in the Back, Pale Countenance, Insanity, Consumption, and all the dreadful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been manifest to gain victory over the most stubborn cases.

☞ To those who have to trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and enable you to enjoy life, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

The bottle will cure General Debility.

A few doses cure Hysterics in females.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large the warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are by far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely done without soiling. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of the valuable Furnace, would ask those about remodelling or erecting buildings to examine the merits of the invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headaches so much complained of in other Furnaces, is entirely obviated.

The objections aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is, that the combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

C. A. RICHARDS,
99 WASHINGTON STREET,
Boston,

Would most respectfully invite the attention and examination of all Grocers, Druggists, Apothecaries and Private Individuals, desiring to sell or USE STRICTLY PURE

Liquors, Wines, Cordials or Bitters,

to the list of choice goods enumerated below, which are constantly on hand in large quantities at his Large and Spacious

Wine Store and Bottling Establishment,
99 Washington street, Boston.

First on the list, as a reliable pure stimulant, stands the celebrated and widely known—

Golden Sheaf Bourbon Whiskey,

made from Wheat, Rye and Corn, warranted for five years old. Put up in unique style, each bottle in a paper box, in cases of one dozen each, the large and increasing sales of which convince the proprietor that no extended advertisement is needed to extol its real merits. It will recommend itself on trial

Golden Sheaf Cordial.

A delightful and healthful beverage, aromatic, with a rich ginger cordial, made from the pure Golden Sheaf Bourbon.

Golden Sheaf Bitters.

The best Tonic Bitters ever offered to the public. Mingled with the rich flavor of the Bourbon are a number of other ingredients for restoring the appetite and imparting life and vigor to the whole system.

Golden Sheaf Punch.

Made from fresh, ripe lemons, and other articles, combined in a whole into a fine rich

Bourbon Whiskey Punch.

All the above put up full strength of the whisky, and in cases of one dozen each. These articles improve by age, and no exposure of climate can affect them.

JOHN AND ROBERT DUNSTER'S

THE SABINE PASS AFFAIR.—A New Orleans correspondent of the New York Herald, writing on the 19th, furnishes particulars of the loss of gunboats Granite City and Wave, belonging to the blockading fleet off Sabine Pass:

The vessels captured went to Sabine Pass for the purpose of capturing five schooners, which had on board about 1500 bales of cotton; and while lying in the river, waiting for coal, the rebels threw a pontoon bridge across Mud Bayou, the bridge having been previously destroyed by our force. Over this the enemy brought six pieces of artillery and 500 men, under cover of darkness, on the night of the 9th inst. The first intimation the gunboats had of the close proximity of the rebels was a salvo from their guns which were within a few yards of them. The Granite City was completely riddled, and so damaged in her machinery as to be unable to move; and the Wave was so crippled that she could not be handled under the terrific fire. The Pocahontas and Aroostook were dispatched to the scene, but drawing too much water, were unable to do anything except to shell the country in range of their guns; Sabine Pass seems to be an unlucky place to operate. Lieut. Lovering of the Wave is a severe loss to us. He was a fine officer. He was the executive officer of the Weehawken. He fired the guns that caused the rebel ram Atlanta to surrender, fired the first shot at Fort Sumter, and also the one which exploded the magazine in Fort Moultrie.

☞ The Captain General of Cuba announces the arrival of Arguelles at Havana in the custody of Spanish officials. The Captain General, in a letter, returns his thanks to Mr. Seward, for "the service he has rendered humanity by furnishing a medium through which a great number of men will obtain their emancipation, whom the escape of Arguelles would have reduced to slavery." The Captain General also says that the simple presence of Arguelles, on his return to the island, has already and in a few minutes given liberty to 80,000 human beings.

— "Miss Lizzie Magee on, of St. Louis, has been awarded by the Sanitary Fair being held in that city, a handsome sewing machine as a reward for her labor. She has made during the past two years 500 cavalry overcoats, 8000 pair of pants, 500 jackets and 600 blouses." So say the papers, but it is about the toughest story we have seen since Howard issued his proclamation.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Gleet, and distressing Diseases of or procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending the class of diseases made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by such habits of youth, such Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases, and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases, of every name and nature, having by his unrivalled attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1864.—eodly.

—OF—
KITCHEN FURNISHING GOODS.

HALEY, MORSE & BOYDEN'S;
SELF-ADJUSTING
CLOTHES WRINGER.
THE BEST IN THE WORLD.

Over 40,000 have been sold by the manufacturer in a little more than two years—nearly 400 of them in Portsmouth and vicinity!

Buy one and try it—if not perfectly satisfactory the money will be refunded.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We told him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

French Roll Pans.

A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much stir is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

CHILDREN'S CARRIAGES.

The subscriber has purchased for cash, of the largest manufacturers in the country,

200 CHILDREN'S CHAISES,
WAGONS, CABS, GIGS,
TOY GIGS AND WAGONS,

of about 20 different styles—prices from $2 to $21 each.

Some of the above are very elegant silver-plated and silk-lined Chaises. The assortment is the largest and best ever offered in this city. A part of the above are already in store and ready for sale—the balance is expected daily.

Call and examine the stock, whether intending to purchase or not.

E. A. STEVENS,

Special Notice.

The subscriber respectfully gives notice to his patrons that all accounts, however small, will be presented for payment on the first of July next; and interest will be charged on all demands remaining unpaid after that time.

Terms Cash, hereafter, unless special agreement be made to the contrary.

This course is rendered necessary by the enormous rise in prices and the general abandonment of the credit system by manufacturers of goods in his line.

A VERY LARGE STOCK OF
HOUSE FURNISHING GOODS,

Bought wholly for cash, is offered to the public at a slight advance above present wholesale prices.

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!
This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the more valued the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so recuperative as to bring itself into its place with great facility. It is adapted to the tender and aged, and all who linger in suffering and weakness.
They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from leading persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.
The rich will have it because IT IS THE BEST. All other classes will have it on account of its being CHEAPER than any other Bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in under-bedding for thirty-six, thus saving A SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!
These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, JUNE 2, 1864.

THE REBELLION.

A dispatch from Gen. Sherman, May 30, reports no change in the position of the armies. Some slight skirmishing had occurred.

The rebels attacked Gen. Sherman early on the morning of May 31, but were repulsed, and our left reached the railroad near Marietta,—to accomplish which object has been the purpose of Gen. Sherman's movements for several days. Sec. Stanton states that additional forces and ample supplies are reaching him.

Nineteen river steamers have arrived at Vicksburg, with Gen. A. J. Smith's command. Their course is not stated, but it may reasonably be supposed that they are moving toward Sherman's army.

An attack by 2000 rebels on Brownsville is apprehended.

THE VIRGINIA CAMPAIGN.

Gen. Butler reports that the enemy attacked his lines on the 30th, and were repulsed; and on the 31st they made demonstrations on his works on Spring Hill, on the easterly side of the Appomattox, and were again repulsed. Gens. Gilmore, Ames and Wilde remain with Gen. Butler at Bermuda Hundred, Gens. Smith and Brooks having gone with the reinforcements to Gen. Grant.

The rebels, 4000 strong, are reported to be in the Shenandoah Valley, a reconnoissance by our troops in force from Edinburg on the 30th, revealing the fact.

Official dispatches from Gen. Grant's army give important and gratifying intelligence. On Monday evening the enemy came over on our left under Gen. Warren, and attacked, attempting to turn it.—The engagement was short, sharp and decisive, the rebels (Ewell's corps) being repulsed, and Gen. Warren holding his ground, distant but seven miles from Richmond. He took a considerable number of prisoners, and there were many rebel dead on the field. When the rebels made this attack on the left, Gen. Meade ordered an attack by the balance of our lines, in order to relieve Gen. Warren. Gen. Hancock was the only one who received the order in time to make the attack before dark, and he drove the enemy from his strongly intrenched skirmish line, and held it. Our army was in the vicinity of Tolopotomoy Creek on Monday evening. The country is thickly wooded with pines.

☞ The Little Rock Union of the 20th says: We see going the rounds of Northern papers exaggerated statements concerning our losses in the campaign. That they have been severe we admit; but we think it due to the Army of Arkansas and to the public that they should not be exaggerated. We speak authoritively when we say that the wagons captured by the enemy were 368. Gen. Steele lost, also, six 6-pound field pieces and two mountain howitzers He recaptured three guns, leaving Kirby Smith & Co. three 6-pounders and two howitzers the advantage. He was compelled to destroy a good many wagons on account of teams giving out—how many we have not learned.

THE SENATORSHIP.—A correspondent of the Boston Transcript, after alluding to the opening of the N. H. Legislature, says:

Mr. Hale is said to have many rivals for the place of Senator. All that have been mentioned are people of his own party, and are respectable men in their places. It is not pretended that aught can be said of them personally to their disadvantage.—But neither of them has ever been a John P. Hale. The people of New England, the friends of Freedom, one and all, have an interest in Mr. Hale as the only man who had the courage to stand up, for a long time, in the U. S. Senate, and speak in favor of the right of petition with regard to slave matters. Until Mr. Wm. H. Seward of New York came to aid him, he stood alone. The Southern Senators informed him, very coolly and very insolently, that he "did not belong to a healthy political organization," and in their pride of power they shut him out from all membership of the Senate committees. We all remember this, as well as we remember Mr. Hale's whole fearless course in the Senate in the midst of an inexorable and tyrannical majority, and without disparagement to any of his competitors, it is not plain to see how he can be set aside at this time with justice and honor.

☞ The Springfield Republican gives the following description of a new and well executed $20 legal tender note which has been put in circulation in that city: The green is of a lighter shade than on the genuine, and the engraving coarser. In the centre of the bill the foot of the female figure is not seen, while in the genuine it is quite visible. In the printing just below the figure in the word "the" there is no cross line in the letter H, while it is plain in the genuine.

— It is said that the emigration to the West is unprecedented. A newspaper published in Troy, Doniphan county, Kansas, describes the roads as "blockaded with teams."

NEW HAMPSHIRE ITEMS.

—— The Wolfboro' News states that many sheep are dying in that vicinity of "grub in the head."

—— Sergt. Thomas H. Semmington, color bearer of the 7th N. H. Volunteers, is recommended for promotion for great personal bravery on the disastrous field of Olustee, Fla.

—— The Concord City Council has just passed the vote to lay out a street, fifty-two feet in width, from Main to State streets, on the southerly line of the State House Yard.

—— The Concord Monitor states that delegates of the Christian Commission and Agents for other States speak in the highest terms of the zeal and devotion of our citizens who are charged with the care of New Hampshire's sick and wounded soldiers at Fredericksburg and Belle Plain.

—— The citizens of Manchester, according to the Mirror, were in a state of great excitement on Saturday, on account of a rumor that their popular Mayor—Hon. Frederick Smyth—had been captured by the rebels. A dispatch from him was received by Mrs. Smyth, however, showing that he was actively at work among the New Hampshire boys at the front, at Milford, and safe from rebel bonds.

—— By an order from the War Department to Gov. Gilmore, the rendezvous for drafted men in Concord is to be discontinued. Gallop's Island, Boston harbor, will hereafter be the rendezvous for all drafted men and recruits for the States of New Hampshire and Massachusetts. Lieut. Col. Wardwell with the battalion of the 18th Veteran Reserve Corps, will leave Concord for Boston in a day or two.

—— Capt. Darling, Chief of the Capitol Police, at Washington, undertook some days since to strike one of the policemen, N. K. Leavitt, formerly of Exeter, who resented the blow with such force that it was said Darling would die. Leavitt was held to bail, but upon judicial examination of the case he was exonerated, and Darling was not only held to bail but dismissed. His successor is Capt. Newman, formerly of New Hampshire.

—— At the Union Senators' caucus in Concord on Tuesday evening, the following nominations were made: For President, Hon. Chas. H. Bell of Exeter; Clerk, Chas. H. Bartlett of Manchester; Assistant Clerk, Horace S. Cummings of Exeter; Doorkeeper, Albert P. Davis, of Warner. The Senate stands nine to three. At the House caucus nominations were made as follows: For Speaker, Hon. Wm. E. Chandler of Concord; Clerk, Samuel D. Lord of Manchester; Assistant Clerk, Chas. B. Shackford, of North Conway; Door keepers, Jared M. Davis (a one-armed soldier of Sunapee), and Wm. S. Ring of Northwood; Sergeant-at-Arms, Chas. H. Roberts of Farmington. The House stands 210 to 123.

☞ Admiral Porter gives a spirited and enthusiastic report of the means by which his large and powerful fleet of iron-clads and gunboats was safely brought from out of the tribulations of Red River. The report is striking evidence of what one energetic, practical man can do. Lieut. Col. Bailey, the engineer to whom Admiral Porter feelingly ascribes the chief praise of the successful extrication of the fleet, is a Wisconsin man, attached to the Fourth Wisconsin Cavalry (late infantry), and before the war was a Wisconsin lumberman. In this capacity he gained that practical knowledge of navigating shallow, crooked and difficult streams which has proved of such great importance in this case. He went into the war as captain of a company of lumbermen

☞ A special dispatch from St. Paul, May 26, to the Chicago Tribune says;

"General Sibley has received dispatches from his half-breed scouts above Fort Abercrombie, which say that the Sioux are assembling at Turtle Mountains, beyond the American boundary. The British have sent messengers to them saying that if they are but one foot within their lines and are fired upon by our soldiers, the act will be resented the same as if their own citizens were assailed. They advise the Indians to encamp together and when our forces reach Devil's Lake to send messages of peace, and if accepted, go over and shake hands, and if we offer them land on which they can subsist they should accept the proposition. This is a very nice plan for the Indians. I give you this as it reaches General Sibley, but do not place full confidence in it."

☞ A dispatch from Mr. Dayton says that M. Drouyn De L' Huys had not only informed him that the two iron-clads, now being constructed by Armand at Bordeaux under contract with the Confederates, had been privately sold to a neutral power, but he also assured Mr. Dayton distinctly that the four clipper ships, in course of construction at Bordeaux and Nantes under a like contract with the Confederates, should not be delivered to them. The language of M. Drouyn De L' Huys was explicit.

— The total value of imports at Boston for the week ending May 27, was $911,076, against $566,233 for the corresponding week in 1863. Exports $384,080, against $450,306.52 last year.

CHIPS—HEWN AND GATHERED.

— The peach crop in New Jersey promises to be very large.

— The Richmond bakers have advanced their prices from $1 to $1.25 per loaf.

— The quota of New York city is officially declared to be full.

— Fredericksburg has been totally evacuated by our troops, and is now in possession of rebel scouting parties of guerrillas.

— $1,170,000 is the amount appropriated by the bill to pay damages done by the Indians in Minnesota.

— John D. Williams, of Portland, has been appointed Assistant Engineer in the Navy.

— 20,000 tons of coal were sold in New York on Tuesday, at from $8.50 to $8.60 per ton.

— Perham's People's Pacific Railroad bill passed the House of Representatives on Tuesday by a majority of 34.

— A motion in the Senate on Tuesday to abolish the fishing bounties was defeated by a vote of 11 to 24.

— There were in port at Havana, May 25th, nine Confederate and British blockade traders, repairing, discharging and loading.

— The House Judiciary Committee have agreed to recommend a bill prohibiting any States which have seceded from voting in the next Presidential election.

— A Portland paper states that, judging from present appearances, the crop of hay this year, will be the largest ever cut in Maine.

— The tariff bill will come up on Thursday in the House, when an effort will be made to postpone it till December, and to extend the present extra 50 per cent.

— Up to the 22d of March, 1864, the number of wounded soldiers drawing pensions since the beginning of this war was 36,720.

— A. A. Hanscom, Esq., late editor of the Saco Democrat, has been presented with a silver ice pitcher by the Democratic ladies of Biddeford.

— In a New York hospital there is a male patient who imagines that he is made up of butter, and never approaches a fire for fear that he will melt.

— The other day there was a break in the Erie canal. It was repaired in twelve hours, yet the jam of boats incident thereto was thirty-five miles long!

— The Committee of Conference on the National Bank bill have virtually adopted the Senate amendment, by which National Bank stock is subject to State and local taxation.

— The Secretary of the Navy recommends increased compensation to Ericsson, who contracted two years ago to build the Puritan and Dictator at prices which will not defray half their cost.

— An expert says if your gasmetre leans forward it measures favorably for the consumer—but if it leans backwards it measures more than you get—if plumb, it measures correctly, provided it is a water metre.

— An old man, named Sargent, son of the first Governor of Mississippi, died in Natchez on the 13th ult., from a severe wound received a few nights before, while trying to defend himself against robbers who demanded his money.

— "A woman," the successor of the "reliable gentleman," reports that a meeting was held in Richmond on the 30th, to see whether the city should be surrendered or burnt, and that the Mayor advocated surrender and was put into Castle Thunder.

— The Captain-General of Cuba, in his letter of thanks to Mr. Seward, stated that the return of Arguelles to Cuba had given liberty to *eighty-six* human beings. The number was multiplied to 86,000 by the telegraph.

— The Cleveland Convention nominated Fremont for President, and Hon. John Cochrane for Vice President. Grant and Butler had few friends there. It was decided to call the party the Radical Democratic. The Convention's *forte* seemed to be, denouncement of President Lincoln.

— The ship-owners of Liverpool have memorialized the English Government that measures be taken to prevent the fitting out of vessels of war for a belligerent Power in neutral ports. There is a chance that England may be unwilling to war, and so the ship owners very unselfishly ask, What then?

— A young man, while riding alone in Portland on Tuesday, was seized with a fit, and dropped to the bottom of the wagon. A foot passenger stopped the running horse, and the sufferer was taken to a store, where he had four more fits; and a boy, 7 or 8 years of age, after looking on awhile, also had quite a protracted fit, all from the force of sympathy.

— In Portland on Tuesday an ox-team struck a four wheeled chaise, left standing in the street, turning it upside down. The horse deliberately turned his head to see what was the matter, then stepping carefully over one of the shafts, the other resting on his back, waited patiently until his harness was unfastened and he was relieved from the carriage. The Advertiser calls that a considerate horse.

NOW READY.

THE LIFE AND TIMES —OF— Benjamin Franklin,

BY JAMES PARTON,

Author of "Life and Times of Aaron Burr," "Life of Andrew Jackson," "Gen. Butler in New Orleans," etc.

Two vols., Crown 8vo, 497 and 507 pages, with Steel Portrait. Cloth, extra, price $4.00.

In previous Biographies of Franklin, the course pursued has been to give the fragments of Autobiography which Franklin prepared for the benefit of youth, (omitting, therefore, much of interest to maturer readers,) and to append to them a brief account of Franklin's public career. Admirable as is the portion of autobiography which Franklin left, it cannot be regarded as a satisfactory biography, not merely because it was designed for the young, but also because no man can be an impartial judge of his own actions—his pride or modesty will prevent.

Mr. Parton has used Franklin's autobiography as material only, employing in his narrative of Franklin's early life the mass of interesting material afforded by the newspapers, books and correspondence of the period. His later life, also, is fully related in these volumes for the first time. Besides the stores of material collected in our historical libraries, Mr. Parton has obtained much that is absolutely new, and much more that will be new to all that have not made the lives of Franklin an object of special research. Franklin, perhaps, offers the best subject for biography to be found in the annals of America. His career as a citizen, tradesman, philosopher, politician, statesman, diplomatist and author, presents a variety of incident, anecdote and history wholly without parallel.

Mr. Parton divides his work into seven parts: 1 Franklin's Apprenticeship to Life, which ends with his starting in business and his happy recovery from his early shipwreck. 2. His Successful Business Career, as editor, printer, stationer and publisher, including his electrical discoveries. 3. His Services to Pennsylvania, in her twenty years' contest with the sons of Wm. Penn. 4. His ten years' Residence in London as the representative and champion of the Colonies in their efforts to obtain peaceful redress. 5. His Services in the Continental Congress. 6. His nine years' residence in France as the great diplomatist of the Revolution. 7. His Last Years and Labors in Philadelphia.

The publishers, who have been witnesses of the remarkable industry of the author of these volumes, and of the enthusiasm with which he has pursued his labors, confidently believe that this work will prove to be one of the most interesting and valuable biographies ever published.

Also, Ready,

A new edition of PARTON'S LIFE AND TIMES OF AARON BURR, much enlarged. 2 vols., crown 8vo, Steel Portraits, cloth, extra. Price $4.

NEW SKIRT FOR 1864.

A NEW AND GREAT INVENTION IN HOOP SKIRTS.

The Duplex Elliptic (or Double) Steel Spring.

J. I. & J. O. WEST, No. 97 Chambers St., N. Y., Are the owners of the Patent and Exclusive Manufacturers of this.

J. W. BRADLEY'S PATENTED DUPLEX ELLIPTIC STEEL SPRING SKIRT.

This invention consists of Duplex (or two) Elliptic Steel Springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most elastic, flexible and durable spring ever used, enabling the wearer, in consequence of its great elasticity, to sit with entire ease, and fold the skirt when in use as easily and with the same convenience as a silk or muslin dress. It entirely obviates and silences the only real objections to hoop skirts, viz: the annoyance to the wearer as well as the public, especially in crowded assemblies, carriages, railroad cars, church pews, or in any crowded place, from the difficulty in contracting them to occupy a small space. This entirely removes the difficulty, while giving the skirt the natural full and symmetrical flare, and the lightest and most stylish and graceful appearance for the street, opera, promenade or house dress.

A lady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex Elliptic Spring Skirt will never afterward willingly dispense with the use of them. They are the best and most quality in every part, and by far the lightest, most durable, comfortable and economical skirt made. Merchants will be supplied with a ove, and ladies in most first class retail stores in this city and throughout the different States.

MASON & HAMLIN'S CABINET ORGANS,

Combining the requisites for Sacred and Secular, Church and Parlor Music; for Families, Sunday Schools, Day Schools, Churches, &c.

They are elegant as pieces of furniture; occupy little space; are not liable to get out of order or out of tune; are warranted for five years; will improve in tone by age, and are moderate in cost.

They are to private houses, Sunday schools and smaller churches, what the larger pipe organs are to large churches, and in addition to this are adapted to secular as well as sacred music.

The Cabinet Organ is essentially different from, and a marked improvement upon, all instruments of the melodeon or harmonium kind. Its superiority consists in many important characteristics.

The undersigned, Agent for the Manufacturers, will be pleased to show the Cabinet Organs to all wishing to purchase, at his residence, NO. 30 HANOVER STREET.

SPECIAL NOTICE

To Shoe Dealers.

The subscriber would respectfully call the attention of retail shoe dealers having locations for the sale of ladies' boots, to the superiority of the goods manufactured by him. He has been engaged in the manufacture and sale of ladies' boots and shoes for the last thirty years in Boston; and there are few shoe dealers in New England who have not heard of John Kimball, boot and shoe dealer, and inventor of what is called the Kimball Last, formerly of 43 Tremont Row, Boston. His long experience as a manufacturer will enable him to furnish a better fitting boot than can be found elsewhere in the States, and he is now supplying the best retail stores in Boston. In order to make it an object for some well established dealer, who has a good share of the best class of trade, he will give an obligation for one year or more to sell to one firm only, in any city or town. One great advantage in this arrangement is that a larger stock and variety can be kept, which will call a larger number of best class customers to any store having the subscriber's goods.
